

## Medicines & Healthcare products Regulatory Agency

### **Posts available for the Review Panel (RP)**

The Medicines and Healthcare Products Regulation Agency (MHRA) is seeking to appoint an expert in Good Manufacturing Practices (GMP) and Good Distribution Practices (GDP) requirements in relation to proposed regulatory action against a manufacturing or wholesale licence which has been referred to the Review Panel.

The purpose of the Review Panel is to hear oral representations, in accordance with the legislation, from licence holders who disagree with a proposed decision made by the MHRA. The Review Panel members are greatly appreciated for making their professional expertise available for a public service role that carries out statutory and non-statutory reviews of proposals, decisions and provisional decisions taken by Medicines and Healthcare Products Regulatory Agency.

The Review Panel became a departmental expert committee on 1 November 2012 as a result of the Arm's Length Body (ALB) Review in 2010.

The terms of reference for the Review Panel (MHRA) are to:

- review the provisional determinations made by the Medicines and Healthcare Products Regulatory Agency (MHRA) concerning the classification of a product as a medicine
- perform the role of the 'reviewers' in relation to decisions or proposals made by the MHRA related to the grant, renewal, revocation, suspension, refusal or variation of manufacturer's or wholesale dealing licences, and UK marketing authorisations (the 'persons appointed' role)
- consider any written and/or oral representations made by a person or body notified under regulation 305 of the Regulations that the MHRA are minded to make a determination that that their advertisement is incompatible with the provisions of Part 14 (Advertising) of the Regulations; and/or to advise the Ministers prior to their making a final determination under regulation 306 of the Regulations.

As a member of the Panel, your role is to conduct a review of the decision and after considering all the available information made available by the MHRA and the Applicant during the course of the review period, contribute to the discussions at the Review Panel hearing and to the production of a report with findings, conclusions and any recommendations, with reasons. The Licensing Authority (the MHRA acting on behalf of Health Ministers) must then take the report into account and decide whether to confirm or alter its decision.

## **Qualities required for the role of Members:**

To be considered, you must be able to demonstrate that you have the qualities, skills and experience to meet all the essential criteria for appointment.

### **Expertise Required**

Good Manufacturing Practices (GMP) and Good Distribution Practices (GDP) requirements in relation to a manufacturing or wholesaling of medicinal products

### **Essential Criteria:**
