Mandatory Actions: All groups referenced above must adhere to the Requirements section of this Policy Framework, which contains all mandatory actions. Whilst this document sets out the actions for which the Parole Board is responsible, this document does not bind the Parole Board in any way as it is an internal policy document of the Ministry of Justice.

For Information: Governors must ensure that any new local policies that they develop because of this Policy Framework are compliant with relevant legislation, including the Public-Sector Equality Duty (Equality Act, 2010). In this document the term Governor also applies to Directors of Contracted Prisons. All groups must ensure that when handling personal data, they must have comprehensive and proportionate arrangements for collecting, storing, and sharing information, as set out in the Information Requests Policy Framework. For any data protection enquiries please contact InformationmgmtSecurity@justice.gov.uk.

All references to “prisoner” within this Framework also refer to those children/ young people subject to recall who are covered by the processes detailed within this Policy Framework and all references to the “Probation Practitioner” also refer to the YJS Case Manager.

The Youth Custody Service (YCS) operate under different arrangements to the adult prison service and uses different language. Public protection work is coordinated by the Resettlement Teams and the staff working with children throughout their sentence and planning for release are Resettlement practitioners. In Secure Training Centres (STCs), Secure Children Homes (SCHs) and Secure Schools they are Caseworkers. These sites also use different case recording systems to

NOMIS/DPS. The OMiC framework does not apply to the YCS. The Safeguarding and child protection in the children and young people secure estate policy framework and PSI 08/2012: Care and Management of Young People set out additional requirements which apply specifically to children in prison.

Where this Policy Framework refers to the prisoner the YCS will refer to the child in their care. In YCS cases all references to: The POM also refer to the Resettlement Practitioner or Caseworker; The COM also refer to the Youth Justice Service (YJS) Case Manager; OMU Managers (HOMD or HOMS) refer to Head of resettlement.

Audit/monitoring: HMPPS Prison Group Directors and Controllers, the Regional Probation Directors (RPDs) of the Probation Service and Youth Justice Service (YJS) in England and Director of HMPPS in Wales will monitor compliance with the mandatory requirements set out in this framework. HMPPS contract management will hold providers to account for the delivery of mandated requirements as required in the contract.

Resource impact: The requirements laid out are designed to have a minimal impact on resources. The majority do not place new obligations on prison, Probation Service and YJS staff. Rather, the framework confirms existing obligations to ensure a swift and efficient recall and review process.

There are resource implications for HMPPS arising from the introduction of the Parole Board Reconsideration Mechanism in July 2019. It has been confirmed that the resource implications for the Probation Service and Prisons are resourced within the Offender Management In Custody (OMiC) model.

1. **Purpose**

- 1.1 Determinate and indeterminate sentenced prisoners who are released into the community subject to licensed supervision are liable to be recalled to custody by the Secretary of State, where (a) they have breached a specific condition of their licence or where (b) the behaviour being exhibited, is sufficiently concerning to indicate that the risk they pose is assessed as no longer safely manageable in the community. This framework sets out the mandatory requirements that the Probation Service, Youth Justice Service (YJS) and prison establishments must undertake for all recalled prisoners.

2. **Evidence**

- 2.1 Research has been undertaken to understand the risks and needs of recalled prisoners, as well as the experience of recall from the perspective of the recalled prisoner. The outcomes of this research have guided elements of this Framework, with the introduction of the recall information leaflets, a legal phone call for all recalled prisoners and the publication of the Best Practice Guide (Annex A of this Framework).
- 2.2 Guidance is also available for staff within the “Better Outcomes of Recalled Prisoners” document. This document provides guidance to support staff across the Probation Service and prisons working with prisoners who have been recalled to prison custody.
- 2.3 Rates of self-harm in the sentenced prisoner population are higher in those who are recalled than for other sentence types. Contributing factors in suicides of recalled prisoners are a lack of hope, family difficulties, poor mental health, substance misuse issues and potential debt in prison. The early weeks in custody can be particularly stressful and recalled prisoners may not fully understand the reasons for their return to custody, increasing feelings of anxiety and distress. It is important that practitioners consider how a return to custody may affect an individual’s risk. Further information is available in the guidance document “Recalled prisoners – Know the Risks of Self-Harm and Suicide”.

3. **Equalities Consideration**

- 3.1 The Public Sector Equality Duty and Equality Act 2010 provides protection from unlawful discrimination in relation to the following characteristics: age, disability, gender reassignment, pregnancy & maternity (which includes breastfeeding), race, religion or belief, sex, marriage and civil partnership, and sexual orientation. Further information can be found in the HMPPS Equality Analysis Policy Framework.
- 3.2 HMPPS is committed to eliminating all forms of discrimination, to promoting equality and diversity, and to ensuring equal access to services. No child or group of children should be disadvantaged in being able to access services which meet their needs. HMPPS recognises that all children have a right to equal protection from harm and abuse. This includes protecting children irrespective of cultural sensitivities: different practices are no excuse for child abuse and neglect.
- 3.3 There is a potential for bias in decision making; therefore, it is recommended that HMPPS staff who are involved with working with offenders undertake Diversity and Inclusion Training. This training can be found on the Diversity and Inclusion learning and development hub.
- 3.4 For IPP women, staff should consider consultation with the Women’s Estate Psychology Services (WEPS) as part of the IPP Community Pathway to support any decision-making process (with regards to suspension, reduction of frequency and termination). Where there is active consultation with WEPS under the IPP Community Pathway, the consultation

process can be utilised for support during the decision-making process (with regards to suspension, reduction of frequency and termination). Further information on the core principles for working with women can be found in the Women's Policy Framework.

- 3.5 Guidance on the Language Services available to the Probation Service is available on Equip. This includes translation, transcription, braille services and interpreting services (including British Sign Language).

4. Outcomes

- 4.1 This framework aims to ensure that there is an effective process in place which:
- enables offenders subject to licensed supervision in the community to be swiftly recalled to custody where their behaviour (including where they are out of touch and cannot be contacted) indicates that they present an increased risk of serious harm (RoSH) to the public and / or an increased risk of re-offending, such that those risks are no longer capable of being effectively managed in the community;
 - notifies the police that an offender's licence has been revoked, which provides the police with the authority needed to apprehend the offender and return the offender to prison custody;
 - notifies providers of probation services, the Police National Computer Bureau (PNCB) and the relevant local police force that offenders who have not been apprehended within four weeks of their licence having been revoked have been issued with a notification of recall and are therefore liable to be prosecuted for knowingly remaining unlawfully at large;
 - ensures that clear arrangements are in place for identifying which recalled determinate sentenced offenders are suitable for a fixed term recall;
 - provides for the review of recalled prisoners' detention to be conducted speedily, efficiently and transparently so that all recalled prisoners are provided with clear timescales for the recall process;
 - ensures that recalled prisoners are not detained any longer than is necessary to protect the public and prevent further re-offending;
 - requires a recall dossier to be produced, containing a current assessment of the recalled prisoner's risk and their response to supervision, including events which triggered a request for recall, together with clear and comprehensive proposals for the future management of the recalled prisoner in the community. The Parole Board or the Secretary of State will consider whether or not to re-release the recalled prisoner based on the evidence in the recall dossier.

5 Requirements

PART I - RECALL

5.1 Recalling a Determinate or Indeterminate Offender

These processes apply to all offenders, including children/young people.

The Recall Test

- 5.1.1 Where the offender has breached licence conditions in such a way as to indicate increased risk or where there is other evidence that the offender's risk has increased (for example being out of touch), and the Probation Practitioner judges that, even with the imposition of additional licence conditions/alternative enforcement action the offender can no longer be

safely managed in the community, the recall threshold has been met and the Probation Practitioner must initiate action to recall the offender.

5.1.2 **For Indeterminate Sentenced Offender and Extended Sentenced Offenders Recalls:**

Probation Practitioners must be satisfied that there is evidence of increased risk of harm to the public and must also demonstrate a “causal link” between the current behaviour and/or circumstance that was exhibited at the time of the index offence. At least one of the criteria below must be met:

- i. Exhibits behaviour similar to behaviour surrounding the circumstances of the index offence;
- ii. Exhibits behaviour likely to give rise (or does give rise) to a sexual or violent offence;
- iii. Exhibits behaviour associated with the commission of a sexual or violent offence; or
- iv. Is out of touch with the Probation Practitioner and the assumption can be made that any of (i) to (iii) may arise.

5.1.3 As part of these considerations, Probation Practitioners must:

- take into account the extent that the offender’s behaviour presents an increased risk of sexual or violent harm to others, regardless of the type of index offence for which s/he was originally convicted;
- where there are allegations of further offending the decision to recall must be based on the offender’s reported behaviour. If in the Probation Practitioner’s professional judgement, the reported behaviour suggests that the risk can no longer be safely managed in the community, this meets the recall threshold (taking into consideration the requirement at 5.1.1). There is no requirement to await the outcome of police investigations or for the offender to be charged, or for them to be remanded. Further guidance on allegations of further offences is available at chapter 7.1 of this framework.

Fixed Term and Standard Recalls

5.1.4 When requesting the recall of a determinate sentenced offender, there are only two types of recall, these are fixed term or standard recall. The Probation Practitioner must make a recommendation as to the type of recall, either a fixed term or a standard, unless a fixed term recall is mandated, in order to manage the offender’s risk.

5.1.5 Where an offender **was sentenced to less than 48 months**, the offender must be recalled as a fixed term recall, except where any of the following apply, namely:

The offender is:

- aged under 18 at the point of recall;
- managed at MAPPA Level 2/3 arrangements at the point of recall;
- recalled on account of being charged with an offence;
- serving a fixed-term sentence imposed for an offence within section 247A (2) of the Criminal Justice Act 2003 (terrorist prisoners);
- identified as MAPPA Category 4 at the point of recall (relevant terrorist offenders under paragraph (aa) or persons who may be at risk of involvement of terrorism activity under paragraph (c) of section 325(2) of the Criminal Justice Act 2003)
- serving a sentence for an offence listed in Schedule 19AA Criminal Justice Act 2003

5.1.6 Where in the case of an offender serving a sentence of under 48 months’ imprisonment, any of the exceptions to mandated fixed term recall at 5.1.5 apply and in the case of an offender sentenced 48 months or more, Probation Practitioners must still consider whether a fixed term recall is suitable in line with the statutory release test at paragraph 7.1.17. The Part A Recall report must provide clear evidence for the reasons for requesting either a fixed term recall or standard recall.

Using the emergency recall process

- 5.1.7 This is an expedited process for offenders assessed as posing an imminent risk. At least one of the following criteria must be met when assessing whether to use the emergency recall process. The offender:
- Is assessed to present an imminent RoSH; or
 - Is subject to an indeterminate sentence; or
 - Is subject to MAPPA level 3 arrangements, or is a Critical Public Protection Case (CPPC); or
 - Is assessed to present an imminent risk of re-offending.
- 5.1.8 Where an emergency recall is being requested during office hours, Probation Practitioners must alert the PPCS recall team to the emergency request by telephone for approval in advance of submitting the recall paperwork.
- 5.1.9 The Probation Practitioner must remain contactable until PPCS has issued the revocation order. A direct dial telephone number or mobile number must be provided. In the event that the Probation Practitioner will not be available, the contact details of a senior manager or another member of staff must be provided.

Submitting the Recall Request

- 5.1.10 Prior to initiating recall, the Probation Practitioner will liaise with the Senior Probation Officer (SPO) and discuss whether the recall threshold has been met. The decision to request recall must be based on an offender's behaviour, or change of circumstances, whilst on licence. This will not necessarily be directly linked to a breach of a specific licence condition. The decision on whether to initiate recall must be made swiftly, to ensure the protection of the public.
- 5.1.11 In ISP cases and in Extended Determinate Sentence Cases (which meet the emergency recall criteria) the Probation Practitioner must ensure that the emergency recall process is used, which is set out at paragraph 5.1.8 to 5.1.10.
- 5.1.12 In Extended Determinate Sentences cases that do not meet the criteria for an emergency recall, the Probation Practitioner must contact PPCS by telephone to seek approval by a PPCS senior manager prior to submitting the required paperwork.
- 5.1.13 The Part A report (available on NDelius) along with the mandatory supporting documents must be submitted to PPCS within 24 hours of the SPO deciding to initiate the recall process.
- 5.1.14 The Probation Practitioner will draft the Part A recall report and must ensure that all available information, which may assist the police in locating and safely apprehending the offender, is detailed in the Part A report. This should also include any concerns about the vulnerabilities of the prisoner or risk to staff.
- 5.1.15 The Head of Service (or by delegation to at least a Band 6 Registered Probation Officer) will make the final decision on whether to proceed with recall, and will endorse the Part A report.

Authorising Recall

- 5.1.16 PPCS, acting on behalf of the Secretary of State, is responsible for deciding whether to authorise a recall by ensuring that the Part A recall report and accompanying documents provide sufficient evidence and justification to support the request to recall the offender. This decision must take place within two hours of receipt of the mandatory supporting

paperwork for all ISP and emergency recalls, and 24-hours for all other recalls. See paragraph 7.1.21 to 7.1.24 for further guidance.

- 5.1.17 Where appropriate, PPCS are also responsible for determining the recall type based on the information provided and/or eligibility.
- 5.1.18 Where recall is authorised, PPCS must issue the revocation order to New Scotland Yard, the Police Single Point of Contact and probation services. Once the revocation order has been issued, the offender is considered to be unlawfully at large.

Informing Victims of Recall

- 5.1.19 Where there is a victim(s) involved in the Victim Contact Scheme, Probation Practitioners must ensure that the VLO is informed of the progress of the recall request including confirming the recall type once approved.

Assisting the Police and Considerations for Informing the Offender about Recall

- 5.1.20 Once PPCS has authorised the recall, the Probation Practitioner must provide the police team dealing with the recall with any further information they receive which may assist the police to locate and safely apprehend the offender.
- 5.1.21 Practitioners must also consider whether the offender should be informed about the recall in liaison with the SPO. Practitioners should take into account the offender's risk assessment including their risk of absconding and length of time since the recall. Where there is active involvement from other agencies, such as the police, practitioners should also consider their views before deciding whether to share this information with the offender at an agreed time / circumstances to ensure the safeguarding of all parties.
- 5.1.22 Further guidance on these considerations is available via this link.

Further guidance on recalling determinate and indeterminate sentenced offenders is available in [chapter 7.1](#) of this Policy Framework.

5.2 Recalling an Offender subject to Home Detention Curfew (HDC)

Breach of Curfew Conditions		Action By

5.2.3	Electronic Monitoring Companies must notify PPCS immediately where two level 2 violations occur.	Electronic Monitoring Companies
Inability to Monitor		Action By
5.2.4	Electronic Monitoring Companies must notify PPCS immediately where they are unable to monitor the offender.	Electronic Monitoring Companies

Authorising Home Detention Curfew Recall		Action By
5.2.5	PPCS, acting on behalf of the Secretary of State, is responsible for deciding whether to authorise recall, issue a warning letter or take no further action. The decision must take place within 24 hours of receipt of the breach action request.	PPCS
Breach of Standard Conditions		Action By
5.2.6	When requesting the recall of an HDC offender for breach of standard licence conditions, Probation Practitioners must follow the requirements set out in “Recalling a Determinate or Indeterminate Offender”, chapter 5.1 of this Policy Framework.	Probation Service YJS

Further guidance is available in [chapter 7.2](#) of this Policy Framework.

5.3 Out of Hours (OoH) Recall Requests

Using the Out of Hours Service

- 5.3.1 The OoH service must only be used to seek recall for cases where the request for recall meets the following criteria:
- The criteria for an emergency recall (see paragraph 5.1.8) are met; and
 - The case has come to light after 5pm or before 9am on a weekday or during a weekend including Bank Holidays.
- 5.3.2 The Probation Practitioner must contact the out-of-hours switchboard to request recall and must remain available for a call back from the OoH service for the case details to be taken and for authorisation of the recall to be confirmed.
- 5.3.3 PPCS, acting on behalf of the Secretary of State, is responsible for deciding whether to authorise out-of-hours recall requests. This decision must take place within two hours of the Probation Practitioner contacting the out-of-hours switchboard.
- 5.3.4 The Probation Practitioner must ensure that the Part A report is completed and sent to PPCS the next working day with all mandatory supporting paperwork. Probation Practitioners must also follow the requirements in “Submitting the Recall Request”, see paragraphs 5.1.11 to 5.1.16.

Further guidance is available in [chapter 7.3](#) of this Policy Framework.

5.4 Cancellation / Rescind of Recall

- 5.4.1 Requests to cancel a recall must be submitted to PPCS on the ‘Probation Service Request to Cancel Recall form’ (available on NDelius). Where possible it must be submitted before the offender has been returned to custody.
- 5.4.2 Requests to rescind a recall must be submitted to PPCS directly via email. Where possible, the request must be submitted before the offender has been returned to custody.

- 5.4.3 Requests to cancel or rescind a recall must be endorsed by a senior manager who is equivalent to the former Head of Service¹ grade or YJS manager.
- 5.4.4 A request to cancel or rescind a recall cannot be authorised by the OoH Service therefore all applications must be submitted during office hours.
- 5.4.5 PPCS, acting on behalf of the Secretary of State, is responsible for deciding whether a recall should be cancelled or rescinded. Where the recall is cancelled or rescinded, PPCS must inform New Scotland Yard, the Police Single Point of Contact, the prison, probation services and the Parole Board (if the case has already been referred).
- 5.4.6 The Probation Practitioner is responsible for updating the VLO on the progress and decision of any application to rescind or cancel a recall.

Further guidance is available in chapter 7.4 of this Policy Framework.

5.5 Unlawfully at Large (UAL) Offence Following Recall

Recalled Offenders with Known Addresses		Action By
5.5.1	Where a decision is made to pursue an unlawfully at large offence where an offender has remained UAL for more than 28 calendar days (starting from the date of the revocation order), PPCS must issue a letter to the offender notifying them of their recall to custody. The letter will be sent to the offender's last recorded address, as detailed in the Part A report, and copied to the Probation Practitioner.	PPCS
5.5.2	Where the offender has failed to return to custody within 14 calendar days of the date of the letter, PPCS must notify the police by submitting an evidence bundle, copied to the Probation Practitioner, informing them that the offender is liable for prosecution.	PPCS

The email must include the date the letter was given to the offender or the date this was verbally communicated to the offender .</p> <p>Where the offender is notified by telephone, the Probation Practitioner must be satisfied that it is the offender they have spoken to and advise PPCS of this. E-mails and text messages for this purpose are not permitted.</p>	Probation Service YJS PPCS
5.5.4	Where the offender has failed to return to custody within 14 calendar days of receipt of the letter from the Probation Practitioner, PPCS must notify the police by submitting an evidence bundle, copied to the Probation Practitioner, informing them that the offender is liable for prosecution. The guidance for the calculation of release dates is in the "Sentence Calculation Policy Framework: determinate sentenced prisoners".	Prisons

Further guidance is available in [chapter 7.5](#) of this Policy Framework.

PART II – RETURN TO CUSTODY, REVIEW AND RE-RELEASE

These processes apply to all prisoners, including children/young people.

5.6 Return to Custody of all Recalled Prisoners

Apprehending and returning a recalled prisoner to custody		Action By
5.6.1	Prisons must confirm immediately on request from the police or escort contractors whether they have space to take the prisoner.	Prisons
5.6.2	Prisons must check the status of any prisoner received into custody on Digital Prison Services (DPS), to establish whether or not the prisoner is subject to a licence and may have a revocation order outstanding.	Prisons
5.6.3	Where subject to a recall, the receiving prison must contact the original discharging prison and obtain the record that contains the sentencing warrant, associated sentencing documents and calculation sheets. 5.10 Risk Assessed Recall Review (RARR)

5.10.1 The Secretary of State has the power to re-release recalled standard determinate, IPP/DPP and extended sentence offenders into the community following a Risk Assessed Recall Review (RARR) at any point following the offender's return to custody. Those serving a life sentence are not eligible for RARR. PPCS undertake this role on behalf of the Secretary of State. To approve a RARR release, in line with the statutory release test PPCS must be satisfied that it is not necessary for the protection of the public that the prisoner should remain in prison. In the case of an offender serving an IPP sentence, only the Public Protection Group Director or someone more senior may approve RARR re-release.

5.10.2 Probation Practitioners can initiate RARR at any point during the prisoner's recall by submitting an updated report to PPCS. There is no requirement to wait until a scheduled review of the case (including a directed or al hearing) to request re-release:

- For **determinate sentences** (including extended determinates and SOPC) an up-to-date Part B or Part C report is required;
- For **IPP/DPP sentences** an up-to-date Part B or Part C report is required for cases being managed under the recall review process or an updated PAROM/PAROM addendum is required for subsequent reviews where the prisoner's case is being managed under the Generic Parole Process.

5.10.3 Probation Practitioners are responsible for providing the relevant report to PPCS which must provide a clear professional opinion on whether release is supported or not. PPCS will review the suitability following the submission of the report by the Probation Practitioner.

In all cases the Probation Practitioner must:

- Interview the prisoner;
- Where there is a victim involved in the victim contact scheme, liaise with the Victim Liaison Officer (VLO) to ensure that victims are provided the opportunity to:
 - submit a VPS;
 - make representations regarding licence conditions.
- Liaise with the prison to ensure that all relevant information has been provided to inform the report;
- Set out in the report if:
 - The prisoner can be safely managed in the community;
 - The Risk Management Plan (RMP) can be effectively implemented in a reasonable timeframe;
 - The prisoner meets the statutory re-release test (See 5.10.1);
- Provide any further information requested by PPCS within the requested timeframe.

- **For IPP / DPP cases:** In addition to the above, the Probation Practitioner must:
 - Convene a Progression Panel to review and confirm the Part B report, following the prisoner's return to custody;
 - Give a view on whether the Secretary of State should exercise his power to disapply the recall for the purposes of the qualifying period for licence termination

- 5.10.4 The VLO must provide, by the deadline, any VPS or related licence condition representations directly to PPCS for review as part of the RARR consideration and inform the Probation Practitioner so these representations can be taken into account in the RMP.
- 5.10.5 Upon receipt of the report, PPCS will assess suitability for RARR. If RARR is considered appropriate PPCS will work with the Probation Practitioner and where appropriate, the Prison Offender Manager, to develop an RMP to address any identified risks, including whether additional licence conditions could be used to support compliance and protect the public. PPCS will also liaise with the Probation Practitioner in regard to the preferred timescale for re-release, taking account of availability of accommodation and other relevant factors.
- 5.10.6 A case will be referred to the Parole Board for a separate Parole Board recall review where:
- Release has not been endorsed by Day 28 of the return to custody;
 - PPCS has determined the prisoner is not currently suitable for RARR.

- 5.10.10 Where the Secretary of State using RARR re-releases an offender serving an DPP or IPP sentence and the offender is eligible for the initial consideration of termination of his/her licence², PPCS will refer the case to the Parole Board to consider termination separately. This will follow the processes set out in Supervision of Indeterminate Sentences Policy Framework.
- 5.10.11 Where a recalled prisoner is released by the Secretary of State following RARR and has already had the initial termination review at the 2/3-year period (depending on whether they are subject to a DPP or IPP Licence, there will be no further consideration of termination, and the case will not be referred the Parole Board. In these cases, the prisoner's licence will automatically terminate after two further continuous years (without recall) in the community or if the Secretary of State has exercised the power to treat the licence as if it

² DPP Offenders are eligible for initial consideration for licence of DPP licence where two years have elapsed since first release. IPP Offenders are eligible for initial consideration for licence of IPP licence where three years have elapsed since first release.

had not been revoked (known as disapplying a recall), then the licence will automatically terminate two-years after the last release.

- 5.10.12 Where release is agreed via RARR and PPCS decides to use the power to disapply (treat the licence as if it had remained in force during the recall for the purpose of the two-year automatic licence termination period), this will follow the RARR decision. PPCS is responsible for notifying of the outcome the prison, Probation Practitioner, VLO and legal representatives (where applicable).
- 5.10.13 Where the prisoner is in custody the prison should inform the prisoner within one working day. Where the offender has been released, the Probation Practitioner should inform them as soon as possible. More information on disapplying a recall is available at paragraph 7.10.3 of this Framework.

5.14 Prisoners detained under the Mental Health Act 1983³

This section of the Policy Framework applies to recalled prisoners who have been transferred to hospital under the Mental Health Act. It also applies to those offenders who cease to be detained under Mental Health Act powers but who are eligible for a review by the Parole Board.

- 5.14.1 Where a recalled prisoner is transferred to hospital under the Mental Health Act, the Mental Health Casework Section (MHCS) will notify PPCS. PPCS will suspend any active recall reviews and inform the Probation Practitioner, Prison, the Parole Board and legal representative.
- 5.14.2 The recall review will remain suspended until the recalled prisoner either receives a notional conditional discharge decision from the Mental Health Tribunal or is remitted back to prison custody. Upon notification from MHCS of a notional conditional discharge or remission back to prison custody, PPCS will re-activate the existing recall review.
- 5.14.3 Where the case had not been referred to the Parole Board, PPCS will request an updated Part B report from the Probation Practitioner. The Probation Practitioner is responsible for providing this within 15 working days. Upon receipt of the Part B report, PPCS is responsible for referring the case to the Parole Board. The case will then follow the process laid out in chapter 5.7 of this Framework.
- 5.14.4 Where the case had been referred to the Parole Board, PPCS will notify the Parole Board. The Parole Board is responsible for reviewing the case and issuing further directions. The case will then follow the processes laid out in chapter 5.7 or 5.13 of this Framework.

Further guidance is available in chapter 7.14 of this Policy Framework.

7 **Guidance**

7.1 **Recalling a Determinate or Indeterminate offender**

- 7.1.1 Determinate sentenced offenders who have been released on licence are liable to be recalled by the Secretary of State at any point during the licence period (under section 254 Criminal Justice Act 2003).
- 7.1.2 Extended sentence offenders who have been released on licence are liable to be recalled by the Secretary of State at any point during the licence period.
- 7.1.3 Children/young people serving determinate sentences of more than one day who have been released on licence are liable to be recalled by the Secretary of State at any point during the licence period. Where an offender is subject to a three-month notice of supervision, recall is not available and breach of supervision requests must be processed through the courts. Children/young people are subject to the same recall provisions as adult offenders released on licence.
- 7.1.4 Life sentenced offenders (including children/young people) who have been released on licence can have their licence revoked and be recalled to custody at any time⁴, since their licence will remain in force for the whole of their life - even where supervision has been

⁴ Under section 31 Crime (Sentences) Act 1997

suspended. IPP sentenced prisoners can have their licence permanently terminated by the Secretary of State (on the direction of the Parole Board) at the end of the applicable qualifying period (two years for DPP prisoners and three years for IPP prisoners)⁵.

- 7.1.5 All life sentenced, EPP and EDS offenders can only be recalled if their behaviour indicates they present an increased RoSH/re-offending. This can either be where the RoSH has been clearly demonstrated or where the RoSH cannot be measured e.g. where the licensee fails to report as required or is out of contact entirely. Further information on the criteria to recall is available at paragraph 5.1.2 of this framework

Further offending considerations for Probation Practitioners

- 7.1.6 Probation Practitioners should consider whether it is appropriate to request a recall where there have been allegations of further offending, regardless of whether the offender has been charged or remanded. Factors that should be considered include:

- Is there reason to believe that the offender is actively thinking about re-offending? Further information is available on EQuIP which can be accessed via the following link: Disclosing thoughts of re-offending;
- Are they remanded in custody? Can the risk presented by the offender be managed if any further charges were to be dropped and the offender is automatically released?
- Have any additional risks been identified as a result of the alleged behaviour which would warrant an assessment of suitability for re-release by the Parole Board or Secretary of State?
- Should the offender no longer be remanded, can they be released immediately with no increase in RoSH to the public, or risk of reoffending?

- 7.1.7 These are case-by-case basis considerations. The test for recall is based on the Probation Practitioner's professional judgement regarding the risk the offender poses. Whether the reported behaviour has taken place does not require the criminal standard of evidence.

- 7.1.8 In life and EDS cases, where current exhibited behaviour is identified as concerning but does not meet the threshold to recall, Practitioners should consider what additional licence conditions or alternative enforcement action can be introduced to manage the individual's risk in the community.

Fixed Term and Standard Recalls

- 7.1.9 Offenders mandated (in line with the criteria at 5.1.5) or assessed as suitable for a fixed term recall will be automatically released at the end of the fixed term period⁶. Offenders serving custodial sentences of less than 12 months will receive a 14-day fixed term recall and those offenders serving custodial sentences of 12 months or more but less than 48 months will receive a 28-day fixed term recall. The fixed term recall begins on the first day of the offender's return to custody or the date of their arrest (where this date is on or after the date of the revocation order).

- 7.1.10 Standard recall could result in the offender remaining in prison until their sentence expiry date (SED).

⁵ Under section 31A Crime (Sentences) Act 1997

⁶ Under section 255B Criminal Justice Act 2003

- 7.1.11 All standard recalled offenders have a statutory right to have their case referred to the Parole Board⁷, Standard recall offenders must have their case referred to the Board at the end of 28 calendar days of their return to custody, whether or not they request a review, to allow a speedy review of their detention and annually thereafter, if they are not released sooner. Offenders may be re-released at any point before their SED where the Parole Board is satisfied that the risks presented by the offender can be safely managed in the community. For further details on the statutory Day 28 review see paragraph 7.7.1.
- 7.1.12 A standard recall will be applied in all cases where the offender is assessed as unsuitable for a fixed term recall.
- 7.1.13 Offenders serving the following sentences are not eligible for a fixed term recall:
- Life, IPP or DPP sentenced offenders
 - Extended sentence offenders including those serving an extended sentence for public protection offenders (EPP) and extended determinate sentence offenders (EDS)
 - Serious Terrorism Prisoners as set out in sections 282A-282C (s268A-C for youth) of the Counter-Terrorism and Sentencing Act 2021
 - Offenders who were referred to the Parole Board under s244ZB of the Criminal Justice Act 2003 (power to detain) (the 2003 Act)
- 7.1.14 It should be noted that where an offender's case has been referred to the Parole Board under s244ZB of the 2003 Act (power to detain) prior to their automatic release date, the offender will, following any release direction from the Parole Board, be ineligible for a Fixed Term Recall for the remainder of the sentence. This applies irrespective of the outcome of the Parole Board's decision. If the Secretary of State subsequently rescinds the referral to the Parole Board, such that the offender is released automatically, the offender will be eligible for a Fixed Term Recall, subject to meeting all other relevant criteria.
- 7.1.15 All other offenders (including Sentences of Particular Concern (SOPCs), serving standard determinate sentences are deemed to be eligible for a fixed term recall.
- 7.1.15 From 2 April 2024 the legislation⁸ which sets out the test **for fixed term recall for offenders serving sentences of under 12 months was amended**. This change was retrospective.
- 7.1.17 For standard determinate sentenced offenders who are not mandated a fixed term recall under the **criteria set out at 5.1.5, or those sentenced to 48 months or more** will continue to have their suitability for fixed term recall assessed in terms of their RoSH. For the purposes of these provisions serious harm means death or serious personal injury, whether physical or psychological. Probation Practitioners must continue to assess on a case by case basis in line with the statutory test below:
- A prisoner is suitable for automatic release only if the Secretary of State is satisfied that they will not present a RoSH to members of the public if released at the end of the automatic release period.
- 7.1.18 It is important to note that this is an assessment of RoSH at the end of the fixed term period.

⁷ Under section 255C(4) Criminal Justice Act 2003

⁸ Under section 255A Criminal Justice Act 2003

7.1.19 When assessing an offender's suitability for fixed term recall, the Probation Practitioner should:

- Gather all relevant information, including the events that have led up to recall, and then consider the impact on the current risk assessment and, in cases of very high, high or medium risk of harm, also consider the OASys which accompanies the recall report; and
- Identify the likely impact of a fixed term period in custody on the level of RoSH and whether that RoSH can be managed if the offender is released at the end of the fixed term period.

7.1.20 An offender will only receive a fixed term recall if assessed as eligible and suitable by PPCS.

Authorising Recall

7.1.21 On receipt of the Part A recall report and all the mandatory supporting paperwork, PPCS will ensure that the information provides sufficient evidence and justification to authorise recall of the offender and, where appropriate, assess suitability for a fixed term or standard recall.

7.1.22 Where PPCS considers that the Part A recall report and supporting documents do not provide sufficient evidence and justification to support recall of the offender or there are missing documents, they will discuss this with the Probation Service in order for a final decision to be taken.

7.1.23 Where PPCS, on behalf of the Secretary of State, does not agree with the recommendation (for a standard or fixed term recall) made in the Part A report, PPCS will discuss the assessment with the Probation Practitioner or SPO the before taking a final decision. This decision will be taken within 24 hours of receipt of the Part A report and mandatory supporting paperwork.

7.1.24 For all requests to recall indeterminate sentenced and extended sentenced offenders, additional authorisation will be sought from a PPCS duty senior manager.

Police Power to Arrest Terrorist Offenders

7.1.25 Section 43B of the Terrorism Act 2000, which provides the police with the power to undertake an urgent arrest of a terrorist offender. An arrest may be made only where there are reasonable grounds for suspecting that the offender has breached a condition of their licence and it is reasonably considered that it is necessary, for purposes connected with protecting members of the public from a risk of terrorism, to detain the offender until a recall decision is made. A "terrorist offender" is a life prisoner serving a sentence for an offence described in section 247A(2) of the Criminal Justice Act 2003 .

7.1.26 Where the Police apprehend an offender under this power, they will make immediate contact with the Probation Service to allow them to consider recall proceedings. The police can only hold the terrorist offender for a limited period of time (6 hours in England and Wales and 12 hours in Scotland and N. Ireland). Therefore, it is imperative that the arrest is communicated swiftly to the Probation Service in order for recall proceedings to be considered within the custody time frame.

7.1.27 Although the police make the decision to arrest an offender, the decision to request the recall of an offender on licence remains with the Probation Service and the usual process of recalling an offender should be followed. Probation Practitioners should refer to the appropriate chapters within this Framework when considering whether to recall the offender. See Chapter 5.1.

7.2 Recalling an offender subject to Home Detention Curfew (HDC)

7.2.1 Offenders who are released subject to HDC can have their licence revoked and be recalled to custody at any time during the HDC period. Whilst the offender is within the HDC period, they are subject to additional HDC licence conditions which can be revoked by PPCS following a notification from Electronic Monitoring Contractors. Electronic monitoring companies' curfew violations and tampering notifications are sent directly to PPCS, copied to the Probation Service/YJS. Location monitoring violations and battery issue notifications are sent directly to the Probation Service/YJS.

7.2.2 Offenders released early on HDC are liable to be recalled under Section 255 of the Criminal Justice Act 2003 where it appears to the Secretary of State that:

- There is a failure to comply with the curfew condition; or
- The offender's compliance with the curfew condition can no longer be electronically monitored at the place for the time being specified in the curfew conditions.

7.2.3 Offenders released subject to HDC are also subject to standard licence conditions. If these conditions are breached during the HDC period, the licence can be revoked by PPCS at the request of the Probation Practitioner. Probation Practitioners should follow the requirements set out in chapter 5.1.

Breach of Curfew Conditions

7.2.4 Electronic monitoring companies must notify PPCS where a level 1 violation occurs (see the requirements section paragraph 5.2.1). The following constitutes a level 1 violation:

- Serious infringements of the curfew or other licence conditions such as being absent for an entire curfew period; or
- Assaulting or threatening to assault a member of the contractor's staff; or
- Intentional destruction of the monitoring equipment.

7.2.5 Electronic monitoring companies are responsible for issuing a warning letter where a level 2 violation occurs and, where two level 2 violations occur, they must notify PPCS (see the requirements section paragraphs 5.2.2 to 5.2.3). The following constitutes a level 2 violation:

- Shorter absences in one curfew period;
- Intentional tampering with the equipment (but to a lesser degree than that covered by level 1); or
- A number of very short absences over the length of the monitoring and curfew period.

Inability to Monitor

7.2.6 Electronic monitoring companies must notify PPCS where they are unable to electronically monitor an offender subject to curfew (see the requirements section paragraph 5.2.4). Inability to monitor could arise in three ways:

- Installation failure – inability to install the monitoring equipment at the curfew address, either for technical or practical reasons;
- Monitoring failure – failure of the monitoring equipment resulting in an inability to electronically monitor an offender subject to curfew; or
- Change of circumstances – the offender subject to curfew is unable to reside at the original approved curfew address (e.g. the householder/landlord/hostel manager has withdrawn consent for the offender to remain at the address).

7.3 Out of Hours (OoH) Recall Requests

- 7.3.1 PPCS operates an out-of-hours (OoH) service for all indeterminate and emergency determinate recall requests only. The OoH service applies to the Probation Service and YJS and is available between 5pm and 9am (weekdays) and 24 hours during the weekend (including Bank Holidays). The out-of-hours switchboard telephone number is detailed on the Public Protection Group Staff Contact List, which can be accessed via the following link: Public Protection Group.
- 7.3.2 When contacting the out-of-hours switchboard, the Probation Service/YJS should state that an emergency recall is being requested; specifying the offender's name, Probation Service Probation Delivery Unit (PDU)/YJS area and the contact details of the requestor including a contact telephone number.
- 7.3.3 The switchboard will relay this information to PPCS, who will contact the requestor to discuss the request to recall and gather the offender's information in order to complete the revocation order.
- 7.3.4 PPCS will require the following information:
- Offender's full name including any aliases;
 - Date of birth;
 - Prison number and NOMIS number;
 - MAPPA level;
 - Releasing prison and release date;
 - Index offence and length of sentence;
 - CRO number and PNC number;
 - Probation Service, PDU or YJS area;
 - Police SPOC area;
 - Probation Practitioner details;
 - Authorising senior manager's details;
 - Last known address;
 - Sentence Expiry Date;
 - Vulnerability issues and known arrest risks.
- 7.3.5 For requests to recall indeterminate and extended sentenced offenders, additional authorisation will be sought from a PPCS duty senior manager.
- 7.3.6 Probation Practitioners should refer to the consideration for recall requirement sections in this framework to ensure that the criteria is met prior to requesting an OoH Recall. See paragraphs 5.1.1 to 5.1.3.

7.4 Cancellation / Rescind of Recall

- 7.4.1 In determinate sentenced cases only, PPCS on behalf of the Secretary of State, has the statutory power to cancel a recall⁹ where subsequent information does not render the original decision to recall unlawful or wrong on the information that was available at the time, but allows a different view to be taken of the perceived risk. PPCS can also decide to update the reasons for the recall to include the further information where the reason for the original recall can no longer be relied upon but that there are other reasons on which to base the recall.
- 7.4.2 There is no power to cancel the recall of indeterminate sentenced offenders. However, PPCS, on behalf of the Secretary of State, may retake a decision to recall where subsequent information does not render the original decision to recall unlawful or wrong on the information that was available at the time, but where further information has come to light which allows a different view to be taken of the perceived risk. This may result in a different decision being made.
- 7.4.3 In all cases, PPCS on behalf of the Secretary of State, has the power to rescind a recall decision where it is considered that the original revocation was unlawful or wrongly made.
- 7.4.4 Cancellation / rescind requests made after an offender's return to prison custody will only be considered where information is subsequently provided that was not available to the Secretary of State at the time the recall decision was taken.

7.5 Unlawfully at Large (UAL) Offence Following Recall

- 7.5.1 The offence of being UAL applies to those who are recalled, fail to respond to a notification of the recall and remain UAL¹⁰ Offenders who remain UAL for a period of six months or more and fail to keep in touch with their Probation Practitioner are deemed notified under the 'failure to keep in touch' rule.
- 7.5.2 PPCS will identify offenders who have been recalled to custody and remain UAL. PPCS is also responsible for undertaking the notification procedures set out in this Policy Framework and for notifying the police and PNCB once the procedures have been complied with. See paragraph 5.5.1 and Annex B for more information.
- 7.5.3 Although PPCS will not as a rule instigate the notification process until at least 28 days after the revocation order has been issued, it can, exceptionally, instigate the process sooner if it believes that it is in the public interest to do so.

RETURN TO CUSTODY, REVIEW AND RE-RELEASE GUIDANCE

7.6 Return to Custody of all Recalled Prisoners

- 7.6.1 On return to custody, all recalled prisoners have a statutory right to be informed of the reasons for their recall and their right to make representations in regard to their suitability for re-release¹¹ This information is provided to the recalled prisoner in the form of the recall

⁹ Under s254 (2A) or (2B) Criminal Justice Act 2003

¹⁰ UAL (section 32ZA Crime (Sentences) Act 1997 for indeterminate sentenced offenders and section 255ZA Criminal Justice Act 2003 for determinate sentence offenders).

¹¹ Section 32(3) Crime (Sentences) Act 1997 for indeterminate sentenced offenders and section 254(2) Criminal Justice Act 2003 for determinate sentenced offenders.

dossier. The requirements set out in this Policy Framework are in place to ensure this is completed in a timely, efficient, and transparent manner.

Apprehending and returning a recalled prisoner to custody

- 7.6.2 If the Secretary of State decides to recall the offender, they will be liable for immediate arrest, if not in custody. Following arrest by the police, recalled offenders will be returned by the escort contractors to the nearest prison or remand centre categorised as a local for prisoners of that type (adult males, females, or young people) that serves the area where the arrest took place. The police are required to notify the prison in advance.
- 7.6.3 Recalled children should not be taken to the closest remand centre. The YJS and YCS Placements Team (0345 363 6363) must be notified of the child's arrest. The YJS is expected to update the custody module of Asset Plus and recommend the most appropriate placement to the YCS based on the child's individual circumstances.
- 7.6.4 Recalled offenders should be returned to the nearest reception prison as defined by Population Management Unit (PMU). The Prison Escort and Court Services (PECS) contractors are responsible for the escorting arrangements and will collect the recalled prisoner from the police station on receipt of a valid Person Transportation Request (PTR) and deliver to the nearest reception prison in line with their contractual obligations. Local Function Prisons cannot refuse to accept such a recalled prisoner providing the delivery is within the agreed reception opening times - Schedule 26 of the PECS Contract. If the Local Function Prison cannot accept the recalled prisoner due to population pressures, PECS contractors must gain authority from PMU to re-direct to another prison. For details of the prison requirements see chapter 5.6 of this Policy Framework.
- 7.6.5 Upon return to custody, prisons should ensure that the prisoner's main offence on DPS accurately reflects the original offence for which they were on licence.
- 7.6.6 It is essential that standard recalled prisoners, including those subject to further charges, are promptly reviewed and recategorised in accordance with their assessed risk level to ensure placement in the appropriate category establishment. Prisoners who are subject to a fixed term recall will not normally be categorised and will stay at a reception prison. However, where there is a need to relocate a fixed term recalled prisoner out of the reception prison, a review of their security category must first be undertaken. Further information on the recategorisation for Standard and Fixed Term Recall prisoners is available in Security Categorisation Policy Framework

Disclosure of the Recall Dossier

- 7.6.7 All recall dossiers will be provided by PPCS to the prison, normally by email to the prison OMU functional mailbox. The Probation Practitioner will be copied into this email, which will also include the date that the Part B report should be submitted to PPCS.

Legal Phone Call

- 7.6.8 Details of active civil and criminal providers can be accessed via the following website link: <https://www.gov.uk/find-a-legal-adviser>

Recall Information Leaflets

7.6.9 There are four recall information leaflets. These are:

- Standard Recall leaflet;
- Fixed Term Recall leaflet;
- Indeterminate Recall leaflet;
- HDC Curfew Recall leaflet.

7.6.10 PPCS will provide the appropriate leaflet to the prison with the recall dossier. Each leaflet contains information on the specific review process pertinent to the type of recall and has been written specifically for recalled prisoners. The recall leaflets are also available in Welsh.

Recalled Prisoners in custody in Prisons in Scotland and Northern Ireland

7.6.11 Where possible, recalled prisoners subject to a standard recall should be transferred to an English or Welsh prison to assist with facilitating the Parole Board hearing PPCS will issue the recall dossier to the establishment where the recalled prisoner is being held (copied to the releasing prison that issued the licence and the Probation Practitioner). The review process will continue as normal. See 'Standard Recall – Statutory Day 28 Review' chapter 5.7 for more information. When requested, Scottish/Northern Irish prisons will need to prepare reports for the Parole Board.

7.6.12 Where a fixed term recalled prisoner is held in a Scottish or Northern Irish prison, they can serve the recall in that establishment. Where the prisoner is serving a new sentence in Scotland or Northern Ireland, the fixed term recall will be served concurrently. PPCS will issue the recall dossier to the establishment where the recalled prisoner is being held (copied to the releasing prison that issued the licence and the Probation Practitioner).

7.7 Standard Recall - Statutory Day 28 Review

7.7.1 All standard recalled prisoners who remain in custody 28 days after their return to custody must have their case referred to the Parole Board. Statutory Day 28 Review process apply to all recalled indeterminate and extended sentenced prisoners, as well as all other determinate sentenced prisoners subject to a standard recall.

Statutory Day 28 Review and New Sentences

7.7.2 Section 256AZA of the Criminal Justice Act 2003 effectively provides that where a recalled prisoner has received a new sentence, they will no longer be automatically eligible for a statutory Day 28 review for as long as they are serving that sentence. Though the Section 256AZA removes the legislative requirement to refer cases to the Parole Board where there is a new sentence, the duty will become live again once a prisoner has reached CRD on the new sentence so PPCS may still choose to refer cases for example where there is only a short period between the CRD of the new sentence and the date set for the Day 28 recall review.

7.7.3 Where a recalled prisoner receives a new sentence, the prison is required to provide the details of the sentence to PPCS. The prison will need to inform PPCS, via email, in all cases, where the prisoner has an active recall review on PPUD. This will include all types of recall reviews (including a statutory day 28 review, an oral hearing, a further review or an annual review).

7.7.4 The prison must provide PPCS with the following details:

- the length of the new sentence;
- the offence the sentence was imposed for
- new sentence dates (CRD/SED); and
- confirmation of the SED from the recall sentence (including any unlawfully at large time).

- 7.7.5 The Recalled Prisoner – Notification of New Sentence Form available on EQuIP to download for prisons to complete (detailing the new sentence) and provide to PPCS via email.
- 7.7.6 Upon receipt of the notification, PPCS will determine whether the prisoner is eligible for a Day 28 review. Where the CRD from the new sentence is longer than the scheduled Day 28 review, PPCS will reschedule the review in line with the CRD date. When the CRD from the new sentence is longer than the SED from the recalled sentence, the review will be cancelled and the prisoner will not receive a review of the recall.
- 7.7.7 In cases where the CRD from the new sentence is shorter than the scheduled day 28 review, the review will take place as usual. Where the review is cancelled due to the new sentence or rescheduled, PPCS will notify the prison, who must inform the prisoner within one working day of the notification.
- 7.7.8 In cases where a review is currently underway (this may include adjourned, deferred or cases awaiting an oral hearing), it will be for PPCS to decide whether the review should be cancelled or should proceed. This will be decided on a case-by-case basis. The Parole Board may also decide to conclude the case on the papers.

Part B report

- 7.7.9 All reports provided should be of good quality to ensure that they provide the Parole Board with all information pertaining to the prisoner's risk, plans for progression (in line with their sentence plan) and suitability for release into the community. The information must be up to date, accurate and reliable. HMPPS staff should take a collaborative approach (including close liaison with the VLO), sharing information with other report writers and departments where appropriate, to enable well informed, good quality and timely submission of reports for the Parole Board. Their contents should be supported by evidence, with sources of information noted. Further information is available on the following link.
- 7.7.10 In line with requirement 5.7.7 when report writers create a report for the recall dossier, they are permitted (but not required) to provide the Parole Board with their professional opinion on whether the prisoner is safe to be managed in the community, or moved to open prison conditions, provided that they feel able to give a such an opinion. Any professional opinion which the report writer gives the Board should be made by reference to the report writer's area of competence, as well as to their interactions with the prisoner.
- 7.7.11 HMPPS report writers (including those externally commissioned and written on behalf of HMPPS) must continue to provide a rigorous and comprehensive assessment of the prisoner's risks and needs, using evidence-based tools and applying their professional judgment. Fundamental to the risk/needs assessment will be an account of the activities, interventions, and other work which the prisoner has completed with a view to reducing their risk, as well as a statement of outstanding risk factors. In addition, a full risk management plan should be provided which sets out how specific areas of risk will be managed on release.

- 7.7.12 The Parole Board Rules do not affect the Parole Board's powers to specifically direct that a report writer provides a report which contains an opinion on a prisoner's suitability for release or open conditions. In those circumstances, report writers must comply with the Parole Board's direction to the extent that they feel able to give an opinion. Further guidance is available via this [link](#) on EQuIP.
- 7.7.13 Following the Bailey Judgement¹², since 3rd April 2023, HMPPS witnesses attending an oral hearing (including psychologists externally commissioned by HMPPS) should be mindful that the Parole Board may direct that they provide a professional opinion. Any professional opinion which the witness gives to the Parole Board should be made by reference to their area of competence, in addition to their interactions with the prisoner. HMPPS witnesses must co-operate with the Parole Board and must truthfully answer any questions posed by the Parole Board during the hearing, to the extent that the witness feels capable of providing the Board with an answer. Where the witness feels unable to provide a professional opinion, they should explain why. Witnesses who provide the Parole Board with their opinion should ensure that the opinion presented is their own, and not on behalf of the Secretary of State. The Secretary of State is a party to Parole Board proceedings and may wish to present their own overarching Secretary of State view as to whether or not the statutory release test¹³ is met, or on whether a prisoner should be moved to open conditions, see paragraphs 7.13.14 for further information.
- 7.7.14 The Parole Board Rules provide that, where considered appropriate, the Secretary of State may choose to provide the Parole Board with an overarching Secretary of State view on the prisoner's suitability for release against the statutory release test. This takes account of all reports and available evidence, including any professional opinions offered by report writers pertaining to the prisoner's suitability for release. The Public Protection Group will agree with the Secretary of State which cases meet the criteria for an overarching Secretary of State view. HMPPS Report Writers will be informed at the earliest opportunity where the Secretary of State chooses to provide an overarching Secretary of State view. Where an overarching Secretary of State view is provided, the Secretary of State will be represented at an oral hearing by either a Secretary of State representative or by legal Counsel.
- 7.7.15 HMPPS Reports (including Part B and C reports) must provide any factual evidence which may be pertinent to the criteria for an overarching Secretary of State view, which are:
- The nature and characteristics of the offending are particularly severe and risks damaging public confidence if the prisoner were to be released (e.g., where the victim(s) was a child or vulnerable; or cases with a sadistic or predatory motivation);
 - Cases involving multiple victims or where there is a history of serious offending, indicating a pattern or escalation of such offences;
 - Where the gravity of the offending behaviour indicates that, if further such offences were to be committed, the level of harm to the public would be particularly grave; and
 - Where a case raises issues in relation to victims' confidence more broadly in the parole system.

¹² R. v Bailey [2023] EWHC 821 (Admin)

¹³ From 3rd February 2025 the Victims and Prisoners Act 2024 codified the statutory release test and sets out in legislation some of the factors the Parole Board must consider when making a decision on release.

7.7.16 In the case of Johnson¹⁴, the High Court confirmed that the Parole Board need to consider the risk that a prisoner may pose to the public if they were released from custody, up to and beyond their conditional release date and sentence expiry date (SED). The decision must be taken purely by reference to the need to protect the public. If their assessment is that the prisoner will pose a more than minimal risk of serious harm to the public, then the release test is not met. However, also note, the High Court in Dich and Murphy¹⁵ clarified the test and held there must be a causal link between preventing/reducing risk and continued detention for the release test to be satisfied. This also applies to prisoners who have been recalled to custody. Further information on the Johnson Judgement is available via this link.

7.7.17 This guidance at paragraphs 7.7.9 to 7.7.15 applies to all Part B and C reports, and HMPPS Psychology Reports and other HMPPS commissioned reports.

Statutory Day 28 Parole Board Review

7.7.18 Following the referral of the dossier by PPCS, where the Parole Board have directed an oral hearing or an adjournment/deferral, the Parole Board will be responsible for acquiring all third-party directions, other than in the cases set out at 7.7.16.

7.7.19 Where the Parole Board have directed an oral hearing or an adjournment/deferral, all Parole Board directed HMPPS directions will remain the responsibility of PPCS, including the recompiling of the dossier and disclosing the dossier to all parties. PPCS will retain responsibility for all directions compliance for cases managed by the PPCS National Security Casework Team.

Parole Board Decisions

Release of recalled prisoners (Indeterminate Sentenced Prisoners only)

7.7.20 Where the Parole Board directs the release of a recalled indeterminate sentenced prisoner, PPCS will work with the Probation Practitioner and the releasing prison to ensure that the recalled prisoner is released as soon as possible. This includes contacting the Probation Practitioner to confirm the release arrangements and reporting instructions (the time that the recalled prisoner should report and to whom). This is to ensure the integrity of the release and risk management plan. The Parole Board decision will note the proposals of the prisoner's release which was laid out by the Probation Practitioner in the Part B/C report. This will help manage the release of the prisoner.

7.7.21 Where the Probation Practitioner would like to seek a variation to the licence conditions set by the Parole Board, the Probation Practitioner should provide full details of the amended licence condition wording with reasons for the variation to PPCS. PPCS will then seek a variation.

Other Parole Board Decisions (Indeterminate Sentenced Prisoners only)

7.7.22 Where the Parole Board makes no direction for release on the papers e.g. that the recalled prisoner must stay in closed conditions, the recalled prisoner has 28 calendar days to make representations requesting an oral hearing. The decision will remain provisional until the 28

¹⁴ R. (on the application of Secretary of State for Justice) v The Parole Board [2022] EWHC 1282 (Admin)

¹⁵ R. (on the application of Dich v Parole Board for England and Wales [2023] EWHC 945 (Admin)

calendar days have elapsed, after which the decision will become final (unless the recalled prisoner has successfully requested an oral hearing or an application for reconsideration or set aside has been accepted¹⁶).

- 7.7.23 In these cases, the recalled prisoner's case will then be managed under the Generic Parole Process (GPP), see Generic Parole Process Policy Framework (GPP) for more details.
- 7.7.24 In line with requirement 5.7.35, when informing the prisoner, that the Parole Board has made no direction for release, it is important that prison staff ensure that appropriate support for the prisoner is put in place, where required, to ensure the safety of both the prisoner and staff.
- 7.7.25 If the prisoner is under the care of the Assessment, Care in Custody and Teamwork (ACCT), particular care should be taken when delivering the news. Staff should ensure that there is the appropriate support in place. Staff involved in notifying the prisoner of the decisions must be aware of the possibility that this could lead to self-harm and suicide. It is important to be alert for any signs that the prisoner's risk of harm to themselves or the risk they may become violent to staff or other prisoners has increased. It is important that once difficult decisions are delivered, residential staff have been informed and are aware of the potential safety risks. More details of how to manage these situations are in the Prison Safety Policy Framework.

Release of recalled prisoners (Determinate Sentenced Prisoners only)

- 7.7.26 The Police, Crime, Sentencing and Courts (PCSC) Act 2022 removed the Parole Board's power to direct immediate or forward release decisions for recalled determinate sentenced prisoners.
- 7.7.27 Where the Parole Board directs the release of a recalled determinate sentenced prisoner, the releasing prison will work with the Probation Practitioner to ensure that the recalled prisoner is released as soon as possible. This includes contacting the Probation Practitioner to confirm the release arrangements and reporting instructions (the time that the recalled prisoner should report and to whom). This is to ensure the integrity of the release and risk management plan. The Parole Board decision will note the proposals of the prisoner's release which was laid out by the Probation Practitioner in the Part B/C report. This will help manage the release of the prisoner.
- 7.7.28 Where the Probation Practitioner would like to seek a variation to the licence conditions set by the Parole Board, the Probation Practitioner should provide full details of the amended licence condition wording with reasons for the variation to PPCS. PPCS will then seek a variation.

Other Parole Board Decisions (Determinate Sentenced Prisoners only)

- 7.7.29 Where the Parole Board make no direction to release a determinate sentenced prisoner, the recalled prisoner may be entitled to further statutory reviews as set out in the guidance (see Further Review chapter 7.11 and Annual Reviews chapter 7.12).
- 7.7.30 In line with requirement 5.7.44, when informing the prisoner that the Parole Board has made a negative decision, staff must ensure that appropriate support for the prisoner is put in place, where required, to ensure the safety of both the prisoner and staff.

¹⁶ Rules 28/28A Parole Board Rules

- 7.7.31 Prison staff should be aware if the prisoner is under the care of Assessment, Care in Custody and Teamwork (ACCT), particular care should be taken when delivering the news staff should ensure that there is the appropriate support in place.

7.8 Fixed Term Recall – Review and Re-Release

- 7.8.1 Fixed term recalled prisoners' cases are only referred to the Parole Board in cases where the recalled prisoner submits representations before the end of the fixed term period. The Probation Practitioner should provide a Part B report, where they are supporting release, or the recalled prisoner wishes to submit representations to the Parole Board.

7.9 HDC Curfew Breach – Appeal Process

Release from HDC Curfew Breach

- 7.9.1 Prisoners recalled under section 255(1)(a) of CJA 2003 become statutorily ineligible for future release on HDC where they were still serving a recall at any point during the two years immediately prior to the start of the current sentence. This does not prevent them making representations in respect of the recall decision. If successful and the revocation is cancelled under section 255(3) of the CJA 2003, this exclusion on future release on HDC no longer applies. Further information is available in Home Detention Curfew Policy Framework.
- 7.9.2 Prisoners recalled under section 255 (1) (b) of CJA 2003 because compliance with their curfew could no longer be electronically monitored (usually because they have lost their address) can apply to be re-released on HDC if suitable arrangements can be made. Further information is available in Home Detention Curfew Policy Framework.
- ## 7.10 Release following Risk Assessed Recall Review
- 7.10.1 The Secretary of State has the power to release, following a risk assessed recall review, determinate sentence, IPP/DPP and extended sentence prisoners into the community subject to licensed supervision at any time during the recall period. PPCS or, in the case of an offender serving an IPP or DPP sentence, the Public Protection Group Director, will make the RARR re-release decision on behalf of the Secretary of State. In deciding to re-release the recalled offender, the Secretary of State must be satisfied that the statutory re-release test (that it is not necessary for the protection of the public for the offender to remain in prison) has been met so that the recalled prisoner's RoSH can be safely managed in the community.
- 7.10.2 The Victims and Prisoners Act 2024¹⁷ which provides a power for the Secretary of State to release recalled IPP and DPP prisoners into the community following a risk assessed recall review subject to licensed supervision at any time during the recall period. The provision excludes those serving a life sentence, for further information please refer to the Probation Practitioners IPP/DPP risk assessed recall review guidance.

¹⁷ Inserted section 32ZZA into the Crime (Sentences) Act 1997

Disapplying an IPP/DPP Recall

- 7.10.3 The Victims and Prisoners Act 2024¹⁸ introduced a power for the Secretary of State to disapply the effect of a recall of an IPP/DPP prisoner on the two-year qualifying period for automatic licence termination. This can be considered where an IPP/DPP prisoner has met the applicable qualifying period which triggers the duty to refer a case to the Parole Board for consideration of licence termination (3 years for IPP and 2 years for DPP following first release) prior to being re-released. The provision excludes those serving a life sentence. For further information, refer to the Probation Practitioners risk assessed review for release guidance.
- 7.10.4 Where PPCS, on behalf of the Secretary of State, decide to disapply the effect of the recall on the two-year automatic licence termination period, the licence will be treated as if it had remained in force while the prisoner was recalled. This means that the prisoner will only serve the rest of the qualifying two-year period, rather than this period restarting. Further information on automatic licence termination is available in the Supervision of Indeterminate Sentences Policy Framework.
- 7.10.5 A recall can only be disappplied for the two-year automatic licence termination period and not for the qualifying period to referral to the Parole Board for consideration on termination.
- 7.10.6 PPCS on behalf of the Secretary of State may only use this power where it is considered that it is in the interests of justice to do so.
- 7.10.7 Prisoners (or their legal representatives) can apply to the PPCS for the recall to be disappplied. In these cases, PPCS will request a view from the Probation Practitioner before making a decision.
- 7.11 Further Review
- 7.11.1 If the recalled prisoner's sentence expiry date is 13 months or more from the date of the Parole Board decision not to release, the case will be set for a statutory annual review which will take place 12 months from the date of the decision.
- 7.11.2 If the recalled prisoner's sentence expiry date is less than 13 months from the date of the Parole Board decision not to release, the recalled prisoner will remain in custody until their Sentence Expiry Date unless re-released at an earlier date by the Parole Board or the Secretary of State.
- 7.11.3 The Probation Practitioner is responsible for ensuring that a recalled determinate sentenced prisoner's ongoing detention is reviewed regularly. The review of a recalled determinate sentenced prisoner's ongoing detention should be completed in line with the Best Practice Guidance: working with recalled prisoners attached at Annex A of this Framework. There is no requirement on the Probation Practitioner to wait for a request from PPCS.
- 7.11.4 If the recalled prisoner is the subject of police investigations into alleged further offending or has outstanding court matters when the Parole Board make a decision not to release, PPCS will await notification from the Probation Practitioner advising them of the outcome of those investigations or proceedings before determining whether a further review will take place. It should be noted though that, as laid out in paragraph 7.11.1, where the recalled prisoner's case is eligible for a statutory annual review, the case must proceed to the

¹⁸ Amended section 31A of the Crime (Sentences) Act 1997

annual review and will not be delayed due to alleged further offending or outstanding court matters.

- 7.11.5 If any new or significant information comes to light that the Parole Board was not aware of when it made its decision, this must be provided to PPCS in an updated Part C report; in cases where release has not been directed PPCS will then take a decision as to whether a further review of the case is appropriate either by release following a risk assessed recall review, or a new early referral to the Parole Board. However, if the direction is for release, then it must be complied with and there can be no further referral to the Parole Board. New or significant information includes any information relating to further sentences of imprisonment, not guilty decisions at court or charges not being proceeded with.
- 7.11.6 Where the prisoner considers that there is new or significant information in their case that the Parole Board was not aware of when it made its last decision, this should be provided to the Probation Practitioner in written or oral representations. The Probation Practitioner will review and decide whether the representations refer to any new and significant developments, unknown at the time of the previous review, which might have a material effect upon the Parole Board decision. Where representations are received directly by PPCS, these will be forwarded to the Probation Practitioner to allow them to consider whether they constitute new or significant information that impacts on the prisoner's current risks and manageability in the community.
- 7.11.7 When reviewing the representations from the prisoner, the Probation Practitioner should consider:
- Do the representations provide any new significant and relevant information that the Parole Board were not aware of when considering the case?
 - Do the representations inform or update the Parole Board about the prisoner's current risks or circumstances leading to the recall?
 - Do the recommendations directly address any of the concerns the Parole Board raised in its reasons for not directing that the prisoner be re-released?
- 7.11.8 Where the Probation Practitioner considers that the representations do include new or significant information, the Probation Practitioner will prepare a Part C report and OASys report and submit these to PPCS. PPCS will then take a decision as to whether a further review of the case is appropriate either by release following a risk assessed recall review, or a new early referral to the Parole Board.
- 7.11.9 Where the case is referred to the Parole Board, all parties should refer to paragraph 7.7.2 in the Standard Recall – Statutory Day 28 Review chapter.

7.12 Annual Review

Annual Reviews and New Sentences

- 7.12.1 Section 256AZA Criminal Justice Act 2003 provides that where a recalled prisoner has received a new sentence, they will no longer be automatically eligible for an annual review for as long as that sentence being served.
- 7.12.2 Where a recalled prisoner receives a new sentence, the prison is required to provide the details of the sentence to PPCS. The prison will need to inform PPCS, via email, in all cases, where the prisoner has an active recall review on PPUD. This will include all types of recall reviews (including a statutory day 28 review, an oral hearing, a further review, or an annual review).

7.12.3 The prison must provide PPCS with the following details:

- the length of the new sentence;
- the offence the sentence was imposed for;
- new sentence dates (CRD/SED); and
- confirmation of the SED from the recall sentence.

7.12.4 Upon receipt of the notification, PPCS will determine whether the prisoner is eligible for an annual review. Where the CRD from the new sentence is longer than the anniversary date of the annual review, PPCS will reschedule the annual review in line with the CRD date. When the CRD from the new sentence is longer than the SED from the recalled sentence, the prisoner will not receive an annual review.

7.12.5 In cases where the CRD from the new sentence is shorter than the anniversary date of the annual review, the annual review will take place as usual. Where the annual review is cancelled due to the new sentence or rescheduled, PPCS will notify the prison.

7.12.6 In cases where the annual review is currently underway, it will be for PPCS to decide whether the annual review should be cancelled or should proceed. This will be decided on a case-by-case basis.

7.13 Parole Board Oral Hearings

Directions

7.13.1 The Parole Board will be responsible for acquiring all third-party directions, as set out in the Third-Party Directions Protocol, other than in the cases set out at 7.13.2. Information and reports that are intrinsic to the Risk Management Plan will also remain the responsibility of PPCS.

7.13.2 All Parole Board directed HMPPS directions will remain the responsibility of PPCS, including the recompiling of the dossier and disclosing the dossier to all parties. PPCS will liaise with all relevant parties to ensure that the directed reports are submitted within the timescales set. However, HMPPS report writers retain responsibility for managing their own deadlines and providing reports on time. PPCS will retain responsibility for all directions compliance in terrorist and high-profile cases, managed by the PPCS National Security Casework Team.

7.13.3 As set out in 5.13.25 and 5.13.27, in indeterminate recalled cases only, the HMPPS directed reports will be uploaded to PPUD and an automatic email will be issued by PPUD notifying all parties that the new report is available. All parties should access the new document through PPUD. PPCS should be alerted immediately if there are any issues. For Probation Service/ YJS cases, the automatic email will be issued to the division's functional mailbox.

Parole Board Oral Hearing Witnesses

7.13.4 The attendance of witnesses at an oral hearing is a matter for the Parole Board. Each party (i.e. the prisoner and Secretary of State) must apply in writing to the Parole Board (copied into the other parties) for leave to call witnesses. A witness may only attend if directed to do so by the Parole Board.

7.13.5 The Parole Board will contact all witnesses who have been directed to attend the hearing to ascertain their availability, so that this can be taken into account when the hearing is listed.

It is important that witnesses provide their availability direct to the Parole Board within the deadline set. The Parole Board is not bound by witness availabilities.

- 7.13.6 Witnesses not based at the prison where the hearing is being held are encouraged to apply to give their evidence by video-link or telephone conference wherever possible in order to reduce travel expenses and improve efficiency by reducing time spent out of the office.
- 7.13.7 Where a person wishes to attend an oral hearing as an observer, an application should be made via PPCS to the Parole Board in writing no later than 8 weeks before the oral hearing date. This request will be considered by the panel chair, who will agree or refuse any such request. The Parole Board will consult with the recalled prisoner prior to agreeing or refusing any such request.

Transfer during an Oral Hearing

- 7.13.8 Transferring a recalled prisoner during a review can cause considerable disruption and therefore this should only take place in exceptional circumstances. This may be appropriate, for example, where it is necessary to transfer the recalled prisoner to complete offending behaviour work, or for security or discipline reasons.
- 7.13.9 Where prisons are considering a transfer during a recall review to allow the prisoner to access a progression opportunity in line with their sentence plan, there must be a clear benefit which will support the delivery of their sentence plan objectives. It is important to bear in mind the impact that a transfer during a parole review may have on the prisoner's review.
- 7.13.10 As set out in the requirement section at paragraph 5.13.67 the sending prison must take responsibility for completing any outstanding directions as it will normally have greater knowledge of the recalled prisoner. Exceptionally, there may be cases where the receiving prison is better placed to complete the reports.
- 7.13.11 Only in cases where both prisons are in agreement, will the receiving prison take over responsibility for completing the reports.
- 7.13.12 If such an agreement cannot be obtained then the sending prison must complete the reports.
- 7.13.13 Prisons should make every effort to ensure that recalled ISPs' outstanding sentence plan requirements are considered as soon after a Parole Board decision as possible. This is to enable any necessary transfers to undertake outstanding interventions/ROTLs to take place before the next parole review commences. In circumstances where a transfer to access outstanding interventions/ROTLs is necessary to support progression during a parole review (but not after an oral hearing date is set) the transfer should be facilitated.

Secretary of State Representation

- 7.13.14 PPCS will consider sending a Secretary of State Representative to attend an oral hearing but only where representation is required.
- 7.13.15 Where PPCS deem it appropriate for a Secretary of State Representative to attend, they will inform the prison and the Parole Board who the representative will be in advance of the hearing.
- 7.13.16 Further to the requirement at 5.7.8, which sets out the amendment to the Parole Board Rules 2019, where considered appropriate, the Secretary of State may choose to provide

the Parole Board with an overarching Secretary of State view which takes account of all reports and available evidence, including any professional opinions offered by report writers. Where an overarching Secretary of State view is provided, the Secretary of State will be represented at any oral hearing by either a Secretary of State representative or by Counsel.

7.13.17 In addition, and entirely separate to the above, HMPPS (via the Secretary of State Victim Support Representative) also provides support to victims who choose to attend an oral hearing in order to read a Victim Personal Statement (VPS).

7.14 Recalled Prisoners detained under the Mental Health Act (1983)

7.14.1 Recalled prisoners transferred under the provisions of the Mental Health Act (1983) (MHA) will not be referred to the Parole Board for review for as long as they are deemed to have a mental disorder which requires in-patient hospital treatment and as such are detained in hospital under the MHA. While time spent in hospital counts towards the sentence, in the event that a prisoner is transferred to hospital during any part of the recall review process, that review will be suspended. While detained in hospital, the Secretary of State's functions under the MHA, including consideration of the prisoner's (now a patient) discharge from hospital, are exercised on behalf of the Secretary of State by the Mental Health Casework Section (MHCS) in the Public Protection Group of HMPPS.

7.14.2 Recalled prisoners may be transferred to hospital by order of the Secretary of State at any point prior to their re-release on licence (under s.47 Mental Health Act 1983). A s.47 transfer direction is often accompanied by a s.49 restriction direction, which places key aspects of the prisoner's time in hospital under the control of the Secretary of State.

7.14.3 The power to send a prisoner to hospital under s.47 may be exercised where the Secretary of State is satisfied (on the evidence from two registered medical practitioners) that:

- the prisoner is suffering from a mental disorder;
- detention in hospital for treatment is appropriate; and
- that appropriate treatment is available for them in hospital

7.14.4 A transferred prisoner's detention in hospital under MHA is subject to regular reviews by the 'First Tier Tribunal – Health, Education and Social Care Chamber' and the Mental Health Review Tribunal for Wales ('the Tribunal'). Transferred prisoners may apply to the Tribunal during the second six months of their time in hospital and once in any period of 12 months thereafter. MHCS will automatically refer a restricted patient to the Tribunal after any three-year period during which the patient has been continuously detained in hospital and has not had their case considered by the Tribunal.

7.14.5 Where a transfer direction (with a restriction direction) has been made, if the Secretary of State is notified by the responsible clinician or other approved clinician that the prisoner no longer requires treatment in hospital for mental disorder or that no effective treatment can be given, the Secretary of State may remit the prisoner back to prison under s.50 of the MHA.

7.14.6 The Tribunal cannot order the discharge of a s47/49 transferred prisoner, the power to do this sits with the Secretary of State. Once the prisoner no longer needs treatment, the Responsible Clinician or the Tribunal will notify the Secretary of State of this, and if the

Secretary of State does not agree to discharge they will be remitted to prison or, if the Tribunal recommends a conditional discharge but considers that returning to prison might compromise the prisoner's mental health, the Tribunal can recommend the prisoner remains in hospital pending the outcome of the Parole Board review. This is known as a section 74(1)(b) recommendation. Where an indeterminate sentenced patient (or an extended sentence/sentence for offenders of particular concern offender detained in hospital during their parole eligibility or licence period) has received a 74(1)(b) recommendation and the Secretary of State accepts the recommendation to keep them in hospital, they must have a Parole Board hearing as soon as possible.

Unrestricted Patients

- 7.14.7 As mentioned at 7.14.2, a s.47 transfer direction is often accompanied by a s.49 restriction direction, so that the offender/patients case is overseen by MHCS. Where a s49 restriction order is not imposed, the patient will be 'unrestricted' which means there is no oversight by MHCS, and the hospital is responsible for the management of the patient. There will be no further involvement from the prison once the patient has reached their CRD/SED. The only normal exception to this is where the prisoner is approaching their CRD. Recalled determinate sentenced prisoners will not have a CRD date by virtue of their recalled status and in these cases, the SED would be the date used to ascertain whether a s49 restriction order can be imposed. Where the SED is approaching, normally a s49 restriction order will not be imposed.
- 7.14.8 There may also be rare cases where a fixed term recalled prisoner is transferred to hospital, where this were to happen, the Secretary of State may decide not to impose a s49 restriction order given the short period until their release at the end of the automatic period. Indeterminate sentenced recalled prisoners will always be transferred as a restricted patient.
- 7.14.9 In the majority of cases, where a recalled determinate sentenced prisoner is transferred on a section 47/49, they will remain a restricted patient until they reach their SED date (or the end of the automatic period for fixed term recall cases), at which point the Restriction Order falls away. They may still be detained at the hospital, but only as an unrestricted patient.

Reports for the Parole Board

- 7.14.10 Section 117 of the Mental Health Act 1983 requires Integrated Care Boards (ICB's) and local authorities, in co-operation with health and social care providers and voluntary agencies, to provide or arrange for the provision of aftercare to particular patients detained in hospital for treatment who then cease to be detained. Probation Practitioners should be aware of the prisoners right to aftercare provisions and incorporate any which have been put in place when preparing reports for the Parole Board. Any available information on aftercare provisions should be included to ensure that the Parole Board is in receipt of all necessary information to make a decision on release.
