

Baby Neck Floats	
Aspect	Details
Images	
PSD Number	2606-0175
Product Type	Hobby/sports equipment - Swimming Training Aids
Product Identifiers	No identifiers available. The images shown are representative examples.
Product Description	Baby floats designed to be worn around or secured to an infant's neck, where the infant's head is supported by the float while the body remains suspended in the water. This includes inflatable neck rings and similar neck-support flotation devices marketed for babies or infants.
Country of Origin	China
Counterfeit	No
Risk Level	Unknown
Risk Type	Drowning
Risk Description	<p>These products present a risk of drowning as they may place inappropriate pressure on the infant's neck and may restrict normal movement or airway positioning. They may also increase the risk of the infant slipping through, becoming trapped, overturning, or being left in an unsafe floating position, potentially resulting in neck injury, asphyxiation, drowning, or other serious harm.</p> <p>The products do not meet the requirements of the General Product Safety Regulations 2005.</p>
Corrective Measures	<p>The products have been recalled by TikTok.</p> <p>Consumers should immediately stop using the recalled items and contact their place of purchase for redress.</p>
Online Marketplace	TikTok – The listing has been removed by the online marketplace.
Notifier	Office for Product Safety and Standards
