Sirs,

I wish to formally object to this latest and apparently pointless application made by Cotham School. The school has a long history of antagonizing the population of Stoke Bishop, in whose midst the playing fields germane to this application, are sited. The school has already installed multiple surveillance devices (at least 5 to my knowledge), the addition of a proposed 6 more on masts is deeply intrusive. The need for such devices and the compliance with and protections implicit with the Data Protection Act 2018 are not stated. If required, I am prepared to offer a verbal objection.

Faithfully,
