

Quarterly Procurement Pipeline

Financial Year: 2026 to 2027
Reporting Quarter: Quarter 1 (April -June)
Report Date: 01 June 2026

About this document

This document provides information on planned and upcoming procurement activity with an estimated value of £100,000 or above. The pipeline is published to give suppliers early visibility of potential opportunities and to support market preparation and engagement.

All information included is indicative and subject to change. The inclusion of a requirement in this pipeline does not commit the organisation to commencing a procurement or awarding a contract.

Definitions

The following definitions explain the information presented in the procurement pipeline (Tab 2).

Reference: A unique identifier for each procurement activity.

Title: A short name describing the procurement requirement.

Category: The business area associated with the procurement.

Description: A summary of the goods, services, or works to be procured.

Procurement route: The intended procurement method, such as use of a framework agreement, open competition, or direct award.

Estimated value (£): The anticipated total value of the contract, excluding VAT. *Values are indicative and may change.*

Contract start date: The planned date when the contract is expected to commence.

Contract end date: The planned date when the contract is expected to end.

Contact name: The named individual responsible for the procurement or supplier enquiries.

Contact email: The email address for supplier enquiries related to the procurement.

Procurement Pipeline: 01 June 2026
