(B) Estimated notional Budget impact, as calculated by NESO, the Delivery Body, according to the Contract for Difference Allocation Framework dated 23 July 2025, presuming all offered contracts are accepted by pot and technology (2024 prices).

Notional includes any negative values. For example, if the awarded final strike price was lower than the reference price then this would have a negative value for that technology group.

(C) Estimated actual Budget impact, as calculated by NESO, the Delivery Body, according to the Contract for Difference Allocation Framework dated 23 July 2025, presuming all offered contracts are accepted by pot and technology (2024 prices).

Actual budget impact includes the values set at zero which would have been negative.
