Product Description	6V charger supplied for charging children's e-bikes.
Country of Origin	China
Counterfeit	No
Risk Level	High
Risk Type	Electric Shock and Fire
Risk Description	The product presents a high risk of electric shock and fire because it has inadequate insulation between the primary and secondary circuits. Internal examination identified creepage and clearance distances of less than 1.0 mm within the transformer, significantly below the minimum required distances, and the product failed the electric strength test. Poor internal construction was also identified, including inadequately secured wiring and poor soldering, which could result in a short circuit and fire. As a result, users could receive an electric shock from accessible parts or the product could overheat and catch fire. The product does not meet the requirements of the Electrical Equipment (Safety) Regulations 2016.
Corrective Measures	Owners are advised to stop using the product. Contact the distributor you purchased from to request redress.
