¹ AUS/Plant number/date/sequential number (e.g. AUS/UK1234EC/20.6.11/05)

² THIS CERTIFICATE IS **NOT** AN EXPORT CERTIFICATE AND IS FOR INTERNAL MOVEMENT ONLY
8021IMC (11/10/2017)

- d) Name, address and official approval number of the cold store to which the product is being despatched to, prior to export from Great Britain to Australia:

IV. Health attestation

I, the undersigned Veterinarian, certify that:

- (a) the pig meat in the product described at Section I above to be exported to Australia was accompanied on entry into Great Britain by an official veterinary health certificate⁽¹⁾ from _____, a country approved by Australia;
- (b) the sourcing and treatment of the pig meat in the product prior to entry into Great Britain, as described in the attached veterinary health certificate⁽¹⁾, meets Australia's entry requirements for cooked pig meat from _____ a country approved by Australia;;
- (c) the establishment to which the pig meat was consigned from the approved third country has current Defra (and therefore European Commission and Department of Agriculture and Water Resources) approval for its facilities and hygienic operation;
- (d) the imported pig meat used to prepare the product for Australia was at all times stored separately from all other products of animal origin⁽²⁾. I am satisfied it has not been substituted or adulterated by products of animal origin from other sources;
- (e) the establishment where the pig meat/meat product was prepared and/or processed did not prepare or process products of animal origin not eligible for export to Australia, while the pig meat/meat product was being prepared and/or processed for export to Australia;
- (f) the pig meat/meat product for export to Australia was processed and stored separately from all other products. I am satisfied it is suitable for export to Australia;
- (g) the pig meat/meat product was prepared and/or processed for export to Australia and packed on _____
(date(s))
- (h) only clean and new bags, wrappers or packing containers were used to package the pig meat/meat product;
- (i) the identification number of the establishment where the product was prepared and/or processed is readily visible on the pig meat/meat product or, where the pig meat/meat product is wrapped or packed, is marked on the package or wrapping containing the pig meat/meat product in such a way that the number cannot readily be removed without damaging the pig meat/meat product and/or package and/or wrapping;
- (j) the pig meat/meat product complies with the relevant microbiological criteria laid down by the competent authorities⁽³⁾ of Great Britain;

*(Delete as appropriate)

Footnotes:

(1) a copy of the original health certificate (and any attachments) certifying that the pig meat/meat product is eligible for export to Australia, that has been certified and officially endorsed by the official veterinarian responsible for oversight of receipt of the pig meat/meat product at the establishment that received and stored the pig meat/meat product on arrival in Great Britain, must be attached and accompany the consignment to Australia.

The original health certificate and any attachments must be retained for 7 years from the date of arrival and made available to the Australian Government Department of Agriculture and Water Resources on request.

(2) 'products of animal origin' includes but is not limited to meat and meat products, skin, hides and offal.

(3) In England and Wales - The Food Standards Agency. In Scotland - Food Standards Scotland
