Comment Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment:I'd like to object to the planning application for a three storey dwelling to replace a one storey garage situated at the back of my property. The plans show two sets of windows on two floors overlooking my garden and the back of my property. This would severely impact my privacy. In addition, such a tall dwelling positioned so close to my boundary would cut out a great deal of light. My rear garden is already north facing so light is at a premium, I don't think such a tall building replacing a single storey one is acceptable.

Parking will also present an issue, the roads on both Strathmore and Rudthorpe Road are already over crowded with vehicles, a further dwelling will only add to this issue.

please take my objections into account when reviewing this planning application.

Thank you.
