

National Commission into the Regulation of AI in Healthcare - Working Groups

The National Commission into the Regulation of AI in Healthcare is an expert, non-statutory advisory body established by the MHRA to review current regulations and provide recommendations for a new regulatory framework for AI in healthcare.

The Commission is supported by Working Groups that bring together specialist insight from across government, the health and care system, industry, and partners across the four nations. The following lists represent organisations represented by members of the Working Groups. Where members have several affiliations, only the primary organisation is listed.
