

Ethnicity and the Criminal Justice System Dashboard

A [web-based data visualisation tool](#) has been created alongside the report, allowing users to view and customise charts based on the published statistics. The dashboard should be used as a way to discover the data available from the Criminal Justice System and be used as a launching point for further investigation.

The production team are looking to focus more on the dashboard and reduce commentary within the ECJS bulletin in the future in order to maximise the experience of our users and flexibility of analysis.

Ethnicity and the Criminal Justice System 2024

This report compiles statistics from data sources across the Criminal Justice System (CJS) in England and Wales, to provide a combined perspective on the typical experiences of different ethnic groups.
