1 Introduction

1.1 Context

The Whole of Government Accounts (WGA) are prepared by HM Treasury in accordance with the Government Resources and Accounts Act 2000.

These financial statements consolidate more than 10,000 plus entities that appear to HM Treasury to exercise functions of a public nature or to be entirely or substantially funded from public money and as such includes central government departments, non-departmental public bodies, public corporations, local authorities, the National Health Service, and the devolved administrations.

This guidance is for those within local government that participate in the production of Whole Government Accounts.

Data is collected from entities using the OSCAR system.

The external auditors of a local government entity have a statutory responsibility to review and report on the Whole of Government Accounts return if the entity is above the WGA Audit Threshold limit.

1.2 OSCAR – Key Points

- Organisations can run the counterparty Matches Report themselves and are able to see live published data from other organisations for easier rectification of counterparty transactions.
- Restatements Analysis Worksheet requires single input that will feed into the relevant proforma tabs.
- More than one person can work on the submission at the same time on near real time data.
- SCOA codes will be available on the OSCAR and on [GOV.UK](https://www.gov.uk)
- All CG0 forms can be downloaded from OSCAR.
- Historic DCTs for 2024-25 can be viewed and downloaded to excel from OSCAR as well as the facility to toggle between 2024-25 and 2025-26 financial years. They can also be downloaded to Excel by each individual tab (see section 7.3.6).
- Ability to download the individual tabs of the DCT instead of the Audit Report, and run the primary financial statements report, accessed alongside the Audit Report options. This could be used to provide the auditors with assurance (see section 7.3).
- Less time taken to run Audit Reports due to the facility of being able to limit the number of CPID transactions processed for your entity (see section 7.3).
- Frequently asked questions – see Section 1.8.
- IFRS16 input – adoption mandated for Local Government entities
- Historic Audit Reports

- Expanded section on clearing validation errors (see section 7.2.5)
- **For 2025-26 onwards, there is no longer a requirement to have your DCT Return audited for entities over the audit threshold. Any references to DCT audits and audit thresholds are no longer relevant in this document.**

1.3 Purpose of this document

The purpose of this document is to provide users with information on the processes related to Whole of Government Accounts (WGA) which will be performed within OSCAR.

1.4 Related materials

This guidance is to be read in conjunction with the following materials:

- WGA finance guidance including forms and associated guidance (available on [GOV.UK - https://www.gov.uk/government/collections/whole-of-government-accounts](https://www.gov.uk/government/collections/whole-of-government-accounts))
- Guidance videos.

1.5 How to use this guidance

The guidance has been divided into sections to meet the reporting requirements of the WGA process. Users should be able to refer to specific sections to achieve a task e.g., submit counterparty transactions, or to enter financial information into the proforma tabs.

1.6 Additional support

If you have any issues or queries do not hesitate to get in touch:

If you have any issues or queries do not hesitate to get in touch.

- **OSCAR Service Desk** (For technical queries relating to OSCAR access and the WGA application):
 - Salute Tel: +44 (0330) 333 4349
 - **Self-Service Desk Portal** : For a quicker response than email, please use the Self-Service Desk Portal: [OSCAR System Support Helpdesk - Jira Service Management](#)
 - Service desk hours: 0800 to 1800 Monday to Friday
 - Email address: Oscar_Support_Mailbox <oscar.support@hmtreasury.gov.uk>
- For any queries relating to the requirements and definitions for the WGA data please contact LG_WGAreturns LG_WGAreturns@hmtreasury.gov.uk.
- For devolved administrations, please refer to your devolved administration contacts:
Northern Ireland Bodies contact: wga.afmd@finance-ni.gov.uk

1.7 Key Dates, Deadlines and Thresholds

1.7.1 Key Dates and Deadlines

The WGA deadlines apply to **all local government bodies** except for the bodies listed below.

Submissions	4 September 2026	30 October 2026
Data Collection Tool	Unaudited Data DCT (Cycle 1) – as soon after draft accounts have been published	Audited Data DCT (Cycle 2) – based on audited accounts. DCT Returns are no longer required to be audited for entities over the audit threshold.
Forms & Documents		Final CG04 Management Review Checklist – only on completion of Cycle 2 DCT Return or final return. Copy of Final Published Accounts CG05 forms are no longer required to be completed for entities over the audit threshold.

Entities should submit Cycle 1 data based on unaudited (draft) accounts. Cycle 2 data should be submitted only when it is based on audited accounts.

All entities are required to submit Cycle 1 and Cycle 2 DCTs for each reporting cycle. The Cycle 1 DCT return should be based on the entity’s unaudited data, while the Cycle 2 DCT return should agree to the entity’s audited data and published accounts. **Entities must not submit their DCT at Step 7 of the Cycle unless their accounts have been approved and signed off by an independent auditor, and the DCT aligns with their published accounts.**

Once your accounts have been audited and published, you are expected to promptly update your DCT to reflect the final position.

It is essential that these deadlines are met, so that the overall process and publication of the accounts are not delayed. Any delays must be notified to the WGA Team at the earliest opportunity.

The timetable above does not apply to local government bodies in Devolved Administrations, who are covered by separate arrangements.

1.7.2 Reporting Deadlines and Actions for Late Audits

If your entity’s audit is delayed and you are unable to meet the reporting deadline, please submit your Cycle 1 and Cycle 2 data as soon as possible. The Cycle 2 DCT should match your audited accounts once the audit is complete.

If the system closes before you are able to upload your Cycle 2 data, the latest data available will be used. When the DCT for the new financial year opens, you will have the opportunity to update opening balances using the restatement analysis tab.

Extensions to reporting deadlines cannot be granted, as these have been agreed with the Public Accounts Committee.

1.7.3 Thresholds

DCT Audit: These are no longer required from 2025-26 onwards.

Minor Bodies:

Any entity that believes they are exempt from the WGA process due to being a minor body must complete and submit form CG03 by 31 August 2026. The minor body thresholds can be found within the CG03 form, which is published on the Treasury WGA website. For reference, the minor bodies thresholds are as follows:

All these items must be below £30m for 2024-25 **and** 2025-26 to qualify as a minor body:

- ❖ Gross expenditure for both years
- ❖ Gross income for both years
- ❖ Gross assets as at 31 March 2025 and 31 March 2026
- ❖ Gross liabilities as at 31 March 2025 and 31 March 2026

Reporting Balances on the CPID Transactions sheet:

There is no threshold, please report all balances with WGA counterparties to the granularity level which you have available. In determining the available granularity level, bodies may take a pragmatic approach, with due regard to what is material to their own accounts, so that significant amounts of time are not spent recording immaterial balances.

1.8 Frequently asked questions

How do I log on?

This is covered in Section 3.2.

How do I change my password?

Access the login page for OSCAR as follows - <https://oscar.okta-emea.com/login/login.htm>

Click on “need help signing in?” and then “forgot password?”.

Enter your OSCAR username and then click on “reset via email” to change your password. You will receive notification by email.

Reset Password

Email or Username

hmt_andrew

Reset via Email

[Back to sign in](#)

How do I set myself up on OSCAR?

The user access forms are on One Finance – link as follows: <https://gff.civilservice.gov.uk/>

From the home page, put Oscar in the search engine, accessing the following page - <https://gff.civilservice.gov.uk/standards-policy-and-procedures/oscar/>

Select user forms from the Oscar page.

General OSCAR II information

What is OSCAR and what is it used for?

OSCAR II Users & User Authorisers: Forms

OSCAR II User Guidance and Information

Support Contact Details

OSCAR II Processes: Guidance and further information

Scroll down the screen and select the type of form relevant to your organisation. Follow the instructions provided.

How to become an OSCAR User

To become an OSCAR User, you must download and complete the relevant User Forms in the table below, and send a completed form to your designated User Authoriser.

Process	User Form	User Authorisers
Cash Management Scheme (CMS)	Cash Management User Form (Word)	User Authorisers (Excel)
Forecast Outturn (MFO)	General OSCAR User Form (Word)	User Authorisers (Excel)
PFI	General OSCAR User Form (Word)	User Authorisers (Excel)
WGA (Central Government only)	WGA Central Government OSCAR User Form (Word)	User Authorisers (Excel)
WGA (Local Government and Public Corporations)	WGA LG & PC User Form (Excel)	Email the WGA team for approval
WPR	General OSCAR User Form (Word)	User Authorisers (Excel)
Budgeting (Outturn and Plans)	General OSCAR User Form (Word)	User Authorisers (Excel)

If approved your User Authoriser will submit your request to the [Keysource Service Desk](#) to be processed. Shortly after this, you will receive a “noreply” activation email from OKTA to set up your OSCAR account. You can find further details in the [OSCAR User guide](#) .

Guidance for completing a [User and User Authoriser form \(Word\)](#)

How do I access and run Audit Reports?

This is covered in Section 7.3.

How do I access and run the summary Audit Reports?

This is covered in Section 7.3.

There is no data in the TB output tab on the Audit Report, why is this the case?

This will be due to the Trial Balance input method been chosen (auto-population of the DCT tabs) instead of the pro-forma method (manual completion of the DCT tabs). On the Audit Report, the DCT input tabs and posted tabs will be populated with TB data instead.

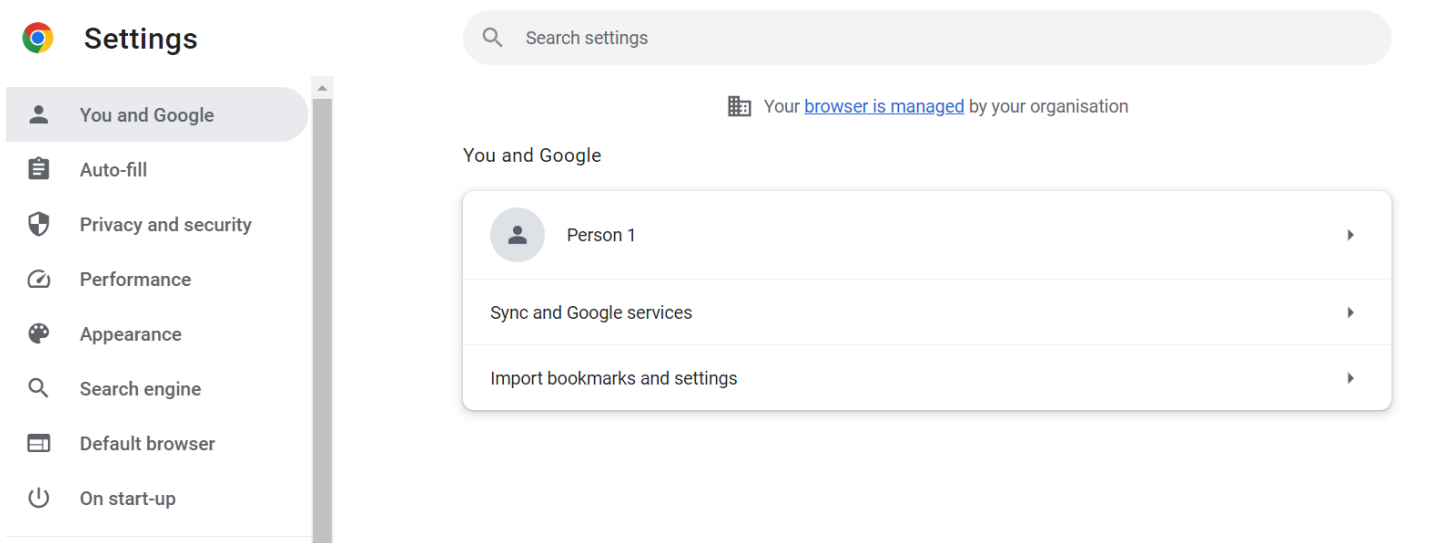

How do I view Historic DCT data?

This is covered in Section 7.3.6.

Why won't pages load within the DCT and why is no data being displayed?

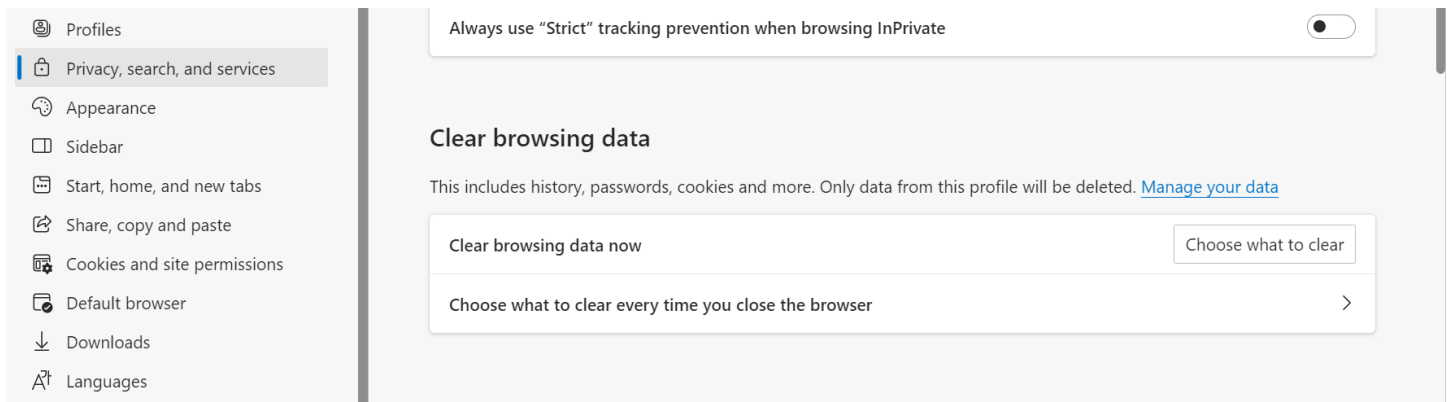

OSCAR data is displayed via a series of web sheets. You may need to clear cookies and the cache within the browser settings as follows:

Within Google Chrome, select Privacy and Security within the settings option.

Then select Clear browsing data and follow the instructions.

Within Microsoft Edge, select Privacy, search, and services within the settings option.

Then select Clear browsing data now and follow the instructions.

Can I submit prior year data during the current collection cycle?

No, you cannot submit data for prior years (PY) during the current collection cycle. Once the accounts are published and the previous cycle is closed, data for prior years cannot be added or amended. You may only update the opening balances for the current year using the Restatement Analysis tab.

My opening balances are not pulling through correctly, how do I rectify this?

- **Balanced DCT Submission for Prior Year (PY):** If you submit a balanced DCT for the Prior financial year, the system will automatically carry forward all closing balances from the DCT into your current year (CY) opening balances.
- **Failure to Submit a Balanced DCT for Prior Year (PY):** If you do not submit a balanced DCT for the PY financial year, the system will reset all balances on your CY DCT to zero. You will then need to use the Restatement Analysis tab to populate all your opening balances for the new current year.

In this case, you will need to restate your opening balances. Guidance on this is covered in Section 7.2.4.5.

Why is my CPID data not showing on the Matches Analysis Tool?

You will need to publish your data so that others can see the data. This can be done via the Homepage in your DCT. Click on “publish”.

Step 2 - Publish CPID transactions

Publish the CPID transaction to matches report.

(Matches will now be visible to counterparties)

PUBLISH

**Hard
Validations**

0

**Soft
Validation:**

0

The validations for this step are det
on the
CPID Transactions

WGA 2020-21: match relationships

If you subsequently update your CPID transactions, you can re-populate the Matches Analysis Tool with the updated data via the populate button on the CPID transactions tab.

Select to populate the latest data into the Matches Analysis Report

POPULATE

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method:

CPID Transaction

**SWITCH
METHOD**

I have selected the incorrect WGA Audit Threshold on my DCT, how do I rectify this?

You should contact the WGA Team who will be able to alter this in your workflow status. The alternative is to reset your DCT to “open” status, but this will clear any data that has been submitted.

Is there a mapping tool for SCOA codes in the DCT?

There is a mapping tool on the WGA website – link as follows:

<https://www.gov.uk/government/publications/whole-of-government-accounts-2024-to-2025-guidance-for-preparers>

How do I rectify an invalid CPID code?

This is covered in Section 6.3.3. You should also refer to the tab alongside the Matches Analysis Tool which has the complete list of CPID codes which are valid. This can be downloaded to excel.

Matches Analysis CPID List SCOA List

	Long Name	Return_Required	Org Detailed Type	Org LG/CG
BISADJ	BISADJ - BIS ADJUSTMENT	N - Adjustment		
<input checked="" type="radio"/> BISCLS	BISCLS - CLS - DEPT FOR BUSINESS, ENERGY & INDUSTRIAL STRAT			
A...	ACA084 - Advisory Conciliation and Arbitration Service ACAS	N - Consolidated in Parent Return	BEIS Group	Central Gov
A...	AHC084 - Arts and Humanities Research Council	N - Other (Explain in Notes)		
B...	BBB084 - British Business Bank PIC	N - Consolidated in Parent Return	BEIS Group	Central Gov
Bl...	BIS084 - Dept. for Business, Energy & Industrial Strategy	Y	BEIS Group	Central Gov
B...	BPA084 - BIS (Postal Services Act 2011) Company Limited	N - Consolidated in Parent Return	BEIS Group	Central Gov
B...	BRC084 - Biotechnology & Biological Sciences Res Council	N - Consolidated in Parent Return	BEIS Group	Central Gov

C...	COL084 - Coal Authority	N - Consolidated in Parent Return	BEIS Group	Central Gov
DL...	DLS084 - Diamond Light Source Ltd	N - Consolidated in Parent Return	BEIS Group	Central Gov

The complete list of SCOA's can also be accessed here (third tab) for each match relationship. Both lists are also published on the WGA website - <https://www.gov.uk/government/publications/whole-of-government-accounts-2024-to-2025-guidance-for-preparers>

What do the workflow statuses mean when completing DCT's?

This is covered in Section 4.2.2.

Why can't I enter any data into the DCT?

This may be due to the DCT being locked at Cycle 1 or Cycle 2 submission status – locked for audit acceptance. To unlock the DCT, you will need to re-visit Step 5 on the Homepage and reopen the cycle. You will then be able to enter data into your DCT.

Steps for Cycle 2

Step 5 - Reopen for Cycle 2 changes

If your return is below the audit threshold, select to reopen DCT for cycle 2 changes. For audited organisations, unlock to enter auditor agreed revisions.

**REOPEN FOR CYCLE 2
CHANGES**

Why can't I view the CPID transactions on the CPID transactions tab?

You will need to zoom out to see the CPID transactions. This is covered in Section 5.2.7.

Can I re-publish my updated CPID data?

If you subsequently update your CPID transactions, you can re-populate the Matches Analysis Tool with the updated data via the populate button on the CPID transactions tab and re-publish the data.

Select to populate the latest data into the Matches Analysis Report

POPULATE

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method: *CPID Transaction*

**SWITCH
METHOD**

How do I download DCT extracts to excel?

Go to the tab you want to download in the DCT. Click on anywhere on the tab screen to reveal the toolbar.

How do I delete multiple or individual rows from the CPID transactions tab?

Within the CPID transactions tab, you can either delete single or multiple rows using the functionality shown below. Note that key rows will not be deleted in their entirety only the CPID data will be deleted (key rows are where account balances are shown and external balances).

Delete Rows

There are two methods of deleting rows- either select an individual account and a row no. to delete (as well as the option to delete 'All' rows), or select a range of accounts and rows to delete.

Select Account OR Enter row no. to delete **DELETE ROW**

Select Range of Accounts

Lowest Account OR Enter range of rows to delete

Highest Account Lowest Row no. **DELETE RANGE**

Highest Row no.

How do I add multiple or individual rows in the CPID transactions tab?

Within the CPID transactions tab, you can add multiple or single rows using the functionality shown below.

If the current input method selected is "Bulk CPID Input" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button.

"Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions" from the "Bulk CPID Input" tab.

Add Rows Select Account Enter no. of rows **ADD ROWS**

Note that to amend and edit the CPID transactions tab, you must select the switch method and not the bulk CPID method. You can also copy / paste directly into the tab from a spreadsheet or use the bulk CPID tab to enter multiple rows.

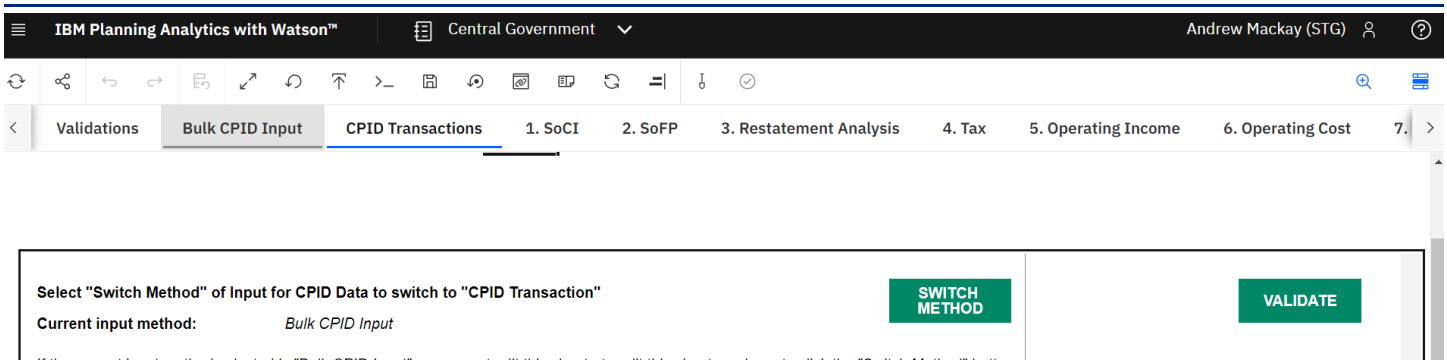

How do I clear hard and soft validations on the CPID transactions tab?

Hard validations will need clearing and explanations provided for both hard and soft validations before you can submit the DCT. In some instances, hard validations can become soft validations if an explanation is provided – all explanations need to be provided in the “User comment” column of the CPIDs transactions tab.

Filters		Account Code	Total SCOA	or	Match Relationship		
Row No	Account Code	Account Code Description	MR	Trial Balance	Total External Balance	User Comment	
1	18414000	CA - LIQUID DEPOSITS	11	0	0		
1	18511000	CA - DEPOSITS	11	0	0		
1	18521000	CA - DERIVATIVES	11	0	0		
1	18531000	CA - SHARES AND EQUITY TYPE INV	11	0	0		

Examples of common errors are covered in Section 6.3.3.

When you have cleared the errors – click on validate.

You should then check on the Homepage the number of errors remaining (published):

step 2 - Publish CPID transactions

Publish the CPID transaction to matches report.
(Matches will now be visible to counterparties)

Hard Validations	Soft Validations
0	0

The validations for this step are detailed on the CPID Transactions tab as 'Publish' validation errors.

[NGA 2020-21: match relationships](#)

[NGA 2020-21: counter-party identifier \(CPID\) list](#)

You should also check the total validation errors before submitting (also on the Homepage) – these include CPID transaction errors as well as other DCT validation errors which are shown on the validation report.

Hard Validations	Soft Validations	Submission Deadline
2	5	28-06-2022

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

steps for Cycle 2

Using the TB input method for my DCT, how do I clear SCOA's not valid errors?

You will need to use valid SCOA's – these are listed on the WGA website. Note you can only use SCOA's that map across to the DCT. These codes can also be found in the DCT mapping tool on the WGA website.

I have used the TB input method, but the TB hasn't posted?

You will need to validate the trial balance and then populate the DCT to post the figures. These steps are carried out on the TB input tab of the Trial Balance Input section of OSCAR. The trial balance will only post if there are no validation errors.

OSCAR WGA – Local Government Guidance

IBM Planning Analytics with Watson™ | Trial Balance Inp ... Government | Andrew Mackay (STG)

Homepage | SCOA Mapping | **Trial Balance Input** | Trial Balance Posted Amount | Available SCOA

4.1. Enter number of rows required for your Trial Balance and select "Create Trial Balance Rows" button.
 Number of rows created: 50 CREATE TRIAL BALANCE ROWS

4.2. Select "Clear Trial Balance" button if you would like to clear the current data from the input table. CLEAR TRIAL BALANCE

4.3. Then place your Trial Balance codes in column "Your Code" and the amount in column "Amount £". Ensure all Trial Balance codes used have been entered and mapped in the SCOA Mapping tab first.

Select "Validate Trial Balance" button to proceed. Check the status and correct any errors identified. Repeat steps 4 and 5 until status on step 5 is Green. After selecting "Validate Trial Balance", you can view the tab "Trial Balance Posted Amount" to check the amounts will be posted correctly and if a rounding adjustment has been made. No validation errors VALIDATE TRIAL BALANCE

Select "Populate Input" button to proceed. The values will then be populated into the proforma tabs in the Central Government workbook. Proceed to the Central Government workbook and check the pro forma tabs to ensure data has been populated as expected. Some tabs will require additional data to be entered manually. POPULATE INPUT

Amount £	Status	Status Comments / User Action	OSCAR Code	OSCAR Description
0				

I have completed my DCT but need to reload an updated TB via the TB input method, how do I do this?

You can reload an updated TB at any time of the process using the Trial Balance input section in OSCAR. Please note that the revised figures will completely overwrite the previous set of figures posted to the DCT and you will need to go through the DCT proforma tabs to check whether there are any errors. You should also check opening balances as errors can arise where your opening balance does not match the opening balances on OSCAR. These may need to be dealt with through the Restatements tab where opening balances can be restated.

Trial Balance Input- Local Government	Shared/WGA/Data Collection	Book	06/09/2024 10:33

This is covered in Section 7.2.3 in detail.

How do I clear hard validation errors on the DCT?

Refer to the validation report tab in the DCT for the latest information. To ensure you're viewing the most up-to-date status, it's good practice to press the validate button. Additionally, our website features an Annex dedicated to resolving validation errors, complete with worked examples illustrating how to address them effectively.

The number of hard validations is displayed, and these must be cleared prior to submitting the DCT data. These are also listed in the table below with an explanation for why validations have failed. The validations are also covered in more detail by clicking the validations tab and scrolling down for individual validation errors. Please note that the trial balance must balance before your DCT can be submitted. This will often be shown as a generic hard validation error and will clear when other hard validation errors have been cleared.

When you have cleared a hard validation error, you need to click on the validate button to refresh the errors and to see whether these have been cleared.

How do I clear soft validation errors on the DCT?

You should refer to the validation report tab of the DCT. It is good practice to press the validate button to ensure you are looking at the current state of play.

The screenshot shows the 'Validation Report' tab in the IBM Planning Analytics with Watson interface. At the top, there is a navigation bar with 'Central Government' and the user 'Andrew Mackay (STG)'. Below the navigation bar, there are several tabs: 'Landing Page', 'Homepage', 'Validation Report' (selected), 'Decimal Points Validations', 'Validations', 'Bulk CPID Input', 'CPID Transactions', '1. SoCI', '2. SoFP', and '3. Restatements'. The main content area shows a summary of failed validations. A filter is set to 'Failed Validations Only'. The summary indicates a total of 7 failed validations, with 2 hard validations and 5 soft validations. A note states: 'Hard validations must be resolved before submission to WGA. Un-resolved soft validations must have a full Explanation added to them before submission to WGA.' There are 'REFRESH' and 'VALIDATE' buttons. A warning message says: 'If you re-run the proforma validations any explanations in the 'User Explanation' column will remain- please ensure that these are kept up to date before you lock'. Below this is a table of failed validations:

Validation Code	Validation Category	Validation Type	Validation Description
899I0021	Internal Consistency	Soft	Staff numbers information must be filled in.
899M0001	Materiality	Soft	NIC contributions should be between 6% and 12% of gross wages. If they are not, could you please provide an explanation.
899N0129	Admin	Hard	All mandatory questions must be answered. Please check the box at the top of the sheet.
899N0130	Admin	Hard	All mandatory questions must be answered.

The number of soft validations is displayed and each of these must be given a user explanation, note – most soft validations will just be consistency checks. Again, details of the validations can be found on the validations tab, scrolling down to individual validations.

The screenshot shows the 'Validation Report' tab in the IBM Planning Analytics with Watson interface. The main content area shows a table with two columns: 'Validation References' and 'User Explanation'. The table contains three rows of validation references and their corresponding user explanation fields:

Validation References	User Explanation
87222000, 87228000	
OCT_Row003/OCT_Col003, OCT_Row003/OCT_Col002, OCT_Row004/OCT_Col003, OCT_Row004/OCT_Col002	
81600901, 81600905	

My restatements are not flowing through to the primary statements, what do I do?

You will need to populate your restatements into the primary statements tab. To do this you should check for any validation errors by clicking on the validate restatements button. No validation errors must be displayed. Then click on Refresh restatements to populate the primary statements.

Select "Validate Restatements" to proceed. Check the Validation column and correct any hard validation errors.

No validation errors

VALIDATE RESTATEMENTS

Once you have cleared all hard validations, select "Refresh Restatements" to update the Primary Statement and Note tabs with data from the below grid.

REFRESH RESTATEMENTS

Total	Debit

How do I remove restatements from the restatements tab?

You can delete individual rows in the restatements tab. Then click on clear restatements (which removes everything from the primary statements tabs), followed by validate restatements (to check the validity of entries still there) followed by refresh restatements (which ensures that the remaining entries flow through to the primary statements tabs).

IBM Planning Analytics with Watson™ Central Government Andrew Mackay (STG)

Decimal Points Validations Validations Bulk CPID Input CPID Transactions 1. SoCI 2. SoFP 3. Restatement Analysis 4. Tax 5. Operating In

this schedule if you have made Prior Period Adjustments, detailing transactions at SCOA level, which affect your Statements. This sheet will auto populate the proforma sheet restatements" to delete all restatement data on the Primary Statement and Note tabs. Please note that any restatements will remain on this and you can click "refresh restatements" to re-input them into the proformas.

Statement from the first column.

te Drop Down" to filter the second column based on the Primary Statement you have selected and select a Note. hich are not shown on individual tabs will display the following: "N/A - Restatements not shown on individual note tabs".

aining columns: Restatement Reason, Counter Party Code (if applicable), Debit or Credit and Comment.

Restatements" to proceed. Check the Validation column and correct any hard validation

leared all hard validations, select "Refresh Restatements" to update the Primary Statement and Note tabs with data from the below grid.

Why can't I enter data into most of the cells on the Financial Instruments tab?

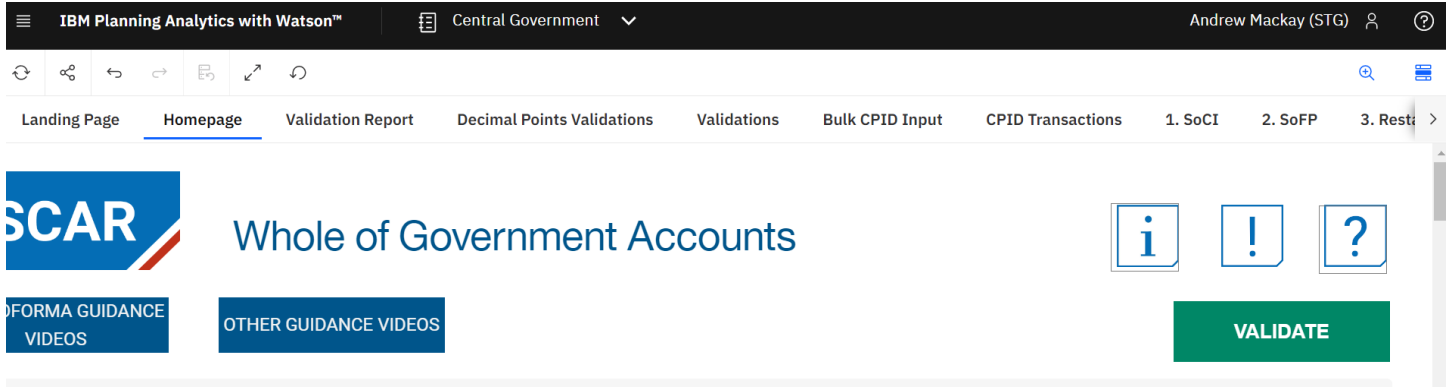

Most of the cells on the Financial Instruments are derived from other cells within the DCT (for example, Trade and Other Payables is populated from the Trade and Other Payables balance on that tab less any balances internal to WGA on the CPID transactions tab). The Financial instruments tab will only show balances external to WGA for disclosure purposes.

Most inputs on this tab comprise answering the mandatory questions and providing a further breakdown of balances by credit rating level etc.

I have cleared validations, but these have not been updated on the DCT, how do I update?

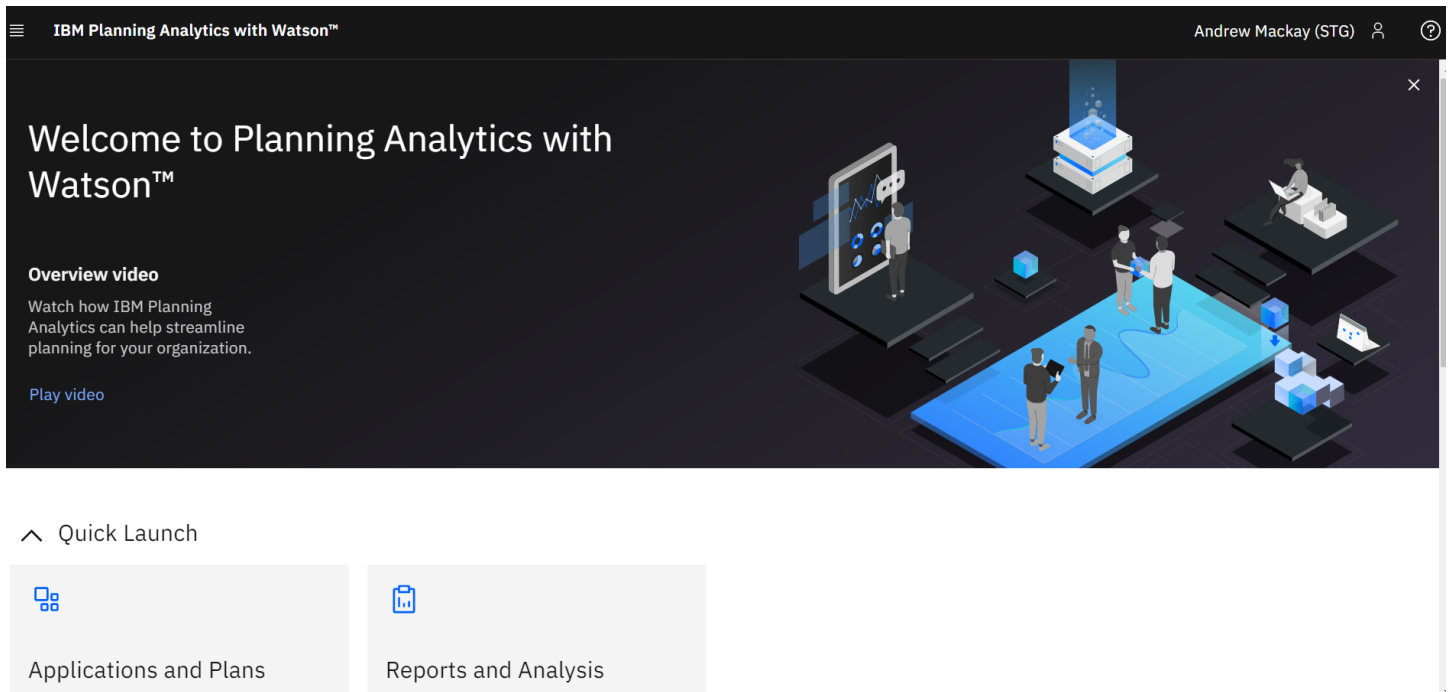

OSCAR WGA – Local Government Guidance

You will need to perform a master validate of the DCT. Go to the Homepage and click on the validate button and then check the number of validations on the Homepage and the validations report tab.

Where can I find the CG forms?

CG01 and CG02 forms can be found on OSCAR. Click on Reports and Analysis to access.

Click on WGA.

Then click on CG01 confirmation or CG02 Annex as required. You can pre-populate the CG01 with instigating and receiving entities. This will populate balances currently held between those entities on OSCAR (published balances from DCT completion).

The CG03 and CG04 forms can be found on the WGA website – guidance for prepares. These can be downloaded and completed. Details of these forms are also included in Section 9.

How do I complete the administration section on the DCT?

It is mandatory to complete this section, and you will not be able to submit your DCT until this is completed.

From the Landing page, navigate to the Homepage and scroll down to the bottom of the page.

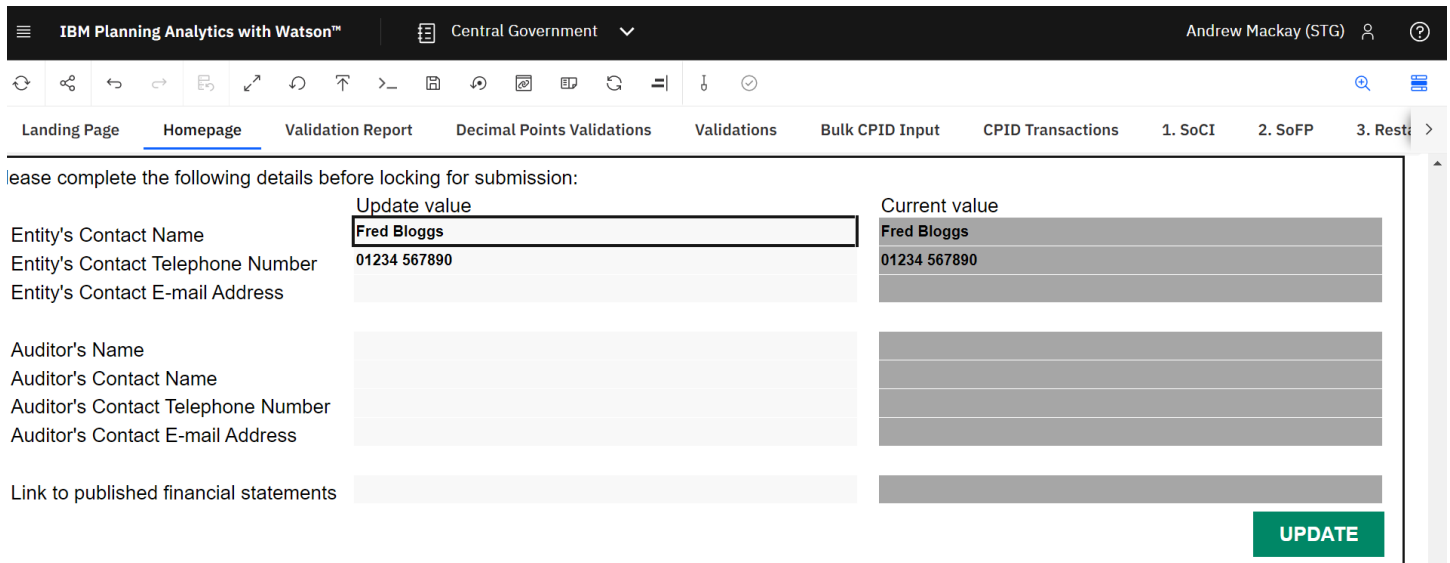

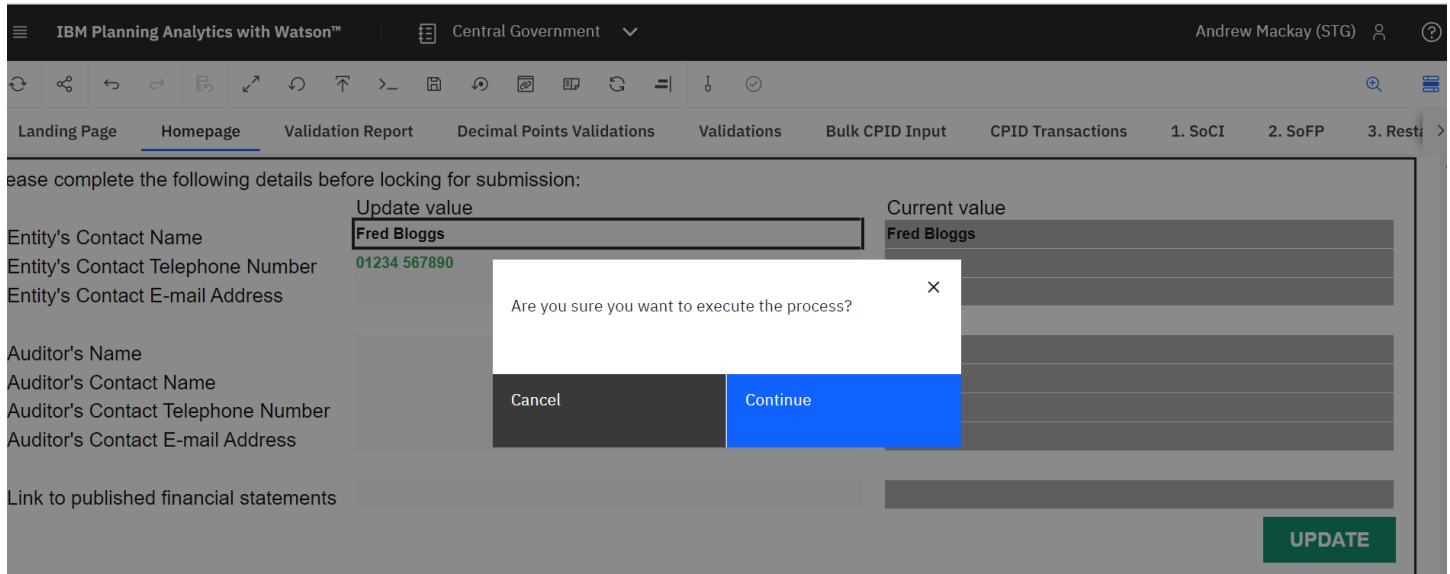

ease complete the following details before locking for submission:

	Update value	Current value
Entity's Contact Name	Fred Bloggs	Fred Bloggs
Entity's Contact Telephone Number	01234 567890	
Entity's Contact E-mail Address		
Auditor's Name		
Auditor's Contact Name		
Auditor's Contact Telephone Number		
Auditor's Contact E-mail Address		
Link to published financial statements		

UPDATE

Populate the left-hand side (Update value) with all your details. These will be highlighted in green prior to update. Click on update and the values will be updated and populated under current value.

What documentation is available on the WGA website?

The following documents are published on our website:

- Data Collection Tool Central Government User Guidance
- Data Collection Tool Local Government User Guidance
- Counter party identifier (CPID) List (useful for checking CPID codes for agreeing balances)
- List of Standard Chart of Accounts (SCOAs) (useful for checking account codes and their validity)
- Standard chart of accounts to data collection tool cell reference document (useful for resolving DCT validation cell errors and checking the account code mapping to DCT cells)
- Match relationships list (useful in the balance agreement process)
- CG02 template for agreement of balances
- CG03 template (for minor body status)

- CG04 Management checklists (Central and Local Government)
- Annex- Examples Resolving validation errors

I have completed my DCT submission, what documentation do I need to complete?

Details of the forms required to be submitted are covered in Section 9. Entities should also forward a final copy of the Audit Report to their auditors, together with a list of adjusted and unadjusted errors (on the CG-05 form).

How can I confirm that my DCT has been submitted, and how do I check its status?

WGA doesn't send confirmation emails to confirm that entities have submitted their DCT. However, the written guidance contains a diagram outlining the stages of the DCT, which you can use to check your submission's progress. The status shown on your homepage should also indicate the current stage of your DCT as shown below.

The screenshot shows the OSCAR Whole of Government Accounts interface. At the top, there is a navigation bar with various menu items. Below the navigation bar, the 'Entity Selection' section is visible, showing a dropdown menu for 'organisation_wga' with 'West' selected. The 'Return Information' section is the main focus, containing a table with the following data:

Workflow Step	Guidance
START submission	Firstly select if your organisation is above or below the audit threshold and is a major or minor body from the dropdown lists provided, then press 'Start' to commence DCT input.
PUBLISH CPID transactions	Publish CPID transaction to matches report. (Matches will now be visible to counterparties)
LOCK SUBMISSION for review/audit acceptance	<ul style="list-style-type: none"> • If your organisation is below the audit threshold, select this step to proceed to cycle 1 submission. You will have a chance to review before submitting cycle 1. • For audited organisations, select this step to lock your submission for audit acceptance.
SUBMIT and close FOR CYCLE 1	<ul style="list-style-type: none"> • If your return is below the audit threshold, select to submit the DCT for cycle 1. • For audited organisations, submit to finalise your cycle 1 WGA return and commence the audit process. • NOTE: Once submitted, you will not be able to move back to previous

Additional information on the page includes:

- Workflow Status:** Submit For Cycle 1
- Workflow Description:** Status: Cycle 1 submitted.
- Last Updated User:** OKTA [redacted] 2025-08-27 12:12:02

A red dashed line highlights the 'Workflow Status' and 'Workflow Description' boxes, and the 'SUBMIT and close FOR CYCLE 1' row in the table. A green dashed line highlights the 'Last Updated User' information.

4.2.2 Overview of the WGA process

Below diagram shows the steps involved in the WGA submission process:

Start	This step is to begin the input process
Publish CPID transactions	Users can enter counterparty transactions and publish at any point of the input process before submission
Lock submission for review/audit acceptance	Above audit threshold: This indicates to the WGA team input is ready for audit acceptance
	Below audit threshold: Select once you have completed input and progress to Cycle 1 submission step
Submit and close for Cycle 1	Above audit threshold: Submit to finalise Cycle 1 data and commence the audit process
	Below audit threshold: Review data and submit for Cycle 1
Reopen for Cycle 2 changes	Above audit threshold: Select reopen to enter any audit revisions
	Below audit threshold: Select reopen for any Cycle 2 changes
Lock for Cycle 2	Above audit threshold: Select to lock the submission and generate a final pack for audit completion
	Below audit threshold: Select once you have completed any changes and progress to Cycle 2 submission step
Submit to finalise Cycle 2 and complete WGA Return	Above audit threshold: Once the audit has completed and changes agreed and processed, submit to finalise the WGA return
	Below audit threshold: Review data and submit to finalise the WGA return

2 Roles and Responsibilities

The key deliverables for local government organisations are the DCT, and the resulting entry of statement of accounts and counterparty data onto OSCAR.

Other forms which may need to be completed to support the completion of the DCT are:

- **CG-03 – Confirmation of Minor Body status**
- **CG-04 – Management Review Checklist**
- **CG-05 – Notification of Audit Completion (only for entities above the WGA Audit Threshold)**

Links to these forms can be found on the Local Government '**Homepage**' for OSCAR. These forms are also available on the HM Treasury WGA website:

<https://www.gov.uk/government/collections/whole-of-government-accounts>

For additional guidance on LG forms, please see section 9 in this document.

The Consolidation Officer is the person who signs the Resource Accounts and the final WGA return. This Consolidation Officer will normally be the Accounting Officer or Financial Controller.

2.1 Requesting access to OSCAR.

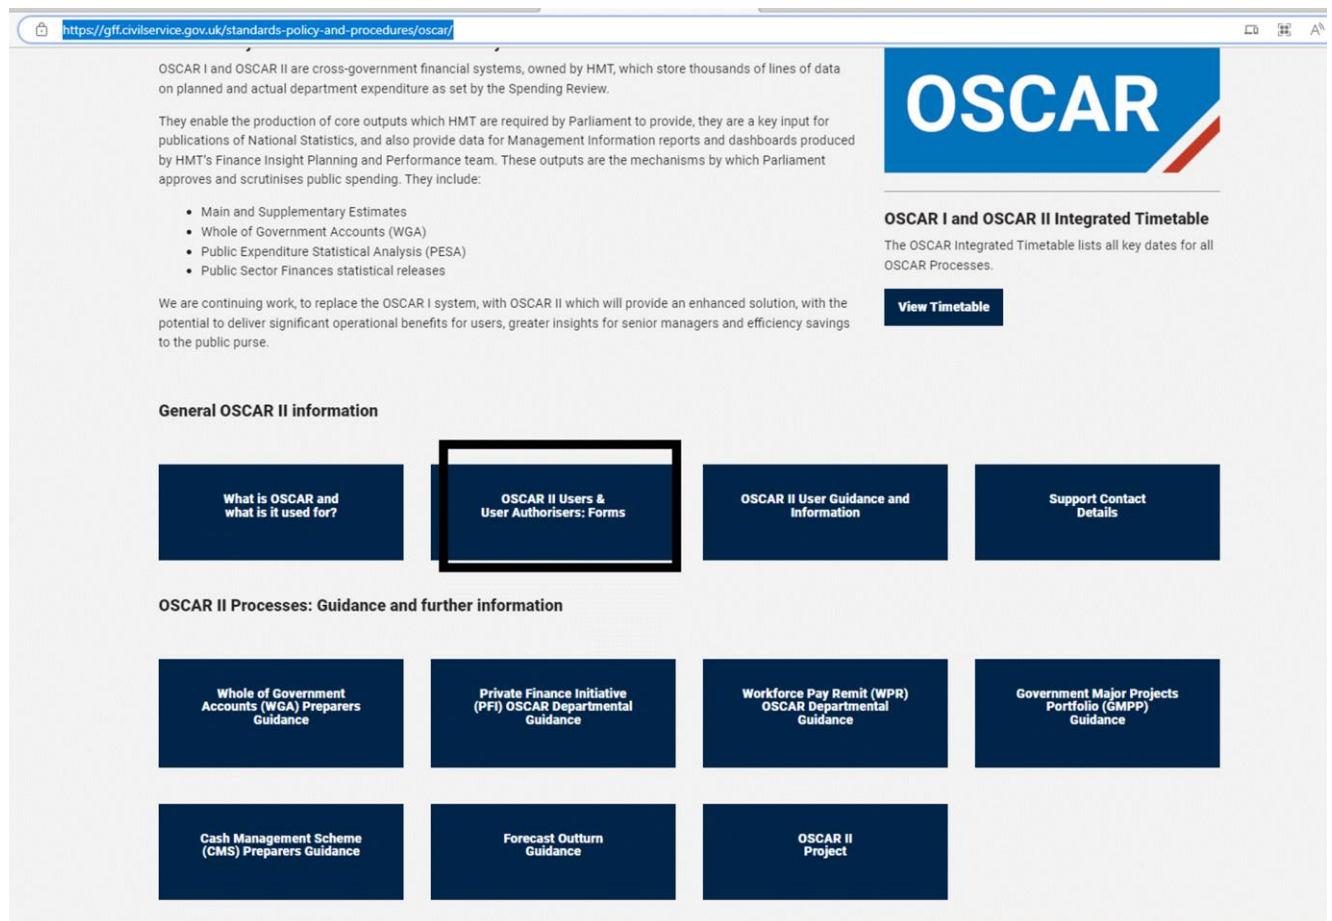

2.1.1 Local Government

To submit a request to become an OSCAR user, you must complete a new user form available on [GOV.UK](https://gov.uk) and send through the completed form to the WGAOSCAR@hmtreasury.gov.uk.

To create an Oscar account, you need to register on One Finance [OSCAR \(civilservice.gov.uk\)](https://oscar.civilservice.gov.uk) and follow the instructions on the OneFinance portal.

<https://gff.civilservice.gov.uk/standards-policy-and-procedures/oscar/>

When you click on the One Finance portal link below, it will take you to the OSCAR page. Please scroll down and follow the step-by-step instructions as shown in the screenshot below.

Once the WGA team has confirmed your request has been accepted, you should receive an activation email from noreply@okta.com shortly after this to set up your OSCAR account.

You can find further details on the OSCAR User Guide at:

<https://www.gov.uk/government/collections/the-online-system-for-central-accounting-and-reporting-oscar-tool>.

For clarification purposes, User Authorisers (UAs) are nominated users who are authorised to add new users, amend existing user access, and remove users from the OSCAR all system.

Problems with Accessing OneFinance

If you encounter any difficulties accessing OneFinance, please contact the OneFinance team directly. The WGA team does not manage the OneFinance website and is unable to assist with access issues. You may also wish to check with your internal IT team to ensure there are no security restrictions preventing access.

To get in touch with OneFinance team, please use the contact button available on their website.

3 Accessing OSCAR

3.1 Brief description

This section explains how to obtain access to the OSCAR system and navigate to the WGA area.

3.2 Activities

The activities to carry out this step are as follows:

- Log in page
- Navigating to WGA.

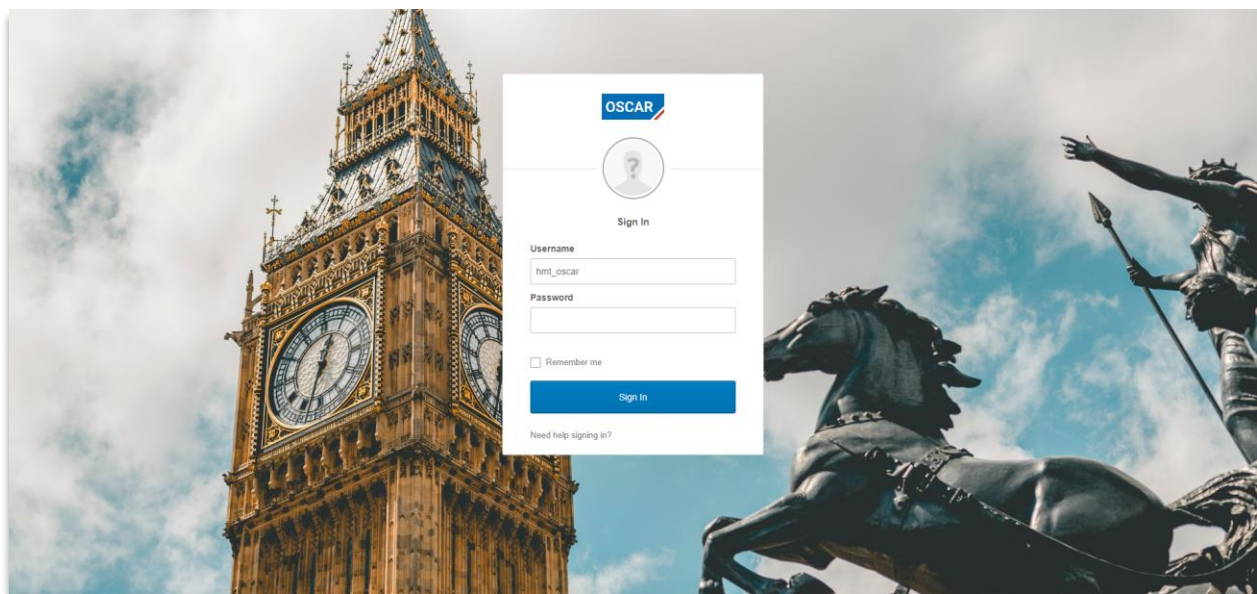

3.2.1 Log in page

After you have successfully created an account (<https://www.gov.uk/government/publications/the-online-system-for-central-accounting-and-reporting-oscar-user-guide>), you will be able to access the login page (you can also do so by using the link provided in the 'Welcome to OSCAR' email).

In the login page, you will find 'Email authentication,' with your email address partly masked. Email authentication provides an additional layer of information security and will be required every time you log into OSCAR. The authentication process includes three steps:

- Generate a single-use authentication code.
- Retrieve the code from your inbox; and
- Enter the code in the login page.

To log into OSCAR, use the link <https://oscar.hmt.gov.uk> and you will arrive at the log in page to enter your username and password:

To generate the single-use authentication code click on ‘**Send me the code**’ in the Email Authentication Form.

Once done, an email will be sent to your inbox, with subject ‘One-time OSCAR verification code.’ In the email you will find a code, as shown in the example below.

IMPORTANT:

Your code might arrive in your Junk/Spam inbox, please check these folders for email from OKTA.

In the OSCAR Email Authentication Form, you will find an empty field titled '**Verification code.**' To access the system, you will need to copy the verification code from the email, paste it into the field (or type it in manually) and click on the blue '**Verify**' button.

OSCAR

Verify with Email Authentication

A verification code was sent to J...a@hmtreasury.gov.uk. Check your email and enter the code below.

Haven't received an email? [Send again](#)

Verification code

227545

Verify

[Sign Out](#)

3.2.2 Navigating to WGA

Once you have successfully logged in using your credentials you will be able to navigate to the WGA area by the following steps.

In the OSCAR landing page, you will find two options:

- | | |
|---------------------|---|
| <i>Enter data</i> | This directs users to the data entry pages |
| <i>View Reports</i> | This directs users to the OSCAR reporting interface |

Click the '**Enter Data**' tile to proceed to the area that contains access to all the processes required for data submission (including WGA).

After clicking on the **'Enter Data'** tile, you will reach a screen titled "IBM Planning Analytics". This is where you will find folders which relate to different processes. To proceed to the WGA area, click 'Reports and Analysis' followed by **'WGA'**.

3.3 Next steps

More detail on what these books are can be found below:

- Local Government Book – Section 7 in this guidance
- Matches Analysis Tool – section 6.2.4
- CG Forms – section 9 Annex B.

4 WGA on OSCAR

4.1 Brief description

Data collection for the Whole of Government Accounts return has been organised into ‘books’ for data providers to enter. This section will outline the ‘books and activities which can be completed in each. Please note that the screenshots show 2019-20 but equally apply to 2020-21.

4.2 Activities

The activities to carry out this step are as follows:

- Introduction to WGA books
- Overview of the WGA process.

4.2.1 Introduction to WGA books

There are several WGA books where you can perform several different tasks:

4.2.2 Overview of the WGA process

The diagram below illustrates the steps involved in the WGA submission process:

Start	This step is to begin the input process
Publish CPID transactions	Users can enter counterparty transactions and publish at any point of the input process before submission
Lock submission for review/audit acceptance	Above WGA Audit Threshold: This indicates to the WGA team input is ready for audit acceptance
	Below WGA Audit Threshold: Select once you have completed input and progress to Cycle 1 submission step
Submit and close for Cycle 1	Above WGA Audit Threshold: Submit to finalise Cycle 1 data and commence the audit process
	Below WGA Audit Threshold: Review data and submit for Cycle 1
Reopen for Cycle 2 changes	Above WGA Audit Threshold: Select reopen to enter any audit revisions
	Below WGA Audit Threshold: Select reopen for any Cycle 2 changes
Lock for Cycle 2	Above WGA Audit Threshold: Select to lock the submission and generate a final pack for audit completion
	Below WGA Audit Threshold: Select once you have completed any changes and progress to Cycle 2 submission step
Submit to finalise Cycle 2 and complete WGA Return	Above WGA Audit Threshold: Once the audit has completed and changes agreed and processed, submit to finalise the WGA return
	Below WGA Audit Threshold: Review data and submit to finalise the WGA return

The table below outlines the steps involved in the WGA submission process, including the workflow, description, and the meaning of each workflow status:

OSCAR WGA – Local Government Guidance

Workflow Number	Workflow Step	Workflow description	Workflow meaning
CYCLE 1			
Step 1	START submission	Status: The DCT is now open for editing. Please enter your Cycle 1 data based on your draft financial accounts.	First, select whether your organisation is above or below the WGA audit threshold and whether it is a major or minor body from the dropdown lists provided. Then, click 'Start' to begin the DCT input process. Once you have completed all mandatory questions on the Homepage, you can start entering your data.
Step 2	PUBLISH CPID transactions	Status: Your CPID transactions have been published.	Publish CPID transaction to the Matches Report. This means your data will now be visible to counterparties.
Step 3	LOCK SUBMISSION for review/audit acceptance	Status: Please review your Cycle 1 data (draft accounts) before submitting in the next step.	Check Your Cycle 1 Data If your organisation's DCT is below the WGA audit threshold, select this step to review and submit your Cycle 1 data. If your organisation's DCT is above the WGA audit threshold and subject to audit, select this step to review your submission before sending it to your auditors.
Step 4	SUBMIT and close FOR CYCLE 1	Status: Your Cycle 1 data has now been submitted. Please note you cannot go back to the previous workflow once you submit Cycle 1	Submit Your Cycle 1 Data Cycle 1 data must be based on your draft accounts. If you submit and later realise there is an error, you can reopen in Step 5. Important: You cannot reopen Step 4 after submission. If your organisation's DCT is below the WGA audit threshold, select this option to review and submit your Cycle 1 return. If your organisation's DCT is above the WGA audit threshold and subject to audit, select this option to review and submit your Cycle 1 return, run the audit report, and commence the audit process. Run the audit report for your records. Note: Once submitted, you will not be able to return to the previous workflow step.
CYCLE 2			
Step 5	REOPEN FOR CYCLE 2 CHANGES	Status: The DCT has been re-opened for Cycle 2. Please enter data from your audited accounts.	Update your DCT for Cycle 2 Changes If your DCT is audited, apply the changes requested by your auditors. This is the stage where you ensure your Cycle 2 data aligns with your entity's audited and published accounts. For organisations whose DCT is not audited, select this option to reopen the DCT for Cycle 2 changes. For organisations whose DCT is audited, unlock the DCT to enter auditor-agreed revisions.
Step 6	LOCK FOR CYCLE 2	Status: Your Cycle 2 data is now locked for auditing. If you need to make further changes, please go back to Step 5 and reopen for cycle 2.	Final Review Before Submission If your DCT is not audited (non-audited organisations): Select this option to lock for Cycle 2. This is your opportunity to perform a management review before submitting. If your DCT is audited: Select this option to generate the final pack for audit completion. Run the audit report. This step allows auditors to review all changes and confirm the final position.
Step 7	SUBMIT TO FINALISE Cycle 2 and complete WGA RETURN	Status: Cycle 2 data now submitted. No further changes to your data can be made.	Final Step: Submit Your WGA Return Important: Do not submit if you are still waiting for approval from your auditors and your DCT is already submitted. Do not submit if your audited accounts have not been published and approved, or if they do not agree with your DCT. Options: For organisations whose DCT is not audited: Select this option to submit and finalise your WGA return. For organisations whose DCT is audited: Select this option to submit and finalise your WGA return once the audit is completed and all agreed changes have been processed. Note: Once submitted, you will not be able to return to previous workflow steps. Your WGA return will be complete.

4.2.3 Historic DCT's

There is now the facility on OSCAR to view both 2019-20 and 2020-21 DCT's alongside each other by toggling.

between the two financial years. These can be accessed as follows by selecting "Data Collection Historic" and then "Local Government Historic" or "Central Government Historic" sets of books as follows (example shows a central government organisation but a local government organisation or Public Corporation can be selected):

1. Filter for user to choose organisation.
2. Filter for user to choose current year/previous year.
3. Filter for user to choose cycle.

4.3 Next Steps

You will be able to select the correct book based on what action you want to perform and understand the collection cycles. Also, please note that you need to reselect all the options above for the data to refresh and show correctly.

5 Step: Data entry features

5.1 Brief description

This section describes the steps for data providers submitting project data to the OSCAR system.

The input screen is the focal point to the WGA book as it allows data providers to enter data for the current year, forecast data, and view historical data once this has been migrated to the new system.

5.2 Activities

The activities to carry out this step are as follows:

- Select the organisation.
- Navigating tabs
- Entering data
- Saving and refreshing data
- Copy / paste input view
- Exporting data.

5.2.1 Selecting the organisation

Click on Data collection within Data entry to access the Local Government set of books for entering DCT data.

Selecting Local Government takes you to the landing page as follows:

The screenshot shows the OSCAR Whole of Government Accounts interface. At the top, there is a navigation bar with the IBM Planning Analytics with Watson™ logo, a dropdown menu for 'Local Government', and the user name 'Andrew Mackay (STG)'. Below the navigation bar is a breadcrumb trail: 'Landing Page', 'Homepage', 'Validation Report', 'Decimal Points Validation', 'Validations', 'Bulk CPID Input', 'CPID Transactions', 'A. CI&E', and 'B. I&E NCS Subjective'. The main content area features the OSCAR logo and the title 'Whole of Government Accounts'. Under the heading 'Entity Selection', there is a search box containing 'organisation_wga' and 'Bath & North East Somerset Council'. Below this is the heading 'Navigating the Local Government book' followed by a welcome message and instructions on how to use the landing page and navigate between tabs.

5.2.2 Navigating tabs

The below screenshot shows the areas presented as tabs along the top of each page and are accessible from any area.

At the top of each screen, you are presented with tabs which lists activities which can be performed as shown below and you scroll along to display additional tabs using the forward and back buttons:

This screenshot is similar to the previous one, showing the navigation bar and breadcrumb trail. The 'Landing Page' tab is highlighted in the breadcrumb trail, indicating the current page.

You can navigate from tab to tab by simply clicking on a tab, scrolling to the relevant tab.

The current tab will be highlighted as blue underlined, while hovering over a tab will highlight the tab as shown below.

CI&E Account: Net Operating Expenditure and Surplus/Deficit for the year ended

31/03/2022

Spreadsheet View: Input

REBUILD VIEW SAVE

	£'000	Comments
Net cost of services	0	
Corporate income and expenditure		
Provisions expense (any amount not in NCS)	0	
Trading operation results - Income	0	
Trading operation results - Expense	0	
Other corporate income	0	
Other corporate expense	0	

PLEASE NOTE YOU'LL HAVE TO COPY AND PASTE INTO YOUR BROWSER

5.2.3 Entering data

When you enter data and move to a different cell, the recent inputs will turn green. This is to differentiate between new data entry and data which has already been committed to the database. When you 'Save' or 'Refresh' the page, entered data will turn to black and be saved into the proforma.

IMPORTANT:

Please note negative numbers are to be entered with a minus sign (-). Using brackets to indicate negatives e.g. (1,000) will return an error.

Please be mindful of this when copying and pasting from your own workbook.

In the proforma templates different colour of cells have different functionality:

1. *White cells* - allow data input and will be saved into the database when you click 'Save' or 'Refresh'
2. *Light grey cells* – these cells represent calculated cells, prior year data, or pull data from other proforma tabs e.g., restatement data. You may be able to enter data into these cells, however when you click 'Save' or 'Refresh', entered data disappear and will not save into the database.
3. *Dark grey cells* – these are not required for data entry. You may be able to enter data into these cells, however when you click 'Save' or 'Refresh', entered data disappear and will not save into the database.

	Development Expenditure £'000	Patents £'000	Information Technology £'000	Other software & software licences £'000	Goodwill £'000
Intangible Assets Cost					
Carried forward at 31 March (as shown in last year's accounts)	6,288	0	6,170	14,739	1,772
Adjustment	0	0	0	0	0
Restated balance	6,288	0	6,170	14,739	1,772
Balance brought forward at 1 April	0	0	0	0	0
Additions	0	0	0	0	0
Donations	0	0	0	0	0
Impairment losses	0	0	0	0	0
Impairment reversal	0	0	0	0	0
Disposals	0	0	0	0	0
Revaluations	0	0	0	0	0
Reclassifications	0	0	0	0	0
Transfers	0	0	0	0	0
As at 31 March 2020	0	0	0	0	0

IMPORTANT:

You can enter data into the dark grey cells, and it will impact on any subtotals/totals that are in this sheet. However, the data will not be saved to the database (and therefore will not count as part of your return), it may cause validations to fail and will disappear if you refresh the tab.

5.2.4 Saving and refreshing data

Once you have entered data, saving, or refreshing the page will turn the text black and commit the data to the database.

Clicking the 'Save' button will commit data to the database per the screenshot below:

CI&E Account: Net Operating Expenditure and Surplus/Deficit for the year
As at 31/03/2020

Spreadsheet View: REBUILD VIEW SAVE

	£'000	Comment
Net cost of services	0	
Corporate income and expenditure		
Provisions expense (any amount not in NCS)	0	
Trading operation results - Income	0	
Trading operation results - Expense	0	
Other corporate income	0	
Other corporate expense	0	
(Following Group Accounts Only)		
[SLG ONLY] Police, Fire, SESTRAN & Strathclyde Pship for Transport	0	

You can also click on the refresh button indicated below which will also commit the data to the database and act as a saving function.

Refresh your data.

Please note that if you do not 'Save' or 'Refresh' your tab and navigate away, or close the web page, entered data will be lost.

IMPORTANT:

Do Not Use the Refresh button on your web browser but the Refresh/Save buttons on your worksheet.

5.2.5 Copy / paste input view

Some proforma tabs which have multiple tables can select a copy and paste spreadsheet view. This will allow you to easily copy and paste blocks of data from your own workbook directly into OSCAR.

The relevant tabs will have the below drop-down menu, where you can select Copy/Paste and then 'Rebuild view' to change the sheet view.

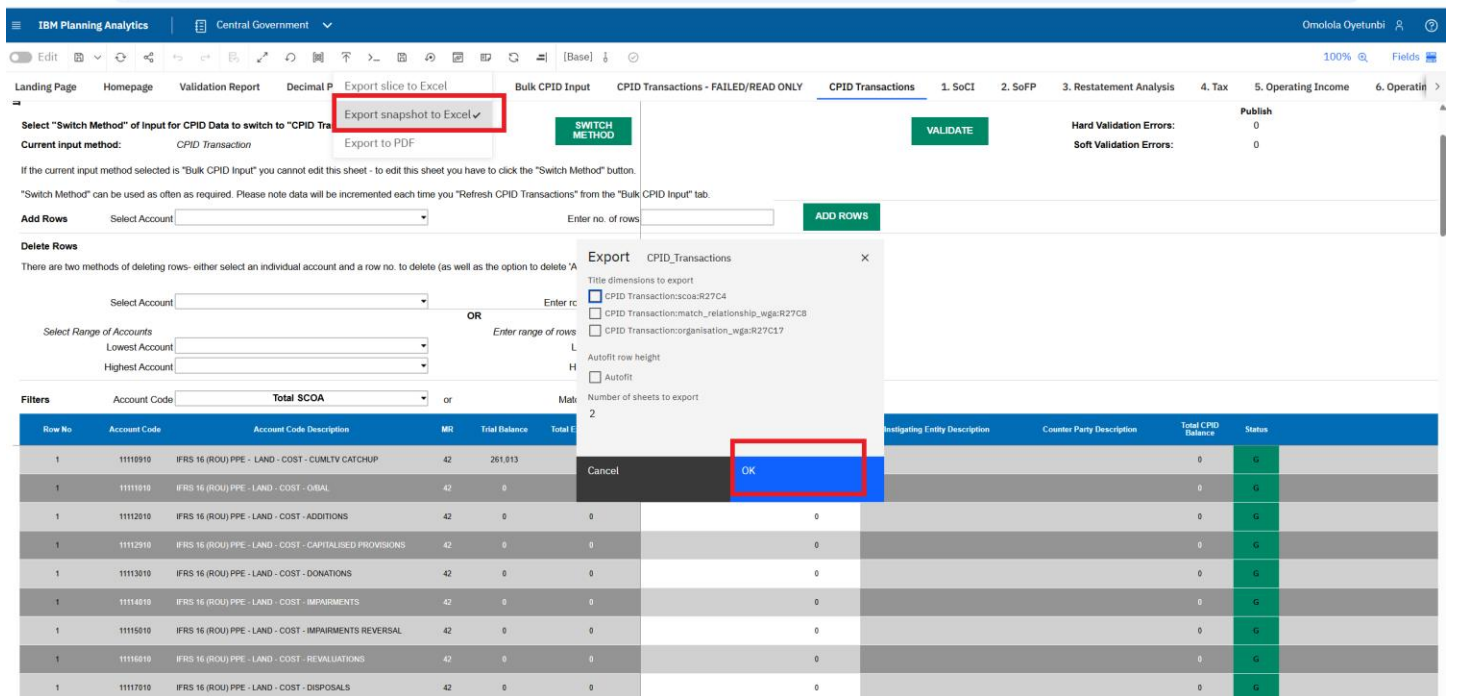

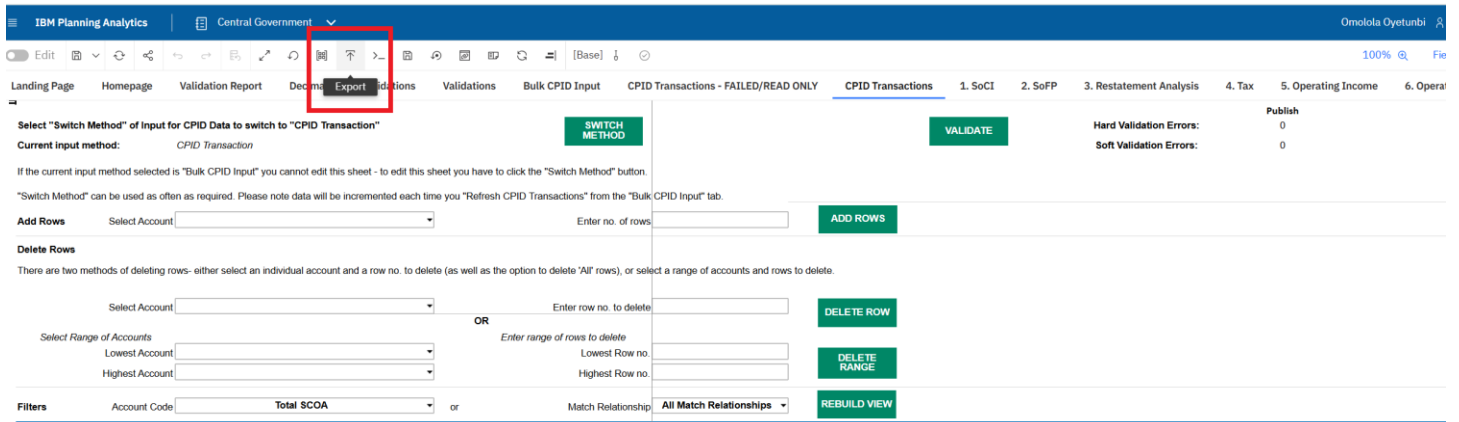

You will find guidance on enabling copy and paste here:

<https://www.gov.uk/government/publications/the-online-system-for-central-accounting-and-reporting-oscar-user-guide>

5.2.6 Exporting data

Users can export the current proforma tab into an excel document.

Click on anywhere within the tab to reveal the full toolbar as follows and select export:

Click on export snapshot to excel and follow the instructions to download the excel file to your desktop.

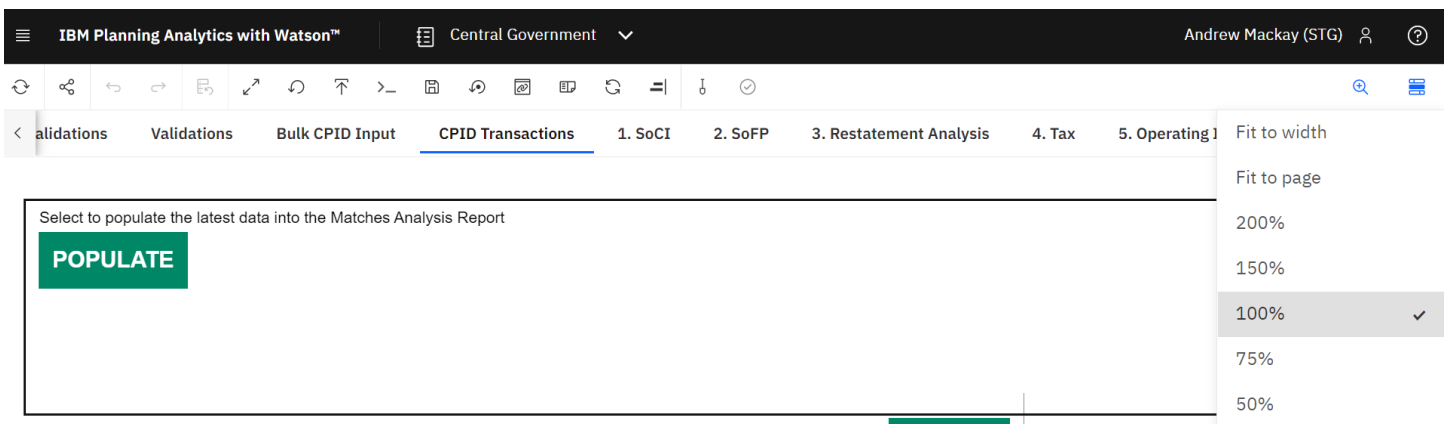

Please note that no formulas will be downloaded when you export the document.

5.2.7 Zoom Function

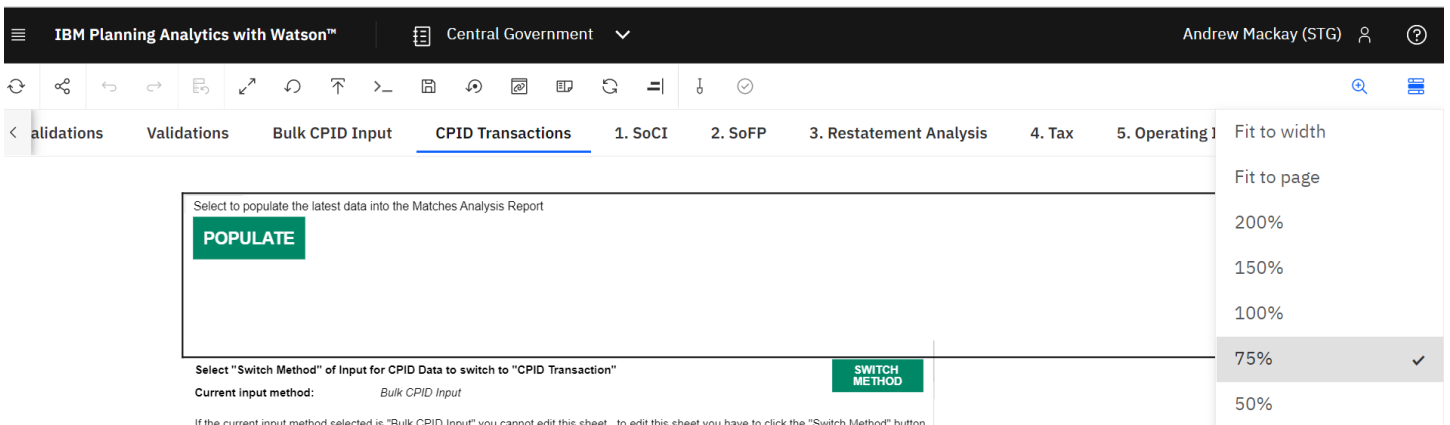

You can use the zoom functionality to be able to zoom in / out to view data within the tabs on the screen. There is a zoom button to the far right of the toolbar as follows:

Clicking on this will give you options to zoom in / out. Select the relevant option you require.

This is especially useful to display data in the CPID transactions tab. Click on 75% as follows:

Scroll down the screen to view transactions as follows:

Current input method: Bulk CPID Input

If the current input method selected is "Bulk CPID Input" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button.

"Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions" from the "Bulk CPID Input" tab.

Add Rows Select Account: Enter no. of rows: **ADD ROWS**

Delete Rows
There are two methods of deleting rows- either select an individual account and a row no. to delete (as well as the option to delete 'All' rows), or select a range of accounts and rows to delete.

Select Account: OR Enter row no. to delete: **DELETE ROW**

Select Range of Accounts
Lowest Account: Enter range of rows to delete: Lowest Row no.:
Highest Account: Highest Row no.: **DELETE RANGE**

Filters Account Code: Total SCOA or Match Relationship: All Match Relationships **REBUILD VIEW**

Row No	Account Code	Account Code Description	MR	Trial Balance	Total External Balance	Instigating Entity Code	Counter Party Code	CPID Amount
1	14912000	IA - EMISSIONS ALLOWANCES - COST - ADDITIONS	22	0	0			0
1	14917000	IA - EMISSIONS ALLOWANCES - COST - DISPOSALS	22	0	0			0
1	16151000	NCA - TAXATION AND DUTIES DUE	12	0	0			0
1	16155000	NCA - PREPAYMENTS (NON-PFI)	10	0	0			0

5.3 Next steps

You will now be aware of the features found within the data input books to navigate, enter data effectively, save, and export data.

6 Step: Counter party transactions

6.1 Brief description

Once you have clicked 'Start' on the Homepage you will be able to input counter party data. There are two options for entering counterparty transactions, either via the CPID transactions method, or bulk CPID input method. If you have few counterparty transactions you may want to use 'CPID transactions,' else if you have a significant amount of counterparty transactions you may want to use 'Bulk CPID input.'

6.2 Mismatches - overview

Mismatches occur when there are differences between what you are pointing to another WGA organisation and what the corresponding organisation is pointing back.

This chapter will cover some broad categories of mismatch. It should be noted that there are many more individual reasons why data may not match which would require investigation on a case-by-case basis.

A mismatch analysis tool, or the mismatch report generated using this tool, can be made available to you on request. This will show your mismatches with other entities based on the current dataset available in OSCAR on that date. Alternatively, you may be sent a mismatch report by the WGA team when a mismatch is being investigated. If this is before Cycle 2, then data can be amended within the DCT to resolve the mismatch. If the involved party's data has already been submitted, this may require a manual journal by the WGA team (therefore we would want to pick up on mismatches to prevent or correct them at an early stage).

Difference in amounts

This mismatch type occurs when the entities record the transaction to each other at differing amounts.

The balance agreement process should minimise the occasions when this occurs within central government for significant balances and ensure that evidence is recorded via the CG forms when significant mismatches do still exist.

Difference in counterparty allocation

One counterparty may have omitted to point to the other counterparty. This can be corrected within that parties CPID transactions sheet if picked up before the Cycle 2 stage.

This can also occur where there is confusion as to the correct counterparty due to an agency relationship. The resolution to such an issue would need to ensure that all balances internal to WGA are eliminated. Ideally the solution is agreed between all the parties to the transaction so that each step in the transaction is recorded in a way that aligns.

If one party reports a balance of say £900k, and the other doesn't due to materiality, the other party should report an equal amount in a similar MR to eliminate the balances.

Error in positive/negative signage

If you are allocating part of a negative signage amount to an entity on the CPID transactions sheet, you will need to ensure your allocation uses negative signage. If you use the opposite signage to what is expected, and the other party uses the correct signage, this causes a mismatch of double the value of the balance.

Please be alert to the warning messages within the CPID transactions tab which appear if unexpected signage is used.

Different match relationships

Agreement on use of match relationships forms part of the balance agreement process, so we would expect that occurrence of this issue on significant balances within central government would be limited.

The issue would occur when counterparties are classifying the balance differently, for instance one party treating an amount as a loan, while the other party records a trade receivable. The two sides of the transaction would then fall into different match relationships (which are designed to group together similar transaction types) and this causes a mismatch.

Resolution of this issue would require agreement of how the balance should be treated and corresponding amendment of the data in one parties DCT.

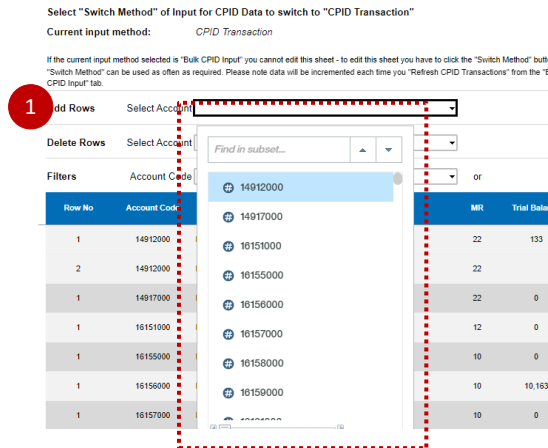

6.3 Activities

- CPID transactions
- Central government data
- Bulk CPID input
- Counterparty validation errors
- Matches analysis.

6.3.1 CPID transactions

If you have chosen to enter your Counterparty Transactions via CPID Transaction method, please follow the steps below:

1. Under ‘Add Rows’, select the account code that you wish to enter CPID transactions.

2. Enter the number of rows / transactions for the selected account code and select 'Add rows.

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method: *CPID Transaction*

If the current input method selected is "Bulk CPID Input" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button. "Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions" from the "Bulk CPID Input" tab.

Add Rows Select Account

SWITCH METHOD

Enter no. of rows

ADD ROWS

2

3. Under the Instigating Entity Code, enter in the organisation codes.
4. After selecting the instigating entity, select the organisation ID for the Counter party Code.
5. When you have the list of instigating and counterparty organisations you can enter the values of the transactions between the organisations that make up the TB amount, in the CPID Amount column.

Total External Balance	Instigating Entity Code	Counter Party Code	CPID Amount	Instigating Entity Description	Counter Party Description	Total CPID Balance
-4,744	CAB010	BIS084	100	Cabinet Office	Dept. for Business, Energy & Industrial Strategy	4,877
			4,777			
0			0			0
0	3	4	5			0
0			0			0
10,163			0			0
			0			
			0			

6. Mach Relationship Code will be presented in the 'MR' column.
7. You can make comments in the 'User Comments' column, if needed

MR	Trial Balance	User Comment	Auditor Comment	CPID Input Latest User and Timestamp
22	0			
22	0			
12	0			
10	0	7		
10	0			
10	0			
11	0			
10	0			

8. Select validate when you have completed your data entry.
9. Your validation errors will appear in the 'Publish' and 'Submission' columns.

	Hard Validation Errors:	Publish	Submission
	Soft Validation Errors:	281	281
		0	0

Please make sure that all 'Hard Validation Errors' are resolved and for all 'Soft Validation Errors', comments are provided. You will not be able to Publish counter party transaction if there are Hard Validation Errors.

Publish validation errors prevent you from being able to share CPID transactions (e.g., incorrect CPID code) for other organisations to view, while submission validation errors prevent you from progressing in the workflow steps (e.g., entering a negative where a positive value is expected).

Please note:

The total amount for the CPID transactions that make up the Trial Balance Account Balance will be automatically populated on the top row of the data set for that transaction. This will allow you to compare the total value of your CPID transactions, particularly if there are numerous transactions for that CPID, against the Trial Balance Value.

6.3.2 Central government data

WGA has collected data for some of the main central government bodies. This data is stored on Oscar.

Please use this data for the allocation of transactions on the CPID Transaction tab in the first instance, before contacting the relevant central government entity.

To access the data, please follow the steps below:

6.3.3 Bulk CPID input

If you do have multiple CPID transactions to enter at once, you can use 'Bulk CPID Input' method. **You should only use the Bulk input data once and then edit it via the CPID transaction tab.** Users need to navigate to the CPID Transactions tab to delete or correct the initial entry made on the BULK CPID input tab.

OSCAR WGA – Local Government Guidance

You should only use the Bulk input data once and then edit it via the CPID transaction tab. Users need to navigate to the CPID Transactions tab to delete or correct the initial entry made on the BULK CPID input tab.

Select "Switch Method" of Input for CPID Data to switch to "Bulk CPID Input" method.

Current input method: *Bulk CPID Input* **SWITCH METHOD**

If the current input method selected is "CPID Transaction" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button. "Switch Method" can be used as often as required. **Please note data will be incremented each time you "Refresh CPID Transactions"**

Enter number of rows required for your CPID Input and select "Add CPID Rows" button. Please enter a positive whole number between 1-3000. **ADD CPID ROWS**

Select "Clear Data" to remove all data in the input grid. **CLEAR DATA**

Please fill out columns "Account Code", "Instigating Entity Code", "Counter Party Code", "CPID Amount E000s" and "User Comment (Optional)". The remaining columns are formulas based on the data you select.

Once you have entered the "Account Code", "Instigating Entity Code", "Counter Party Code", "CPID Amount E000s" and "User Comment (Optional)" if desired, for each of your lines then press "Validate CPID Input" to validate data. **No validation errors** **VALIDATE CPID INPUT**

The cells in grey for CPID Input rows will auto complete if your data is valid. Check the Complete column and correct any errors.

Once you have completed your Bulk CPID data you can press "Refresh CPID Transactions" to transfer this to the CPID Transactions tab. **REFRESH CPID TRANSACTIONS**

You must leave all your data on this sheet as it refreshes in full. You can leave blank lines or put multiple transactions to the same CPID per account code - however please note you are limited to a maximum of 3000 lines of data to keep the size of the tab down.

Account Code	Instigating Entity Code	Counter Party Code	CPID Amount E000s	Instigating Entity Description	Counter Party Description	Description	Status	Complete	User Comment (Optional)
1			0						
2			0						
3			0						

1. If there is already data in this worksheet, that you would like to clear, select 'Clear data.'

Select "Clear Data" to remove all data in the input grid.

2. Please make sure your current input method is 'Bulk CPID Input' before entering data on this worksheet.

Select "Switch Method" of Input for CPID Data to switch to "Bulk CPID Input" method.

Current input method: *Bulk CPID Input* **SWITCH METHOD**

If the current input method selected is "CPID Transaction" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button. "Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions".

3. Select the number of Counter Party Transactions and select 'Add CPID Rows'

Enter number of rows required for your CPID Input and select "Add CPID Rows" button. Please enter a positive whole number between 1-3000.

50

ADD CPID ROWS

- Once you have entered (or used copy and paste) the "Account Code", "Instigating Entity Code", "Counter Party Code", "CPID Amount £000s" and "User Comment (Optional)" if desired, for each of your lines then press "Validate CPID Input" to validate data.

Account Code	Instigating Entity Code	Counter Party Code	CPID Amount £000s	Instigating Entity Description	Counter Party Description	Description	Status	Complete
14912000	BIS004	CPS016	350	Dept. for Business, Energy & Industrial Strategy	The Crown Prosecution Service	IA - EMISSIONS ALLOWANCES - COST - ADDITIONS	G	Complete

- Any Validation errors will appear in this section.'
- Once you have completed and validated your 'CPID INPUT,' select 'Refresh CPID Transactions.' Please note data entered and refreshed will also appear in the 'CPID Transactions' worksheet.

6.3.4 Counterparty validation errors

Please be aware of counterparty validation errors listed below which will prevent your ability to 'Publish' counterparty transaction:

- Incomplete data fields
- Account code does not exist.
- Instigating Entity does not exist.
- Counter Party does not exist.
- Entity CPID was entered in lowercase (e.g., "afs902") instead of uppercase ("AFS902").
- The amount allocated to counterparties **must not exceed** the amount on the Trial balance (TB).
- The CPID amount must have the same signage as the TB.
- The column CPID Amount £000 contains a decimal place. Please remove the decimal place
- This SCOA must be 100% Allocated.
- If the TB amount is zero, there should be no CPID amount.
- Please delete the Instigator or CPID from the row
- Please delete the Instigator/CPID as there is no CPID value.
- Invalid CPID Entity in column Counter Party Code
- Invalid Instigator Entity. The counter party is in your group.

- Your chosen CPID is within your Instigator group.
- Incomplete CPID entities provided.
- The Counterparty code has been entered more than once for the same SCOA. Please aggregate the amounts and report as one line entry.

Please ensure these issues are resolved to allow you to ‘Publish’ your counterparty transactions.

In the context of the Whole of Government Accounts the terms "instigator" and "counterparty" are used to describe the parties involved in transactions between different government entities.

- **Instigator:** This is the entity that initiates a transaction. In the WGA, this would typically be the government department or public sector body that is responsible for starting a financial transaction or event, such as making a payment or transferring an asset.
- **Counterparty:** This is the entity on the other side of the transaction. In the WGA, the counterparty is the government department or public sector body that is involved in the transaction initiated by the instigator, such as receiving a payment or asset.

6.3.5 Matches Analysis Tool

You are able to run the Matches Analysis tool where you are able to view other organisations published counterparty transactions. This can be run at any time and is dependant on organisations inputting and publishing counterparty transactions via the Homepage.

This is one of the most significant changes to OSCAR compared to the previous way of collecting data. The ability to create a matches report and review mismatches before you make your cycle 1 submission should reduce the number of adjustments needed between cycle 1 and cycle 2. For local government users we recommend focussing on mismatches between local government bodies, as there will be timing and accounting treatment differences between Central Government and local government.

To navigate to the Matches Analysis Tool, return to the WGA landing page and select Matches Analysis Tool as highlighted below:

Reports and Analysis Create

<input type="checkbox"/>	Matches Analysis Tool	Shared/WGA/Data Collection	Book	23/08/2023 16:59	♡ ⋮

This will open the below tab with multiple filters, which will generate a report of counterparty transactions based on selections to identify counterparty mismatches:

1. *MR* – filter for specific match relationships
2. *Account filter* – for specific SCOA codes
3. *Organisaton* – filter for Organisations
4. *Org LG/CG* – filter for Local or Central Government bodies
5. *Org Detailed Type* – filter for a specific organisation types within the organisational hierachy e.g. Departmental Group, or England Central government
6. *CPID* – filter for a specific counterparty
7. *CPID LG/CG* – filter for the counterparty Local or Central Government bodies
8. *CPID Detailed type* – filter for a counterparty organisational type within the organisational hierachy e.g. Departmental Group, or England Central government
9. You can select the number of transactions to display in the drop-down list and select the ‘Refresh’ button to update the view of transactions.

The Matches tool is flexible enough to allow you to select up to five sets of filters based on selections for specific matches to view:

The screenshot shows a filter configuration interface with the following elements:

- 1**: MR dropdown menu (set to 'All')
- 2**: Account dropdown menu (set to 'Total SCOA')
- 3**: Organisation dropdown menu (set to 'HMT087')
- 4**: Org LG/CG dropdown menu (set to 'All')
- 5**: Org Detailed Type dropdown menu (set to 'All')
- 6**: CPID dropdown menu (set to 'Select an existing CPID')
- 7**: CPID LG/CG dropdown menu (set to 'All')
- 8**: CPID Detailed Type dropdown menu (set to 'All')
- 9**: Display TOP dropdown menu (set to '10')

Below the filter controls is a table with the following columns:

MR	SCOA	Organisation	CPID	Instigated	Received	Mismatch	Absolute Value	CPID Status

7 Step: Local Government Data Entry

7.1 Brief description

In this section you will be able to enter and submit your financial data.

7.2 Activities

- Selecting your organisation and starting your submission
- Homepage and Submission cycles
- Proformas
- Restatements
- Validations.

7.2.1 Selecting your organisation and starting your submission

By selecting Central Government Book, you will be presented with the following 'Homepage' screen, which is the start point for the data collection, following access to the landing page, navigate to the Homepage screen.

You will be able to select your organisation for which to submit data for in the Entity selection drop down box. Once selected here, the organisation will be applied to all other input tabs.

A summary of the workflow steps is also shown here for reference.

Workflow Step	Guidance
START submission	Firstly select if your organisation is above or below the audit thresh and is a major or minor body from the dropdown lists provided, then press 'Start' to commence DCT input.
SUBMISSION CPID	Publish CPID transaction to matches report.

7.2.2 Homepage and submission cycles

Step 1 – start submission.

To start inputting data, you will need to select:

- If your organisation is a Minor body Yes/No.
- If your organisation is above or below your WGA Audit Threshold
- If you are below the minor bodies' threshold, you will need to complete a CG03 form. OSCAR provides a link to this form.

The status of the DCT process starts as '**Open**'.

- Select 'no' to the minor body question if your entity is above the minimum threshold for completing a WGA return.
- Indicate whether your organization is above or below the WGA Audit Threshold.
- Provide an alternative email contact by entering it into the update value box and clicking "update".
- Click "START" to begin your return.
- Once started, the Workflow Status under 'Return Information' will change to Draft.
- After initiating your DCT process, input the data across the different tabs. Step 2 follows once you've completed the data input, including the CPID entry. **There's no need to revert to Open.**
- The status will change when you move your DCT to the next stage. You cannot go back on previous steps on the DCT.

Steps for Cycle 1

Step 1 - Start submission

Press 'Start' to commence DCT Input.

Is your organisation a minor body?

Select

Are you above or below the audit threshold?

Select

START

Please provide an alternative contact, this can be a line manager, colleague or senior member of the finance team. This will allow us to keep in touch if you move on or are not available.

Alternate Email

Current value

test1@email.com

Update value

UPDATE

[WGA 2018-19 form: CG-03 template for minor body exemption from completing WGA returns](#)

An alternative contact can be provided and saved in the form. You will find the OSCAR General Data Protection Regulation (GDPR) policy at <https://www.gov.uk/government/collections/the-online-system-for-central-accounting-and-reporting-oscar-tool>.

Step 2 – Publish CPID transactions.

Once you have started the submission you are able to enter counterparty transactions in either the Bulk CPID Input or CPID Transaction input forms (Section 6.2.1 and 6.2.2).

When you have completed entering CPID data, click 'Publish' on the Homepage for all other counterparties to view.

This will enable organisations to work with other organisations to resolve counterparty balances at any point before Cycle 2 submission.

Step 2 - Publish CPID transactions

Publish the CPID transaction to matches report.
(Matches will now be visible to counterparties)

PUBLISH

[WGA 2018-19: match relationships](#)
[WGA 2018-19: counter-party identifier \(CPID\) list](#)
[WGA 2018-19 form: CG-01 template for agreeing balances with other WGA bodies](#)

Hard Validations
0

Soft Validations
0

The validations for this step are detailed on the CPID Transactions tab as 'Publish' validation errors.

IMPORTANT:

You will only be able to Publish if there are no Hard validation errors, therefore all these need to be resolved before publishing counterparty data.

There are links which allow you to download useful document such as the match relationships, list of counterparty identifiers, and the CG-templates.

Step 3 – Lock submission for review/audit acceptance

Once you have completed the proformas you can 'Lock submission' which will indicate the submission is ready for the auditors to review.

For organisations below WGA Audit Threshold, you will be able to lock and progress to Cycle 1 submission.

Step 3 - Lock submission for review/audit acceptance

If your organisation is below the audit threshold, select this step to proceed to cycle 1 submission. You will have a chance to review before submitting cycle 1.
For audited organisations, select this step to lock your submission for audit acceptance.

LOCK SUBMISSION **BACK TO STEP 2 PUBLISH CPID**

You can run the Audit report and share with auditors to ensure they are content to commence the audit. Instructions for running the Audit report can be found at '**7.3 Audit report**'.

Step 4 – Submit and close Cycle 1

To complete Cycle 1, click the 'Submit for Cycle 1' button which also allows the audit process to begin.

For organisations below WGA Audit Threshold, you will be able to submit for Cycle 1 after locking the submission.

Please note you will not be able to submit if there are hard validation errors and once submitted you will not be able to amend your submission until Cycle 2.

For organisations above the WGA Audit Threshold, you can run the Audit report at this point. Instructions for running the Audit report can be found at **'7.3 Audit report'**.

Step 4 - Submit and close Cycle 1

If your return is below the audit threshold, select to submit the DCT for cycle 1.

For audited organisations, submit to finalise your cycle 1 WGA return and commence the audit process.

NOTE: Once submitted, you will not be able to move back to previous workflow step without Central WGA team's unlock request.

SUBMIT FOR CYCLE 1

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

Step 5 - Reopen for Cycle 2 changes.

Following audit review, you can reopen the submission to make any changes agreed with your auditor to your data.

For organisations below WGA Audit Threshold, you will be able to reopen your submission for Cycle 2 after you have submitted Cycle 1.

Steps for Cycle 2

Step 5 - Reopen for Cycle 2 changes

If your return is below the audit threshold, select to reopen DCT for cycle 2 changes.

For audited organisations, unlock to enter auditor agreed revisions.

**REOPEN FOR CYCLE 2
CHANGES**

Step 6 – Lock for Cycle 2

To complete Cycle 2, click the 'Lock for Cycle 2' button.

There are also links which download the *CG-04 management review checklist* and *CG-05 template for the notification of audit completion*.

For organisations below WGA Audit Threshold, you will be able to submit for Cycle 2 after locking the submission.

Please note you will not be able to submit if there are hard validation errors.

Step 6 - Lock for Cycle 2

If you are above the audit threshold, please click to lock for cycle 2 and provide the updated auditor report to your auditors. If they confirm they are happy with the final numbers, please proceed to step 7. If not, please make changes as agreed with your auditors before proceeding to step 7.

If your return is below the audit threshold, select to lock for cycle 2. You will have the chance to review before submitting.

LOCK FOR CYCLE 2

Soft Validations
0

Submission Deadline
01-04-2019

The validations for this step are a total of those shown on the Validation Report tab and those detailed on the CPID Transactions tab as 'Submission' validation errors.

[WGA 2018-19 form: CG-04 management review checklist for central government](#)

[WGA 2018-19 form: CG-05 template for the notification of audit completion](#)

You can also run the Audit report at this point. Instructions for running the Audit report can be found at **'7.3 Audit report'**.

Step 7 – Submit to finalise Cycle 2 and complete WGA return.

Finalising Your Submission

To complete the WGA process, enter your organisation's contact details and auditor information before clicking **'Submit to finalise WGA return.'**

You should only lock the Cycle 2 submission once your audit is complete, and you have received confirmation from the auditors.

Please note that after submitting the final return, **no further changes can be made to the data.** If modifications are required, contact the WGA team at LG_WGAreturns@hmtreasury.gov.uk.

There is no confirmation email following final submission. However, you can verify your submission on your Homepage—the workflow status should reflect this.

Submission at **Step 7** is only allowed if your accounts have been **published online** and your **DCT agrees with your entity's published accounts.**

Step 7 - Submit to finalise Cycle 2 and complete WGA return

If your return is below the audit threshold, submit to finalise your WGA return.

For entities with DCT above the audit threshold and audited, click to submit to finalise your WGA return once the audit is completed and changes are agreed and processed.

NOTE: Once submitted, you will not be able to move back to previous workflow steps. Your DCT return will be complete.

ONLY SUBMIT AT STEP 7 IF YOUR ANNUAL STATUTORY ACCOUNTS HAVE BEEN SIGNED AND APPROVED BY AN INDEPENDENT AUDITOR and your published accounts agree with your Cycle 2.

On behalf of Academies
 I understand that I should only submit a Cycle 2 DCT if my entity's accounts have been audited and approved. I can confirm my entity's Annual Accounts have been audited and approved by an independent auditor or I can also confirm that my entity's DCT at Step 7 agrees to the entity's published Audited Accounts.

Enter a Y in the box to confirm that you have read the above text and agreed to the conditions for Step 7

SUBMIT TO FINALISE WGA RETURN

7.2.3 Trial balance method

The Trial Balance functionality is used to automatically post your TB values to the Proformas depending on the mappings you provide.

To enter your Trial Balance, select your Trial Balance Input Book:

Reports and Analysis Create

Shared Personal Favorites Recents

Shared / WGA / Data Collection

Name	Location	Type	Last modified
Central Government	Shared/WGA/Data Collection	Book	02/05/2025 11:16

Trial Balance Input- Local Government	Shared/WGA/Data Collection	Book	06/09/2024 10:33

Under the Trial Balance Input book, you will find the following tabs:

Trial Balance entry steps outlined:

To input your Trial Balance data, you must first map your TB codes to the OSCAR Standard Chart of Accounts (SCOA) codes.

Follow the steps as outlined in the SCOA Mapping Tab:

1. Select "Clear Mapping" button if you would like to clear the current mappings from the input table.

- Enter the number of accounts that you would like to map against available SCOA and select create mapping rows. The system supports 3,000 rows, to allow for mass population.

- Input your Trial Balance codes in column "Your Code" and the OSCAR codes to be mapped in column "OSCAR Code." Reference to 'Your Code' is your organisational account code (sometimes referred to as 'Local Chart of Accounts (LCOA).') The system can accommodate account codes made up of letters, numbers, or combination of both. Once you have completed your mapping move to step 4. You can find a list of OSCAR Standard Chart of Accounts (SCOA) available for use in Trial Balance mapping on the "Available SCOA" tab. Some entities use the OSCAR chart of accounts for their own local account codes. You will still need to map these codes, but it should be as straightforward as having the same data in the 'your code' and 'OSCAR code' columns.

	Your Code	OSCAR Code	OSCAR Description	Status	Status Comments/User Action
1	12345	11111000	PPE - LAND (OWNED) - COST - O/BAL	G	Passed
2					
3					

- Map each of your account codes against available SCOA and select 'Validate Mapping.'

- Only account codes mapped to existing OSCAR SCOA'S can be validated. Validation checks exist on this page to ensure this. Please Validate and Submit mapping.

If there are any incorrect or incomplete mappings, you will see that the 'Status' box will turn red. You will be notified of the lines that need to be corrected in the Status Comments box. You will also see that the individual mappings have their own status and comments, which will guide you in how to rectify any errors.

OSCAR WGA – Local Government Guidance

The following steps are for inputting the mapping for your TB

Steps

1

1.1. Enter number of rows required for your TB mapping and select "Create Mapping Rows" button.
Number of rows created: 50

1.2. Select "Clear Mapping" button if you would like to clear the current mappings from the input table.

1.3. Then place your Trial Balance codes in column "Your Code" and the OSCAR codes to be mapped in column "OSCAR Code". Once completed move to step 2.

You can find a list of OSCAR Standard Chart of Accounts (SCOA) available for use in Trial Balance mapping on the "Available SCOA" tab.

2

Select "Validate Mapping" button to proceed. Check the status and correct any errors identified. Repeat steps 1 and 2 until status on step 2 is Green.

3

Select "Submit Mapping" button to proceed when all validation errors have been corrected and input your Trial Balance on the "Trial Balance Input" tab.

7.2.3.1 Trial balance input

After you have mapped and submitted your mapping on your chart of accounts against available SCOA, the next step would be to input or copy and paste your trial balance and your codes will be mapped to SCOA.

The OSCAR platform does not prevent users from entering decimal places, so users may input decimal values. However, this validation ensures that any decimal entries are not written to the database.

1. On the Trial Balance Input worksheet, enter the number of rows required for your Trial Balance and select 'Create Trial Balance Rows'

Steps

4

4.1. Enter number of rows required for your Trial Balance and select "Create Trial Balance Rows" button.
Number of rows created: 50

4.2. Select "Clear Trial Balance" button if you would like to clear the current data from the input table.

4.3. Then place your Trial Balance codes in column "Your Code" and the amount in column "Amount £". Ensure all Trial Balance codes used have been entered and mapped in the SCOA Mapping tab first.

613

CREATE TRIAL BALANCE ROWS

CLEAR TRIAL BALANCE

REFRESH POSTED TB
DATA

Rounding Adjustment added to 52242000 (3)

OSCAR Code	OSCAR Description	Posted Amount £'000
41514000	INC - SPIRITS DUTIES	1
41518000	INC - AIR PASSENGER DUTIES	2
52242000	EXP - OTHER EXPENSES	(3)

5. After verifying the amounts, go back to the Homepage tab and select 'LG Homepage' to be directed to the Local Government Homepage.

Please note:

Please Note the default rows on the ‘SCOA Mapping’ and ‘Trial Balance Input’ worksheet is 50.

This means if you input more 50 rows on these worksheets, on the subsequent login to OSCAR Trial Balance, you will be able to see only 50 rows.

Your Trial balance mapping and posted amount will remain the same as previously posted and you will be able to see all posted rows by increasing the number of rows in create rows sections.

The next step in your DCT is to go through the worksheets tabs proformas and input any additional data that is required by the DCT, but not provided by your TB, for example statistical data such as staff numbers.

7.2.4 Proformas

Before you start entering data in your DCT navigate to the Balance Sheet tab and check that your opening balances have populated correctly by checking to last year’s closing balances. Opening balances provided will be based on prior year submitted data. If, for example, you did not submit a cycle 2 submission in the prior year then you may have data that does not agree to your published financial statements. If you are unsure how to proceed, please contact the WGA team at LG_WGAreturns@hmtreasury.gov.uk.

From 2025–26, entities will only be able to upload data using the TB input method, as the Proforma method will no longer be available.

This guidance provides a detailed, step-by-step guide on how to upload data using the TB input method.

7.2.4.1 CI&E – Comprehensive Income & Expenditure Statement: Net Operating Expenditure and Surplus/Deficit for the year.

The CI & E worksheet collects income and expenditure information, including grant and taxation income.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data.
2. Select 'Rebuild View' if you have changed your spreadsheet view.
3. Enter any comments that you may have.
4. Select 'Save'.

7.2.4.5 Restatement Analysis

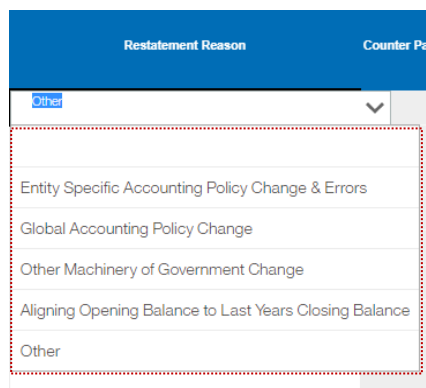

In OSCAR, restatement information only needs to be entered in this tab. This will then populate the Re-statement CI&E and the relevant proformas, which in turn will update the associated primary statements.

To 'undo' a re-statement that has been validated, a reverse re-statement needs to be added. Please do not amend or delete the re-statement and instead add a reverse re-statement.

1. Select Primary Statement from the drop-down list in the first column.
2. Select "Update Note Drop Down" to filter the second column based on the Primary Statement you have selected and select a Note. The list of note level codes here will not be filtered to the relevant primary statement, so please take care to make sure you select the appropriate primary and note level code.

Restatements which are not shown on individual tabs will display the following: "N/A - Restatements not shown on individual note tabs.

3. Select your restatement reason from the drop-down list please note the examples of when the restatement reasons should be used below:
 - *Entity Specific Accounting Policy Change & Errors* - for example if there is a prior period error that is corrected, or a change in accounting policy that only affects your organisation.
 - *Global Accounting Policy Change* - implementation of new IFRS, for example IFRS 16 and 17
 - *Other Machinery of Government Change* - if you are receiving or giving balances to another WGA body.
 - *Aligning Opening Balance to Last Year's Closing Balance* - if the balances played back to you do not align to the opening balances in your own financial statements
 - *Other* - anything else

4. Then enter the debits and credits into the schedule with (-) sign where appropriate.
5. Validate and refresh data and then check if it has been brought through to the Balance Sheet tab or the CI&E tab (depending on whether it is a Balance sheet or I&E restatement)

Restatement Analysis

Please complete this schedule if you have made Prior Period Adjustments, detailing transactions at SCOA level, which affect your Statements. This sheet will auto populate the proforma sheet restatements.

Select a Primary Statement from the first column.

Click "Update Note Drop Down" to filter the second column based on the Primary Statement you have selected and select a Note. Restatements which are not shown on individual tabs will display the following: "N/A - Restatements not shown on individual note tabs"

Complete the remaining columns: Restatement Reason, Counter Party Code (if applicable), Debit or Credit and Comment.

Select "Validate Re-Statements" to proceed. Check the Validation column and correct any hard validation errors.

Once you have cleared all hard validations, select "Refresh Re-statements" to update the Primary Statement and Note tabs with data from the below grid.

Primary Statement	Note	Primary Statement Submitted Balance as at 31 March 2019	Note Submitted Balance as at 31 March 2019	Restatement Reason	Counter Party Code	Debit £'000	Credit £'000	Primary Statement Restated Balance
CP-SoFP - Other non-current financial assets - C0201726	CP-O-Fin-Assets - Deposits - 816512BA	-	-	Global Accounting Policy Change		(100)	-	(100)
CP-SoFP - Current trade and other payables - C0201637	CP-T&OP - Other borrowings - 826122BA	(175,098)	-	Global Accounting Policy Change		1,100	-	(173,998)
Total						3,367	(3,367)	

6. If Debits and Credits do not match, the following Validation error will occur:

Debit	Credit	Validation	Status
115	115	Debits and credits do not match - DO NOT SUBMIT.	R

Correct the validation errors, if any, and 'Validate' and select 'Refresh Re-statement'.

7.2.4.6 PPE & Invest Prop – Property, Plant & Equipment, and Investment Properties.

This tab collects data on Property plant and Investments. Please note that we require land to be split out separately from buildings. Please also remember to fill out the cash flow information section at the bottom of the tab.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data.
2. Select 'Rebuild View' if you have changed your spreadsheet view. The below screen shows the 'Input view.'
3. Enter your data as per the categories provided in the white cells of the table.
4. Select 'Save.'

Please note:

To copy and paste your data, you may wish to download this worksheet in excel by selecting the export option below:

Select the export icon.

The screenshot shows the IBM Planning Analytics interface. At the top, it displays 'IBM Planning Analytics with Watson™', 'Local Government', and the user 'Andrew Mackay (STG)'. Below the navigation bar, there are several tabs: 'A. CI&E', 'B. I&E NCS Subjective A', 'D. Balance Sheet', 'E. Restatement Analysis', 'F. PPE & Invest Prop', 'G. ROU', and 'H. Intangibles'. The 'G. ROU' tab is active. A context menu is open over the spreadsheet area, showing three options: 'Export slice to Excel', 'Export snapshot to Excel', and 'Export to PDF'. The spreadsheet content is identical to the one shown in the previous image, with the 'Additions' row highlighted. The 'REBUILD VIEW' and 'SAVE' buttons are visible at the top right of the spreadsheet area.

Select 'Export snapshot to Excel.'

You will also need to enter data into the Asset Financing cells, analysing the split of the ROU net book value totals.

Carrying Amount at 31 March 2021	0	0	0	0
Opening Carrying Amount at 1 April 2020	0	0	0	0
Asset Financing (the split should equal the total NBV)				
Owned (includes donated)				
Leased	0	0	0	0
PFI On-balance sheet	0	0	0	0
PFI Residual interest	0	0	0	0
Carrying Amount at 31 March 2021	0	0	0	0

You will also need to enter any CPID data relating to ROU assets where you have any transactions relating to other government bodies (including any lease liabilities (in other creditors), lease receivables (in trade and other receivables as lessor), lessor income and lessee expenditure (interest)).

Navigate to bulk CPID input and input your CPID data or use the CPID transactions tab to add lines for your CPID data. See screen shots below.

Bulk CPID input:

Validations **Bulk CPID Input** CPID Transactions Data Collection 1. SoCI 2. SoFP 3. Restatement Analysis 4. Tax 5. Operating Income 6. Operating Cost 7. Fin Cost 8. PPE 9. ROU 10. IFA 11. T&OR 12. T&OP

Select "Switch Method" of Input for CPID Data to switch to "Bulk CPID Input" method. **SWITCH METHOD**

Current input method: CPID Transaction

If the current input method selected is "CPID Transaction" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button. "Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions".

Enter number of rows required for your CPID Input and select "Add CPID Rows" button. Please enter a positive whole number between 1-3000. **ADD CPID ROWS**

Select "Clear Data" to remove all data in the input grid. **CLEAR DATA**

Please fill out columns "Account Code", "Instigating Entity Code", "Counter Party Code", "CPID Amount £000s" and "User Comment (Optional)". The remaining columns are formulas based on the data you select.

Once you have entered the "Account Code", "Instigating Entity Code", "Counter Party Code", "CPID Amount £000s" and "User Comment (Optional)" if desired, for each of your lines then press "Validate CPID Input" to validate data. **No validation errors** **VALIDATE CPID INPUT**

The cells in grey for CPID Input rows will auto complete if your data is valid. Check the Complete column and correct any errors.

Once you have completed your Bulk CPID data you can press "Refresh CPID Transactions" to transfer this to the CPID Transactions tab. **REFRESH CPID TRANSACTIONS**

You must leave all your data on this sheet as it refreshes in full. You can leave blank lines or put multiple transactions to the same CPID per account code - however please note you are limited to a maximum of 3000 lines of data to keep the size of the tab down.

	Account Code	Instigating Entity Code	Counter Party Code	CPID Amount £000s	Instigating Entity Description	Counter Party Description	Description	Status	Complete

Cash from sales of intangible assets	0	Sales negative value (-)
Total net cash flow	0	

7.2.4.9 Inv, JVs & Assoc Investments, Joint Ventures, and Associates.

We have incorporated changes made to IFRS 9. The public sector will apply retrospective application without restatement of comparatives.

We collect short term and long-term investment totals and then ask you to split these between amounts with WGA counterparties (“internal” amounts) and amounts with external parties. Please ensure this split is in line with the counterparty allocations you plan to make on the CPID transactions tab later.

For the other financial assets table, there are three implemented categories. The categories are now “amortised cost,” “Fair value through profit or loss” and “Fair value through OCI.”

External balance will be brought through from the earlier tables and split out manually. You also need to categorise the assets for current deposits and current loans as either “Fair value through profit or loss” or “Fair

value through OCI.” If you do not have external balances for current loans or current deposits, please do not complete this tab.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data.
2. Select ‘Rebuild View’ if you have changed your spreadsheet view.
3. Select ‘Save’.

Investments, Joint Ventures and Associates

Joint Ventures and Associates: this could potentially be a large net liability balance
We expect that the equity method is applied, so only your share of the balance is recorded in your accounts

Share of post tax results of associates and joint ventures		€'000	Comment
Associates balance			
Closing balance as at 31 March 2019 (closing balance from last years WGA return)		0	
Adjustments		0	
Restated balance as at 1 April 2019		0	
Share of net assets/liabilities at 1 April 2019		0	
Share of post tax results		0	
Dividends		0	
Impairments		0	
Acquisitions		0	
Disposals		0	
Revaluations		0	
Reclassifications		0	
Share of net assets/liabilities at 31 March 2020		0	
Share of post tax results of associates and joint ventures		0	
Total assets		0	
Total liabilities and shareholders' equity		0	
Net total (should be same as above)		0	

Investments

The Investment section has four questions around collecting short term and long-term investment totals, then splitting them between balances internal to the WGA boundary (internal) and balances held with the counterparties outside the WGA boundaries (external), entering details of the valuation basis for external balances and their categorisation.

Please ensure this split in question 2 is in line with the counterparty allocations you plan to make on the CPID transactions tab later.

OSCAR WGA – Local Government Guidance

Guidance Note

The format below is required for WGA. It differs from the format set out in the CODE. The data is collected from in three steps. At Step 2, you are asked to split your balances between balances internal to the WGA boundary (internal) and balances held with counterparties outside the WGA boundary (external). Valuation information at Step 3 is then only requested for your external balances. This ensures consistency between the primary statements and the notes, as we only wish to report on balances held with external counterparties.

Step 1) Enter total short term and long term investments as per your resource accounts (this will include balances that are outside and inside the WGA boundary)

	Balance as at 31 March 2020 £'000	Restated Balance as at 31 March 2019 £'000	Adjustment £'000	Submitted Balance as at 31 March 2019 £'000	Comment
Short Term Investments					
Shares and equity type investments	0	0	0	0	
Deposits	0	49,082	0	49,082	
Loans	0	0	0	0	
Other	0	0	0	0	
As at 31 March 2020	0	49,082	0	49,082	
Long Term Investments					
Shares and equity type investments	0	51,862	0	51,862	
Deposits	0	0	0	0	
Loans	0	0	0	0	
Other	0	0	0	0	
As at 31 March 2020	0	51,862	0	51,862	

Step 2) Split the balances disclosed in Step 1 between external balances (outside the WGA boundary) and internal balances (within the WGA boundary). The balances disclosed as internal must agree with the total counterparty balances recorded on the CPID Transactions sheet. Please re-check this tab after you complete the CPID Transactions sheet to ensure this agrees. Bodies that are within the WGA boundary are listed on the CPID list which can be downloaded from the link on the Homepage. For example, deposits with the Debt Management Account (DMA888) are with an entity within the WGA boundary since it appears on the CPID list. However, deposits with a commercial bank are with an entity outside the WGA boundary.

If you do not have external balances for current loans or current deposits, please do not complete this table.

Step 3) Enter details of the valuation basis for your external balances only

	TOTAL EXTERNAL from Step 2: to split between categories 31 March 2020 £'000	Amortised Cost 31 March 2020 £'000	Fair Value Through Profit or Loss (FVPL) 31 March 2020 £'000	Fair Value Through OCI (FVOCI) 31 March 2020 £'000	Total 31 March 2020 £'000	Comment
Other Current Financial Assets						
Shares and equity type investments	10	0	0	0	10	
Deposits - PLEASE PROVIDE CATEGORISATION OF ASSETS AT STEP 4	30	0	0	0	30	
Loans - PLEASE PROVIDE CATEGORISATION OF ASSETS AT STEP 4	10	0	0	0	10

7.2.4.10 Current Assets & AHFS - Current Assets (Including long-term debtors) & Assets Held for Sale.

This tab collects data on inventories, debtors, cash holdings and assets held for sale.

Please follow the guidelines outlined in red on the worksheet.

1. Select your spreadsheet view. The 'Input' option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data.
2. Select 'Rebuild View' if you want to copy paste the data
3. Select 'Save'.

7.2.4.12 Financial Instruments

If you have a material risk in particular areas, such as credit risk, additional information will also be required on the tab. In the fair values section, we ask you to confirm the amount of the balance, which is held with WGA counterparties, and then only disclose the fair value of the remaining, externally held amount.

In the expected credit loss section, you need to identify expected credit loss impacting financial assets held at amortised costs, split between the categories for Stage 1, 2, 3 or simplified impairment rule & paragraph 5.5.15 rule (trade receivables, contract assets or lease receivables for which the loss allowances are measured in accordance with paragraph 5.5.15 of IFRS 9).

Liquidity Risk Table and Interest Rate Risk Table is required only if you have selected ‘Yes’ to the Liquidity Risk Question and Interest Rate Risk Question respectively at the top of the tab.

LIQUIDITY RISK SECTION - Only complete this table if you answered Yes to the Liquidity Risk question at the top of the tab							
Contractual maturity for financial liabilities	Maturity analysis for financial liabilities					Total as at 31 March £'000	Comment
	0 to 12 months £'000	1 to 2 years £'000	2 to 5 years £'000	5 to 10 years £'000	over 10 years £'000		
Total short term and long term financial liabilities	0	0	0	0	0	0	

INTEREST RATE RISK SECTION - Only complete these tables if you answered Yes to the Interest Rate Risk question at the top of the tab					
Interest Rate Profile					
Information should be entered for external data only					
	Non-interest bearing £'000	Floating rate £'000	Fixed rate £'000	Total £'000	Comment
Financial Assets					
In Sterling	0	0	0	0

As at 31 March 2020	0	0	0	0	
Financial Liabilities					
In Sterling	0	0	0	0	
In Other Currencies	0	0	0	0	
As at 31 March 2020	0	0	0	0	
Financial Liabilities - Analyse of sensitivity to movements in interest rates e.g. impact of 1% change in interest rate on operating balance/net worth as per COFE guidance p754, but less detail required					
Information should be entered for external data only					
	Impact on surplus/deficit on provision of services £'000	Impact on net worth £'000	Comment		
Financial Liabilities					
Increase by 1% (100 basis points)	0	0			
Decrease by 1% (100 basis points)	0	0			

Note: Data entered in the dark grey cells will not be saved.

7.2.4.13 Collection Fund

The collection fund tab will not be visible to Welsh, Scottish or Northern Irish local authorities. Only English local authorities will complete this. This worksheet is used to record the breakdown of the Collection Fund Adjustment Account balance as at year end.

This tab is used for both preceptor and billing authority. So, depending on which one you are will depend on how you fill in this spreadsheet. The worksheet is divided into two sections – the top section is for Council Tax and the bottom section is for Business Rates.

Data is required on any line not marked “Leave row blank.”

Where the WGA preparer is a Billing Authority – the Council Tax section will disclose the name of the Billing Authority and its Major Preceptors, and the Business Rates section will disclose the name of the Billing Authority and its Major Preceptors and Central Government.

Where the WGA preparer is a County Council or Fire Authority – the Council Tax and Business Rates sections will disclose the names of each Billing Authority.

Where the WGA preparer is a Police and Crime Commissioner – the Council Tax section will disclose the name of each Billing Authority, but the Business rates section shows the message “leave row blank.”

Where the WGA preparer is a body that does not receive Council Tax or Business Rates, then both sections will be marked “leave row blank.”

Last year’s brought forward balances are included. Any changes to these must be made in the re-statement analysis tab. Closing balances are shown gross of impairment allowance, these allowances are summarised.

1. Select ‘Save’ to commit data to the database.

Collection Fund Account Information - Council Tax and Business Rates

As at 31/03/2020

- 1. Enter amounts as £'000 (whole numbers only);
- 2. Enter credit amounts as negative values;
- 3. Enter debit amounts as positive numbers

7.2.4.14 IAS 19 Pension liabilities

This tab collects information on your scheme assets and liabilities, as well as additional disclosure and analysis information. Please provide the additional information if it is available to you in your actuarial report. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data.

- 1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data.
- 2. Select ‘Rebuild View’ if you have changed your spreadsheet view.
- 3. Select ‘Save.’

Total			650

Please note:

Categories in this section can be overwritten e.g., label ‘Category 1’, however after selecting ‘Save’, these will return to their original description.

7.2.4.15 Reserves

This tab is divided into two tables - General fund table and Revaluation & Reserves Table.

Please note that pensions are now no longer separated out from reserves. These are included within the general reserve. An accounting test has been added to maintain oversight of pension balances in reserves and the income statement.

When completing your reserves data, if you cannot locate a column for a particular usable reserve, please note there is an “other reserves” column available.

Guidance on DSG Deficit Unusable Reserve

In the 2020–21 financial year, a statutory instrument was laid before Parliament introducing a new unusable reserve specifically to address Dedicated Schools Grant (DSG) deficits. This reserve is intended to ensure that DSG deficits are reported separately from usable reserves and do not affect the overall financial position of local authorities.

Entities should include this DSG unusable reserve within the nearest appropriate reserve category on their DCT. Please note that WGA does not create new reserve codes; if your reserve does not fit any of the existing categories, select the most suitable available option. For Whole of Government Accounts (WGA) purposes, all reserve categories—including the DSG unusable reserve—will be consolidated in the accounts and therefore not reflected separately on the DCT.

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data.
2. Select ‘Rebuild View’ if you have changed your spreadsheet view.
3. Select ‘Save.’

Reserves

As at 31/03/2020

Spreadsheet View:

Cells shaded in dark grey will not be loaded to the database.

	USABLE RESERVES

Revaluations - gains and losses - tangible PPE or financial instruments							
Revaluations - gains and losses - intangible assets only							
Impairment losses (chargeable to revaluation reserve)							
Amounts recycled (AFS Reserve) to the I&E Account after impairment or derecognition							
Premeasurements of the net defined benefit liability (asset) recognised in the pensions reserve							
Group Accounts:							
[SLG ONLY] Police, Fire, SESTRAN & Strathclyde Pehp for Tsport							
Share of other Cl&E of Associates & Joint Ventures (Group a/cs only)							
Total Comprehensive Income and Expenditure							
ADJUSTMENTS BETWEEN ACCOUNTING BASIS & FUNDING BASIS UNDER REGULATIONS							
Depreciation, amortisation & impairment of non-current assets	0	0					
Difference between HRA depreciation and Major Repairs Allowance				0			
Measurement in the credit table of inter-related accounts							

Note: Data entered in the dark grey cells will not be saved.

7.2.4.16 Non-Current Assets- Additional Information

The NCA Additional Information tab is used to identify material assets not consolidated into WGA, such as voluntary aided schools or shared ownership assets.

In case, you do not have any interest in a shared ownership asset, select No from the dropdown and complete School Assets Table only.

The level of detail is a little different for the two sections. For Shared Ownership Assets, please complete one row for each asset, providing as much detail as possible to enable the assets to be identified with disclosures provided by other public sector bodies. For School Assets, please complete the required fields for each category of school.

1. Select Yes / No in Q1 below if you have an interest in a shared ownership asset.
2. Please complete the information on shared ownership in the table
3. Select ‘Save’ when you have completed the data entry.

Q1. Do you have an interest in a shared ownership asset? 1

(i) Shared Ownership Assets 3

Please complete one row for each shared ownership asset

	Shared ownership asset	Capital Value (if known) £'000	What is your percentage interest in the asset?	Are they on your balance sheet? [Yes or No]	Comment

7.2.4.17 Additional data – Additional Disclosures

This worksheet collects data on Leases (IFRS 16 – 1(a)), finance and operating leases, PFI contracts, financial commitments, post balance sheet events, staff numbers (including exit packages) and NNDR / Council Tax data.

IMPORTANT:
Please note that staff numbers must be entered as whole numbers (not £000's).

1. The spreadsheet view button has two options for inputting data. Select Input option if you would like to manually enter data. Select Copy/Paste option if you would like to copy and paste your data.
2. Select ‘Rebuild View’ if you have changed your spreadsheet view
3. Select ‘Save’ when you have finished entering data.

Leases data input is split into two parts – 1(a) covers IFRS 16 disclosures (i.e., entities who are following implementation of the IFRS 16 standard), 1(b) covers non IFRS 16 disclosures (i.e., entities who are still following the old IAS 17 leasing standard). Entities should complete EITHER the tables in 1(a) or 1(b), but not both. **DO NOT COMPLETE BOTH SETS OF TABLES.**

For IFRS 16 compliant entities, the tables in 1(a) need to be completed together with prior year data if early adoption was chosen. Data can be manually entered into the additional information tab of the DCT into the following tables:

OSCAR WGA – Local Government Guidance

(1a) IFRS 16

Maturity profile of lease commitments (non-PFI)

Future minimum lease payments under non-cancellable operating leases comprise:
(Please split the land and buildings leases into separate elements)

Maturity profile of lease commitments (non-PFI) - entity as LESSEE	2020-21 Land £'000	2020-21 Buildings £'000	2020-21 Other £'000
Operating leases as lessor			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Total operating leases as a lessor commitment	0	0	0

Lease Liabilities

Total future lease payments under leases are given in the table below:

	Infrastructure Assets £'000		Land & Bu £'00
	2020-21	2019-20	2020-21
Infrastructure			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Subtotal Infrastructure	0	0	0
Less Interest Element	0	0	0
Present Value Obligation	0	0	0
Land and Buildings			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Subtotal Land and Buildings	0	0	0
Less Interest Element	0	0	0
Present Value Obligation	0	0	0
Other			

Entities will also need to complete a table as follows for the impact of first-time adoption (if adopted for the first time in the current year):

Impact on Financial Statements

On transition to IFRS 16, the group recognised an additional right of use assets and lease liabilities, recognising the difference in the general fund account.

	31 March £'000	Comm
Operating lease commitment at 31 March	0	
Discounted using discount rates	0	
Finance Lease liabilities at 31 March	0	
Exemptions for		
Short terms leases	0	
Leases of low value assets	0	
Intangible assets	0	
Extensions and termination options reasonably certain to be exercised	0	
Variable lease payments on an index or a rate	0	
Residual values guarantees	0	
Advance payments	0	
Excluding previous included non lease components	0	
Impacts of restatements for Operating Lease and Finance Lease	0	
Re-assessment for IFRS16	0	
Lease Liabilities recognised at 1 April	0	

For non IFRS 16 compliant entities, the tables in 1(b) need to be completed. Data can be manually entered into the additional information tab of the DCT into the following tables. **Note – these have been removed for 2024-25.:**

OSCAR WGA – Local Government Guidance

(1b) Non IFRS 16

Maturity profile of lease commitments (non-PFI)

Future minimum lease payments under non-cancellable leases comprise:
(Please split the land and buildings leases into separate elements)

	2020-21 Land £'000	2020-21 Buildings £'000	2020-21 Other £'000
Operating leases (non-PFI)			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Total operating leases as a lessor commitment	0	0	0
Finance leases			
Payments due within 1 year	0	0	0
Payments due between 1 and 5 years	0	0	0
Payments due after 5 years	0	0	0
Total payments	0	0	0
Less: interest element	0	0	0
Total Finance Lease Commitment	0	0	0

Please enter any details on Private Finance Initiative in this section.

5. In the Validation Report output section, you will find the following details:

- **Validation Code** – automated code allocated to each validation error, for internal purposes.
- **Validation Category** – internal consistency, materiality, numerical accuracy
- **Validation Type** – Soft/Hard. Hard validation failures will need to be resolved before submission and on all soft validations, comments must be provided. DCT can still be validated with soft validation failures if you provide comments. You can still proceed with comments on soft validations.
- **Validation Description** - details and guidance on each validation error for example:
NIC contributions should be between 6% and 12% of gross wages. If they are not, could you please provide an explanation.
- **Status** – used to describe the status for example FAIL, please provide cometary/PASS.

If you re-run the proforma validations any explanations in the 'User Explanation' column will remain- please ensure that these are kept up to date before you lock

Validation Category	Validation Type	Validation Description	Status
Internal Consistency	Soft	Staff numbers information must be filled in.	FAIL, Please check or provide commentary
Materiality	Soft	NIC contributions should be between 6% and 12% of gross wages. If they are not, could you	FAIL, Please check or provide commentary
Numerical Accuracy	Hard	The top half of the SOFP must equal the bottom half of the SOFP (i.e. -the SOFP must	FAIL
Numerical Accuracy	Hard	Current OFA total balances must equal the sum of the internal and external balances reported	FAIL
Numerical Accuracy	Hard	The external asset type breakdown total must equal the external OFA current balance on the movement table	FAIL
Numerical Accuracy	Hard	Where a financial asset type has a carrying value, a fair value must also be recognised	FAIL
Numerical Accuracy	Hard	In the step 3 table, make sure that your amortised cost + FVPL + FVOCI amount for each line, tallies to the total external balance as shown in the left hand column	FAIL
Internal Consistency	Hard	In the valuation hierarchy table, make sure that the total you have split out between levels 1, 2 and 3, tallies back to the total at FVPL and/or FVOCI available to be categorised as shown	FAIL

- **Value Returned** – the value of the validation error
- **Validation Message** – details on why validation has failed for example 'values do not balance'
- **Used In** – location of the validation error for exaple 'Financial Instruments ' worksheet
- **Validation References** – account codes and other internal reference code concerned with specific validation error
- **User Explanations** – any comments entered on the validation errors.

IMPORTANT:

Where you have soft validation errors, you must enter a comment more than fifteen characters to pass the validation.

You must clear all hard validation errors on the validation report and provide explanations for soft validations before you can submit the DCT Return. The same also applies to CPID validations.

To run the validation report, navigate to the validation report tab as follows on the DCT.

-864000000	Restated balances must equal the balance as at 1 April	Reserves	31521000, 31511000, 31111000, C1401200
2	Step 2 - The sum of the internal and external balances for each line must equal the totals from Step 1	Other Fin Liabilities	OFL_Row005/OFL_Col004, OFL_Row005/OFL_Col003, OFL_Row040/OFL_Col004

Looking at the above, the report detail tells us the validation category, validation type (hard or soft error), validation description (in this case the issue is with general fund opening balances), status (in this case FAIL), value returned (£864 billion – the value of the error), validation message (what should be the case, in this example, restated balances must equal balances at 1 April), Used in (area of the accounts in the DCT – here it is reserves), validation reference (account codes on the DCT).

To clear the validation, Oscar needs a restated opening balance of £864 billion to match the opening balance on the reserves tab. This is currently showing as zero on the DCT – see below tab:

19. Reserves

Rebuild View Save

Cells shaded in dark grey will not be loaded to the database.

General fund includes the donated asset and government grant reserves combined less any revaluations where they were previously shown separately

General Fund	General Fund £'000	Comment
Accumulated Income & Expenditure Reserve, the Income & Expenditure Reserves of Funded and Unfunded Pension Schemes, Donated Assets Reserve, Government Grant Reserve		
Carried forward at 31 March (as shown in last year's accounts)	0	
SOCI prior year adjustments (auto feed from SOCI)	0	
General fund - adjustments	0	
Funded pension scheme - adjustments	0	
Unfunded pension scheme - adjustments	0	
Restated balance at 1 April 2023	0	
Balance brought forward at 1 April - General Fund	864,000,000	
Balance brought forward at 1 April - funded pension scheme	0	
Balance brought forward at 1 April - unfunded pension scheme	0	
Retained (Surplus)/Deficit for year	0	

This requires two entries on the restatements tab – debiting reserves and crediting other financial liabilities with £864 billion to clear.

Navigate to the restatements tab and enter the two entries, equal and opposite. Remember that debit entries are positive numbers and credit entries are preceded with “-” as negative numbers and always work in £’000s. Validate and refresh to populate the DCT Return.

Steps for Cycle 2

- Reopen for Cycle 2 changes

our return is below the audit threshold, select to reopen DCT for cycle 2 changes.
 audited organisations, unlock to enter auditor agreed revisions.

The above includes all validation errors – all those on the validation report plus any errors on the CPID transactions tab.

To clear CPID transaction validation errors, navigate to the CPID transactions tab as follows:

OSCAR WGA – Local Government Guidance

Select "Switch Method" of Input for CPID Data to switch to "CPID Transaction"

Current input method:

If the current input method selected is "Bulk CPID Input" you cannot edit this sheet - to edit this sheet you have to click the "Switch Method" button. "Switch Method" can be used as often as required. Please note data will be incremented each time you "Refresh CPID Transactions" from the "Bulk CPID Input" tab.

Add Rows

Delete Rows

There are two methods of deleting rows- either select an individual account and a row no. to delete (as well as the option to delete 'All' rows), or select a range of accounts and rows to delete.

Select Range of Accounts

Filters or

Scroll down to see the individual lines.

MR	Trial Balance	Total External Balance	Instigating Entity Code	Counter Party Code	CPID Amount	Instigating Entity Description	Counter Party Description	Total CPID Balance	Status
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G
42	0	0			0			0	G

Scroll down to see any lines with a Red RAG status. These validation errors must be cleared before you submit. Follow the instructions provided in the error message. The most common error is that tax balances must be 100% allocated to HMRC Taxes CPID code (IRT813). Clear the hard validation errors and then click on Validate. Some of the validation errors just require a user explanation – this should be manually entered.

7.2.7 Decimal Points Validation

This worksheet is designated for errors on decimal points. If you have entered decimal points across the DCT, these will display as errors on this tab.

Please note, no decimal points entry should be made, all entries should be rounded to the nearest whole number.

Make sure all errors are corrected as per the information provided in this worksheet and select 'Refresh.'

The OSCAR platform does not prevent users from entering decimal places, so users may input decimal values. However, this validation ensures that any decimal entries are not written to the database.

SCOA Code	Used In	Description	Value	
811715F	CP-PP&E	Payments on account & assets under construction-Cost	58.617.000000000	The value entered for this SCOA contains a decimal place. Please remove the decimal place.
818915F	CP-Q-Fin-Assets	Other	29.985.000000000	The value entered for this SCOA contains a decimal place. Please remove the decimal place.
8887000	CP-T&OR	Increases/decreases due to cash received/paid	-298.333333333	The value entered for this SCOA contains a decimal place. Please remove the decimal place.
8888000	CP-T&OR	Transfers from contract liabilities to receivables/payables	-298.333333333	The value entered for this SCOA contains a decimal place. Please remove the decimal place.
8889000	CP-T&OR	Changes in the measure of progress	-298.333333333	The value entered for this SCOA contains a decimal place. Please remove the decimal place.

7.3 Main Audit report

The Audit Report provides a view of all data submitted on the proforma tabs for the current year's WGA return. This report can be downloaded and shared with auditors to aid their review of your organisation's return. It is applicable only to organisations above the WGA Audit Threshold.

Please note that the Audit Report can take some time to run, depending on the number of CPID transactions.

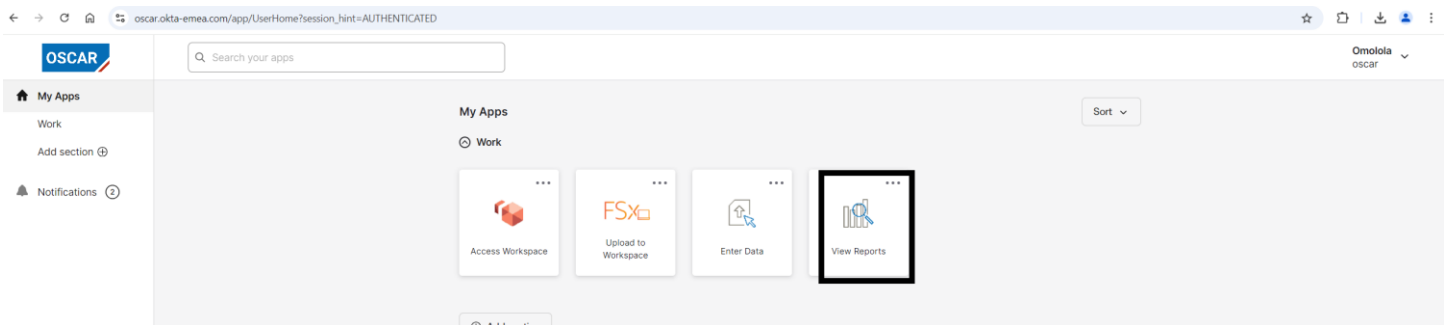

The CPID Transactions will return a row for every SCOA regardless of whether there is data on that row or not. You will have to scroll down to find the data on the report that has been entered against the relevant SCOAs.

In some cases, it may be more appropriate to download the individual tabs of the DCT and run the new primary financial statements report, which can be accessed alongside the Audit Report options.

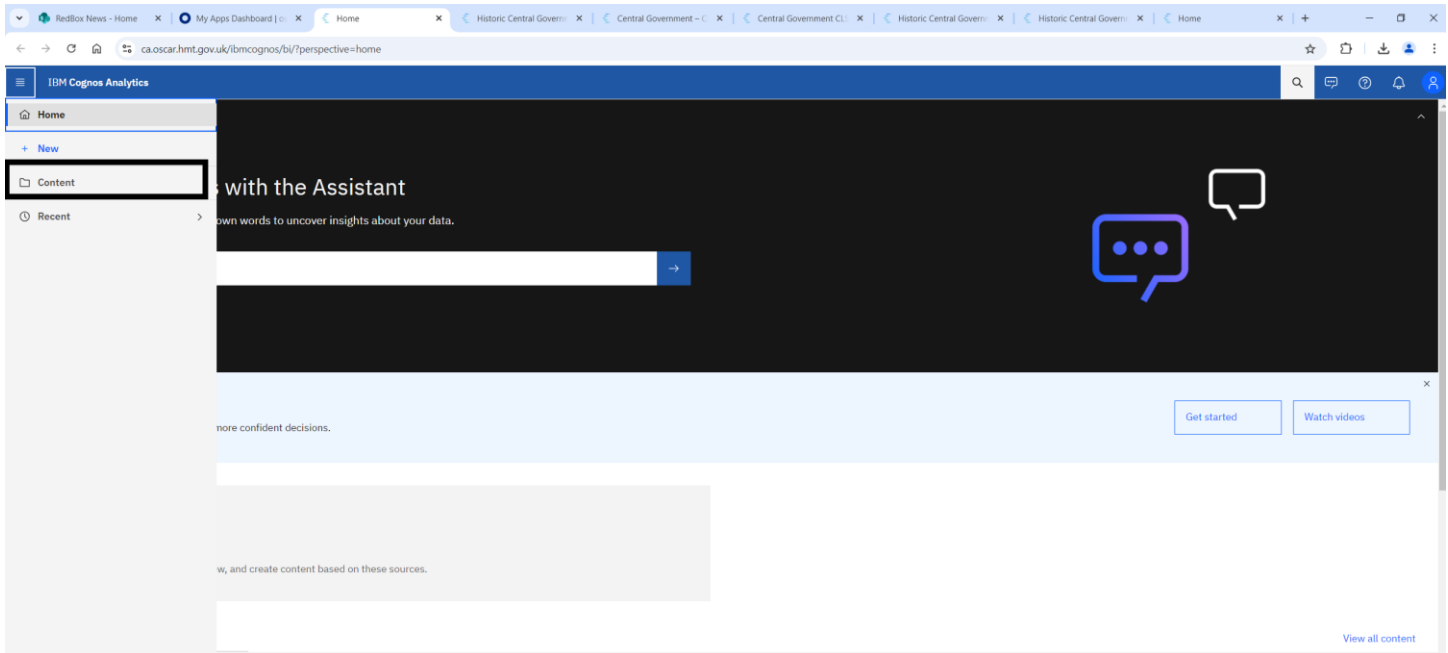

The Primary financial statements Audit report provides a header sheet with headline details, a Statement of Comprehensive Income, a Statement of Financial Position, and Reserves. This report can also be used to provide assurance to auditors.

7.3.1 Accessing the Local Government – CPID Transaction Report Only (No Previous Year Data) Audit report

To access and view reports in OSCAR, select 'View Reports':

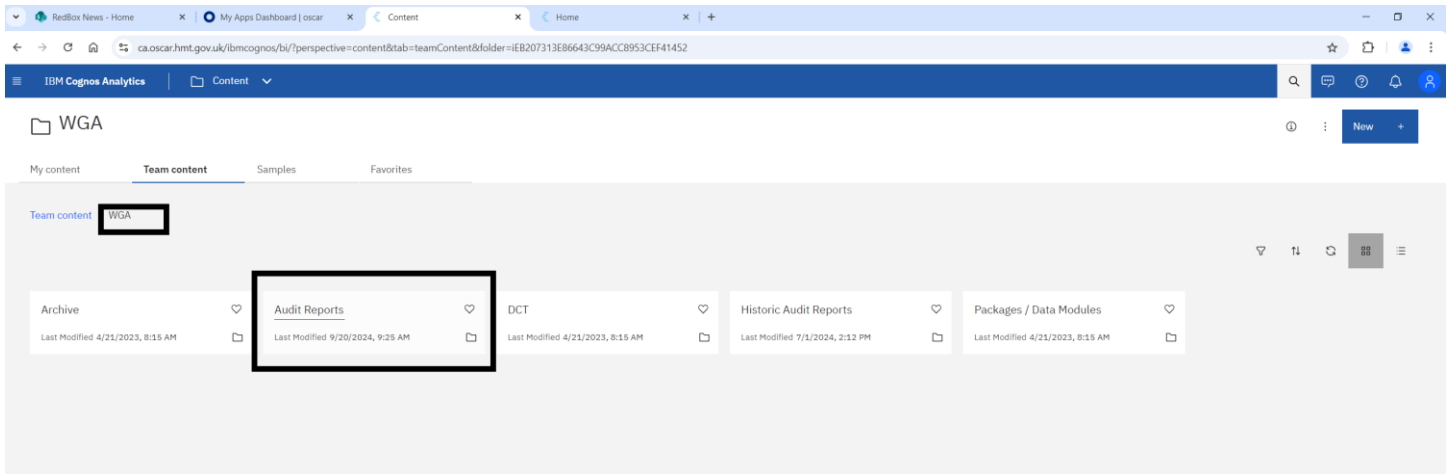

Select content via the top left hand corner of the screen.

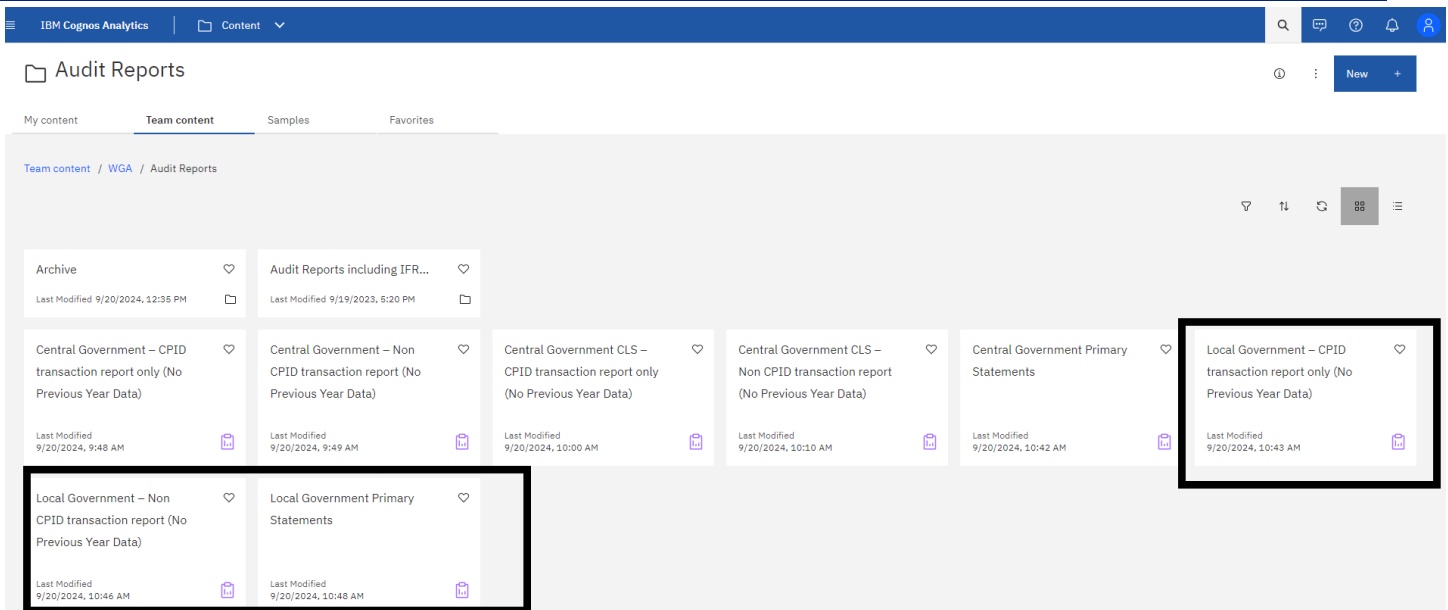

Select WGA.

Select Audit Reports. To see WGA, you need to be under 'Team Content' as screenshot below.

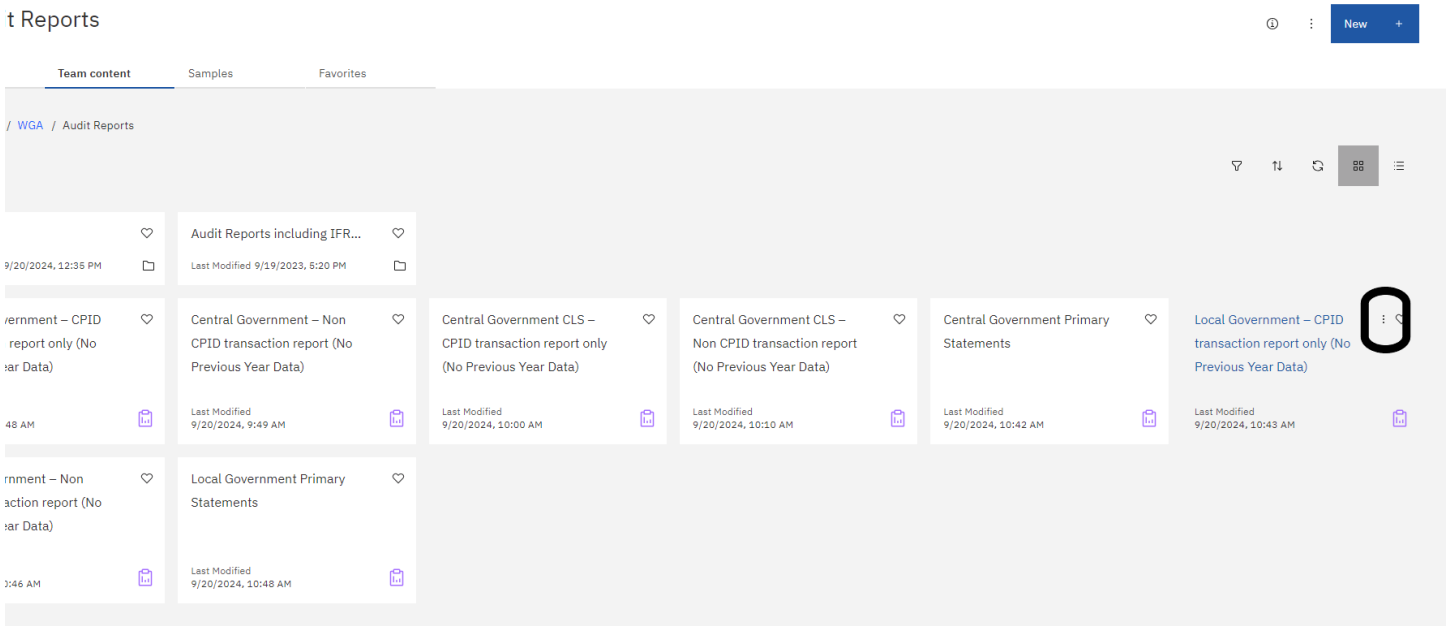

Select the type of report from the list.

OSCAR WGA – Local Government Guidance

Tick the report and click on the three dots.

Click on run as and select excel, click on run.

OSCAR WGA – Local Government Guidance

The screenshot shows the IBM Cognos Analytics interface. The top navigation bar includes 'IBM Cognos Analytics' and 'Content'. The main area is titled 'Audit Reports' and displays a grid of report cards. A context menu is open over one of the report cards, listing options: 'Run as', 'Edit report', 'Create report view', 'View versions', 'Copy to', 'Add shortcut', 'Add to favorites', and 'Details'. In the foreground, a 'Run as' dialog box is open, showing options to 'Run in background' (disabled) or 'Prompt me' (selected). Below these options is a search field and a 'Format' section with radio buttons for 'Use default format', 'HTML', 'Excel Data', 'PDF', 'Excel', and 'XML'. The 'Excel' option is selected and highlighted with a red box. At the bottom right of the dialog, there are 'Cancel' and 'Run' buttons, with the 'Run' button also highlighted with a red box.

Select the Organisation and Cycle
Click Display

OSCAR WGA – Local Government Guidance

The screenshot shows the Oscar WGA interface with three main sections: 'Organisation', 'Cycle', and 'Number of CPID Transactions'. The 'Organisation' dropdown is set to 'Aberdeen City Council'. The 'Cycle' dropdown is set to 'Cycle 1 Input'. The 'Number of CPID Transactions' dropdown is set to '100'. A 'Display' button is highlighted with a red box. Below the sections, there is a message: 'Please select an organisation and click 'Display' to show the required number of CPID transactions to select in the prompt above.'

PLEASE NOTE:

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or rerunning while the report is working.

The system will display the number of CPID transactions. Select the appropriate number of CPID transactions and click “Finish.”

The screenshot shows the Oscar WGA interface with three main sections: 'Organisation', 'Cycle', and 'Number of CPID Transactions'. The 'Organisation' dropdown is set to 'Armed Forces Retired Pay Pe'. The 'Cycle' dropdown is set to 'Cycle 1 Input'. The 'Number of CPID Transactions' dropdown is set to '100'. A 'Finish' button is highlighted with a red box. Below the sections, there is a table showing the selected values:

Organisation	Number of CPID Transactions Required
Armed Forces Retired Pay Pensions	100

PLEASE NOTE:

After Selecting Organisation this report will take upwards of 30minutes to run. Please do not try refreshing or rerunning while the report is working.

The screenshot shows the final navigation buttons: 'Cancel', '< Back', 'Next >', and 'Finish'.

The report will start running as shown.

OSCAR WGA – Local Government Guidance

PLEASE NOTE:

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or rerunning while the report is working.

Once it is complete, it will download to your desktop.

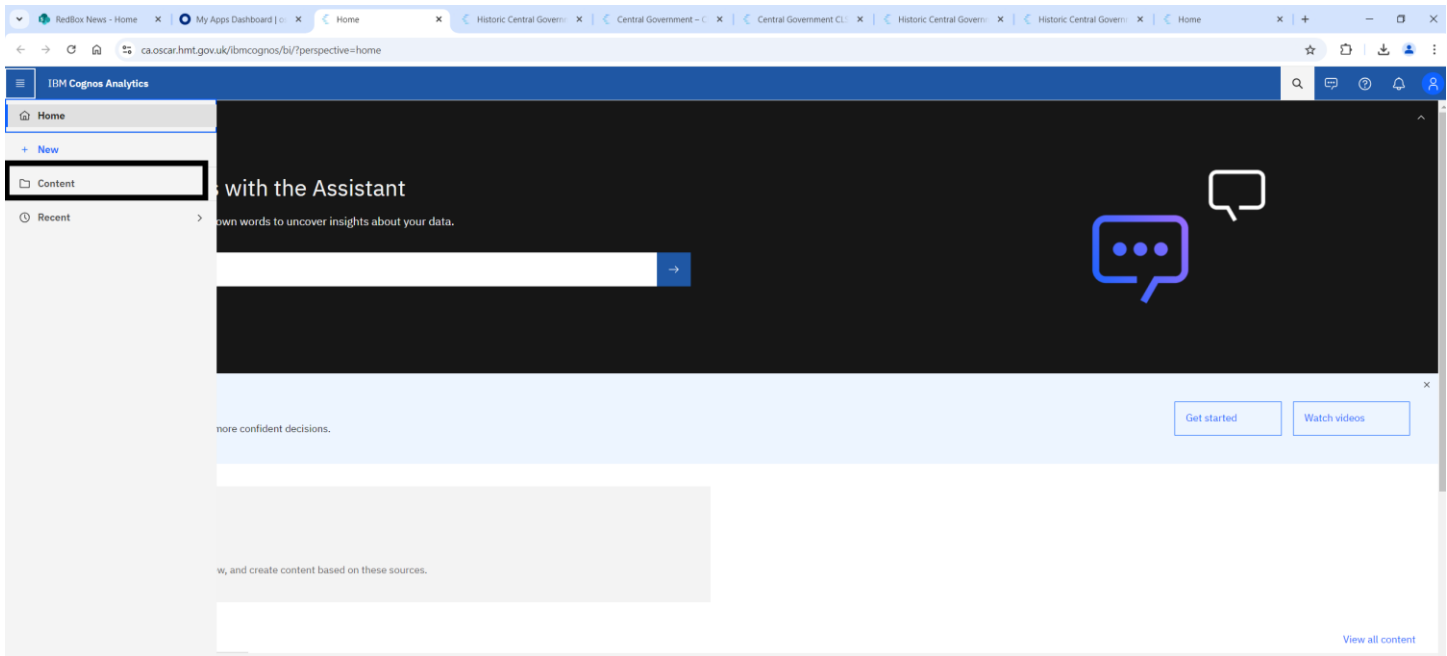

This will populate all the tabs based on your submission, use the arrows to scroll through the tabs.

7.3.2 Accessing the Local Government – Non CPID Transaction Report Only (No Previous Year Data) Audit report

To access and view reports in OSCAR, select ‘View Reports’:

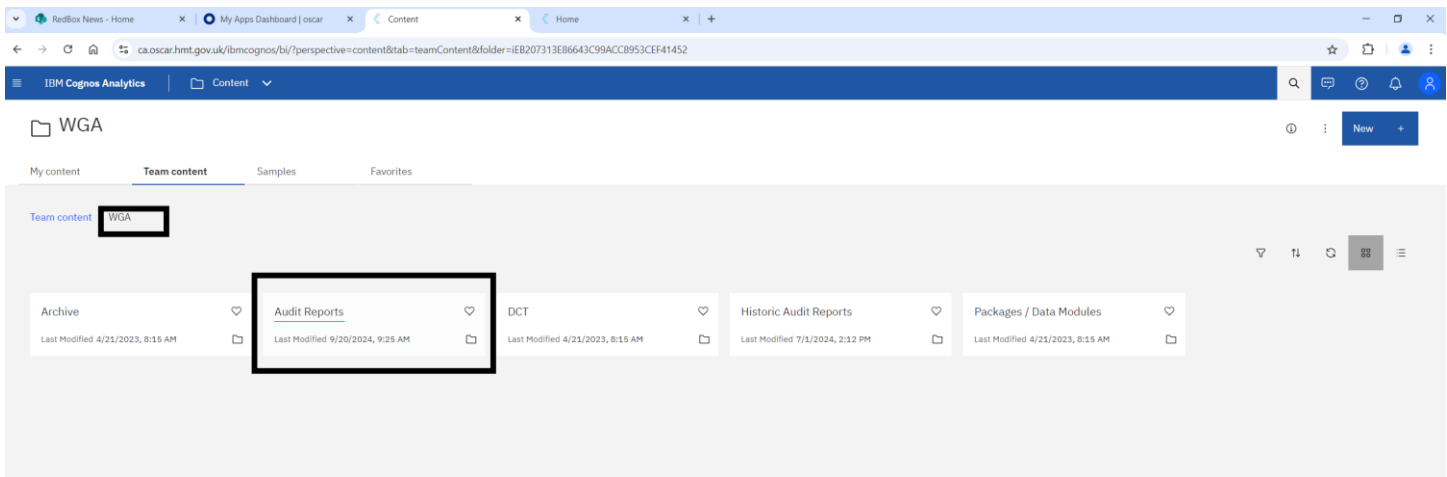

Select “Content” and then “Team Content.”

OSCAR WGA – Local Government Guidance

Select WGA.

Select Audit Reports.

Select the type of report from the list.

Tick the report and click on the three dots.

Click on run as and select excel, click on run.

OSCAR WGA – Local Government Guidance

Select the Organisation and Cycle, Finish

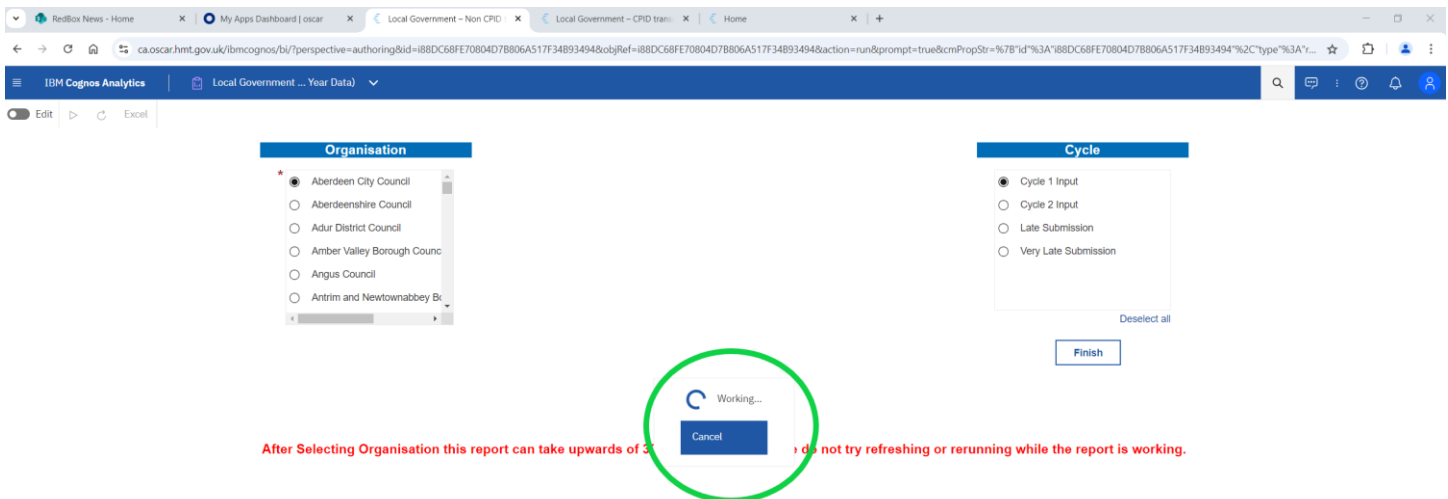

OSCAR WGA – Local Government Guidance

PLEASE NOTE:

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or running while the report is working.

The report will start running as shown.

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or running while the report is working.

Once it is complete, it will download to your desktop.

This will populate all the tabs based on your submission, use the arrows to scroll through the tabs.

Follow the Steps above to run the **Local Government Primary Statement Audit report**.

7.3.3 Proforma tabs in the Audit report

Proforma tabs from the data input screens are replicated in the Audit report. There are some added items to be aware of on the Audit report as described below:

1. On the proforma tabs there are SCOA codes included for reference
2. To scroll through the page, you can use the 'Page up' and 'Page down' buttons highlighted.
3. Auditor comments can be captured.

IMPORTANT:

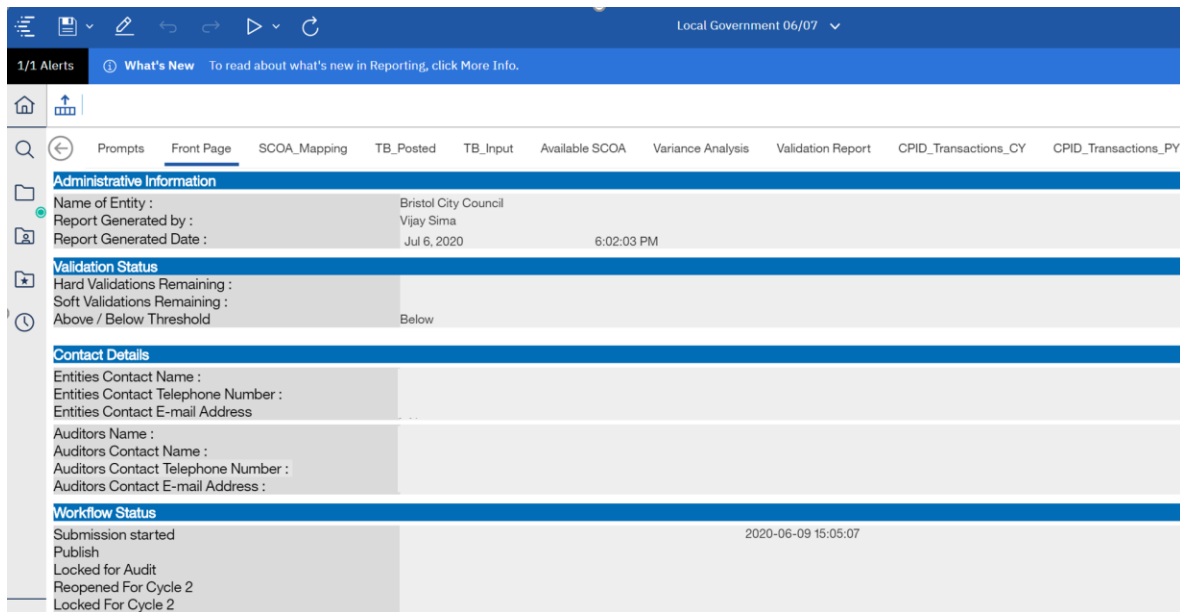

The Auditor report should be run and shared with your auditors at ‘Step 4 – Submit and close Cycle 1’ and again at ‘Step 6 – Lock for Cycle 2’.

7.3.4 Additional tabs in the Audit report

There are some addition tabs on the Audit report which are presented in a different format or not included on the data input screen.

Front Page

This page shows key information including validations, contact details, and timestamps for the key workflow stages. A report generation date is included to ensure version control is preserved.

Variance Analysis

This shows the difference in data from Cycle 1 to Cycle 2.

OSCAR WGA – Local Government Guidance

Variance Analysis between Cycle 1 and Cycle 2 returns
This tab shows differences at a total SCOA level between cycle 1 and cycle 2 submissions. This will not identify differences between CPID allocations within the same SCOA

	Cycle 1	Cycle 2	Variance

11216000	G	This code cannot be used for CPID input.

7.3.5 Exporting the Audit report

You can export the Audit report in multiple formats to share with your auditors for review:

1. Select your preferred option from the drop-down list to run or export the report indicated by the 'play' button.
2. It is advised to export the report in excel, please select 'Run Excel.'

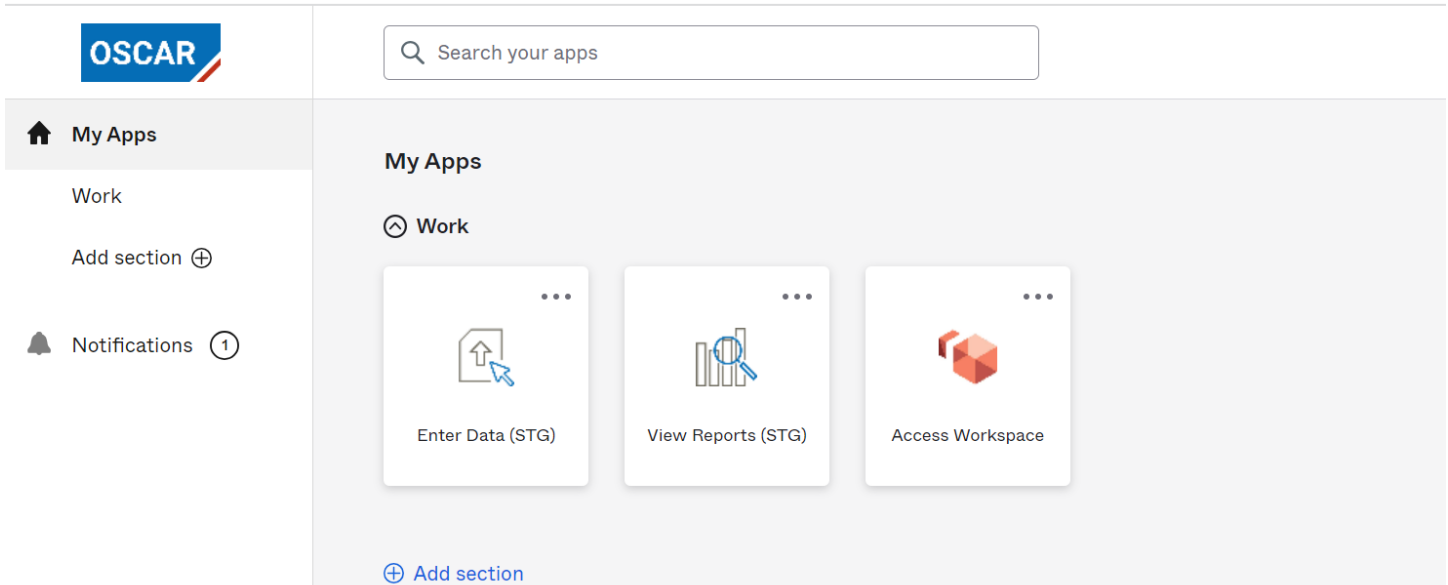

3. The following screen will be presented to indicate the report is being downloaded and can be saved to your device.

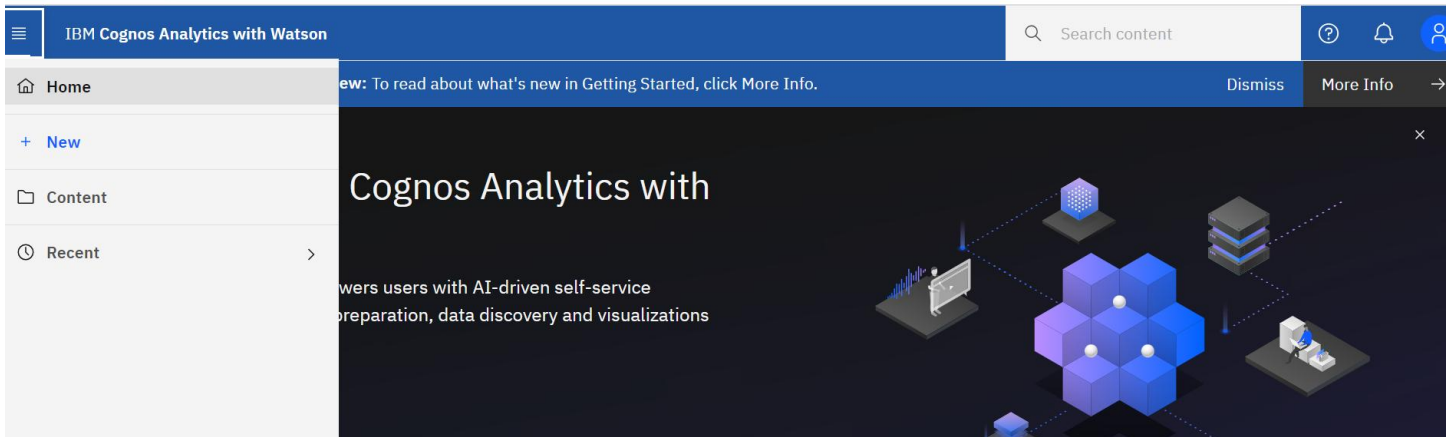

7.3.6 Historic Audit Reports

Historic Audit Reports can be run for the prior year. These can be accessed as follows in Cognos Analytics on Oscar.

Select "View Reports" from the Homepage on Oscar.

Select “Content” and then “Team Content.”

Select “WGA.”

OSCAR WGA – Local Government Guidance

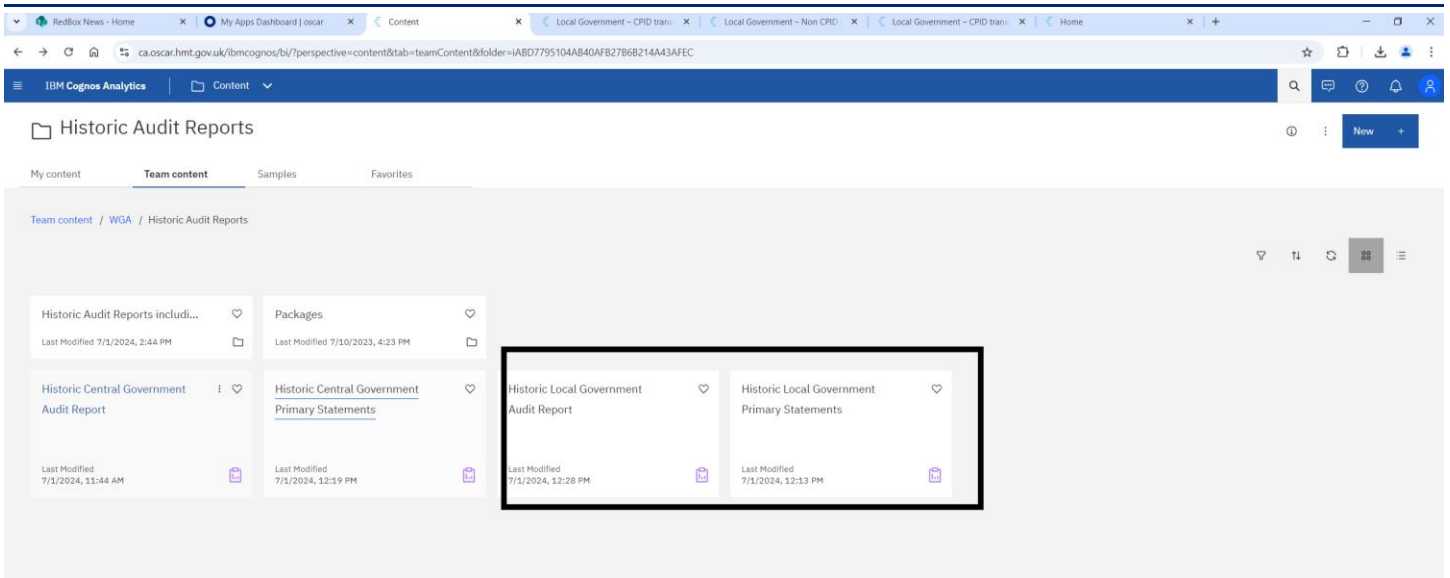

The screenshot shows the IBM Cognos Analytics interface. At the top, there is a navigation bar with 'IBM Cognos Analytics with Watson', 'Content', and a search bar. Below the navigation bar, the 'Content' page is displayed with tabs for 'My content' and 'Team content'. The 'Team content' tab is active, showing a grid of folders. The folders are: 'FR1' (Last Accessed 2/23/2023, 12:11 PM), 'Security testing' (Last Accessed 2/23/2023, 12:11 PM), 'testing' (Last Accessed 2/23/2023, 12:11 PM), 'WGA' (Last Accessed 6/29/2023, 2:46 PM), 'WPR OSCAR I and OSCAR II Reconcili...' (Last Accessed 2/23/2023, 12:11 PM), and 'WPR Reports' (Last Accessed 2/23/2023, 12:11 PM). A toolbar with various icons is visible in the top right corner of the content area.

Then select “Historic Audit Reports.”

The screenshot shows the IBM Cognos Analytics interface with the 'WGA' folder selected. The breadcrumb path is 'Team content / WGA'. The 'Team content' tab is active, showing a grid of folders within the 'WGA' folder. The folders are: 'Archive' (Last Accessed 6/29/2023, 2:46 PM), 'Audit Reports' (Last Accessed 5/10/2023, 6:28 PM), 'Consolidation' (Last Accessed 2/23/2023, 12:11 PM), 'DCT' (Last Accessed 2/23/2023, 12:11 PM), 'Historic Audit Reports' (Last Accessed 7/13/2023, 11:32 AM), and 'Packages' (Last Accessed 2/23/2023, 12:11 PM). A toolbar with various icons is visible in the top right corner of the content area.

Right click on the Audit Report type you want to run (top right-hand corner – three dots)

Run

Historic Local Government Primary

Click on "run."

OSCAR WGA – Local Government Guidance

Please select an organisation and click 'Display' to show the required number of CPID transactions to select in the prompt above.

PLEASE NOTE:

After Selecting Organisation this report can take upwards of 30minutes to run. Please do not try refreshing or rerunning while the report is working.

Select Cycle 1 or Cycle 2

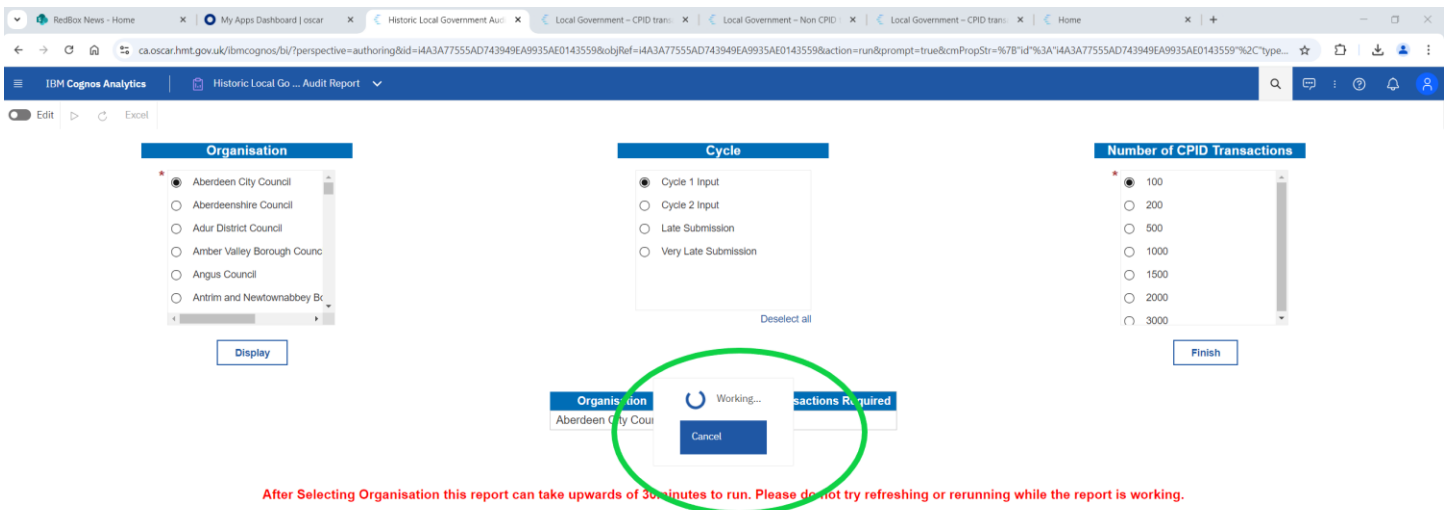

Click on Display

The system will tell you show you the number of CPID transactions.

Tick the relevant number of CPID transactions and click finish.

Click 'Finish' to run the report. This will download to your desktop in excel.

This will populate all the tabs based on your submission, use the arrows to scroll through the tabs.

After Selecting Organisation this report can take upwards of 30 minutes to run. Please do not try refreshing or rerunning while the report is working.

The report will run and be downloaded to Excel on your desktop. This process typically takes between 8-10 minutes, but it can take up to 15-20 minutes.

The layout of the Historic Audit Report is identical to the Audit Report layout and includes all the tabs of the submitted DCT.

7.4 Next steps

After completing the proformas and passed all validations, you would have successfully submitted the WGA return.

8 Annex A – Proforma tabs

Worksheet Description	Comments	Action
CI&E	Comprehensive Income & Expenditure Accounts: Net Operating Expenditure and Surplus/Deficit for the year	The C I & E tab collects income and expenditure information, including grant and taxation income.
Restatement CI&E	Prior Year Comprehensive Income & Expenditure Statement - Restated	If you have any restatements for prior year comprehensive income and expenditure, enter the adjustment amount to align to last year's CI&E figure. Any necessary restatements according to the income or expenditure type (such as staff costs, or grants and subsidies), and reason for the adjustment (such as accounting policy changes, or changes to your authority's structure etc.) will be populated from the Restatement Analysis tab.
Balance Sheet	Balance Sheet – Including Restatements	The balance sheet is populated from the other proforma sheets within the OSCAR. Last year's opening balances will be automatically pre-populated.
Restatement Analysis	Restatement Analysis	<p>The aim of this sheet is to provide details of any prior period restatements, which will feed through to the primary statements and relevant tabs of the DCT.</p> <p>Any entity who has made a prior period adjustment must complete this tab. Please select the primary statement, note (SCOA will automatically complete), and restatement reason. Then enter the debits and credits into the schedule.</p>

OSCAR WGA – Local Government Guidance

Liabilities & Provs	Liabilities & Provisions	This tab collects data on long- and short-term creditor balances, long and short-term receipts in advance, provisions, and donated assets. Note that certain short-term creditor cells are linked to the Collection Fund tab. There are additional analysis sections to further split out “other” short term and long-term creditor balances.
Fin Inst	Financial Instruments	<p>If you have a material risk in particular areas, such as credit risk, additional information will also be required on the tab. In the fair values section, we ask you to confirm the amount of the balance, which is held with WGA counterparties, and then only disclose the fair value of the remaining, externally held amount.</p> <p>In the expected credit loss section, you need to identify expected credit loss impacting financial assets held at amortised costs, split between the categories for Stage 1, 2, 3 or simplified impairment rule & paragraph 5.5.15 rule (trade receivables, contract assets or lease receivables for which the loss allowances are measured in accordance with paragraph 5.5.15 of IFRS 9)</p> <p>The financial instruments tab will contain data fed through from the Investments, JVs, and Associates tabs, as well as from trade and other payables and trade and other receivables. Therefore, please ensure you have entered data into those tabs before beginning financial instruments.</p>
Non-Curr Assets – Add Info	Non-Current Assets – Additional Information	The NCA Additional Information tab is used to identify material assets not consolidated into WGA, such as voluntary aided schools or shared ownership assets
PP&E & Invest Prop	Property, Plant & Equipment, and Investment Properties	For PP&E, please note that we require land to be split out separately from buildings. Please also remember to fill out the cash flow information section at the bottom of the tab.
ROU	Right of Use Assets	IFRS 16 introduces Right of use assets effective from 1 April 2022. Entities should record leased asset data here if adopting IFRS 16. Otherwise, leased asset data for non IFRS 16 compliant entities should be recorded in the usual way in the PPE and IFA tabs. You must also provide opening balance data on first time adoption as well as asset financing data.
Intangibles	Intangible Assets	One point to note is that heritage assets have been designed so that they cannot be depreciated. If you need to depreciate an intangible heritage asset, this will need to be entered in the other movement line.

OSCAR WGA – Local Government Guidance

<p>Inv, JVs & Assoc</p>	<p>Joint Ventures & Associates and Investments</p>	<p>We have incorporated changes made to IFRS 9. The public sector will apply retrospective application without restatement of comparatives from 1 April 2018. We collect short term and long-term investment totals and then ask you to split these between amounts with WGA counterparties (“internal” amounts) and amounts with external parties. Please ensure this split is in line with the counterparty allocations you plan to make on the CPID transactions tab later. For the other financial assets table, there are three new implemented categories. The categories are now “amortised cost”, “Fair value through profit or loss” and “Fair value through OCI”. External balance will be brought through from the earlier tables and split out manually. You also need to categorise the assets for current deposits and current loans as either “Fair value through profit or loss” or “Fair value through OCI”. If you do not have external balances for current loans or current deposits, please do not complete this table.</p>
<p>Current Assets & AHFS</p>	<p>Current Assets (including long-term debtors) & Assets Held for Sale</p>	<p>This tab collects data on inventories, debtors, cash holdings and assets held for sale.</p>

OSCAR WGA – Local Government Guidance

CollFund	Collection Fund	<p>The collection fund tab will not be visible to Welsh, Scottish or Northern Irish local authorities. Only English local authorities will complete this. This worksheet is used to record the breakdown of the Collection Fund Adjustment Account balance as at year end.</p> <p>This tab is used for both preceptor and billing authority. So, depending on which one you are will depend on how you fill in this spreadsheet. The worksheet is divided into two sections – the top section is for Council Tax and the bottom section is for Business Rates.</p> <p>Data is required on any line not marked “Leave row blank”.</p> <p>Where the WGA preparer is a Billing Authority – the Council Tax section will disclose the name of the Billing Authority and its Major Preceptors, and the Business Rates section will disclose the name of the Billing Authority and its Major Preceptors and Central Government.</p> <p>Where the WGA preparer is a County Council or Fire Authority – the Council Tax and Business Rates sections will disclose the names of each Billing Authority.</p> <p>Where the WGA preparer is a Police and Crime Commissioner – the Council Tax section will disclose the name of each Billing Authority, but the Business rates section shows the message “leave row blank”.</p> <p>Where the WGA preparer is a body that does not receive Council Tax or Business Rates, then both sections will be marked “leave row blank”.</p>
IAS 19 Pensions	IAS 19 Pension Liability	This tab collects information on your scheme assets and liabilities, as well as additional disclosure and analysis information. Please provide the additional information if it is available to you in your actuarial report.
Reserves	Reserves	When completing your reserves data, if you cannot locate a column for a particular usable reserve, please note there is an “other earmarked reserves” column available
I&E NCS Subjective Analysis	Comprehensive Income and Expenditure Accounts: Net Cost of Services	This tab collects income and expenditure information according to your net cost of services, with pensions and staff data feeding from the applicable tabs. Please only use the miscellaneous income category as a last resort.

OSCAR WGA – Local Government Guidance

Additional Data	Additional Disclosures	This tab looks at your finance and operating leases (non IFRS 16) and leases (IFRS 16), and PFI contracts. Please note that staff numbers must be entered as whole numbers (not £000's).
Add Info transferred debt	Additional Disclosure: transferred debt	This tab is only relevant for English local government, who should complete this tab if they are holding transferred debt as a balance sheet liability.

9 Annex B – CG forms

9.1 CG-03- Confirmation of Minor Body status

This form is to confirm minor body status. Consolidation Managers of minor bodies should complete the form. Completed forms should be sent to the Treasury WGA Team at LG_WGAreturns@hmtreasury.gov.uk

9.2 CG-04 -Management Review Checklist

All entities that submit a WGA return must complete a CG-04 form. **There is no longer a requirement for CEO's to lock the OSCAR submission prior to submission.**

This form is to document management's review of the WGA submission.

The Management Review Checklist provides assurance that proper procedures are in place for providing WGA data in line with the entity's accounts and that the quality of WGA data is of the standard required for a true and fair audit opinion. This checklist informs and records the management processes of preparation, review, and validation of WGA submissions.

9.3 CG-05 - Notification of Audit Completion

This form is completed at the end of the DCT audit process and signed off by the Consolidation Manager. This should then be forwarded to the auditors, who will provide it to Treasury along with the version of the Auditor Report that they signed off on.

10 Annex C - Acronyms and jargon (A-Z)

Acronym	Description
%	Percentage
£	Pounds sterling
£k	Thousands, pounds sterling
ALB	Arm's length body
CG	Central Government
CLOS	Clear line of sight
CPID	Counter party identification
CR	Credit
Cycle	Collection year
DCT	Data collection tool
DR	Debit
FinCost	Financial costs
FReM	Financial Reporting Manual
FVOCI	Fair Value through Other Comprehensive Income
FVPL	Fair value through profit or loss
FX	Foreign exchange
Hard validation	Will show a warning which will prevent a user from moving onto the next step i.e., submit
HMT	Her Majesty's Treasury
I&E	Income and Expenditure
IAS	International Accounting Standard
IFA	Intangible fixed asset
IFRS	International Financial Reporting Standard
JV	Joint Venture
JV&A	Joint venture and associates
LG	Local Government
MOG	Machinery of Government
MR	Match relationship
N/A	Not applicable
NAO	National Audit Office
NCA	Non-current asset
NDPB	Non departmental public body
O-Fin-Assets	Other financial assets
O-Fin-Liab	Other financial liabilities
OSCAR	Online System for Central Accounting and Reporting
