Introduction

This document provides the table and field definitions that will be available in the downloadable database produced from the Learning Aim Reference Service (LARS). To allow structural changes to the LARS database within an academic year the downloads will be identified by a version number. This document describes version '012' which will apply from 1 August 2026. Version '011' will still be produced until the end of the 2025 to 2026 collection year in October 2026.

For software suppliers and providers that write their own software this issue is a draft version. This version may be subject to change prior to finalisation depending upon 2026 to 2027 requirements.

Available versions of LARS for download can be found on the [FALA Download](#) page.

This document identifies two categories of tables:

- core tables – these hold the main ('base') details relating to learning aims, apprenticeship frameworks, apprenticeship standards, validity rules (for when the record is available for funding) and funding rates
- reference tables – these hold details of the reference data used within the core tables

Changes from the 2025 to 2026 version

This section outlines the changes that have been made from the 2025 to 2026 funding year structure.

Renamed tables in version 012's structure

We have not renamed any tables for version '012'.
