Dear Mr Fursdon,

WATER RESOURCES ACT 1991
LICENCE OF ENTITLEMENT - OLD WALLS, PONSWORTH

I refer to your letter of 21 July 1992 and to the confirmation of various points raised during our discussions of 17 July.

I passed a copy of your letter to Ann Riley for her perusal and reference. I understand that she has been in contact with you by telephone and letter regarding the finer detail of your measuring and monitoring arrangements.

I fully understand the need to automate, if at all possible, the screening mechanism at the head of your HEP system. I have enclosed, as promised, a form for you to sign and return, regarding your agreement to the condition on the Licence relating to screening. This condition adequately covers your present arrangements.

It would appear that everything is now in order for the issue of your Licence to Abstract. I would agree that points one and two of your letter regarding ingress of fish and additional notes respectfully, represent the advice I gave you.

I have enclosed a stamped addressed envelope for your use and look forward to your signed agreement for the condition relating to screening.

I trust that this should now conclude the Licence determination process and look forward to dispatching your licence to you.

Yours sincerely,

N Prall
Assistant Water Abstraction Officer

Mr M R Fursdon
Lowertown Farm

OLD WALLS
FOUNDSGATE

LOE : 12019

Further to my application for a Licence to Abstract water for a previously exempt use, I accept the proposed condition, as discussed, relating to the screening of intakes to prevent the ingress of fish.

Screening relates to the present arrangements.

Signed
