Dear Sir,

I strongly object to Cotham School's application to install eight 6m tall towers with CCTV cameras mounted on all of them around the Stoke Lodge Playing Fields in Bristol.

Stoke Lodge is for all local community activities as well as occasional use by Cotham School for sports. The recently erected 6ft fence all around the Fields and now the possibility of these 6m tall towers with intrusive 360 degree cameras will spoil a beautiful green space and look more like some sort of military facility with keep out signs. It is an invasion of privacy of local people and especially for those living nearby whose gardens back on to Stoke Lodge.  
This is so unnecessary.

I further object to and worry about any photos of me, my children & grandchildren simply walking there being recorded and stored by this school and used in who knows what way and by whom at some time in the future.

Please reject this application.

Sheila Holmes
