Licence Annex B: Provisions relating to licensed actions on or around Special Areas of Conservation (SACs), Special Protection Areas (SPAs), Sites of Special Scientific Interest (SSSIs), and/or Ramsar sites within the county of Hampshire.

Notes W, Y and Z to this Annex must be considered on any land where operations permitted under this licence are proposed or are undertaken.

Notes A and B apply only on and/or around Protected Sites and only in respect to Protected Sites where these Notes are cited in the 'Licence Condition' column of the table below for that site.

Alresford Pond SSSI Ashford Hill Woods and Meadows SSSI Avon Valley (Bickton to	valley SPA/Ramsar	Except on existing tracks, no vehicle use, nor placing traps alongside any watercourses or waterbodies, nor within any wet area, fen, bog or mire. Christchurch) SSSI		No activities from 1st March to 31st August to avoid bird breeding season. Avoid shooting between 1st September and 30th April around Blashford Lakes, the units North of Ringwood. Except for vehicle use on existing roads and tracks, during the period from 1st September to 31st March, no licensed activities within 200 metres of any intertidal, saltmarsh, reedbed or grazing marsh habitats. All vehicles must be restricted to existing tracks. Limit location of traps to existing sett footprint, areas of scrub or bracken. Any decaying wood located within the sett footprint is to be left in situ if possible. If decaying wood must be moved, then it should be moved no further than is necessary. No use of any cage trap within 100m of any watercourse and avoid placing any cage trap in any marshy, reed-bed, riparian or other type of wet habitat. Do not dig in any cage traps for one hour either side (i.e. 2 hours) of sunset and sunrise [Note. the setting open of traps to catch during these periods is permitted]. Do not use any fish-based bait. The licensee must assist Natural England with the gathering of information on fox control taking place on, and in the vicinity of, this SSSI and these European Sites (see Notes A and B).

Worldham	SAC	Limit location of traps to existing sett footprint or
Hangers SSSI		areas of scrub. Limit location of traps to existing sett
		footprint or/ and areas of Rhododendron, Cherry
		Laurel scrub or conifer plantation.

NOTES TO ANNEX B

General note on interpretation:

Protected sites that are listed above are not necessarily part of any active operations. Active operations can and will only occur on protected sites where landowner/occupier permission has been granted.

Within the licence conditions, use of the word 'avoid' denotes a prohibition, i.e. it indicates that an area must be excluded from relevant activities or that activities must not be undertaken during the time period stated or in the manner described. Similarly, the word 'restrict' means that activities must be confined to the areas or time periods stated.

For further details on each protected site and its notified features of special interest and/or European Site qualifying features please enter the site name into the following link: https://designatedsites.naturalengland.org.uk/SiteSearch.aspx.

Individual notes:

Note A: Natural England will inform the licensee from time to time of the information it requires. This is likely to focus on whether fox control is routinely undertaken on the relevant site and/or on areas of participating land within a few kilometres of the site. The licensee is expected to use reasonable endeavours to assist Natural England with the gathering of this information.

Note B: Natural England may form the judgment that measures should be introduced to secure the protection of species associated with this site, such as fox control, anti-predator fencing, habitat management, or buffer zones in which badger control is not undertaken. Such measures may be secured through cooperation between licensees, landowners, occupiers, and/or public bodies. If it considers it necessary to do so, Natural England may: exercise its powers under sections 28J-K of the Wildlife and Countryside Act 1981 or regulation 20 of the Conservation of Habitats and Species Regulations 2017; and/or revoke and re-issue this licence with revised terms (provided that such terms will be reasonable and proportionate in all of the circumstances).

Note W: European protected species are listed in Schedule 2 (animals) and Schedule 5 (plants) of the Conservation of Habitats and Species Regulations 2017. Nationally protected species are listed in Schedule 5 (animals) and Schedule 8 (plants) of the Wildlife and Countryside Act 1981 (as amended). Under these laws (regulations 43 and 47 of the 2017 Regulations and sections 9 and 13 of the 1981 Act), it can be an offence to:

- deliberately capture, injure or kill any wild animal of a European protected species;
- intentionally kill, injure or take a nationally protected wild animal;
- deliberately disturb wild animals of any European protected species;
- intentionally or recklessly damage or destroy any structure or place which a nationally protected

- animal uses for shelter or protection, disturb such an animal while it is occupying such a structure or place, or obstruct access to any such structure or place;
- damage or destroy a breeding site or resting place of any wild animal of a European protected species;
- deliberately take or destroy the eggs of any wild animal of a European protected species;
- deliberately pick, collect, cut, uproot or destroy a wild plant of a European protected species;
- intentionally pick, uproot or destroy any nationally protected wild plant.

Great Crested Newt, Otter, Dormouse, and Sand Lizard are European and nationally protected species.

Note Y: All birds, their eggs and nests (while in use or under construction) are protected under the Wildlife and Countryside Act 1981. This licence does not allow you to take or destroy such nests. Bird species listed under Schedule 1 of that Act have additional legal protection so care must be taken to avoid their disturbance during the breeding season.

Note Z: All bats and their roosts (even when not occupied by bats) are protected by the Wildlife & Countryside Act 1981 and by The Conservation of Habitats and Species Regulations 2017. This licence does not allow you to enter or obstruct any bat roost, nor to disturb any bat whilst it is occupying a roost. Care must be taken to avoid sustained human presence near, or artificial illumination of cracks and cavities in trees and man-made structures, and of any mounted boxes.
