

Access to Resilience Direct (RD)

Access to ResilienceDirect may be requested by UKSA for organisations participating in security and resilience information-sharing activities.

1. To create an account on ResilienceDirect please navigate to <https://www.resilience.gov.uk>
2. Choose the Collaborate icon from the services displayed which will take you to the registration page.
3. Select "Register" and follow the on-screen instructions.

The screenshot shows the 'ResilienceDirect' logo at the top left. Below it is a 'New User Registration' form. The form has a title 'New User Registration' in blue. Below the title is a label 'Email Address *' in red. Underneath the label is a text input field. Below the input field is a blue button labeled 'Register'.

Please note: when registering for an RD account contact MUST be via an official company email address. Due to the sensitivity of content private/personal emails cannot be used.

- 4a. On the right-hand side of the page, you will notice the 'Select Group' field. The Group is UK Space Agency RD Lite.

New User Registration

Email Address *

Surname *

Forename *

Telephone No

Mobile No

Select Group

If you know which Group you would like to register against, start typing its name below.

This will perform a search of all Groups in ResilienceDirect Collaborate. After 3 letters, the search will attempt to find the Group. Select the Group from the list which will select the Group and show the selected Group taxonomy on left hand side. You can select one Group on registration, though after registration users can request access to other Groups.

After you have finished selecting a Group and completed the registration form to the left, press the 'Register' button.

Complete your contact detail information, read the 'End User Agreement' and check the box to accept it.

Select 'Register'.

Once you have created your account an email will be sent to your organisation Administrator asking them to confirm that you belong to that organisation. Once confirmed the RD Support Desk will finalise your profile, after which your login credentials will be generated and sent to you.

- 4b. If your organisation does not have an existing presence on RD, send a request to join the UK Space Agency RD Lite site to support@resilience.gov.uk. In these cases, the UK Space Agency will be asked to sponsor your membership of RD.

Once you have access to RD you will be able to:

- Login [note: details are Case Sensitive so ensure you enter the details as supplied to you]
- Click 'collaborate' on the dashboard
- Search for 'UK Space Agency' and request access (this is a one-off request which will come direct to the UKSA Space Security & Resilience Team). (You may not need to undertake this step if access has been granted via step 4b above)
- Edit your profile - Click on your name (top right) and on the dropdown list click edit your profile. Update this with as much info as possible. This will make it easier to find right people for the right things. Ensure you scroll to the bottom of the page to SAVE CHANGES.
