Summary / Overview of the amendment to explain/ensure that the reader understands: the rationale for the amendment; the major changes; and, importantly, the full context (including desired outcome) of the amendment.

**The Regulated Community is reminded to check this amendment against any applicable AAMC, Waivers or Exemptions to ensure their ongoing validity.**

Issue 10 of RA2130 contains major changes to Annex A. These changes have been introduced to simplify the table and provide greater latitude to the risk holders.

The term Emergency Breathing Device (EBS) has been introduced, which includes but is not

limited to STASS.

Underwater escape training drills have been removed for Fixed Wing with Ejection Seats.

Winching periodicities have been amended in line with SME advice and guidance.

Sea/EPT life raft drill periodicities have been reviewed and a maximum periodicity provided to give more latitude to the ADH / AM(MF) when implementing their own platforms' training requirements.
