Justice in Numbers pocketbook

July 2026

Contents

The information in this edition of the pocketbook represents the latest information available from Justice in Numbers on **31 July 2026**.

Guidance

This pocketbook contains a printable version of the information presented in Justice in Numbers. The QR code beneath each measure will take you to the relevant section of Justice in Numbers, where you can find additional trend data, as well as links to source material where additional context and caveats can be found to aid interpretation.

Some measures are presented as an annual trend, with data reported at fixed intervals. In some cases, more recent intermediate quarterly figures are published which do not align with these annual periods. These are highlighted in the 'Latest published data point' column of the Summary Tables, and above the relevant trend charts where applicable. The most recent and next publication dates are also listed for each measure. In cases where there is no next publication date listed, this is because a future publication date has not been announced.

Police recorded crime in England and Wales

Police recorded crime statistics based on data from all 43 forces in England and Wales (including the British Transport Police). All offences including fraud and computer misuse (recorded by Action Fraud or referred to the National Fraud Intelligence Bureau since April 2011). Report Fraud, a new national fraud and cybercrime reporting system, was launched by the City of London Police (CoLP) on 4 December 2025 to replace Action Fraud and the National Fraud Intelligence Bureau (NFIB). The Home Office and ONS have agreed that while the CoLP is fully transitioning to using this new system that they can temporarily suspend their supply of recorded cybercrime and fraud data.

The figure for 2024/25 is 6.6 million, down 0.1 million from 2023/24

Apr 2017 to Mar 2018	5.5 million
Apr 2018 to Mar 2019	6.0 million

Probation caseload

The statistics count each person once for each type of probation supervision being received on the date shown. In addition, each person is counted once only in each total or sub-total even if they are subject to several types of probation supervision on the date shown. For example, if a person is subject to both a community order and a Supervision Default Order on the date shown, then the person would be counted once only within the overall total for all supervision.

Proven reoffending rate

Proportion of all offenders who reoffend (%). Although not directly affected by the operational restrictions imposed due to the COVID-19 pandemic, this latest offender cohort period does overlap with a period of on-going recovery for the courts and with the Criminal Bar Association strikes. There have also been other policy changes introduced during this period, such as Probation Reset and End of Custody Supervised Licence (ECSL). It is not possible to separate out the impact of any individual change on the overall rates.

Tribunals disposals - overall

The overall total for years 2021/22 to 2025/26 is unavailable due to migration of some tribunals. An 'Interim Total' has been calculated. This is the sum of all the tribunals excluding those tribunals with data missing or incomplete i.e. Upper Tribunal (Immigration and Asylum Chamber). These tribunals are being migrated to a new case management system and will be made available as soon as possible. The interim total is not available for 2021/22 due to the employment tribunal being migrated to a new case management system.

Prison releases (quarterly)

A release is defined as a release from prison where the prisoner has finished serving the custodial term of their sentence(s) and excludes: civil non-criminal prisoners; persons committed to custody for non-payment of a fine; releases to hospital; deported prisoners from HMPPS operated Immigration Removal Centres (IRCs); and releases following recall after release on licence, except occasions where the offender has committed a new offence and is committed to custody for a new sentence and the subsequent release date falls after the sentence expiry date of the original sentence; or where upon release the offender is subject to the licence condition of the new custodial sentence.

Individuals released on temporary licence

Release on Temporary Licence (ROTL) is the mechanism under which offenders may be released into the community, generally towards the end of their sentences, for rehabilitative purposes. It can play an important role in public protection by allowing risk management plans for offenders to be tested in the community under strict conditions before they are released. It also provides a valuable means of helping offenders prepare for their resettlement in the community by, for example, finding work or rebuilding links with their families, which helps to reduce reoffending.

Prison type - male / female: October 2025

Prisons count by male, female and children (under 18 years old) establishments. Peterborough and Parc each contain two sites that are counted separately for reporting purposes, but each is covered by one private prison contract. The Peterborough contract covers an adult male and female prison, and the Parc contract covers an adult male prison and an under 18 site. Therefore, the number of private prison contracts in operation is two fewer than the number of private prison sites listed. Oakhill Secure Training Centre is listed in the linked publication but not counted here as a prison.

Prison operational capacity

The operational capacity of a prison is the total number of prisoners that an establishment can hold taking into account control, security and the proper operation of the planned regime. This measure reports the useable operational capacity of the estate, which is the sum of all establishments' operational capacity less an operating margin. Figures are taken on the last working Friday of June each year, meaning the time period refers to this single day.

Crowding

Percentage of prisoners held in crowded accommodation. Prison crowding statistics use automated monthly data from 2024-25, providing a more reliable and accurate calculation of crowding levels compared with the previous manual monthly returns. This change does not materially impact the levels of crowding at a national level, however, the automated process has enabled corrections in reporting at prison level, resulting in some increases/decreases at a small number of prisons. For this reason, no comparisons have been made with previous years' crowding data.

Escapes from prison establishments and escorts

A prisoner escapes from prison if they unlawfully gain their liberty (for 15 minutes or more) by breaching the secure perimeter of a closed prison, or if during prison staff escort, overcome the control of escorting staff and leave the escort, the van or the building (hospital etc.). Those who escape for less than 15 minutes and commit an offence are also recorded as an escape. Escapes are monitored to analyse the frequency across the estate and identify any trends nationally, also taking into consideration the management of risk to the public. This total consists of escapes from establishments, HMPPS escorts, contractor escorts and includes escapes by Category A prisoners. For a further breakdown please see the HM Prison and Probation Service annual digest.

Employment tribunal disposals - single claims

Employment tribunals are independent judicial bodies established to resolve disputes between employers and employees over employment rights. The data presented from July 2021 has been amalgamated from Q2 2025/26 to provide a combined total for Receipts, Disposals and Open Caseload, resulting in revisions to these data series. This data is produced from a combination of systems (ECM Reform and ECM Legacy). Previously, this data was provided via a temporary tactical solution that resulted in overcounting of receipts and open caseload. Data for 2021/22 is missing due to this tribunal being migrated to a new case management system.

The figure for 2025/26 is 25,669, down 3,458 from 2024/25

Tribunals disposals - overall

The overall total for years 2021/22 to 2025/26 is unavailable due to migration of some tribunals. An 'Interim Total' has been calculated. This is the sum of all the tribunals excluding those tribunals with data missing or incomplete i.e. Upper Tribunal (Immigration and Asylum Chamber). These tribunals are being migrated to a new case management system and will be made available as soon as possible. The interim total is not available for 2021/22 due to the employment tribunal being migrated to a new case management system.
