Most correspondence from the Office of the Traffic Commissioner will now be sent to operators digitally through the Vehicle Operator Licensing (VOL) Service or by email.

The best and most efficient way to reach us is digitally. Please upload documents through your VOL user account or send a direct message through VOL. There may be delays if you send correspondence to us by post.

If you wish to make an objection to a goods vehicle application it is recommended you send the details to Environmental@otc.gov.uk clearly stating 'Objection' in the subject line.

If you are an existing operator without a VOL user account, and you would like one, please email Notifications@vehicle-operator-licensing.service.gov.uk and a member of staff will contact you as soon as possible to arrange this. You will need to answer some security questions.

Section 1 – Applications Received

A **statutory objector** may inspect a goods vehicle operator's licence or application under Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by setting out their authority and requesting arrangements are made for inspecting the record by emailing – Environmental@otc.gov.uk

Objections against published applications may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

Classification of Operator Licences – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Section 3 – Schedule 4 Applications

Schedule 4 to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner's discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

New Applications (Section 3.1): where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

Variation Applications (Section 3.2): where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

Director(s): ALEXANDRU MIHU-FOTA, CLAUDIU DANIEL CODITA

GLENHOLME NURSERY, NURSERY ROAD, NAZEING, WALTHAM ABBEY, EN9 2JF

The company lacks professional competence and financial standing. It is not keeping vehicles at its authorised operating centre in Waltham Abbey but at Rugby in a different traffic area. It therefore requires a licence in that area rather than in the East of England Traffic Area. Under Sections 26(1)(a) and (h) and 27(1)(a) of the 1995 Act I am therefore revoking its licence, with effect from 0001 hours on 12 December 2025.

I am not making a disqualification order in this case, but for a future application involving director Alexandru Mihu-Fota to have any chance of success, he must first attend an operator licence awareness course, engage the services of a prospective transport manager who has a CPC issued by one of the UK examining bodies and ensure that the company is adequately capitalised and not reliant on debt at usurious levels of interest.

JSK TIPPERS LTD

Director(s): SUKHJINDER SINGH

The Deputy Traffic Commissioner made adverse findings pursuant to section 26(1)(b) breaches of condition; section 26(1)(c)(iii) prohibitions, section 26(1)(e) statements not fulfilled and section 26(1)(f) breaches of undertakings. No adverse finding were made in relation to material change relating to good repute and financial standing, pursuant to section 26(1)(h).

No adverse findings were made regarding good repute, financial standing or professional competence. Overall, given the lessons that had been learnt by Mr Singh and the improvements that had been made, the Deputy Traffic Commissioner was satisfied the operator should be compliant going forward.

Mr Singh agreed to the following undertakings;

- i. By 4 December 2025 the operator will provide to the Eastern Area Office of the Traffic Commissioner a bank statement for a new account set up in the company name with sufficient funds to meet the requirement of financial standing of £12,500.**
- ii. By 13 May 2026 the operator will provide to the Eastern Area Office of the Traffic Commissioner documentary evidence to demonstrate that it continues to meet the requirements of financial standing to include bank statements for accounts in the company name for the months of February 2026, March 2026 and April 2026.**
- iii. By 13 May 2026 the operator will undertake a full maintenance and drivers hours compliance systems audit conducted by a trade body, competent independent person or body. A copy of the report will be forwarded to the Eastern Area Office of the Traffic Commissioner within 2 weeks of production, together with the operator's proposals for implementing the recommendations.**

The operator also made a statement of intent that in addition to the full time drivers being paid via PAYE, all part time drivers will also be paid via PAYE.

The Deputy Traffic Commissioner granted a period of grace until 31 December 2025 for the company to operate without demonstrating financial standing.

The Deputy Traffic Commissioner concluded that it was proportionate to issue a formal warning to draw a line under these issues.

The Deputy Traffic Commissioner made no adverse findings in respect of Mr Singh in his capacity as transport manager regarding his good repute and professional competence. He was issued with a formal warning."
