

ANNEX I

ACKNOWLEDGEMENT BY THE CONSIGNOR OR HIS AUTHORISED AGENT

I, _____, (name) hereby acknowledge the following:

- (a) In the event of the horse identified in SECTION I of this Horse Information Document, arriving in Japan without the correct certification or in any other way not having met these requirements, the horse and any in-contact horse or thing may be detained in isolation, reshipped at the importer's expense or destroyed and disposed of at the importer's expense.
- (b) The horse must remain only in an isolation zone (including isolation stalls and clinic) in the venue of the equestrian events of the 20th Asian Games, except during approved transport, training and competition until re-export.
- (c) The duration of stay in Japan must not exceed 40 days unless approved by MAFF.
- (d) Whilst in isolation in Japan the horse may be subject to any testing or any treatment prescribed by MAFF.
- (e) If the horse fails a test or shows signs of disease that horse and any in-contact horses may be detained in isolation for further testing and/or observation or exported or destroyed and disposed of without recompense.
- (f) All the equipment, places for rest, containers and vehicles used for the transportation of horses from PEQ to Japan were cleaned and disinfected with a disinfectant approved by the competent authority.
- (g) The horse must be loaded in a tick free or tick treated area¹.
- (h) The horse has not come into contact with any equine animal other than horses which are eligible to participate in the 20th Asian Games.
- (i) The horse must be moved directly from PEQ to the airport of departure.
- (j) Feed and litter for the transportation must be from the same source as the PEQ. No feed or litter to be added from other sources during the journey.

This page must be endorsed with the certifying government veterinarian's signature and official stamp using a color other than black.

¹ "Tick free area" is the area where the competent authority can certify there is no tick by conducting the tick-surveillance, while "tick treated area" is the area where the measure to prevent the presence of ticks have been conducted even though the tick surveillance is not conducted. Specific measures are indicated in SECTION VIII (h).
