Dear Planning Inspectorate,

I wish to register my strong objection to the above application.

The application appears to take no account of the established Rights of Way crossing the site.

The appearance of the 8 huge CCTV towers with powerful lighting would seem more in place in a Prison environment than a wonderful historic Parkland setting which is much loved not only by the local community but also by the many sports clubs that have safely used the site entirely unfenced & unobserved by CCTV, for many decades.

It is not only a question of size, or the sheer excessive numbers of cameras, or the despoiling of the visual amenity, but the grossly intrusive surveillance on ordinary law abiding people's privacy.

The scope of the CCTV makes it possible to overlook the children's play area & also to look into peoples houses surrounding the site. This is unacceptable.

I would point out that an earlier application was refused for one CCTV installation. How on earth could an application for multiple larger CCTV installations remotely be considered.

Big Brother seems very much closer!

Please reject the application. Thank you.

Michael & Orynthia Sheehan
