Risk Level	High
Risk Type	Fire
Risk Description	<p>The product presents a high risk of fire because it has poor quality internal soldering and wires soldered directly to the PCB. If it is dropped or knocked, which is likely as a portable lithium battery product, the internal wiring may loosen. This could lead to the battery overheating and catching fire and/or exploding. Improvements are also required to product marking and labelling.</p> <p>The product does not meet the requirements of the General Product Safety Regulations 2005.</p>
Corrective Measures	The import has been rejected at the border.
