

Follow these five steps to protect yourself from **E-BIKE FIRE RISKS**

STEP 1

Read product reviews
and only buy from
trusted sellers.

STEP 2

Follow the manufacturer's
storage, charging and
maintenance instructions.

STEP 3

Charge your battery in
a safe location that does
not block fire escape
routes or exits and unplug
when fully charged.
Never tamper with
the battery.

STEP 4

Get a professional to
carry out repairs.

STEP 5

Only use manufacturer
recommended
replacement parts,
chargers and batteries.
