Supplementary Information

Which markets are the institution primarily recruiting from? Is the institution's recruitment strategy available to include?

Have there been increases in recruitment from particular regions?

Is there any shift in the recruitment to particular courses? Is there a focus on post or undergraduates?

Are these recruited via agents, in country staff or natural recruitment?

Is there a specific element which has driven the recruitment? If unrelated to the institution's planned recruitment strategy please provide detail.

Have there been any changes to existing arrangements that have influenced recruitment, or any newly proposed ones?

What is the international student body compared to UK student body?

In relation to the referenced Study sector briefs please confirm what actions the institution takes to reduce:

- a. The 5 main reasons for refusal?**
- b. Other measures to reduce recruitment risks?**

What intakes does the institution have? How many CAS are forecast to be required for each intake?

If requesting a significant increase on previous years' allocations, what has the institution done to ensure enrolment and engagement can still be effectively monitored? How will they manage student attendance, teaching delivery, etc.

If requesting a significant increase on previous years' allocations, please confirm that the institution has the capacity to accommodate the additional students (including teaching facilities and wider supporting infrastructure such as available accommodation)?

For HEP Sponsors with a track record of compliance only

Will 21%- 40% of any course content, at degree level or above, be delivered remotely?

Yes:

No:

List of courses which will be delivered over 21% remotely. (Please note each course should be listed separately with its own justification):

Please list all previously agreed remote delivery (21%-40%) courses which are still running:

Please list all previously agreed remote delivery (21%-40%) courses which have been concluded and are no longer offered:
