

The Bluetongue Regulations 2008 (as amended)
The Bluetongue (Wales) Regulations 2008 (as amended)

Movement of Animals (Restrictions) (England) Order 2002 (as amended)

Form requesting information for movement from the Bluetongue Restriction Zone to Scotland to live

Outlined supporting evidence must accompany the animals and checks will be made against this form.

Information within this form and associated evidence of a negative PCR test or evidence of vaccine purchase and administration or insecticide treatment will form an information pack that will be checked to confirm conditions of the general movement licence have been met.

Requests to move animals from the Bluetongue Restricted Zone to Scotland to live require either a valid pre-movement test or, in the case of cattle only, completed vaccination course with the Bultavo-3 vaccine. For cattle that meet the vaccination requirements for movement, the licence will only be valid from 21 days after the second vaccine dose. All requests for movement of sheep require them to be pre-movement tested, even if they are vaccinated. It is not advisable to test an animal within 7 days of any Bluetongue vaccination having been administered.

PART 1: Background information – to be completed by all applicants

Premises of origin: (name and address)	
CPH:	

Please read the statements below to determine which applies to your movement application. Tick one box below and then complete Part 2 and/or 3. These are required to demonstrate your compliance with the licence conditions for the animals you are seeking approval to move:

- a) I am applying to move the animals listed below with a valid pre-movement test. The animals moved have received negative laboratory test result(s). Evidence of these results has been uploaded and a physical copy accompanies the animals moving. The samples for the laboratory tests were collected no longer than 7 calendar days prior to this movement to Scotland. The animals were treated with a pyrethroid insecticide drench within 7 days of the movement to Scotland.

Please now go to and complete Part 2 only.

- b) I am moving cattle vaccinated with the Bultavo-3 vaccine, and 21 days has elapsed since the second dose of vaccine, and a booster dose has been administered if 12 months has elapsed following completion of the primary course. I have uploaded evidence and provided a physical copy to accompany animals of:

- purchase of 'Bultavo-3' vaccine (copy of invoice)
- the dates the vaccine doses were administered (copy/screenshot of medicine records)

Please now go to and complete Part 3 only.

- c) I am moving animals that comply with a combination of requirements a) and b)

Please now go to and complete Parts 2 and 3.

Signature

Applicant's name and
position in block letters

Date

I can confirm I have completed all relevant sections and all the information provided in this form is correct and accurate to the best of my knowledge.

PART 3: Vaccination status information

Provide a description of the animal(s), the animal(s) identification, vaccine used and dates on which doses were administered to cattle vaccinated with 'Bultavo-3'.

Evidence of purchase of bultavo-3 vaccine (invoice) and the dates the vaccine doses were administered (copy/screenshot of medicine records) must accompany animals.

Description (species, breed, purpose)	ID Number (ear tag)	Date and batch number of 1 st dose	Date and batch number of 2 nd dose	Date of booster dose
Total number of animals exempt from pre-movement testing due to vaccination:				

Tick if you need to continue Part 3 on a separate page.

Using and sharing your information
