

DeWALT Full Face Respirator	
Aspect	Details
Images	 
PSD Number	2603-0136
Product Type	Personal Protective Equipment (PPE) - Environmental Respiratory Protection - Non-Powered
Product Identifiers	Brand: DeWalt Model: 1600-008 For a full list of product identifiers, please see Annex A.
Product Description	Reusable non powered respirator with a range of filters. The product provides protection against industrial pollutants in the air.
Country of Origin	United Kingdom
Counterfeit	No
Risk Level	Medium
Risk Type	Health Risk
Risk Description	<p>The product presents a risk as cracking or fracturing in the area of the exhalation valve may compromise the structural integrity and sealing performance of the respirator, thereby reducing its effectiveness. As a result, the wearer may be exposed to hazardous airborne particles, fumes, or other contaminants due to inadequate respiratory protection, which may lead to adverse effects on respiratory health.</p> <p>The product does not comply with the Personal Protective Equipment (PPE) Regulation nor with European standard EN 149.</p>
Corrective Measures	The product has been recalled from distributors by Helmet Integrated Systems Ltd. For further information, please access: DeWalt Recall
Online Marketplace	N/A
Notifier	Health and Safety Executive
