1. Welcome & Introduction from Chair	a. Apologies as listed above. b. SB, SH and KH have been given short extensions. MJ to contact those members from whom we have not heard for some to affirm their intention to continue so that they may be removed from the distribution if necessary. There was no change to the current stance on recruitment.	MJ
2. National/ Regional level issues	<p>a. Report to Minister, OVA meetings and future of VAPCs. Lots of work had been done to produce a report for the Minister and this had been submitted. MJ felt that if there is no positive intent to integrate the VAPCs with Op Valour then there is little point in continuing. SB commented that the submission of the paper had not been straightforward. After the original face to face meeting, a draft had been produced. A first meeting with the OVA had not been constructive. At a second meeting, it was revealed that 30 valour regional field officers were to be created but these were not going to be veteran facing but rather to gather strategic intelligence for the OVA. The due date of the VAPC paper was not confirmed but assumed to be 3 Jun. Another draft was produced after further consultation and the due date then changed to 30 Jun. Then the paper was asked for by 20 Jun for the OVA to comment on it by 30 Jun. SB asked for a third meeting at which it was clear there was still no agreement over what the paper should contain. However, the discussion did agree that they would try to ensure that the genuine requirement for the VAPC was not ignored. A hard copy of the final paper was sent to the Minister by recorded delivery but there is a concern that it would not necessarily even be put before the Minister. SB has sent a personal letter to the Minister, however despite acknowledgement from the outer office, SB is still not convinced that the Minister has read any of it.</p> <p><u>Discussion:</u></p> <ul style="list-style-type: none"> • BG thanked SB and the UKCVC for their hard work. • SB reported that there are other persons of influence that can be written to if the need arose. 	

	<ul style="list-style-type: none"> DH asked how the Thrive Together delivery fits into the Op Valour model – there is no clarity on the structure at present and devolution is also a complicating factor as local authorities evolve and restructure. <p>b. Provides no member/stakeholder direction or holding to account. Drive comes from 3 Sub Gp Leads: Housing, Health and Education. Lack of proactivity and drive evident in Herts model of delivery ie no dedicated Covenant Lead. No consequences of lack of Champion engagement. Increasing focus on cadet activities despite cadets not being part of the AFC. Caused by RFCA to their own ends and not respecting the remit of the Board. HCC chairs seems happy to allow it. Lack of engagement by most Armed Forces Champions. Not seen as important except where individuals have a reason to care personally.
