

# Summary of questions included in the DESNZ Public Attitudes Tracker, Autumn 2021 to Winter 2025

12 March 2026

The table below summarises the questions included in the Public Attitudes Tracker since the new time series was started in Autumn 2021.

The section headings relate to the topic reports in which the results are summarised.

Only questions relating to policies under the remit of the Department for Energy Security and Net Zero (DESNZ) are included. For results on topics such as consumer issues and workers' rights, which were included when the survey was run by the Department for Business, Energy and Industrial Strategy (BEIS), see the releases for waves up to Spring 2023. New questions asked in Winter 2025 are highlighted in yellow.
