| Risk Description       | <p>The product presents a serious risk of choking as the eggs and plastic toys are small parts that fit entirely within a small parts cylinder. These small parts pose a choking risk to young children, particularly those under 36 months of age who have a natural tendency to explore objects by placing them in their mouths. The eggs also resemble foil-wrapped chocolate, increasing the likelihood that small children may mistake them for edible items.</p> <p>The product does not meet the requirements of the Toys (Safety) Regulations 2011.</p> |
