Data Protection and Processing of Personal Information

Article 3E.1 Definitions

For the purposes of this Annex:

“data controller” (also known as data fiduciary in India) means the person who, alone or jointly with others, determines the purposes and means of the processing of personal data;

“data subject” (also known as data principal in India) means an identifiable natural person who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person;

“personal data” means any information relating to a data subject transferred from the transferring customs authority to the receiving customs authority in accordance with Annex 3D (Framework for Authentication Process of Origin Declarations);

“personal data breach” means a breach of data security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or unauthorised access to, the personal data transmitted, stored or otherwise processed;

“process”, “processed” or “processing” means any operation or set of operations which are performed on personal data or on sets of personal data, whether by wholly or partially automated means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction;

“professional secrecy” means the laws and regulations applicable to a customs authority obliging it not to disclose non-public information received in an official capacity;

“receiving customs authority” means the customs authority in India receiving the requested information pursuant to this Agreement;

“receiving Party” means India;

“transferring customs authority” means the customs authority in the United Kingdom sending the requested information pursuant to this Agreement; and

“transferring Party” means the United Kingdom.

Article 3E.2

Scope

1. This Annex shall apply to the transfer of personal data between the customs authorities of the Parties, for general processing, in accordance with paragraphs 6 and 7 of Article 3.16 (Basis of a Claim for Preferential Tariff Treatment) and Annex 3D (Framework for the Authentication Process of Origin Declarations). In accordance with Annex 3D (Framework for the Authentication Process of Origin Declarations), the scope of personal data covered under this Annex shall be limited to data such as unique reference numbers, registered email addresses of exporters and producers, and other information as agreed by the Parties, necessary as part of any transfer of information. For greater certainty, this Annex does not apply to the origin declaration under Article 3.15 (Proof of Origin).
2. The Parties shall ensure that the appropriate safeguards in this Annex are in place for the general processing of personal data and protecting the personal data consistent with the laws, regulations and internal policies and procedures applicable to each Party.
3. The transfer of personal data between the Parties shall be deemed to be a data controller to data controller transfer, for the purposes of the transferring customs authority's legislation.

Article 3E.3

Purpose and Use Limitation

1. Subject to paragraph 2, the transfer of personal data shall solely be for the specified purpose of establishing the authenticity of an origin declaration in accordance with paragraphs 6 and 7 of Article 3.16 (Basis of a Claim for Preferential Tariff Treatment) and Annex 3D (Framework for the Authentication Process of Origin Declarations). The receiving Party shall not further process the relevant personal data in a manner that is incompatible with the purpose for which it was transferred. Compatible processing includes processing pursuant to the terms of the Annex 3D (Framework for the Authentication Process of Origin Declarations), administration and enforcement of determination of origin or of customs matters under this Chapter, and any other authentication instruments that may be agreed between the Parties.
2. The receiving customs authority shall not process the relevant personal data for purposes other than those set out in paragraph 1, unless it has received written approval from the transferring customs authority.

Article 3E.4

Data Accuracy and Minimisation

1. The transferring customs authority shall only transfer personal data that is adequate, relevant and limited to what is necessary in relation to the purpose of

processing. The transferring customs authority shall ensure that, to the best of its knowledge, the personal data it transfers is accurate and up to date.

2. If a customs authority becomes aware that the personal data it has transferred or received is inaccurate, or has become outdated, it shall inform the other customs authority without undue delay. Each customs authority shall take reasonable steps to ensure that inaccurate personal data is erased, corrected or otherwise rectified as appropriate and in a timely manner, having regard to the purpose of processing.

Article 3E.5 Storage Limitation

The receiving customs authority shall retain the personal data for no longer than necessary and appropriate for the purpose for which it is processed, including any administrative, quasi-judicial or judicial proceedings initiated for the failure to comply with laws and regulations implementing this Chapter. The receiving customs authority shall put in place appropriate technical or organisational measures to ensure compliance with this obligation.

Article 3E.6 Security of Processing

1. The transferring customs authority during the transmission of the personal data and the receiving customs authority upon receipt of the personal data, shall implement appropriate technical and organisational measures to ensure the security of the personal data, including protection against accidental or unlawful destruction, loss, or alteration, and protection against unauthorised disclosure or access.
2. Subject to paragraph 3, in the event of a personal data breach concerning personal data processed by the transferring customs authority or the receiving customs authority, the customs authority concerned shall notify the other customs authority as soon as possible but no later than 24 hours from the time of discovering the personal data breach. The notification may include appropriate restrictions as to the further transmission of the personal data.
3. In the event of personal data breach, the customs authority concerned may delay or omit the notification when such notification could endanger security of the Party or any form of public security operations.
4. In the event of personal data breach, the customs authority concerned shall use reasonable and appropriate means to remedy the personal data breach, including measures to minimise and mitigate possible adverse effects and prevent such a breach from taking place again.
5. In the event of personal data breach, the customs authority concerned shall document, report, investigate and keep records of the personal data breach, including its effects and any remedial action taken. The other customs authority

may request information on the outcome of the investigation, relating to transfers of personal data under this Annex.

Article 3E.7

Access

1. Each customs authority shall ensure it has appropriate measures in place to respond, without undue delay, to any enquiries and requests it receives from data subjects relating to the processing of their personal data pursuant to this Annex, subject to the restrictions in Article 3E.10 (Restrictions).
2. In particular, upon request by a data subject, the relevant customs authority to the extent applicable shall provide the following:
 - (a) confirmation to the data subject as to whether personal data relating to them is being processed;
 - (b) a copy of the personal data relating to them;
 - (c) confirmation that the personal data held by the receiving customs authority is consistent with the data received from the transferring Party;
 - (d) the information contained in Article 3E.11 (Transparency);
 - (e) information on any onward transfer under Article 3E.13 (Onward Disclosure and Transfer of Personal Data); and
 - (f) information on the right to lodge a complaint with the customs authority.
3. The transferring customs authority shall, at the request of the receiving customs authority, cooperate with the receiving customs authority in responding to enquiries and requests from data subjects under paragraphs 1 and 2.
4. Each customs authority shall provide that the information set out in paragraph 2 is provided free of charge within the time limits set out in Article 3E.12 (Time Limits).
5. If the provision of such information is denied or restricted, the customs authority shall inform the data subject in writing without undue delay, setting out the basis for the denial or restriction.
6. Each customs authority may publish guidance relating to the operation of this Article.

Article 3E.8

Rectification

1. Each customs authority shall ensure that data subjects are able to seek the correction or rectification of their personal data if they assert that it is inaccurate, no longer necessary for the purposes for which it was collected or processed, or

has not been processed in accordance with the applicable legal requirements or requirements of this Annex. Correction or rectification may include supplementation, erasure, blocking, or other measures or methods for addressing inaccuracies or improper processing. On request by a data subject seeking correction or rectification, the customs authority that received the request shall liaise with the other customs authority when considering the request. Upon reaching a decision, the customs authority that received the request shall inform the data subject, without undue delay, whether the data has been corrected or rectified, or whether the request has been denied, and provide reasons for the denial.

2. If the customs authority concludes that personal data it has received under the Agreement is inaccurate, has been improperly processed, or has been kept longer than necessary following a request by a data subject under Article 3E.7 (Access) or through its own investigation or inquiry, it shall take the correction or rectification measures set out in paragraph 1, as appropriate.
3. The transferring customs authority shall, at the request of the receiving customs authority, provide reasonable assistance to the receiving customs authority in taking any appropriate correction or rectification measures pursuant to paragraph 1 or 2.
4. The correction or rectification request by the data subject in a particular case may be subject to reasonable restrictions as set out in Article 3E.10 (Restrictions). If correction or rectification is denied or restricted, the customs authority that received the request shall, without undue delay, inform the data subject in writing as to the basis for the denial or restriction.
5. Each customs authority may publish guidance relating to the operation of this Article.

Article 3E.9 Automated Decisions

If a customs authority uses solely automated decision making, it shall use its best endeavours to have suitable measures in place to inform the relevant data subject about the reasons underlying the automated decision where this has resulted in authenticity not being established under Annex 3D (Framework for the Authentication Process of Origin Declarations).

Article 3E.10 Restrictions

1. Each Party shall provide that the measures set out in Articles 3E.7 (Access) and 3E.8 (Rectification) are subject to the Party's legal obligation not to disclose confidential information pursuant to professional secrecy or other legal obligations.

2. Each Party may restrict disclosure to prevent prejudice or harm to supervisory or enforcement functions of an authority of the Party acting in the exercise of the official authority vested in it.
3. Each Party shall provide that provisions restricting disclosure shall only be relied on, if necessary, provided by law and in accordance with this Annex. Each Party shall provide that reliance continues only for as long as the reason for the restriction on disclosure exists.
4. The receiving customs authority shall ensure that the relevant data subject is informed in writing about the restriction applied, without undue delay, unless doing so would prejudice the reasons for the restriction.

Article 3E.11 Transparency

1. Each Party shall make a transparency notice available to data subjects, describing in a clear and accessible manner, how personal data under this Annex may be processed by its customs authority, in its capacity as a transferring or receiving authority.
2. The transparency notice shall provide information on the purposes of processing, rights available to data subjects and procedures to exercise them, relevant safeguards, and any limitations or conditions applicable to such processing.
3. Each Party shall ensure that the transparency notice is published on an official government website and remains accessible to data subjects along with a copy of this Annex.

Article 3E.12 Time Limits

1. Subject to paragraph 2, each Party shall address and respond to a request from a data subject made in accordance with Article 3E.7 (Access) or Article 3E.8 (Rectification) no later than one month from the date it receives the request.
2. Each Party may further extend the period to respond to a request made pursuant to Article 3E.7 (Access) by up to 60 days, taking into account the complexity and number of requests. Each Party shall notify the relevant data subject of the extended response period within 30 days of the request.

Article 3E.13 Onward Disclosure and Transfer of Personal Data

1. Subject to paragraph 2, the receiving customs authority shall ensure that personal data received pursuant to Annex 3D (Framework for the

Authentication Process of Origin Declarations) is only disclosed and transferred to other national customs enforcement, regulatory or administrative authorities in that Party if:

- (a) it is disclosed and transferred for the purpose set out in paragraph 1 of Article 3E.3 (Purpose and Use Limitation); and
 - (b) the recipient authority undertakes to comply with the safeguards set out in this Annex, including by providing the data subjects with the relevant protections and applicable measures.
2. In exceptional cases, the receiving customs authority may disclose and transfer personal data to other national customs enforcement, regulatory or administrative authorities without the undertakings set out in paragraph 1 provided that the disclosure or transfer of the personal data is for important reasons of public interest or necessary for the establishment, exercise or defence of a legal claim.

Article 3E.14 Administrative Redress

1. Each Party shall ensure that a data subject is entitled to administrative redress where the data subject believes that a request made in accordance with Article 3E.7 (Access) or Article 3E.8 (Rectification) has been improperly denied.
2. Each Party shall provide that a designated authority or person (“reviewer”) reviews and, if appropriate, scrutinises any complaint raised by a data subject with a view to determining whether the processing of that data subject’s personal data by the Party constitutes an infringement of that Party’s laws and regulations or any of the requirements set out in this Annex.
3. Each Party shall provide that the reviewer may, where considered appropriate, inform the relevant data subject about the progress of their complaint. The reviewer shall formally respond to the complaint within 30 days of its receipt, or in exceptional cases, within 45 days.
4. Each Party shall provide that a formal written response setting out its determination and any recommendations relating to the matters raised includes details of the complaint escalation process, including judicial redress pursuant to Article 3E.15 (Judicial Redress), that the relevant data subject may pursue if they are not satisfied with the outcome of the handling by the reviewer.

Article 3E.15 Judicial Redress

1. Each Party shall ensure that if a data subject believes that that Party has failed to comply with the obligations set out in Articles 3E.7 (Access), 3E.8 (Restrictions) or 3E.14 (Administrative Redress), or believes that their personal data has been subject to a personal data breach, that data subject can seek

judicial redress against that Party following that Party's domestic appeal and dispute resolution process as part of the data protection laws and regulations, as appropriate.

2. In the event of a dispute between a data subject and a Party, that Party shall inform the other Party of the dispute. If appropriate, the other Party shall cooperate in resolving the dispute.
3. Paragraphs 1 and 2 are without prejudice to any other judicial redress available with respect to the processing of a data subject's personal data under the law of the Party in which redress is required.

Article 3E.16 Joint Review

The Parties shall conduct periodic joint reviews of the policies and procedures that implement this Annex and their effectiveness through the Working Group on Rules of Origin.

Article 3E.17 Suspension

1. If the transferring Party considers that the receiving Party has materially breached this Annex and has sufficient evidence to support such determination, it may suspend, in whole or in part, the transfer of personal data pursuant to paragraphs 6 and 7 of Article 3.16 (Basis of a Claim for Preferential Tariff Treatment) and Annex 3D (Framework for the Authentication Process of Origin Declarations) by written notification to the receiving Party through the Working Group on Rules of Origin.
2. Such suspension shall be limited to circumstances involving a serious or systemic failure by the receiving Party to comply with its obligations under this Annex. A suspension shall not be initiated in response to isolated or minor breaches that do not constitute a material failure to comply with this Annex, particularly where the receiving Party has taken prompt and appropriate remedial action to contain the breach and prevent its recurrence.
3. The transferring Party may only make a written notification as described in paragraph 1 where it deems the conditions set out in paragraph 2 have been met, and after the Parties have engaged in a reasonable period of consultation through the customs authorities without reaching a resolution.
4. The suspension shall take effect 20 days from the date of notification. Such suspension may be lifted by the transferring Party by written notification to the receiving Party. The suspension shall be lifted immediately on receipt of such notification. Any suspension under this Article shall be subject to a review by the Parties every 90 days.

5. Notwithstanding paragraphs 1 through 3, in the event of a material personal data breach, such as significant cyberattacks, physical security breaches or other serious incidents that compromise the integrity of the system or the personal data, the transferring Party may suspend transfers of personal data with immediate effect, taking into account the nature of the breach and risks to individuals. A suspension shall not be initiated in response to isolated or minor breaches, particularly where the receiving Party has taken prompt and appropriate remedial action to contain the breach and prevent its recurrence.
6. The receiving customs authority shall continue to accept origin declarations as applicable proofs of origin in accordance with Article 3.15 (Proof of Origin) in the event that data transfers to enable the authentication process pursuant to paragraphs 6 and 7 of Article 3.16 (Basis of a Claim for Preferential Tariff Treatment) and Annex 3D (Framework for the Authentication Process of Origin Declarations) are suspended under this Article.
7. Where a personal data breach occurs prior to the receipt by the receiving Party, including during transmission of personal data by the transferring Party, the transferring Party may suspend the transfer of personal data in accordance with paragraph 5. The Parties shall enter into consultations without delay to ensure that appropriate remedial measures are taken by the transferring Party to prevent recurrence. Where continued authentication of origin declarations is likely to be impacted by a suspension, the transferring Party shall, in consultation with and agreeable to the receiving Party, identify and implement suitable alternative mechanisms for data transfer within a reasonable period not exceeding three months. These mechanisms shall be subject to joint review every 90 days, with a view to restoring the normal process of data transfers as soon as practicable. Once the risk underlying the suspension has been addressed to the satisfaction of both Parties, the standard data transfer mechanism shall be reinstated without undue delay.
8. Notwithstanding any suspension of personal data transfers under paragraphs 1, 5 and 7, personal data falling within the scope of this Annex and transferred prior to its suspension shall continue to be processed in accordance with this Annex.

Article 3E.18

Notification

Each Party shall make reasonable efforts to notify the other Party regarding the adoption of laws or regulations that may materially affect the implementation of this Annex, as soon as practicable after such measures are adopted.

Article 4.2 Non-Application of Dispute Settlement

Neither Party shall have recourse to dispute settlement under Chapter 29 (Dispute Settlement) for any matter arising under Section B or Section C.

Article 4.3
General Provisions

The Parties affirm their rights and obligations under Article VI of GATT 1994, the Anti-Dumping Agreement, and the SCM Agreement.

Article 4.4
Investigations

1. After receipt by a Party's investigating authority of a properly documented application for an anti-dumping or a countervailing investigation with respect to imports from the other Party, and before initiating an investigation, the Party shall provide written notification to the other Party of its receipt of the application.
2. Before initiating a countervailing investigation, a Party shall afford the other Party a meeting to consult with its investigating authority regarding the application.
3. The Parties reaffirm their rights and obligations under Articles 6.2 and 6.3 of the Anti-Dumping Agreement and Article 12.2 of the SCM Agreement, including with respect to the rights of interested parties to present information orally and to defend their interests in the conduct of an anti-dumping investigation or a countervailing duty investigation.
4. Notwithstanding paragraphs 2 and 3, nothing shall prevent the investigating authority from proceeding to initiate and conduct the investigation expeditiously.
5. A Party shall ensure, before a final determination is made, disclosure of the essential facts under consideration which form the basis for the decision whether to apply final measures. This is without prejudice to Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement.

Article 4.5

Should a Party decide to impose an anti-dumping duty pursuant to Article 9.1 of the Anti-Dumping Agreement, or countervailing duty pursuant to Article 19.2 of the SCM Agreement, it shall apply a duty less than the margin of dumping or subsidy margin, if such a lesser duty would be adequate to remove the injury to the domestic industry, in accordance with the Party's laws and regulations.
2. To the extent provided for under each Party's laws, regulations and procedures, an anti-dumping duty or a countervailing duty shall not be applied by a Party

on the goods of the other Party if it is concluded that it is not in the public interest to apply the duty.

Section C

Global Safeguard Measures

Article 4.6

General Provisions and Transparency

1. The Parties affirm their rights and obligations concerning global safeguard measures under Article XIX of GATT 1994 and the Agreement on Safeguards.
2. A Party that initiates a safeguard investigatory process shall provide to the other Party an electronic copy of any notification given to the WTO Committee on Safeguards under Article 12.1 of the Agreement on Safeguards.
3. A Party adopting global safeguard measures shall endeavour to impose them in a manner least affecting bilateral trade.

Section D

Bilateral Safeguard Measures

Article 4.7

Application of a Bilateral Safeguard Measure

1. If, as a result of the elimination or reduction of a customs duty under this Agreement, an originating good from a Party is being imported into the territory of the other Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to a domestic industry, the other Party may adopt either of the bilateral measures provided for in paragraph 2.
2. If the conditions in paragraph 1 are met, the importing Party may apply one of the following bilateral safeguard measures:
 - (a) suspension of the further reduction of the rate of customs duty on the good concerned provided for under this Agreement; or
 - (b) increase in the rate of customs duty on the good concerned to a level which does not exceed the lesser of:
 - (i) the most-favoured-nation applied rate of customs duty on the good in effect at the time the bilateral safeguard measure is applied; or
 - (ii) the most-favoured-nation applied rate of customs duty on the good in effect on the day immediately preceding the date of entry into force of this Agreement.

Article 4.8

Duration and Scope

1. A Party shall apply a bilateral safeguard measure to the extent and only for such period of time as may be necessary to prevent or remedy serious injury and to facilitate adjustment of the domestic industry.
2. The period of time referred to in paragraph 1 shall not exceed two years, except where the period may be extended for an additional period of no more than two years, provided that the investigating authority of the Party that applies the bilateral safeguard measure determines, in conformity with the procedures set out in Article 4.9 (Investigation Procedures) that the bilateral safeguard measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment, and provided that the total duration of the bilateral safeguard measure, including such extensions, does not exceed four years.
3. In order to facilitate adjustment in a situation where the expected duration of a bilateral safeguard measure exceeds one year, the Party that applies the bilateral safeguard measure shall progressively liberalise it at regular intervals during the period of application.
4. No bilateral safeguard measure shall be applied again to the import of an originating good that has previously been subject to such a bilateral safeguard measure for a period of time equal to the duration of the previous bilateral safeguard measure or one year since the expiry or termination of the previous bilateral safeguard measure, whichever is longer.
5. Notwithstanding paragraph 4, a bilateral safeguard measure with a duration of 180 days or less may be applied again to the import of an originating good if:
 - (a) at least one year has elapsed since the date of introduction of a bilateral safeguard measure on the import of that good; and
 - (b) a bilateral safeguard measure has not been applied on the same good more than twice in the five-year period immediately preceding the date of the first imposition of the bilateral safeguard measure.
6. When a Party ceases to apply a bilateral safeguard measure, the rate of customs duty shall be the rate that would have been in effect in accordance with the Party's Schedule to Annex 2A (Schedules of Tariff Commitments for Goods) but for the bilateral safeguard measure.
7. Neither Party shall apply or maintain a bilateral safeguard measure beyond the expiration of the transition period.

Article 4.9

Investigation Procedures

1. A Party may apply a bilateral safeguard measure (other than on a provisional basis) only following an investigation by its investigating authority pursuant to the procedures set out in this Article. The investigation shall include reasonable

public notice to all interested parties and public hearings or other appropriate means in which importers, exporters and other interested parties could present evidence and their views, including the opportunity to respond to the representations of other interested parties and to submit their views, among other things, as to whether or not the application of a bilateral safeguard measure would be in the public interest. The investigating authority shall publish a report setting forth its findings and reasoned conclusions reached on all pertinent issues of fact and law, including a detailed analysis of the case under investigation, as well as a demonstration of the relevance of factors examined in accordance with paragraph 2.

2. In the investigation to determine whether increased imports have caused or are threatening to cause serious injury to a domestic industry, the investigating authority shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of the domestic industry, in particular, the rate and amount of the increase in imports of the good concerned in absolute and relative terms, the share of the domestic market taken by increased imports, and changes in the level of sales, production, productivity, capacity utilisation, profits and losses, and employment.
3. The determination referred to in paragraph 2 shall not be made unless the investigation demonstrates, on the basis of objective evidence, the existence of a causal link between increased imports of the good concerned and serious injury or threat thereof. Where factors other than increased imports are at the same time causing serious injury or threat thereof, such injury shall not be attributed to increased imports.
4. Any information which is by its nature confidential or which is provided on a confidential basis shall, upon cause being shown, be treated as such by the investigating authority. Such information shall not be disclosed without permission of the party submitting it. A party providing confidential information may be requested to furnish non-confidential summaries thereof or, if such parties indicate that such information cannot be summarised, the reasons why a summary cannot be provided. However, if the investigating authority finds that a request for confidentiality is not warranted and if the party concerned is either unwilling to make the information public or to authorise its disclosure in generalised or summary form, the investigating authority may disregard such information unless it can be demonstrated to their satisfaction from appropriate sources that the information is correct.
5. An investigation shall not exceed one year from the date of initiation, but a Party may, in exceptional circumstances, extend the investigation for no more than a further three months. A Party extending an investigation shall notify the other Party in writing of its intention to extend the investigation as soon as possible and, in any event, within one year of the date of initiation of the investigation.

Article 4.10

Notification and Consultation

1. A Party shall immediately provide written notice to the other Party upon:

- (a) initiating an investigation referred to in Article 4.9 (Investigation Procedures) relating to serious injury, or threat thereof, and the reasons for it;
 - (b) making a finding of serious injury or threat thereof caused by increased imports of an originating good of the other Party as a result of the elimination or reduction of a customs duty in accordance with Article 4.7 (Application of a Bilateral Safeguard Measure);
 - (c) taking a decision to apply or extend a bilateral safeguard measure; or
 - (d) taking a decision to modify the bilateral safeguard measure for progressive liberalisation.
2. The Party proposing to apply a bilateral safeguard measure shall provide the other Party with all pertinent information which shall include:
- (a) in the written notice referred to in subparagraph 1(a), the reason for the initiation of the investigation, a precise description of the originating good subject to the investigation including its subheading of the Harmonized System (for indicative purposes only), the period subject to the investigation, and the date of initiation of the investigation; and
 - (b) in the written notice referred to in subparagraphs 1(b) through (d), evidence of serious injury or threat thereof caused by the increased imports, precise description of the good subject to the proposed bilateral safeguard measure including its subheading of the Harmonized System (for indicative purposes only), and where applicable, the proposed date of introduction, the extension or modification of the bilateral safeguard measure, its expected duration, and the timetable for the progressive liberalisation of the bilateral safeguard measure provided for in paragraph 3 of Article 4.8 (Duration and Scope).

Provisional Bilateral Safeguard Measures

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis without complying with the procedural requirements of Article 4.10 (Notification and Consultation), pursuant to a preliminary determination that there is clear evidence that imports of a good originating in the other Party have increased as the result of the elimination or reduction of a customs duty under this Agreement, and that such imports cause or threaten to cause serious injury to the domestic industry. The Party applying the bilateral safeguard measure shall provide an opportunity for these consultations no later than 30 days after the application of the bilateral safeguard measure.
2. If the consultations under paragraph 1 do not result in an agreement on trade liberalising compensation within 30 days, the Party whose goods are subject to the bilateral safeguard measure may suspend the application of substantially equivalent concessions to the trade of the Party applying the bilateral safeguard measure. This action shall be applied only for the minimum period necessary to achieve the substantially equivalent effects.

If requested by the importing Party, the exporting Party shall provide an explanation and supporting data for the basis of these regional conditions, based on the relevant IPPC standards or in other ways as agreed by the Parties, based on the knowledge acquired through experience of the exporting Party's relevant authorities.
8. If the importing Party determines that the information provided by the exporting Party in its request is sufficient, it shall initiate an assessment and make a decision as to whether it can accept the exporting Party's determination of regional conditions, within a reasonable period of time.

9. On request of the exporting Party, the importing Party shall inform the exporting Party of the status of the assessment.

If the importing Party decides not to recognise the regional conditions of the exporting Party, it shall provide the exporting Party with the rationale for its determination and, to the extent practicable, indicate the required conditions for which the process referred to in paragraphs 4 through 10 may be reinitiated. Upon request, the importing Party shall hold consultations with the exporting Party, within a reasonable period of time.
13. If there are circumstances that result in the importing Party modifying or revoking a decision recognising the regional conditions of the exporting Party, the Parties shall cooperate to assess whether the determination can be reinstated.

Article 6.6

Equivalence

1. The Parties acknowledge that recognition of equivalence of sanitary and phytosanitary measures is an important means of facilitating trade. In determining equivalence of an individual measure, group of measures, or measures on a systems-wide basis, each Party shall consider the relevant guidance of the WTO SPS Committee and relevant international standards, guidelines, and recommendations.
2. The importing Party shall recognise the equivalence of sanitary or phytosanitary measures, even if the measures differ from its own, if the exporting Party objectively demonstrates to the importing Party that the exporting Party's measures achieve the importing Party's appropriate level of protection.
3. In determining equivalence, the importing Party shall take into account available relevant knowledge, information, and experience as well as the regulatory competence of the exporting Party.
4. A Party shall, upon request from the other Party, enter into bilateral consultations with the aim of achieving recognition of equivalence of an individual measure, group of measures, or measures on a systems-wide basis. For this purpose, reasonable access shall be given, upon request, to the importing Party for inspection, testing and other relevant procedures.

5. As a part of such consultations on request by the exporting Party, the importing Party shall explain and provide within a reasonable period of time:
 - (a) the rationale and objective of its measures; and
 - (b) the specific risks its measures are intended to address.
6. The exporting Party shall provide necessary information in order for the importing Party to commence an equivalence assessment. Once the importing Party determines that the information provided by the exporting Party is sufficient, it shall commence the assessment within a reasonable period of time. The importing Party shall, upon request, explain the process and plan for making an equivalence determination, without undue delay.
7. The consideration by a Party of a request from the other Party for recognition of equivalence of its measures for a specific product, or group of products, shall not be in and of itself a reason to disrupt or suspend ongoing imports from the Party of the product or products in question, provided that the importing Party's appropriate level of protection continues to be met.
8. When the importing Party has concluded its assessment, it shall notify the equivalence determination to the exporting Party, within a reasonable period of time and in writing. If an equivalence determination results in recognition by the importing Party, the importing Party shall implement a measure recognising equivalence within a reasonable period of time. If an equivalence determination does not result in recognition by the importing Party, the importing Party shall provide the exporting Party with the rationale for its decision.
9. If a Party proposes to modify, amend, repeal, or remove a sanitary or phytosanitary measure which is the subject of an equivalence arrangement between the Parties, it shall notify the other Party and indicate its likely effect on recognition of equivalence. Following such notification, the importing Party shall continue to apply its determination of equivalence unless its appropriate level of protection is not met. The Parties may use the SPS Subcommittee as a forum for further engagement on processes for possible withdrawal and reinstatement of recognition of equivalence measures.
10. Compliance of a product with sanitary or phytosanitary measures that have been accepted as equivalent to sanitary or phytosanitary measures of the other Party, shall not remove the need for that product to comply with any other relevant mandatory requirements.
11. The final determination of equivalence, and any subsequent withdrawal or suspension of equivalence, rests with the importing Party, acting in accordance with its administrative and legislative framework, taking into account international standards, guidelines, and recommendations.

Article 6.7

Import Conditions

1. Without prejudice to the rights and obligations of each Party under the SPS Agreement and this Chapter, the import conditions of the importing Party shall apply to the entire territory of the exporting Party in a consistent manner.
2. With regard to import conditions for animals, animal products, plants, plant products, and other related objects, each Party, in accordance with Article 3 of the SPS Agreement, shall set out its import conditions for animals, animal products, plants, plant products and other related objects, based upon the principles set out in the relevant standards, guidelines, and recommendations developed under the relevant international organisations. The Parties shall also take into account the decisions and recommendations of the WTO SPS Committee, when setting out those import conditions.
3. The importing Party shall make publicly available its general sanitary and phytosanitary import conditions related to goods.
4. The importing Party shall endeavour, within 30 days of receipt of a reasonable request from the exporting Party, to make available to the exporting Party all sanitary or phytosanitary import conditions relating to the import of specific goods.
5. Paragraph 4 shall not apply if the information requested by the exporting Party is publicly available.
6. For the purposes of establishing the specific sanitary or phytosanitary import conditions, the exporting Party shall, on request of the importing Party:
 - (a) provide all relevant available information required by the importing Party; and
 - (b) give reasonable access to the importing Party to conduct audits of the relevant procedures undertaken by the exporting Party, in accordance with Article 6.8 (Audit).
7. Each Party shall ensure that all sanitary and phytosanitary control, inspection, assessment and approval procedures, including if needed audits, are undertaken and completed without undue delay to authorise a good for import. Each Party shall avoid unnecessary or unduly burdensome information requests and take into account information already available to the importing Party, such as information related to the legislative framework and audit reports of the exporting Party.
8. Subject to its laws and regulations, if a risk assessment is required in the process of determining import conditions, a Party shall, upon request, provide the other Party with the outcomes of that risk assessment, within a reasonable period of time of the risk assessment being finalised.
9. Without prejudice to Article 6.8 (Audit), Article 6.10 (Import Checks), and Article 6.11 (Emergency Measures), and in accordance with its laws and regulations or as otherwise agreed between the Parties, upon request of the

exporting Party, the importing Party shall approve an establishment or facility situated in the territory of the exporting Party without prior inspection if the importing Party has:

- (a) received all relevant information, including, if necessary, appropriate assurances from the competent authorities of the exporting Party; and
- (b) determined that the establishment or facility meets its relevant sanitary and phytosanitary requirements.

The competent authority of the importing Party may suspend or withdraw the approval of the establishment or facility if it no longer meets its relevant sanitary and phytosanitary requirements.

- 10. On approval of an establishment or facility of the exporting Party under paragraph 9, the importing Party shall take necessary measures to allow imports from such establishments or facilities without undue delay.
- 11. If an approval is suspended or withdrawn by the competent authorities of the importing Party, both the Parties shall consult with an aim to once again reinstate the approval of the relevant establishment or facility of the exporting Party.
- 12. Without prejudice to Article 6.11 (Emergency Measures), the importing Party shall not refuse or prevent the importation of a good of the exporting Party solely for the reason that it is undertaking a review of its sanitary or phytosanitary measure, if the importing Party permitted the importation of that good of the exporting Party when the review was initiated.

Article 6.8

Audit

- 1. For the purposes of attaining and maintaining confidence in the exporting Party's regulatory control programme, and to comply with the sanitary and phytosanitary import conditions and related control measures of the importing Party, the importing Party shall have the right to carry out an audit of all or part of the regulatory control programme of the exporting Party's competent authority.¹
- 2. Each Party shall assist the other to carry out audit procedures.
- 3. Prior to the commencement of an audit, the competent authorities of the Parties shall discuss the rationale for the audit and shall endeavour to agree on the objectives and scope of the audit, the criteria or requirements against which the exporting Party will be assessed, and any other relevant matters.
- 4. The Parties shall carry out those audits in accordance with the provisions of the SPS Agreement, taking into account the relevant guidance of the WTO SPS

¹ For greater certainty, for the purposes of this Chapter, an audit may include desk assessment and virtual, remote, or physical audits.

Committee and the relevant international standards, guidelines, and recommendations.

5. Each Party shall endeavour to limit the frequency and number of audit visits. Only in justified circumstances shall the importing Party carry out a subsequent audit related to the same product, and in those circumstances, the importing Party shall provide the exporting Party with an explanation as to the reason for the audit.
6. The importing Party may appoint a governmental body, in accordance with the relevant international standards, guidelines, and recommendations, to carry out all or part of an audit on its behalf.
7. The importing Party shall provide the exporting Party with the opportunity to comment in writing on the findings of an audit. The importing Party shall take these comments into account before reaching its conclusions and taking any action thereon. The importing Party shall, within a reasonable period of time, provide the exporting Party with a written report setting out its conclusions.
8. Measures taken by the importing Party as a consequence of its audit shall be proportionate to the risk identified and supported by objective evidence, taking into account the importing Party's knowledge of, relevant experience with, and confidence in the exporting Party, and shall not be more trade restrictive than necessary to achieve the importing Party's appropriate level of protection. Nothing in this paragraph prevents a Party from taking an emergency measure consistent with Article 6.11 (Emergency Measures).
9. The costs for an audit shall be borne by the importing Party unless the Parties agree otherwise.
10. The Parties shall:
 - (a) each ensure, in accordance with its respective laws and regulations, that procedures are in place to prevent the disclosure of confidential information that is acquired during the audit process; and
 - (b) jointly determine how and to whom a report is made available.

Article 6.9 Certification

1. Where the importing Party requires official certificates, they shall be set in line with the principles as laid down in the relevant international standards, guidelines, and recommendations.
2. The Parties may agree to specify or implement further guidance, procedures, and requirements in relation to export certification.
3. The Parties shall encourage the implementation of electronic certification and other technologies to facilitate trade, as appropriate.

4. If a Party requires import certification, it shall ensure the sanitary or phytosanitary requirement for certification is applied only to the extent necessary to meet its appropriate level of protection.
5. Without prejudice to each Party's right to check and ensure the fulfilment of its import conditions, the importing Party shall accept certificates issued by the exporting Party in compliance with the regulatory requirements of the importing Party.

Article 6.10 **Import Checks**

1. The importing Party shall have the right to carry out import checks based on the sanitary and phytosanitary risks associated with imports. These checks shall be carried out without undue delay and with minimising trade disrupting effects. Each Party shall ensure that its control, inspection and approval procedures are in accordance with Annex C to the SPS Agreement.
2. If import checks reveal non-compliance with the relevant import conditions, the action taken by the importing Party shall be based on an assessment of the risk involved, and not be more trade-restrictive than required to achieve the Party's appropriate level of protection. The import checks shall be based on the following:
 - (a) in carrying out physical sanitary and phytosanitary import checks, where sampling takes place, the importing Party shall ensure that plants and plant products, animal products and other goods and their packaging are sampled in a representative manner; and
 - (b) unless there is an identified risk, the importing Party shall, in accordance with its domestic administrative and legislative framework, provide the opportunity for the exporter or its authorised representative to take back the consignment, where reasonably practicable.
3. The importing Party shall notify the importer or its representative, of a non-compliant consignment and of the reason for non-compliance and shall endeavour, subject to its domestic laws and regulations, to provide them with an opportunity for a review of the decision. If a review is undertaken, the importing Party shall consider any relevant information submitted to assist it in the review, and it shall carry out the review within a reasonable period of time.
4. The Parties reaffirm Article V of GATT 1994 and agree that there shall be freedom of transit for goods in transit.

Article 6.11

The Parties shall endeavour to hold technical consultations within 14 days of the receipt of the request, and in any case, the Parties shall hold the consultations as soon as possible following receipt of the request. The Party that adopts the emergency measure shall take into consideration any information provided by the other Party in response to the notification and during technical consultations. These technical consultations shall be carried out in order to avoid unnecessary disruptions to trade and the Parties may consider options for the facilitation of the implementation of the measures.
3. If a consignment is being transported between the Parties at the time of the adoption of the emergency measure, the importing Party shall, when it makes its decision for that consignment, consider any information that has been promptly provided by the exporting Party. The importing Party shall consider the most suitable and proportionate solution to avoid unnecessary disruptions to trade.
4. The importing Party shall ensure that any emergency measure taken on the grounds referred to in paragraph 1 is in accordance with the SPS Agreement.
5. If a Party adopts an emergency measure, it shall commence a science-based review of the measure within a reasonable period of time. The Party shall then review the need for the emergency measure as required, and if it remains in place provide, on request, the justification for maintaining the emergency measure. If the exporting Party considers, on the basis of scientific evidence, that an emergency measure is being maintained by the importing Party without justification, it may provide that evidence to the other Party and request the other Party to review the measure or engage in technical consultations under Article 6.14 (Technical Consultations).

Article 6.12

3. Each Party acknowledges that the threat of antimicrobial resistance requires developing and implementing a National Action Plan in line with the Global Action Plan on Antimicrobial Resistance.
4. The Parties shall endeavour to cooperate on areas of mutual interest in antimicrobial resistance and exchange their experiences, relevant information, expertise and data with each other.
5. The Parties affirm the right of each Party to set its policies, needs, and priorities on antimicrobial resistance specific to their own sensitivities and to adopt or modify its laws, regulations, and policies in this area, informed by the global effect of antimicrobial resistance.

4. If the Parties have already resorted to other mechanisms than those referred to in this Article to address the concerns, they shall continue to make use of them to avoid unnecessary duplication. A Party may request technical consultations to address these concerns, in accordance with paragraph 1, if such other mechanisms do not result in a mutually satisfactory resolution, including if it is not practicable to make use of those mechanisms within a reasonable period of time.

Article 7.4 **Affirmation of the TBT Agreement**

The Parties affirm their rights and obligations under the TBT Agreement.

Article 7.5 **Standards, Guides, and Recommendations**

1. The Parties recognise the important role that international standards, guides, and recommendations can play in supporting greater harmonisation of technical regulations, conformity assessment procedures, and national standards and in reducing unnecessary barriers to trade.
2. To determine whether there is an international standard, guide, or recommendation within the meaning of Articles 2 and 5 and Annex 3 of the TBT Agreement, each Party shall apply the relevant definitions as they are set out and referred to in Annex 1 to the TBT Agreement and shall take into account the Decision of the TBT Committee on *Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2, 5 and Annex 3 of the Agreement*.
3. When developing technical regulations or conformity assessment procedures each Party shall:
 - (a) use relevant international standards, guides, or recommendations, or relevant parts of them, to the extent provided for in paragraph 4 of Article 2 and in paragraph 4 of Article 5 of the TBT Agreement, as the basis for its technical regulations and conformity assessment procedures; and
 - (b) avoid deviation from the relevant international standards, guides or recommendations, or the introduction of additional requirements when compared to those standards, guides, or recommendations,except where it considers that such international standards, guides, or recommendations would be ineffective or inappropriate for the fulfilment of the legitimate objectives pursued, as referred to in Article 2.2 and in Article 5.4 of the TBT Agreement.
4. Where a Party does not use relevant international standards, guides or recommendations, or the relevant parts of them, as referred to in paragraph 3, that Party shall, on request from the other Party:
 - (a) explain the reasons; and
 - (b) provide the available information on which this assessment is based.
5. To facilitate an appropriate explanation under paragraph 4, the requesting Party shall ensure that its request for an explanation:

 - (b) describes how the technical regulation or conformity assessment procedures that is not based on the international standard, guide, or recommendation is a restriction, or has the potential to restrict, trade between the Parties.

- 7. The Parties shall exchange available information on:
 - (a) each Party's use of standards in technical regulations;
 - (b) the standard setting processes; and

Article 7.6 **Technical Regulations**

- 1. Each Party shall give positive consideration to accepting, as equivalent, technical regulations of the other Party, even if these regulations differ from its own, provided it is satisfied that these regulations adequately fulfil the objectives of its own regulations.
- 2. In addition to Article 2.7 of the TBT Agreement, a Party shall, on request of the other Party,¹ provide the reasons why it has not or cannot accept a technical regulation of that Party as equivalent to its own. The Party to which the request is made should provide its response to the other Party within a reasonable period of time.
- 3. Upon request of a Party that has an interest in developing a technical regulation similar to a technical regulation of the other Party, the requested Party shall endeavour to provide, to the extent practicable, relevant information, including

¹ The Party's request should identify with precision the respective technical regulation it considers to be equivalent and any data or evidence that supports its position.

any studies or documents, except for confidential information, on which it has relied in its development of that regulation.

Article 7.7 **Conformity Assessment²**

1. Where a Party requires that conformity assessment procedures in relation to specific products are performed by specified government authorities of the Party, the Party conducting the conformity assessment procedures shall:
 - (a) ensure the conformity assessment fee takes into account the cost of the services rendered; and
 - (b) make information on the conformity assessment fees publicly available.
2. Where a Party requires a conformity assessment as a positive assurance that a product conforms with a technical regulation, it shall:
 - (a) select conformity assessment procedures that take into account the risks of nonconformity;
 - (b) consider, as appropriate, as proof of compliance with technical regulations, the use of a supplier's declaration of conformity; and
 - (c) where requested by the other Party, consider, if feasible, providing information on the criteria used to select the conformity assessment procedures for specific products.
3. The Parties recognise the advantages of enabling conformity assessment procedures to be carried out online where applicable and reasonably practicable. Where a Party does not allow a conformity assessment procedure to be carried out online, it shall, on request of the other Party, share its reasons.
4. In cases where a positive assurance is required that a product conforms with technical regulations or standards, and relevant international standards, guides or recommendations issued by international standardising bodies exist or their completion is imminent, each Party shall ensure that central level of government bodies use them, or the relevant parts of them, as a basis for their conformity assessment procedures, except where, as duly explained upon request by the other Party, such international standards, guides or recommendations, or relevant parts are inappropriate for the Party concerned, for, amongst other things, reasons such as: national security requirements; the prevention of deceptive practices; protection of human health or safety, animal or plant life or health, or the environment; fundamental climatic or other geographical factors; or fundamental technological or infrastructural problems.
5. Procedures for assessment of conformity by central level of government bodies of each Party shall be in accordance with Article 5 of the TBT Agreement.

² Nothing in this Article requires a party to accept the results of a conformity assessment body which has not been accredited by an accreditation body of that Party.

6. Further to Articles 6.1 and 6.3 of the TBT Agreement, a Party shall ensure, whenever possible, that results of the conformity assessment procedures in the other Party are accepted, even when those procedures differ from its own, provided it is satisfied that those procedures offer an assurance of conformity with applicable technical regulations or standards equivalent to its own procedures.³ A Party shall, upon request of the other Party, explain its reasons for not accepting the results of a conformity assessment procedure conducted in the other Party.
7. The Parties recognise that a broad range of mechanisms exist to facilitate the acceptance in a Party's territory of the results of conformity assessment procedures conducted in the other Party's territory. For example:
 - (a) a Party may agree with the other Party to accept the results of conformity assessment procedures that conformity assessment bodies located in the other Party's territory conduct for specific technical regulations;
 - (b) a Party may adopt accreditation procedures for qualifying conformity assessment bodies located in the other Party's territory;
 - (c) a Party may recognise the results of conformity assessment procedures conducted in the other Party's territory;
 - (d) conformity assessment bodies located in the territory of either Party may enter into voluntary arrangements to accept the results of each other's assessment procedures; and
 - (e) the importing Party may rely on a supplier's declaration of conformity.
8. The Parties shall exchange information on the range of mechanisms relevant to conformity assessment procedures in their respective territories with a view to facilitating the acceptance of conformity assessment results.
9. A Party shall, if it considers appropriate and in accordance with its laws and regulations, permit participation of conformity assessment bodies which are located in the territory of the other Party, in its conformity assessment procedures for the sectors set out in Annex 7A (Product Sectors), under conditions no less favourable than those accorded to conformity assessment bodies located in the territory of the permitting Party.
10. Where a Party permits participation of its conformity assessment bodies and does not permit participation of conformity assessment bodies of the other Party in its conformity assessment procedures as referred to in paragraph 9, it shall, upon reasonable written request of the other Party, explain the reason for its refusal in writing.
11. The Parties recognise the important role that relevant regional or international organisations can play in cooperation in the area of conformity assessment. In this regard, each Party shall take into consideration the participation status or

³ For greater certainty, it is recognised that prior consultations may be necessary in order to arrive at a mutually satisfactory understanding.

membership in such organisations of relevant bodies in the Parties in facilitating this cooperation.

12. The Parties shall encourage cooperation between their relevant conformity assessment bodies in working closer on matters such as the acceptance of conformity assessment results between Parties.
13. The Parties shall exchange information on accreditation policy and promote the use of accreditation to facilitate acceptance of conformity assessment results and consider how to make best use of international standards for accreditation and international agreements involving the Parties' accreditation bodies, for example, through the International Laboratory Accreditation Cooperation Mutual Recognition Arrangement or the International Accreditation Forum Multilateral Arrangement. Each Party shall use accreditation with authority derived from its government or performed by its government, as appropriate, as a means to demonstrate the technical competence of a conformity assessment body.

Article 7.8 Marking and Labelling

1. Each Party shall ensure that its technical regulations concerning product marking and labelling:
 - (a) accord treatment no less favourable than that accorded to like goods of national origin; and
 - (b) do not create unnecessary obstacles to trade between the Parties.
2. In particular, if a Party requires marking or labelling of a product in the form of a technical regulation:
 - (a) the Party shall accept that labelling and corrections to labelling may take place in custom warehouses or other designated areas in the country of import, subject to its relevant laws, regulations, and customs procedures, as an alternative to labelling and corrections to labelling in the country of origin, unless such labelling and corrections to labelling are required to be carried out by approved persons for reasons of public health or safety;
 - (b) the Party shall, unless it considers that legitimate objectives under the TBT Agreement are compromised thereby, endeavour to accept supplementary, non-permanent, or detachable labels, or marking or labelling in the accompanying documentation rather than physically attached to the product; and
 - (c) provided that it is not misleading, contradictory, inconsistent or confusing, or that the Party's legitimate objectives are not compromised, the importing Party shall permit the following in relation to the information it requires:

- (i) information in other languages in addition to the language required in the Party;
 - (ii) internationally accepted nomenclatures, pictograms, symbols, or graphics in addition to those required in the Party; and
 - (iii) additional information to that required in the Party.
- 3. A Party shall, where feasible, not require any prior approval, registration or certification of markings or the labels of products as a precondition for placing on its market products that otherwise comply with its mandatory technical requirements, unless necessary to fulfil its legitimate objectives.

Article 7.9 **Transparency**

1. The Parties recognise the importance of the provisions relating to transparency in the TBT Agreement. In this respect, the Parties shall take into account the relevant *Decisions and Recommendations adopted by the WTO Committee on Technical Barriers to Trade Since 1 January 1995 (G/TBT/1/Rev.13)*, as may be revised, issued by the WTO Committee on Technical Barriers to Trade.
2. Upon request, a Party shall provide, if already available, the full text or summary of its notified technical regulations and conformity assessment procedures in English. If unavailable, the Party shall provide a summary stating the requirements of the notified technical regulations and conformity assessment procedures to the requesting Party in English within a reasonable period of time agreed between the Parties and, if possible, no later than 30 days after receiving the written request. In implementing the preceding sentence, the contents of the summary shall be determined by the responding Party.
3. Unless otherwise provided for in this Chapter, any information or explanation requested by a Party pursuant to this Chapter shall be provided by the other Party in English, in print or electronically, within a reasonable period of time mutually agreed by the Parties and, if possible, within 60 days of the request.
4. Each Party shall allow persons of the other Party to participate in the consultation procedures which are available to the general public for the development of technical regulations, national standards and conformity assessment procedures, subject to its laws and regulations or administrative arrangements on terms no less favourable than those accorded to its own persons.
5. A Party making a notification in accordance with Article 2.9.2 or Article 5.6.2 of the TBT Agreement shall include in the notification a statement describing the objective of the proposal and the rationale for the approach the Party is proposing.
6. Each Party shall normally allow 60 days from the date of notification to the WTO in accordance with Articles 2.9 and 5.6 of the TBT Agreement for the other Party to make comments in writing, except where urgent problems of

safety, health, environmental protection, or national security arise or threaten to arise. A Party shall give positive consideration to a reasonable request from the other Party to extend the comment period.

7. Each Party shall take the comments of the other Party into account and shall endeavour to provide a response to these comments upon request of the other Party.
8. Upon request of the other Party, a Party shall provide the other Party with information regarding the objective of, and rationale for, a technical regulation or conformity assessment procedure that the Party has adopted or is proposing to adopt.
9. Each Party shall consider methods to provide additional transparency in the development of technical regulations, standards and conformity assessment procedures, including through the use of electronic tools and public outreach or consultations.
10. Each Party shall publish, preferably by electronic means, in at least one official journal or website, all proposals for new technical regulations and conformity assessment procedures and proposals for amendments to existing technical regulations and conformity assessment procedures, and all new final technical regulations and conformity assessment procedures and final amendments to existing technical regulations and conformity assessment procedures, of central level of government bodies, that a Party is required to notify or publish under the TBT Agreement or this Chapter, and that may have a significant effect on trade.⁴ These publications shall be made available in English.
11. Each Party shall take such reasonable measures as may be available to it to ensure that, all proposals for new technical regulations and conformity assessment procedures, and proposals for amendments to existing technical regulations and conformity assessment procedures, and all new final technical regulations and conformity assessment procedures, and final amendments to existing technical regulations and conformity assessment procedures, of its regional level of governments are published, and are accessible through an official website or journal.
12. For the purposes of applying Article 2.12 and Article 5.9 of the TBT Agreement, the term “reasonable interval” shall mean normally a period of not less than six months, except when this would be ineffective in fulfilling the legitimate objectives pursued by the technical regulation or by the requirements concerning the conformity assessment procedure.
13. When a Party detains at the point of entry an imported consignment, due to noncompliance with a technical regulation or a conformity assessment procedure, it shall notify the importer or its representative, as soon as possible, the reasons for the detention.

⁴ For greater certainty, a Party may comply with this obligation by ensuring that the proposed and final measures in this paragraph are published on, or otherwise accessible through, the WTO’s official website.

In that case, the responding Party shall give positive consideration to this request.
3. For greater certainty, a Party may request technical discussions with the other Party regarding technical regulations or conformity assessment procedures of its regional level of government that may have a significant effect on trade.
4. Information provided in the course of technical discussions is provided in confidence and the other Party shall maintain the confidentiality of the information subject to its laws and regulations.
5. Unless the Parties agree otherwise, technical discussions shall be without prejudice to the rights and obligations of the Parties under this Agreement, the WTO Agreement, or any other agreement to which both Parties are party.
6. Any request for information or technical discussions and communications shall be conveyed through the respective contact points designated pursuant to Article 7.12 (Contact Points).

Article 7.12

Article 8.2

Scope

1. This Chapter shall apply to measures by a Party affecting trade in services.
2. For the purposes of this Chapter, “measures by a Party” means measures taken by:

¹ Where the service is not supplied directly by a juridical person but through other forms of commercial presence such as a branch or a representative office, the service supplier (i.e. the juridical person) shall, nonetheless, through such presence be accorded the treatment provided for service suppliers under this Chapter. Such treatment shall be extended to the presence through which the service is supplied and need not be extended to any other parts of the supplier located outside the territory where the service is supplied.

- (a) central, regional, or local governments and authorities of that Party; and
- (b) non-governmental bodies in the exercise of powers delegated by central, regional, or local governments or authorities of that Party.

In fulfilling its obligations and commitments under this Chapter, each Party shall take such reasonable measures as may be available to it to ensure their observance by regional and local governments and authorities and non-governmental bodies within its territory.

3. This Chapter shall not apply to measures relating to:

- (a) financial services as defined in Article 9.1 (Definitions – Financial Services);
- (b) government procurement;
- (c) subsidies or grants provided by a Party, including government-supported loans, guarantees and insurance;

- (e) cabotage² in maritime transport services.³

4. This Chapter does not impose any obligation on a Party with respect to a natural person of the other Party who seeks access to its employment market or who is employed on a permanent basis in its territory, and does not confer any right on that natural person with respect to that access or employment. For greater certainty, this Chapter does not apply to measures regarding citizenship, nationality or residence on a permanent basis.

5. In respect of air transport services, this Chapter shall not apply to measures affecting traffic rights however granted, or measures affecting services directly related to the exercise of traffic rights, other than measures affecting:

- (a) aircraft repair and maintenance services;

² For India, maritime cabotage is the transportation of passengers or goods between any port or place located in India and any other port or place located in India and transportation of passengers or goods originating or terminating in the same port or place located in India, including transportation of passengers or goods between a port or a place located in India and another port, place, installation or structure situated in the Exclusive Economic Zone (EEZ) of India or on the continental shelf of India.  8. Notwithstanding Article 29.5 (Choice of Forum – Dispute Settlement), if the Parties have the same obligations under this Agreement and a bilateral, plurilateral, or multilateral air services agreement, a Party may invoke the dispute settlement procedures of this Agreement only after any dispute settlement procedures in the other agreement have been exhausted.

Article 8.3

Market Access

1. With respect to market access through the modes of supply identified in the definition of “trade in services” in Article 8.1 (Definitions), each Party shall accord services and service suppliers of the other Party treatment no less favourable than that provided for under the terms, limitations, and conditions agreed and specified in its Schedule in Annex 8B (Schedules of Specific Commitments).⁴
2. In sectors where market-access commitments are undertaken, the measures which a Party shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule in Annex 8B (Schedules of Specific Commitments), are defined as:
 - (a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;

⁴ If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in subparagraph (a) of the definition “trade in services” in Article 8.1 (Definitions) and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in subparagraph (c) of the definition “trade in services” in Article 8.1 (Definitions), it is thereby committed to allow related transfers of capital into its territory.

- (b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (c) limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;⁵
 - (d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;

 - (f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.
3. If a Party undertakes a market-access commitment in relation to the supply of a service through a mode of supply referred to in subparagraph (a), (b), or (d) of the definition of “trade in services” in Article 8.1 (Definitions), that Party shall not require a service supplier of the other Party to establish or maintain a representative office, a branch, or any form of juridical person, or to be resident in its territory as a condition for the supply of that service through the relevant mode of supply, unless otherwise specified in its Schedule in Annex 8B (Schedules of Specific Commitments).

Article 8.4

National Treatment

1. Each Party shall, in the sectors inscribed in its Schedule in Annex 8B (Schedule of Specific Commitments) and subject to any conditions and qualifications set out therein, accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers.⁶
2. A Party may meet the requirement under paragraph 1 by according to services and service suppliers of the other Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.
3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or

⁵ This subparagraph does not cover measures of a Party which limit inputs for the supply of services.

⁶ Specific commitments assumed under this Article shall not be construed to require any Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

service suppliers of the Party compared to like services or service suppliers of the other Party.

Article 8.5

Additional Commitments

1. The Parties may negotiate commitments with respect to measures affecting trade in services, including those regarding qualifications, standard or licensing matters, not subject to scheduling, under Article 8.4 (National Treatment) or Article 8.3 (Market Access).
2. A Party making additional commitments under paragraph 1 shall inscribe such commitments in its Schedule in Annex 8B (Schedules of Specific Commitments).

Article 8.6

Schedules of Specific Commitments

1. Each Party shall set out in its Schedule in Annex 8B (Schedules of Specific Commitments), the specific commitments it undertakes under Article 8.4 (National Treatment), Article 8.3 (Market Access), and Article 8.5 (Additional Commitments). With respect to sectors where such commitments are undertaken, each Schedule in Annex 8B (Schedules of Specific Commitments) shall specify:
 - (a) terms, limitations, and conditions on market access;
 - (b) conditions and qualifications on national treatment;
 - (c) undertakings relating to additional commitments; and
 - (d) where appropriate, the time frame for implementation of such commitments.
2. Measures inconsistent with both Article 8.4 (National Treatment) and Article 8.3 (Market Access) shall be inscribed in the column relating to Article 8.3 (Market Access). In this case, the inscription shall be considered to provide a condition or qualification to Article 8.4 (National Treatment) as well.
3. For greater certainty, Schedules of Specific Commitments shall be annexed to this Chapter as Annex 8B (Schedules of Specific Commitments) and shall form an integral part thereof.

Article 8.7

Most-Favoured-Nation Treatment⁷

1. Each Party shall, in respect of the sectors and subsectors set out in its Schedule in Annex 8C (Most-Favoured-Nation Treatment Sectoral Coverage) and subject to any terms, limitations, conditions and qualifications set out therein, accord to services and service suppliers of the other Party treatment no less favourable than that it accords to like services and service suppliers of a non-Party.
2. Notwithstanding paragraph 1, each Party reserves the right to adopt or maintain any measure that accords differential treatment to services and service suppliers of any non-Party under any bilateral or multilateral international agreement in force at, or signed prior to, the date of entry into force of this Agreement.
3. If, after the date of entry into force of this Agreement, a Party enters into any agreement with a non-Party in which it undertakes to provide treatment to services or service suppliers of that non-Party in a sector or subsector not set out in that Party's Schedule in Annex 8C (Most-Favoured-Nation Treatment Sectoral Coverage), more favourable than that it accords under this Agreement to like services or service suppliers of the other Party, the other Party may request consultations to discuss the possibility of extending, under this Agreement, treatment no less favourable than that provided for in the agreement with the non-Party to services and service suppliers of the other Party. In such circumstances, the Parties shall enter into consultations bearing in mind the overall balance of benefits.
4. This Article shall not be construed as to prevent a Party from conferring or according advantages to adjacent countries in order to facilitate exchanges limited to contiguous frontier zones of services that are both locally produced and consumed.

Article 8.8

Domestic Regulation

1. For the purposes of this Article:

“authorisation” means permission to supply a service, resulting from a procedure to which a person of a Party must adhere in order to demonstrate compliance with licensing requirements or qualification requirements; and

“competent authority” means a central, regional, or local government or authority or non-governmental body in the exercise of powers delegated by a central, regional, or local government or authority, which is entitled to take a decision concerning authorisation for the supply of a service.
2. This Article shall:

⁷ For greater certainty, this Article does not cover treatment accorded by a Party to services and service suppliers of territories for whose international relations that Party is responsible.

- (a) apply to sectors where specific commitments are undertaken in a Party's Schedule in Annex 8B (Schedule of Specific Commitments); and
 - (b) not apply to any terms, limitations, conditions, or qualifications set out in a Party's Schedule pursuant to Articles 8.3 (Market Access) or 8.4 (National Treatment).
- 3. Each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.
- 4. Each Party shall maintain or institute as soon as practicable judicial, arbitral, or administrative tribunals or procedures which provide, on request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.
- 5. Nothing in paragraph 4 shall be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.
- 6. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements and procedures, do not constitute unnecessary barriers to trade in services, the Parties shall jointly review the result of the WTO negotiation on disciplines on such measures, pursuant to Article VI.4 of GATS and shall amend this article, as appropriate, after consultation among the Parties to bring the results of those negotiations into effect under this Chapter. Such disciplines shall aim to ensure that such requirements, *inter alia*:
 - (a) are based on objective and transparent criteria, such as competence and the ability to supply the service;
 - (b) are not more burdensome than necessary to ensure the quality of the service; and
 - (c) in the case of licensing and qualifications procedures, are not in themselves a restriction on the supply of the service.
- 7. (a) In sectors in which a Party has undertaken commitments, pending the entry into force of disciplines in these sectors pursuant to paragraph 6, the Party shall not apply licensing and qualification requirements and technical standards that nullify or impair such commitments in a manner which:
 - (i) does not comply with the criteria outlined in subparagraphs 6(a), (b), or (c); and
 - (ii) could not reasonably have been expected of that Party at the time the commitments in those sectors were made.

- (b) In determining whether a Party is in conformity with its obligations under subparagraph 7(a), international standards of relevant international organisations⁸ applied by that Party shall be taken into account.
8. If a Party requires authorisation for the supply of a service, the Party shall:
- (a) promptly publish⁹ information necessary for obtaining an authorisation. Where it exists, the information may include:
 - (i) the licensing and qualification requirements and procedures;
 - (ii) contact information of relevant competent authorities;
 - (iii) fees;
 - (iv) procedures for appeal or review of decisions concerning applications;
 - (v) indicative or fixed timeframes for processing applications; and
 - (vi) the length of authorisations, and where relevant, dates for renewal;
 - (b) endeavour to ensure that the information referred to in subparagraph (a) is easily accessible through electronic means, and to the extent practicable, is consolidated into a single online portal; and
 - (c) encourage its competent authorities to respond, to the extent practicable, to any reasonable request for information or assistance.
9. Each Party shall, to the extent practicable, avoid requiring an applicant to approach more than one competent authority for each application for authorisation for the supply of a service. If a service is within the jurisdiction of multiple competent authorities, multiple applications for authorisation may be required.
10. If a Party requires authorisation for the supply of a service, it shall ensure that its competent authorities:
- (a) to the extent practicable, permit the submission of an application at any time throughout the year.¹⁰ If a specific time period for applying exists, the Party shall ensure that its competent authorities allow a reasonable period of time for the submission of an application;
 - (b) endeavour to accept applications in electronic format under the equivalent conditions of authenticity as paper submissions; and

⁸ The term “relevant international organisations” refers to international bodies whose membership is open to the relevant bodies of the Parties.

⁹ For the purposes of these disciplines, “publish” means to include in an official publication, such as an official journal, or on an official website.

¹⁰ Competent authorities are not required to start considering applications outside of their official working hours and working days.

- (d) to the extent practicable, establish a fixed or indicative timeframe for the processing of an application;
- (e) to the extent practicable, confirm in writing¹¹ that an application has been received;
- (f) upon request of the applicant, provide without undue delay information concerning the status of the application;

11. Each Party shall ensure, in accordance with its laws and regulations, that authorisation for the supply of a service, once granted, enters into effect without undue delay.¹⁴
12. Each Party shall ensure that the authorisation fees¹⁵ charged by its competent authorities are reasonable, transparent and do not in themselves restrict the supply of a service. Each Party shall endeavour to accept the payment of those authorisation fees by electronic means.
13. Each Party shall provide adequate procedures to verify the competence of professionals of the other Party.
14. If a Party requires an examination for authorisation for the supply of a service, it shall, to the extent practicable:

Article 8.9

Recognition

1. For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorisation, licensing, or certification of service suppliers, and subject to the requirements of paragraph 4, a Party may recognise the education or experience obtained, requirements met, or licences or certifications granted in a

¹⁴ Competent authorities are not responsible for delays due to reasons outside their competence.

¹⁵ For the purposes of this paragraph, authorisation fees do not include fees for the use of natural resources, payment for auction, tendering, or other non-discriminatory means of awarding concessions or mandated contributions to universal services provision.

¹⁶ For greater certainty, this paragraph does not mandate a particular administrative structure. It refers to the decision-making process and administering of decisions.

non-Party. That recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement with the non-Party concerned, or may be accorded autonomously.

2. If a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted, in the territory of a non-Party, nothing in Article 8.7 (Most-Favoured-Nation Treatment) shall be construed to require the Party to accord recognition to the education or experience obtained, requirements met, or licences or certifications granted, in the territory of the other Party.
3. A Party that is party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, upon request, to negotiate its accession to that agreement or arrangement, or to negotiate comparable ones with it. Where a Party accords recognition autonomously, that Party shall afford adequate opportunity for the other Party to demonstrate that education, experience, licences, or certifications obtained or requirements met in that other Party's territory should be recognised.
4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the other Party and non-Parties in the application of its standards or criteria for the authorisation, licensing, or certification of service suppliers, or a disguised restriction on trade in services.
5. As set out in Annex 8A (Professional Services), each Party shall endeavour to facilitate trade in professional services, including through encouraging relevant bodies in its territory that have expressed mutual interest for negotiating mutual recognition agreements or similar arrangements for recognition of professional qualifications to enter into those negotiations in accordance with that Annex.

Article 8.10 **Denial of Benefits**

1. A Party may deny the benefits of this Chapter:
 - (a) to the supply of any service, if it establishes that the service is supplied from or in the territory of a non-Party;
 - (b) to a service supplier that is a juridical person, if it establishes that it is not a service supplier of the other Party; or
 - (c) in the case of the supply of a maritime transport service, if it establishes that the service is supplied:
 - (i) by a vessel registered under the laws and regulations of a non-Party; and
 - (ii) by a person of a non-Party which operates or uses the vessel in whole or in part.
2. A Party may deny the benefits of this Chapter to a service supplier of the other Party, if the service supplier is a juridical person owned or controlled by person

of a non-Party, and the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the juridical person or that would be violated or circumvented if the benefits of this Chapter were accorded to the juridical person.

Article 8.11

Transparency

1. The Parties recognise that transparent measures governing trade in services are important in facilitating the ability of service suppliers to gain access to, and operate in, each other's markets. Each Party shall promote regulatory transparency in trade in services.
2. Notwithstanding Article 25.7 (Non-Application of Dispute Settlement – Transparency), as far as measures of general application affecting trade in services are concerned, the provisions of Article 25.2 (Publication – Transparency) shall be applicable for central, regional, and local governments and authorities of a Party and shall be subject to Chapter 29 (Dispute Settlement).
3. Each Party shall publish promptly and, except in emergency situations, no later than the time of their entry into force, all international agreements pertaining to or affecting trade in services to which a Party is a signatory.
4. Each Party shall respond promptly to any request by the other Party for specific information on any of its measures of general application, including any new, or any changes to existing, laws, regulations or administrative guidelines, or its international agreements, that the requesting Party considers may pertain to or affect trade in services.

Article 8.12

Disclosure of Confidential Information

Nothing in this Chapter shall be construed as requiring a Party to provide to the other Party confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest or which would prejudice the legitimate commercial interests of particular juridical persons, public or private.

Article 8.13

Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's obligations under specific commitments.
2. Where a Party's monopoly supplier of a service competes, either directly or through an affiliated company, in the supply of a service outside the scope of its

monopoly rights and which is subject to that Party's commitments, that Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has a reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraph 1 or 2, it may request the other Party establishing, maintaining, or authorising that supplier to provide specific information concerning the relevant operations.
4. This Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:
 - (a) authorises or establishes a small number of service suppliers; and
 - (b) substantially prevents competition among those suppliers in its territory.

Article 8.14 Business Practices

1. The Parties recognise that certain business practices of service suppliers, other than those falling under Article 8.13 (Monopolies and Exclusive Service Suppliers), may restrain competition and thereby restrict trade in services.
2. Each Party shall, on request of the other Party, enter into consultations with a view to eliminating practices referred to in paragraph 1. The requested Party shall accord full and sympathetic consideration to such request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The requested Party may also provide other information available to the requesting Party, subject to its laws and regulations and to the conclusion of a satisfactory agreement concerning the safeguarding of its confidentiality by the requesting Party.

Article 8.15 Payments and Transfers

1. Except under the circumstances envisaged in Article 28.3 (Measures to Safeguard the Balance of Payments – General Provisions and Exceptions), a Party shall not apply restrictions on international transfers or payments for current transactions relating to its specific commitments.
2. Each Party shall permit international transfers or payments for current transactions relating to its specific commitments to be made in a freely convertible currency at the market rate of exchange prevailing at the time of transfer.
3. Nothing in this Chapter shall affect the rights and obligations of a Party as a member of the International Monetary Fund ("IMF") under the IMF Articles of Agreement, as may be amended, including the use of exchange actions which are in conformity with the IMF Articles of Agreement, as may be amended,

provided that the Party shall not impose restrictions on any capital transaction inconsistently with its specific commitments under this Chapter regarding such transactions, except under Article 28.3 (Measures to Safeguard the Balance of Payments – General Provisions and Exceptions) or on request of the IMF.

Article 8.16

Safeguard Measures

1. The Parties note that Article X of GATS provides for multilateral negotiations on the question of emergency safeguard measures based on the principle of non-discrimination. The Parties shall review the issue of emergency safeguard measures related to trade in services in light of any provisions agreed under Article X of GATS with a view to their incorporation into this Chapter.
2. In the event that a Party encounters difficulties in the implementation of its commitments under this Chapter, that Party may request consultations with the other Party to address those difficulties.

Article 8.17

Subsidies

1. Notwithstanding subparagraph 3(c) of Article 8.2 (Scope), the Parties shall review the issue of disciplines on subsidies related to trade in services in light of any disciplines agreed under Article XV of GATS with a view to their incorporation into this Chapter.
2. A Party which considers that it is adversely affected by a subsidy of the other Party related to trade in services may request consultations with the other Party on such matters. On receipt of such a request, the requested Party shall enter into consultations with the requesting Party, with a view to resolving the matter, provided that the request includes an explanation of how the subsidy has adversely affected trade in services between the Parties. During the consultations, the Party granting the subsidy may consider a request of the other Party for information relating to the subsidy.
3. Neither Party shall have recourse to dispute settlement under Chapter 29 (Dispute Settlement) for any request made or consultations held under this Article or any other dispute arising under this Article.

Article 8.18

Cooperation

The Parties shall strengthen cooperation efforts in sectors, including sectors which are not covered by current cooperation arrangements. The Parties shall discuss and agree on the sectors for cooperation and develop cooperation programmes in these sectors in order to improve their domestic services capacity and their efficiency and competitiveness.

Article 8.19
Subcommittee on Trade in Services

1. The Parties hereby establish a Subcommittee on Trade in Services (“Subcommittee”) composed of relevant government representatives of each Party.¹⁷
2. The Subcommittee shall:

The Parties shall promptly exchange their contact points to facilitate those negotiations.

2. Each Party shall encourage its relevant bodies to take into account, as appropriate, plurilateral or multilateral agreements that relate to professional services in the development of agreements on the recognition of professional qualifications.

Article 8A.5 **Temporary or Project-Specific Licensing**

Each Party may consider, if feasible, taking steps to encourage its relevant bodies to consider implementing procedures for the temporary or project-specific licensing of professional service suppliers of the other Party. Those procedures should not operate to prevent a professional service supplier from gaining a local licence once that supplier satisfies the applicable local licensing requirements.

Article 8A.6 **Professional standards**

1. Each Party shall encourage its relevant bodies that have expressed mutual interest pursuant to paragraph 1 of Article 8A.4 (Recognition of Professional Qualifications) to establish dialogues on professional standards and criteria. In particular, those dialogues may include the following matters:

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of financial services or financial service suppliers of the Party compared to like financial services or financial service suppliers of the other Party.

Article 9.6

Market Access

1. With respect to market access through the modes of supply identified in the definition of “trade in financial services” in Article 9.1 (Definitions), each Party shall accord financial services and financial service suppliers of the other Party⁸ treatment no less favourable than that provided for under the terms, limitations, and conditions agreed and specified in its Schedule in Annex 9A (Schedules of Specific Commitments on Financial Services).⁹
2. In the subsectors of financial services where market-access commitments are undertaken,¹⁰ the measures which a Party shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless

⁵ Financial service suppliers of the other Party that supply or seek to supply a financial service through one of the modes of supply identified in subparagraphs (a), (b) or (d) of the definition of “trade in financial services” in Article 9.1 (Definitions) must also be engaged in the business of supplying a financial service in the territory of that other Party in order to be accorded the treatment provided for under this Article.

⁶ Specific commitments assumed under this Article shall not be construed to require any Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant financial services or financial service suppliers.

⁷ And for greater certainty, commitments may relate to the whole or part of a subsector, as specified by a Party in its Schedule in Annex 9A (Schedules of Specific Commitments on Financial Services).

⁸ Financial service suppliers of the other Party that supply or seek to supply a financial service through one of the modes of supply identified in subparagraphs (a), (b) or (d) of the definition of “trade in financial services” in Article 9.1 (Definitions) must also be engaged in the business of supplying a financial service in the territory of that other Party in order to be accorded the treatment provided for under this Article.

⁹ If a Party undertakes a market-access commitment in relation to the supply of a financial service through the mode of supply referred to in subparagraph (a) of the definition of “trade in financial services” in Article 9.1 (Definitions) and if the cross-border movement of capital is an essential part of the financial service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market-access commitment in relation to the supply of a financial service through the mode of supply referred to in subparagraph (c) of the definition of “trade in financial services” in Article 9.1 (Definitions), it is thereby committed to allow related transfers of capital into its territory.

If a Party undertakes a market-access commitment in relation to the supply of a financial service through a mode of supply referred to in subparagraphs (a), (b) or (d) of the definition of “trade in financial services” in Article 9.1 (Definitions), it shall not require a financial service supplier of the other Party to establish or maintain a representative office, a branch, or any form of juridical person, or to be resident in its territory as a condition for the supply of that financial service through the relevant mode of supply, unless otherwise specified in its Schedule in Annex 9A (Schedules of Specific Commitments on Financial Services).
4. For greater certainty, this Article does not prevent a Party from requiring a financial services supplier of the other Party to be authorised, regulated or supervised by the first Party, provided that this does not circumvent the Party’s obligation under paragraph 1 and is consistent with other provisions of this Chapter.

¹¹ This subparagraph does not cover measures of a Party which limit inputs for the supply of financial services.

Article 9.7
Additional Commitments

1. The Parties may negotiate commitments with respect to measures affecting trade in financial services, including those regarding qualifications, standards, or licensing matters, not subject to scheduling, under Article 9.5 (National Treatment) or Article 9.6 (Market Access).

3. For greater certainty, Schedules of Specific Commitments shall be annexed to this Chapter as Annex 9A and shall form an integral part thereof.

Article 9.9
Denial of Benefits

1. A Party may deny the benefits of this Chapter:
 - (a) to the supply of any financial service, if it establishes that the financial service is supplied from or in the territory of a non-Party; or
 - (b) to a financial service supplier that is a juridical person, if it establishes that it is not a financial service supplier of the other Party.

2. A Party may deny the benefits of this Chapter to a financial service supplier of the other Party, if the financial service supplier is a juridical person owned or controlled by person of a non-Party, and the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the juridical person or that would be violated or circumvented if the benefits of this Chapter were accorded to the juridical person.

Article 9.10 Transparency

1. Chapter 24 (Good Regulatory Practice) and Chapter 25 (Transparency) do not apply to a measure covered by this Chapter.
2. The Parties recognise that transparent measures of general application governing the activities of financial service suppliers are important in facilitating their ability to gain access to and operate in each other's markets. Each Party commits to promote regulatory transparency in financial services.
3. Each Party shall:
 - (a) ensure that all measures of general application to which this Chapter applies are administered in a reasonable, objective, and impartial manner;
 - (b) ensure that all measures of general application to which this Chapter applies are promptly published or made available in such a manner as to enable an interested person and the other Party to become acquainted with them;
 - (c) to the extent possible, ensure advance publication of any measures of general application, to which this Chapter applies, that it proposes to adopt and provide an interested person and the other Party a reasonable opportunity to comment on these proposed measures;
 - (d) maintain or establish enquiry points and appropriate mechanisms to respond, within a reasonable period of time, to an inquiry or a request for information from an interested person regarding measures of general application to which this Chapter applies;
 - (e) allow, to the extent possible, a reasonable period of time between the final publication of a measure of general application, to which this Chapter applies, and the date when it enters into effect; and
 - (f) ensure that measures of general application adopted or maintained by a self-regulatory organisation of the Party, to which this Chapter applies, are promptly published or otherwise made available in a manner that enables interested persons to become acquainted with them.
4. If a Party adopts or maintains measures relating to authorisation for the supply of a financial service, the Party shall ensure that:

- (a) such measures are based on objective and transparent criteria;¹² and
 - (b) the procedures are impartial, not more burdensome than necessary to ensure the quality of the financial service and do not in themselves constitute a restriction on the supply of the financial service.
5. If a Party requires authorisation for the supply of a financial service, the financial regulatory authorities of the Party shall:
- (a) promptly publish¹³ the information necessary for financial service suppliers to comply with the requirements and procedures for obtaining, maintaining, amending and renewing such authorisation;
 - (b) to the extent practicable, not require an applicant to approach more than one financial regulatory authority for each application for authorisation. If a financial service is within the jurisdiction of multiple financial regulatory authorities, multiple applications for authorisation may be required;
 - (c) allow a reasonable period for the submission of an application;
 - (d) to the extent possible, accept applications in electronic format;
 - (e) accept copies of documents, that are authenticated in accordance with that Party's law, in place of original documents, unless the financial regulatory authorities require original documents to protect the integrity of the authorisation process;
 - (f) ensure that any authorisation fees¹⁴ charged by financial regulatory authorities are reasonable, transparent and do not in themselves restrict the supply of the relevant financial service. Each Party shall endeavour to accept the payment of those authorisation fees by electronic means;
 - (g) confirm in writing¹⁵ that an application has been received and, at the request of the applicant, provide without undue delay information concerning the status of the application;
 - (h) in the case of an application considered complete for processing under the Party's law, make a decision on the application within 180 days and notify the applicant of the decision without undue delay. An application shall not be considered complete until all relevant proceedings are conducted and all necessary information is received. Where it is not practicable for a decision to be made within 180 days, the financial regulatory authorities shall notify the applicant of this without undue

 - (ii) at the request of the applicant, provide guidance on why the application is considered incomplete; and
 - (iii) provide the applicant with the opportunity¹⁶ to provide the additional information that is required to complete the application, and ensure that any deadlines for the additional information required are made clear to the applicant;

however, if none of the actions in subparagraphs (i) through (iii) is practicable, and the application is rejected due to incompleteness, ensure that the applicant is informed within a reasonable period of time;

- (j) if an application is rejected then, either upon the request of an unsuccessful applicant in writing, or upon their own initiative, to the extent practicable, inform the applicant of the reasons for denial of the application;
- (k) an applicant should not be prevented from submitting another revised application solely on the basis that an application had been previously rejected; and
- (l) ensure that authorisation, once granted, may enter into effect without undue delay, subject to the applicable terms and conditions.¹⁷

Article 9.11

Payments and Clearing

Under terms and conditions that accord national treatment, each Party shall grant to financial service suppliers of the other Party that supply or seek to supply a financial service through commercial presence in the Party's territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business.¹⁸ This Article is not intended to confer access to the Party's lender of last resort facilities¹⁹.

¹⁶ Such opportunity does not require a financial regulatory authority to provide extensions of deadlines.

¹⁷ Financial regulatory authorities are not responsible for delays due to reasons outside their competence.

¹⁸ For greater certainty, this Article does not prevent a Party from requiring a financial services supplier to be authorised, regulated or supervised, provided that this does not circumvent the Party's obligation under this Article.

¹⁹ For greater certainty, a Party need not grant access under this Article to financial service suppliers of the other Party that supply or seek to supply a financial service through commercial presence in the Party's territory if such access or treatment is not granted to its own or like financial service suppliers.

Article 9.12

Performance of Back-Office Functions

1. Each Party recognises that the back-office functions of a financial service supplier that supplies or seeks to supply a financial service through commercial presence in its territory, which are performed by the head office or an affiliate of that financial service supplier in the territory of either Party, may be important to the effective management and efficient operation of that financial service supplier.
2. A Party may require a financial service supplier that supplies or seeks to supply a financial service through commercial presence in its territory to ensure compliance with any domestic requirements, including in relation to its core and critical functions, but recognises the importance of avoiding the imposition of arbitrary requirements on the performance of back-office functions.
3. To the extent practicable, and subject to paragraph 2, each Party shall permit the performance of such back-office functions as are referred to in paragraph 1 by such a head office or affiliate as is referred to in paragraph 1. For greater certainty, nothing in this Article prevents a Party from requiring a financial service supplier that supplies or seeks to supply a financial service through commercial presence in its territory to retain certain functions, including core and critical functions.

Article 9.13

Self-Regulatory Organisations

If a Party requires a financial service supplier²⁰ of the other Party to be a member of, participate in, or have access to, a self-regulatory organisation to supply a financial service in or into the territory of that Party, or grants a privilege or advantage when supplying a financial service through a self-regulatory organisation, then the requiring Party shall ensure that the self-regulatory organisation observes the obligations in Article 9.5 (National Treatment).

Article 9.14

Financial Services New to the Territory of a Party²¹

1. Each Party shall permit a financial service supplier of the other Party established and supplying a new financial service in the territory of the other Party to supply such new financial service through commercial presence in the territory of the first Party that the first Party would permit its own financial

²⁰ For greater certainty, this article does not prevent a Party from requiring a financial services supplier to be authorised, regulated or supervised, provided that this does not circumvent the Party's obligation under this Article.

²¹ The Parties understand that nothing in this Article prevents a financial service supplier of a Party from applying to the other Party to request that it authorises the supply of a financial service that is not supplied in the territory of either Party. That application shall be subject to the law of the Party to which the application is made and, for greater certainty, shall not be subject to this Article.

service suppliers to supply, in like situations, without adopting a law or modifying an existing law.²² Each Party may:

- (a) notwithstanding subparagraph 2(e) of Article 9.6 (Market Access), determine the institutional and juridical form through which the new financial service may be supplied;
 - (b) require authorisation, regulation or supervision for the supply of the service from the relevant regulator; and
 - (c) require the financial service supplier of the other Party to become authorised to do business and to be regulated or supervised by the relevant regulator under the law of the Party.
2. Where a Party requires authorisation to supply the new financial service, a decision by the relevant regulator as to whether to grant authorisation shall be made within a reasonable time.
3. To support innovation in financial services, the Parties shall endeavour to collaborate, and share knowledge, experiences and developments in financial services, to advance financial integrity, consumer protection, financial inclusion, competition and financial stability.

Article 9.15 Recognition

1. A Party may recognise prudential measures of the other Party or a non-Party, which may be based on relevant standards of any international standard setting body, in determining how the Party's measures affecting trade in financial services shall be applied. Such recognition may be:
- (a) accorded autonomously;
 - (b) achieved through harmonisation or other means; or
 - (c) based upon an agreement or arrangement with the other Party or the non-Party.
2. A Party that is a party to such an agreement or arrangement referred to in paragraph 1, whether future or existing, shall afford adequate opportunity to the other Party to negotiate its accession to such agreement or arrangements, or to negotiate comparable ones with it, under circumstances in which there would be equivalent regulation, oversight, implementation of such regulation and, if appropriate, procedures concerning the sharing of information between the Parties to the agreement or arrangement.

²² For greater certainty, a Party may issue a new regulation or other subordinate measure in permitting the supply of the new financial service.

3. Where a Party accords recognition autonomously it shall afford adequate opportunity to the other Party to demonstrate that such circumstances as referred to in paragraph 2 exist.

Article 9.16

Payments and Transfers

1. Except under the circumstances envisaged in Article 28.3 (Measures to Safeguard the Balance of Payments – General Provisions and Exceptions), a Party shall not apply restrictions on international transfers or payments for current transactions relating to its specific commitments referred to in paragraph 3.
2. Each Party shall permit international transfers or payments for current transactions relating to its specific commitments referred to in paragraph 3 to be made in a freely convertible currency at the market rate of exchange prevailing at the time of transfer.
3. This Article shall apply to the extent that trade in financial services as defined in sub-paragraphs (a), (b) and (d) of the definition of “trade in financial services” in Article 9.1 (Definitions) is subject to commitments pursuant to Article 9.5 (National Treatment) and Article 9.6 (Market Access).
4. Nothing in this Chapter shall affect the rights and obligations of a Party as a member of the International Monetary Fund (“IMF”) under the IMF Articles of Agreement, as may be amended, including the use of exchange actions which are in conformity with the IMF Articles of Agreement, as may be amended, provided that the Party shall not impose restrictions on any capital transaction inconsistently with its specific commitments under this Chapter regarding such transactions, except under Article 28.3 (Measures to Safeguard the Balance of Payments – General Provisions and Exceptions) or on request of the IMF.

Article 9.17

Institutional Arrangements

1. The Subcommittee on Trade in Services shall be responsible for the effective implementation and operation of this Chapter.
2. The authorities responsible for financial services for each Party are:
 - (a) for India, the Department of Commerce; and
 - (b) for the United Kingdom, His Majesty’s Treasury or its successor.
3. A Party shall promptly notify the other Party of any change of its contact point.

Article 9.18 Consultation

1. A Party may request consultations with the other Party regarding any matter arising under this Agreement that affects financial services. The other Party shall consider the request.
2. Consultations under this Article shall include the relevant representatives of the responsible authorities specified in Article 9.17 (Institutional Arrangements).
3. The consulting Parties shall report the results of their consultations to the Subcommittee on Trade in Services.
4. For greater certainty, nothing in this Article shall be construed to require a Party to derogate from its law regarding sharing of information between financial regulatory authorities, or the requirements of an agreement or arrangement between financial regulatory authorities of the Parties, or to require a financial regulatory authority to take any action that would interfere with specific regulatory, supervisory, administrative or enforcement matters.

Article 9.19 Financial Services Dispute Settlement

1. Chapter 29 (Dispute Settlement) applies, as modified by this Article, to the settlement of disputes arising under this Chapter.
2. The Parties shall ensure for disputes arising under this Chapter that in addition to the requirements set out in Article 29.10 (Qualifications of Panellists - Dispute Settlement):
 - (a) a majority of panellists shall have the necessary expertise relevant to the financial services under dispute, and such expertise may include the regulation of financial service suppliers; and
 - (b) the appointed panellist acting as chair shall, where possible, have prior experience as counsel or arbitrator in dispute settlement proceedings.
3. Further to paragraph 5 of Article 29.15 (Compensation and Suspension of Concessions or other Obligations – Dispute Settlement), in considering what concessions or other obligations to suspend for the purposes of that Article, the complaining Party shall apply the following principles. In cases where the panel has found an inconsistency with the Agreement which affects:²³
 - (a) the financial services sector and any other sector, the complaining Party may suspend obligations in the financial services sector that have an effect that does not exceed a level equivalent to the level of nullification or impairment in the complaining Party's financial services sector; or

²³ For the avoidance of doubt, in cases where the Panel has found an inconsistency with the Agreement which affects only the financial services sector, the principles in paragraphs 5 and 6 of Article 29.15 (Compensation and Suspension of Concessions or other Obligations – Dispute Settlement) shall apply.

- (b) notwithstanding paragraph 5(b) of Article 29.15 (Compensation and Suspension of Concessions or other Obligations – Dispute Settlement), only a sector other than the financial services sector, the complaining Party shall not suspend obligations in the financial services sector.

Article 9.20

As part of these efforts, the Parties shall exchange views through appropriate forums on issues relating to financial services at intervals as agreed by the Parties. The forums may include existing forums, or such forums as may be agreed by the Parties, and shall be composed of relevant entities to be decided by the Parties, which shall include, where appropriate, the regulatory and supervisory authorities of the Parties.
2. The Parties recognise that these efforts support objectives which include the following:
 - (a) enhancing trade in financial services between the Parties;
 - (b) strengthening financial systems and promoting financial stability;
 - (c) improving market integrity, mitigating unnecessary market fragmentation and promoting fair and competitive markets;
 - (d) promoting robust and efficient financial service suppliers, markets, and infrastructure;

In doing so the Parties shall advance financial integrity, consumer protection, financial inclusion, financial stability, operational resilience, sustainability and facilitate cross-border development of new financial services.
4. The Parties shall endeavour to share best practices to promote diversity²⁵ in financial services and recognise the importance of building a diverse, financial

5. The Parties recognise the importance of international cooperation to facilitate the inclusion of environmental, social, and governance considerations in decision-making by financial services suppliers.

Article 9.21 **Credit Rating of Financial Services Suppliers**

1. In relation to the provision of a financial service in the territory of a Party:
 - (a) by a financial service supplier of the other Party, which is already authorised by the Party to supply financial services through commercial presence in its territory, and
 - (b) where the provision of financial services is wholly or partially contingent on an assessment by the Party of the credit rating of that financial service supplier or the sovereign credit rating of the other Party,

the host Party shall, to the extent practicable, undertake its assessment in a reasonable manner.²⁶

Article 9.22 **Electronic Payments**

1. Recognising the rapid growth of electronic payments, including those provided by non-banks and FinTech entities, the Parties shall, while maintaining resilience, endeavour to work together to support the development of an efficient, safe and secure environment for cross-border electronic payments, including through:
 - (a) encouraging mutual cooperation and sharing information about each other's experience, technical expertise and innovations in the area of digital payment infrastructure and products;
 - (b) encouraging the adoption and use of internationally accepted standards;
 - (c) promoting interoperability and interlinkages of electronic payment infrastructures including payment systems; and
 - (d) encouraging innovation and competition in electronic payments services.

²⁶ For greater certainty, this paragraph does not apply in relation to credit rating assessments undertaken by financial service suppliers.

2. To this end, each Party shall, while maintaining resilience, endeavour to:
 - (a) for the electronic payment systems solely operated by a Party, publicly disclose objective and risk-based system rules and criteria for operation and participation which permit fair and open access;
 - (b) encourage payment service providers to safely and securely make available new technologies and standards for their financial products and services, and where possible, to facilitate greater interoperability, innovation and competition in electronic payments; and
 - (c) facilitate innovation and competition and the introduction of new electronic payment products and services, such as through adopting regulatory and industry sandboxes and cooperation at international fora.
3. In view of paragraph 1, the Parties recognise the importance of upholding safety, efficiency, trust and security in electronic payment systems through laws and regulatory measures, and that the adoption and enforcement of laws, regulatory measures and policies should take into account the risks undertaken by the payment service providers.

Article 9.23 **Subsidies**

1. On receipt of such a request, the requested Party shall enter into consultations with the requesting Party, with a view to resolving the matter, provided that the request includes an explanation of how the subsidy has adversely affected trade in financial services between the Parties. During the consultations, the Party granting the subsidy may consider a request of the other Party for information relating to the subsidy.
3. Neither Party shall have recourse to dispute settlement under Chapter 29 (Dispute Settlement) for any request made or consultations held under this Article, or any other dispute arising under this Article.

2. For greater certainty, Annex 10A (Schedules of Specific Commitments on Temporary Movement of Natural Persons) is an integral part of this Chapter.

3. This Chapter shall not apply to measures affecting natural persons seeking access to the employment market of a Party nor shall it apply to measures regarding citizenship, nationality, residence, or employment on a permanent basis.
4. Nothing in this Agreement shall prevent a Party from applying measures to regulate the temporary entry of natural persons of the other Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of and to ensure the orderly movement of natural persons across its borders, provided that those measures are not applied in a manner as to nullify or impair the benefits accruing to the other Party under this Chapter.
5. The sole fact that a Party requires natural persons of the other Party to obtain an immigration formality shall not be regarded as nullifying or impairing the benefits accruing to the other Party under this Chapter.
6. For greater certainty, all requirements provided for in the law of each Party regarding employment and social security shall continue to apply, including laws and regulations concerning minimum wages and collective wage agreements, provided that those requirements are consistent with the obligations in this Chapter and in any agreement between the Parties regarding employment or social security measures.

4. A Party may refuse to issue an immigration formality to a natural person of the other Party covered by this Chapter if the temporary entry of that person might affect adversely:
 - (a) the settlement of any labour dispute that is in progress at the place or intended place of employment; or
 - (b) the employment of any natural person who is involved in such dispute.

1. With respect to any measure regarding covered procurement, each Party, including its procuring entities, shall accord immediately and unconditionally to the goods and services of the other Party and to the suppliers of the other Party, treatment no less favourable than the treatment the Party, including its procuring entities, accords to domestic goods, services, and suppliers.
2. With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall not:
 - (a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation or ownership; or
 - (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party.

Use of Electronic Means

3. When conducting covered procurement, a procuring entity shall use electronic means:
 - (a) for the publication of notices; and
 - (b) to the widest extent practicable, for information exchange and communication, the publication of tender documentation and the submission of tenders.
4. When conducting covered procurement by electronic means², a procuring entity shall:
 - (a) ensure that the procurement is conducted using information technology systems and software, including those related to authentication and encryption of information, that are generally available and interoperable with other generally available information technology systems and software; and
 - (b) maintain mechanisms that ensure the integrity of requests for participation and tenders, including establishment of the time of receipt and the prevention of inappropriate access.

² India shall ensure that its Government e-Market place (GeM) platform complies with this paragraph no later than 12 months after the date of entry into force of this Agreement.

Conduct of Procurement

5. A procuring entity shall conduct covered procurement in a transparent and impartial manner that:
 - (a) is consistent with this Chapter, using methods such as open tendering, selective tendering, and limited tendering;
 - (b) avoids conflicts of interest; and
 - (c) prevents corrupt practices.

Rules of Origin

6. For purposes of covered procurement, a Party shall not apply rules of origin to goods or services imported from or supplied from the other Party that are different from the rules of origin the Party applies at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Party.

Offsets

7. With regard to covered procurement, a Party, including its procuring entities, shall not seek, take account of, impose or enforce any offset at any stage of a procurement.

Make in India

8. Notwithstanding paragraphs 1, 2, and 7, India and its procuring entities shall be entitled to seek, take account of, impose, or enforce the MII Order at any stage of a covered procurement, provided that India and its procuring entities treat any supplier of the United Kingdom as a 'Class-II local supplier' under the MII Order where:
 - (a) that supplier offers goods or services having a country of origin as the United Kingdom; and
 - (b) the goods or services have equal to or greater than the minimum 'local content' prescribed for Class-II local suppliers in the MII Order where 'local content' means the amount of value added in the United Kingdom, which shall be the total value of the goods or service procured (excluding net domestic indirect taxes) minus the value of imported content in the goods or service (including all customs duties) as a proportion of the total value, expressed as a percentage.³
9. Nothing in this Article shall affect India's right to amend or modify the MII Order provided that any such amendment or modification shall maintain treatment to suppliers of the United Kingdom in a manner at least equivalent to that described in paragraph 8.

³ For greater certainty, this provision shall not prevent a supplier of the United Kingdom from contributing towards the minimum local content in India.

Social Value

10. The United Kingdom and its procuring entities may take into account social considerations, including the social value of a procurement, at any stage of a covered procurement provided that:
 - (a) suppliers of India are treated no less favourably than suppliers of the United Kingdom when evaluating any social considerations;
 - (b) any social considerations are based on objectively verifiable criteria; and
 - (c) if self-certification of the contribution towards any social consideration by a supplier is permitted at any stage of a covered procurement, such self-certification shall apply to suppliers of India.
11. Nothing in this Article shall affect the United Kingdom's right to amend or modify any of its procurement measures concerning social considerations, including social value, provided that any such amendment or modification shall maintain the treatment of suppliers of India in a manner at least equivalent to that described in paragraph 10.

Measures Not Specific to Procurement

12. Paragraphs 1 and 2 shall not apply to: customs duties and charges of any kind imposed on, or in connection with, importation; the method of levying such duties and charges; other import regulations or formalities and measures affecting trade in services other than measures governing covered procurement.

Currency

13. For greater certainty, a procuring entity may, when calling for a tender, designate any currency.

4. Procuring entities are encouraged to publish in the electronic medium listed in Section I of its Party's Schedule to Annex 15A (Government Procurement Schedules) as early as possible in each fiscal year a notice regarding their future procurement plans (hereinafter referred to as "notice of planned procurement"). 5. A procuring entity covered under Section B or Section C of a Party's Schedule to Annex 15A (Government Procurement Schedules) may use a notice of planned procurement as a notice of intended procurement provided that the notice of planned procurement includes as much of the information referred to in paragraph 3 as is available to the entity and a statement that interested suppliers should express their interest in the procurement to the procuring entity.

⁴ This subparagraph is without prejudice to a Party's right to provide for its procuring entities to conduct negotiations under subparagraphs 1(b) and 1(c) of Article 15.12 (Negotiation).

Article 15.7

Conditions for Participation

1. A procuring entity shall limit any conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to undertake the relevant procurement.
2. In establishing the conditions for participation, a procuring entity:
 - (a) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of the Party or that the supplier has prior work experience in the territory of that Party;
 - (b) may require relevant prior experience where essential to meet the requirements of the procurement; and
 - (c) shall not exclude a supplier of the other Party from participating in a tendering procedure on the basis of a legal requirement according to which the supplier must be a natural person or a legal person.
3. In assessing whether a supplier satisfies the conditions for participation, a procuring entity shall:
 - (a) evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity; and
 - (b) base its evaluation on the conditions that the procuring entity has specified in advance in notices or tender documentation.
4. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier⁵ on grounds such as:
 - (a) bankruptcy;
 - (b) false declarations;
 - (c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;
 - (d) final judgments in respect of serious crimes or other serious offences;
 - (e) professional misconduct or acts or omissions that adversely reflect on the commercial integrity of the supplier; or

⁵ For the purposes of this paragraph, a Party, including its procuring entities, may exclude a supplier where the grounds apply to a person that is a member of the administrative, management, or supervisory body of the supplier or has powers of representation, decision, or control in the supplier.

Article 15.8

Qualification of Suppliers

Registration Systems and Qualification Procedures

1. A Party, including its procuring entities, may maintain a supplier registration system under which interested suppliers are required to register and provide certain information.
2. A Party, including its procuring entities, shall not adopt or apply any registration system or qualification procedure with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of the other Party in its procurement.
3. If a Party or a procuring entity maintains a supplier registration system, it shall:
 - (a) ensure that interested suppliers have access to information on the registration system through electronic means and that interested suppliers may request registration at any time; and
 - (b) if a supplier makes a request to be listed on the registration system, give fair consideration to the request and inform the supplier within a reasonable period of time of the decision with respect to this request.
4. Each Party shall ensure that:
 - (a) its procuring entities make efforts to minimise differences in their qualification procedures; and
 - (b) where its procuring entities maintain registration systems, the entities make efforts to minimise differences in their registration systems.

Selective Tendering

5. Where a procuring entity intends to use selective tendering, the entity shall:
 - (a) include in the notice of intended procurement at least the information specified in subparagraphs 3(a), 3(b), 3(f), 3(g), 3(j), and 3(k) of Article 15.6 (Notices) and invite suppliers to submit a request for participation; and
 - (b) provide, by the commencement of the time period for tendering, at least the information in subparagraphs 3(c), 3(d), 3(e), 3(h), and 3(i) of Article 15.6 (Notices) to the qualified suppliers invited to submit a tender.
6. A procuring entity shall allow all qualified suppliers to participate in a particular procurement, unless the procuring entity states in the notice of intended procurement any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.
7. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 5, a procuring entity shall

ensure that those documents are made available at the same time to all the qualified suppliers selected in accordance with paragraph 6.

Multi-Use Lists

8. A Party, including its procuring entities, may establish or maintain a multi-use list, provided that it makes continuously available in the electronic medium listed in Section I of its Schedule to Annex 15A (Government Procurement Schedules), a notice inviting interested suppliers to apply for inclusion on the list.
9. The notice provided for in paragraph 8 shall include:
 - (a) a description of the goods or services, or categories thereof, for which the list may be used;
 - (b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity or other government agency will use to verify that a supplier satisfies those conditions;
 - (c) the name and address of the procuring entity and other information necessary to contact the entity and obtain all relevant documents relating to the list; and
 - (d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list.
10. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.
11. Where a supplier that is not included on a multi-use list submits a request for participation in a procurement based on a multi-use list and provides all required documents within the time period provided for the submission of such request for participation, a procuring entity shall examine the request. If the entity is not able to complete the examination of the request within the time period allowed for the submission of tenders, it may exclude the supplier from consideration in respect of the procurement.

Section B and Section C Entities

12. A procuring entity covered under Section B or Section C of a Party's Schedule to Annex 15A (Government Procurement Schedules) may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement, provided that:
 - (a) the notice is published in accordance with paragraph 8 and includes the information required under paragraph 9, as much of the information required under paragraph 3 of Article 15.6 (Notices) as is available and a statement that it constitutes a notice of intended procurement or that

only the suppliers on the multi-use list will receive further notices of procurement covered by the multi-use list; and

- (b) the entity promptly provides to suppliers that have expressed an interest in a given procurement to the entity, sufficient information to permit them to assess their interest in the procurement, including all remaining information required in paragraph 3 of Article 15.6 (Notices), to the extent such information is available.
13. A procuring entity covered under Section B or Section C of a Party's Schedule to Annex 15A (Government Procurement Schedules) may allow a supplier that has applied for inclusion on a multi-use list in accordance with paragraph 12 to tender in a given procurement, where there is sufficient time for the procuring entity to examine whether the supplier satisfies the conditions for participation.

Information on Procuring Entity Decisions

14. A procuring entity or other entity of a Party shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request or application.
15. Where a procuring entity or other entity of a Party rejects a supplier's request for participation in a procurement or application for inclusion on a multi-use list, ceases to recognise a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

Article 15.9

Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to trade between the Parties.
2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:
- (a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specification on international standards, or on national technical regulations, recognised national standards, or building codes. Where national standards are used in the technical specifications, a procuring entity shall indicate that it will accept tenders that satisfy standards equivalent to those national standards by including words such as 'or equivalent' in the tender documentation.
3. Where design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, where appropriate, that it will

consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as 'or equivalent' in the tender documentation.

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in those cases, the entity includes words such as 'or equivalent' in the tender documentation.
5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.
6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.
7. For greater certainty, this Chapter is not intended to preclude a Party, or its procuring entities, from preparing, adopting or applying technical specifications required to protect sensitive government information, including specifications that may affect or limit the storage, hosting or processing of that information outside the territory of the Party.

Tender Documentation

8. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:
 - (a) the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings or instructional materials;
 - (b) any conditions for participation of suppliers, including a list of information and documents that suppliers are required to submit in connection with the conditions for participation;
 - (c) all evaluation criteria the entity will apply in the awarding of the contract, and, except where price is the sole criterion, the relative importance of such criteria;
 - (d) where the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means;

- (e) where the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender related to the evaluation criteria, on which the auction will be conducted;
 - (f) where there will be a public opening of tenders, the date, time and place for the opening and, if appropriate, the persons authorised to be present;
 - (g) any other terms or conditions, including terms of payment and any limitation on the means by which tenders may be submitted, such as whether on paper or by electronic means; and
 - (h) any dates for the delivery of goods or the supply of services.
9. In establishing any date for the delivery of goods or the supply of services being procured, a procuring entity shall take into account such factors as the complexity of the procurement, the extent of subcontracting anticipated and the realistic time required for production, de-stocking and transport of goods from the point of supply or for supply of services.
10. The evaluation criteria set out in the notice of intended procurement or tender documentation may include, among others, price and other cost factors, quality, technical merit, environmental characteristics and terms of delivery.
11. A procuring entity shall promptly:
- (a) make available tender documentation to ensure that interested suppliers have sufficient time to submit responsive tenders;
 - (b) provide, upon request, the tender documentation to any interested supplier, if the same is not readily available electronically; and
 - (c) reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

Modifications

12. Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:
- (a) to all suppliers that are participating at the time of the modification, amendment or re-issuance, where such suppliers are known to the entity, and in all other cases, in the same manner as the original information was made available; and
 - (b) in adequate time to allow such suppliers to modify and re-submit amended tenders, as appropriate.

Preliminary Market Research and Engagement

13. For greater certainty, a procuring entity may, prior to publication of a notice of intended procurement, conduct market research and engagement with suppliers with a view to informing and developing technical specifications and other tender documentation for a particular procurement or informing suppliers of its procurement plans and requirements. A procuring entity shall take appropriate steps to ensure that suppliers participating in such market research or engagement do not gain an unfair advantage over other interested suppliers.

Article 15.10 Facilitation of Participation by SMEs

1. The Parties recognise the important contribution that SMEs can make to economic growth and employment and the importance of facilitating the participation of SMEs in government procurement.
2. Each Party shall endeavour to facilitate participation by SMEs in covered procurement, and shall to the extent possible and appropriate:
 - (a) provide comprehensive procurement-related information that includes a definition of SMEs in a single electronic portal;
 - (b) make all tender documentation available free of charge;
 - (c) conduct procurement by electronic means or through other new information and communication technologies;
 - (d) consider the size, design, and structure of the procurement, including dividing procurement opportunities into smaller lots and promoting the use of joint bidding and subcontracting by SMEs;
 - (e) seek opportunities to simplify administrative processes; and
 - (f) require prompt payment by procuring entities to their suppliers and by suppliers to their subcontractors.
3. If a Party adopts or maintains a measure that provides preferential treatment for SMEs, the Party shall ensure that the measure, including the criteria for eligibility, is transparent.
4. The Parties shall:
 - (a) upon request, provide information on the measures designed to assist, promote, encourage, or facilitate participation by SMEs in government procurement covered by this Chapter; and
 - (b) cooperate and share best practice in relation to measures to facilitate participation by SMEs in government procurement covered by this Chapter.

Article 15.11

Time Periods

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for a supplier to prepare and submit a request for participation and responsive tender, taking into account factors such as:
 - (a) the nature and complexity of the procurement;
 - (b) the extent of subcontracting anticipated; and
 - (c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points where electronic means are not used.

Such time periods, including any extension of the time periods, shall be the same for all interested or participating suppliers.

Deadlines

2. The time period for the submission of requests for participation and tenders shall be established by a procuring entity of a Party in accordance with the law of that Party, provided those time periods are established in a manner consistent with paragraph 1 and in accordance with the other provisions of this Chapter. For procuring entities of the United Kingdom, such time periods may be established in accordance with paragraphs 3 through 8. For greater certainty, paragraphs 3 through 8 shall not apply to procuring entities of India.
3. A procuring entity that uses selective tendering may establish that the final date for the submission of requests for participation may not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time period impracticable, the time period may be reduced.
4. Except as provided for in paragraphs 5 through 8, a procuring entity may establish that the final date for the submission of tenders may not be less than 40 days from the date on which:
 - (a) in the case of open tendering, the notice of intended procurement is published; or
 - (b) in the case of selective tendering, the entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.
5. A procuring entity may reduce the time period for tendering established in accordance with paragraph 4 where:
 - (a) the procuring entity has published a notice of planned procurement as described in paragraph 4 of Article 15.6 (Notices) at least 40 days and no more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:
 - (i) a description of the procurement;

- (ii) the approximate final dates for the submission of tenders or requests for participation;
 - (iii) a statement that interested suppliers should express their interest in the procurement to the procuring entity;
 - (iv) the address from which documents relating to the procurement may be obtained; and
 - (v) as much of the information that is required for the notice of intended procurement under paragraph 3 of Article 15.6 (Notices), as is available;
 - (b) the procuring entity, for recurring contracts, indicates in an initial notice of intended procurement that subsequent notices will provide time periods for tendering based on this paragraph; or
 - (c) a state of urgency duly substantiated by the procuring entity renders the time period for tendering established in accordance with paragraph 4 impracticable.
6. A procuring entity may reduce the time period for tendering established in accordance with paragraph 4 by five days for each one of the following circumstances:
- (a) the notice of intended procurement is published by electronic means;
 - (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
 - (c) the procuring entity accepts tenders by electronic means.
7. Notwithstanding any other provision in this Article, where a procuring entity purchases commercial goods or services, or any combination thereof, it may reduce the time period for tendering established in accordance with paragraph 4, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. In addition, where the entity accepts tenders for commercial goods or services by electronic means, it may reduce the time period established in accordance with paragraph 4.
8. Where a procuring entity covered under Section B or Section C of the UK's Schedule to Annex 15A (Government Procurement Schedules) has selected all or a limited number of qualified suppliers, the time period for tendering may be fixed by mutual agreement between the procuring entity and the selected suppliers.

Article 15.12 Negotiation

1. A Party may provide for its procuring entities to conduct negotiations:

- (a) where the entity has indicated its intent to conduct negotiations in the notice of intended procurement required under paragraph 2 of Article 15.6 (Notices);
 - (b) where it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation; or
 - (c) where the procuring entity finds that the price quoted by the supplier submitting the most advantageous tender is not reasonable and justifiable and that negotiations need to be conducted with such supplier.
2. A procuring entity shall:
- (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and
 - (b) where negotiations are concluded with more than one supplier, provide a common deadline for all those suppliers to submit any new or revised tenders.

Article 15.13 Limited Tendering

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 15.6 (Notices) through 15.8 (Qualification of Suppliers), paragraphs 8 through 12 of Article 15.9 (Technical Specifications and Tender Documentation), and Articles 15.11 (Time Periods), 15.12 (Negotiations), 15.14 (Electronic Auctions), and 15.15 (Treatment of Tenders and Awarding of Contracts) only under any of the following circumstances:
- (a) where:
 - (i) no tenders were submitted or no suppliers requested participation;
 - (ii) no tenders that conform to the essential requirements of the tender documentation were submitted;
 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the tenders submitted have been collusive,

provided that the requirements of the tender documentation are not substantially modified;

- (b) where the goods or services can be supplied only by a particular supplier or suppliers and no reasonable alternative or substitute goods or services exist for any of the following reasons:
 - (i) the requirement is for a work of art;
 - (ii) the protection of patents, copyrights, or other exclusive rights; or
 - (iii) due to an absence of competition for technical reasons;
- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement where a change of supplier for such additional goods or services:
 - (i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;
- (e) for goods purchased on a commodity market;
- (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership or bankruptcy, but not for routine purchases from regular suppliers; or
- (h) where a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organised in a manner that is consistent with this Chapter; and
 - (ii) the contest is judged by an independent jury with a view to award a design contract to the winner.

2. For each contract awarded in accordance with paragraph 1, a procuring entity shall maintain a record that includes the name of the procuring entity, the value and kind of good or service procured, and a statement that indicates the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

Article 15.14 **Electronic Auctions**

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

- (a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or reranking during the auction;
- (b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender; and
- (c) any other relevant information relating to the conduct of the auction.

Article 15.15 **Treatment of Tenders and Awarding of Contracts**

Treatment of Tenders

1. A procuring entity shall receive, open, and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.
2. A procuring entity shall not penalise any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.
3. Where a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall not deny a similar opportunity to participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.

5. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:
 - (a) the most advantageous tender; or
 - (b) where price is the sole criterion, the lowest price.
6. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract. If the procuring entity determines that the bidder substantially failed to demonstrate its capability to deliver the contract at the offered price, the procuring entity may reject the tender.
7. A procuring entity shall not use options, cancel a procurement, or modify awarded contracts in a manner that circumvents the obligations under this Chapter.

Article 15.16 **Transparency of Procurement Information**

Information Provided to Suppliers

1. A procuring entity shall promptly inform participating suppliers of the entity's contract award decisions and, on the request of a supplier, shall do so in writing. Subject to paragraphs 2 and 3 of Article 15.18 (Disclosure of Information), a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.

Publication of Award Information

2. No later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish in the appropriate electronic medium listed in Section I of its Party's Schedule to Annex 15A (Government Procurement Schedules) at least the following information, which shall remain readily accessible for a reasonable period of time:
 - (a) a description of the goods or services procured;
 - (b) the name and address of the procuring entity;
 - (c) the name and address of the successful supplier;
 - (d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;
 - (e) the date of award; and

- (f) the type of procurement method used.
- 3. The Parties shall use best endeavours to ensure that:
 - (a) the description in subparagraph 2(a) includes a classification code of the goods or services procured, such as CPV; and
 - (b) in cases where limited tendering was used in accordance with Article 15.13 (Limited Tendering), the information in subparagraph 2(f) includes a description of the circumstances justifying the use of limited tendering.

Maintenance of Documentation, Records, and Electronic Traceability

- 4. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain:
 - (a) the documentation and records of tendering procedures and contract awards relating to covered procurement, including the records required under Article 15.13 (Limited Tendering); and
 - (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

Access to Procurement Data

- 5. Each Party shall collect and report to the Working Group on Government Procurement statistics on its contracts covered by this Chapter. Each report shall cover a period of one year and be submitted within two years of the end of the reporting period, and shall contain:
 - (a) for procuring entities covered in Section A of the Party's Schedule to Annex 15A (Government Procurement Schedules):
 - (i) the number and total value, for all those procuring entities, of all contracts covered by this Chapter;
 - (ii) the number and total value of all contracts covered by this Chapter awarded by each procuring entity. For reports provided to the Working Group on Government Procurement after the first and second reports after the entry into force of this Agreement, such information shall be broken down by categories of goods and services according to an internationally recognised uniform classification system; and
 - (iii) the number and total value of all contracts covered by this Chapter awarded by each entity under limited tendering;
 - (b) for procuring entities covered in Section B and Section C of the Party's Schedule to Annex 15A (Government Procurement Schedules), the number and total value of contracts covered by this Chapter awarded by all those entities, broken down by Section; and

- (c) estimates for the data required under subparagraphs (a) and (b), with an explanation of the methodology used to develop the estimates, if it is not feasible to provide the data.
- 6. If a Party publishes its statistics on an official website, in a manner that is consistent with the requirements of paragraph 5, the Party may, instead of reporting to the Working Group on Government Procurement, provide a link to the website, together with any instructions necessary to access and use those statistics.
- 7. If a Party publishes the information under paragraph 3 in addition to the information under paragraph 2, and if that Party makes the information under paragraphs 2 and 3 accessible to the public through a single electronic database in a form permitting analysis of the information, the Party may, instead of reporting to the Working Group on Government Procurement, provide a link to the database, together with any instructions necessary to access and use that information.

Article 15.17

Ensuring Integrity in Procurement Practices

- 1. Each Party shall ensure that criminal or administrative measures exist that can address corruption, fraud, and other illegal acts in its procurement.
- 2. These measures may include procedures to render ineligible for, or exclude from, participation in the Party's procurements, either indefinitely or for a stated period of time, suppliers that the Party has determined to have engaged in corrupt, fraudulent, or other illegal acts. When applying such procedures, each Party, including its procuring entities:
 - (a) may consider the gravity of the supplier's acts or omissions and any remedial measures or mitigating factors; and
 - (b) shall provide a supplier of the other Party directly implicated:
 - (i) reasonable opportunity to present facts and arguments in support of its position prior to the decision to render ineligible for, or exclude from, participation being made; and
 - (ii) notice that such a decision has been made and the reasons for the decision.
- 3. Each Party shall ensure that it has in place policies or procedures to eliminate to the extent possible or manage potential conflicts of interest on the part of those engaged in or having influence over a procurement.
- 4. Each Party may put in place policies or procedures that require successful suppliers to maintain and enforce appropriate measures, such as internal controls, business ethics, and compliance programmes, for preventing and detecting corruption, fraud, and other illegal acts.

Article 15.18
Disclosure of Information

Provision of Information

1. On request of the other Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially, and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders, the Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not provide to any particular supplier information that might prejudice fair competition between suppliers.
3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities, and review bodies, to disclose confidential information where disclosure:
 - (a) would impede law enforcement;
 - (b) might prejudice fair competition between suppliers;
 - (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
 - (d) would otherwise be contrary to the public interest.

Article 15.19
Domestic Review Procedures

1. Each Party shall provide a timely, effective, transparent, and non-discriminatory administrative or judicial review procedure through which a supplier may challenge:
 - (a) a breach of this Chapter; or
 - (b) where the supplier does not have a right to challenge directly a breach of the Chapter under the domestic law of a Party, a failure to comply with a Party's measures implementing this Chapter,

arising in the context of a covered procurement, in which the supplier has, or has had, an interest. The procedural rules for all challenges shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage the entity and the supplier to seek resolution of the complaint through consultations. The entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or its right to seek corrective measures under the administrative or judicial review procedure.
3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.
4. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of a covered procurement.
5. Where a body other than an authority referred to in paragraph 4 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.
6. Each Party shall ensure that a review body that is not a court shall have its decision subject to judicial review or have procedures that provide that:
 - (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;
 - (b) the participants to the proceedings shall have the right to be heard prior to a decision of the review body being made on the challenge;
 - (c) the participants to the proceedings shall have the right to be represented and accompanied;
 - (d) the participants to the proceedings shall have access to all proceedings;
 - (e) the participants to the proceedings shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
 - (f) the review body shall make its decisions or recommendations in a timely fashion, in writing, and shall include an explanation of the basis for each decision or recommendation.
7. Each Party shall adopt or maintain procedures that provide for:
 - (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether

such measures should be applied. Just cause for not acting shall be provided in writing; and

- (b) where a review body has determined that there has been a breach or a failure as referred to in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

6. The Parties may agree another form of resolution as an alternative to compensatory adjustments.
7. A Party is not required to provide compensatory adjustments to the other Party if the proposed modification:

- (a) covers a procuring entity over which the Party has effectively eliminated its control or influence in respect of covered procurement by that procuring entity; or
- (b) is minor or of a purely formal nature, including a rectification as described in paragraph 8.

Rectifications

 - (c) the proposed modification is a change provided for in paragraph 7(b),

it shall notify the modifying Party of its objection in writing within 45 days of receipt of the notification of proposed modification referred to in paragraphs 3 and 4 or shall be deemed to have agreed to the proposed modification, and compensatory adjustments if provided, including for the purposes of Chapter 29 (Dispute Settlement).

 - (b) a compensatory adjustment proposed under subparagraph 4(c) is not adequate to maintain a level of coverage comparable to the coverage that existed prior to the modification.

Implementation of Modifications

Therefore, to help promote a level playing field and foster a favourable trade environment, the Parties recognise the importance of considering whether subsidies granted have an adverse effect on trade.
2. Nothing in this Chapter shall prevent a Party from granting a subsidy temporarily to respond to a national or global economic emergency.¹ Such subsidies shall be transparent and shall not go beyond their objective.

Article 18.3

Scope

1. This Chapter shall only apply to a subsidy if it is a specific subsidy related to trade in goods.

The Parties further recognise the experiences of diverse groups of women participating in trade.
7. The Parties acknowledge the need to develop interventions based, in particular, on evidence they have respectively gathered to address the systemic barriers which exist for women in international trade.
