

Octopus and Shellfish Infographics

1 January 2021 to 31 July 2026

Octopus Landings Over Time

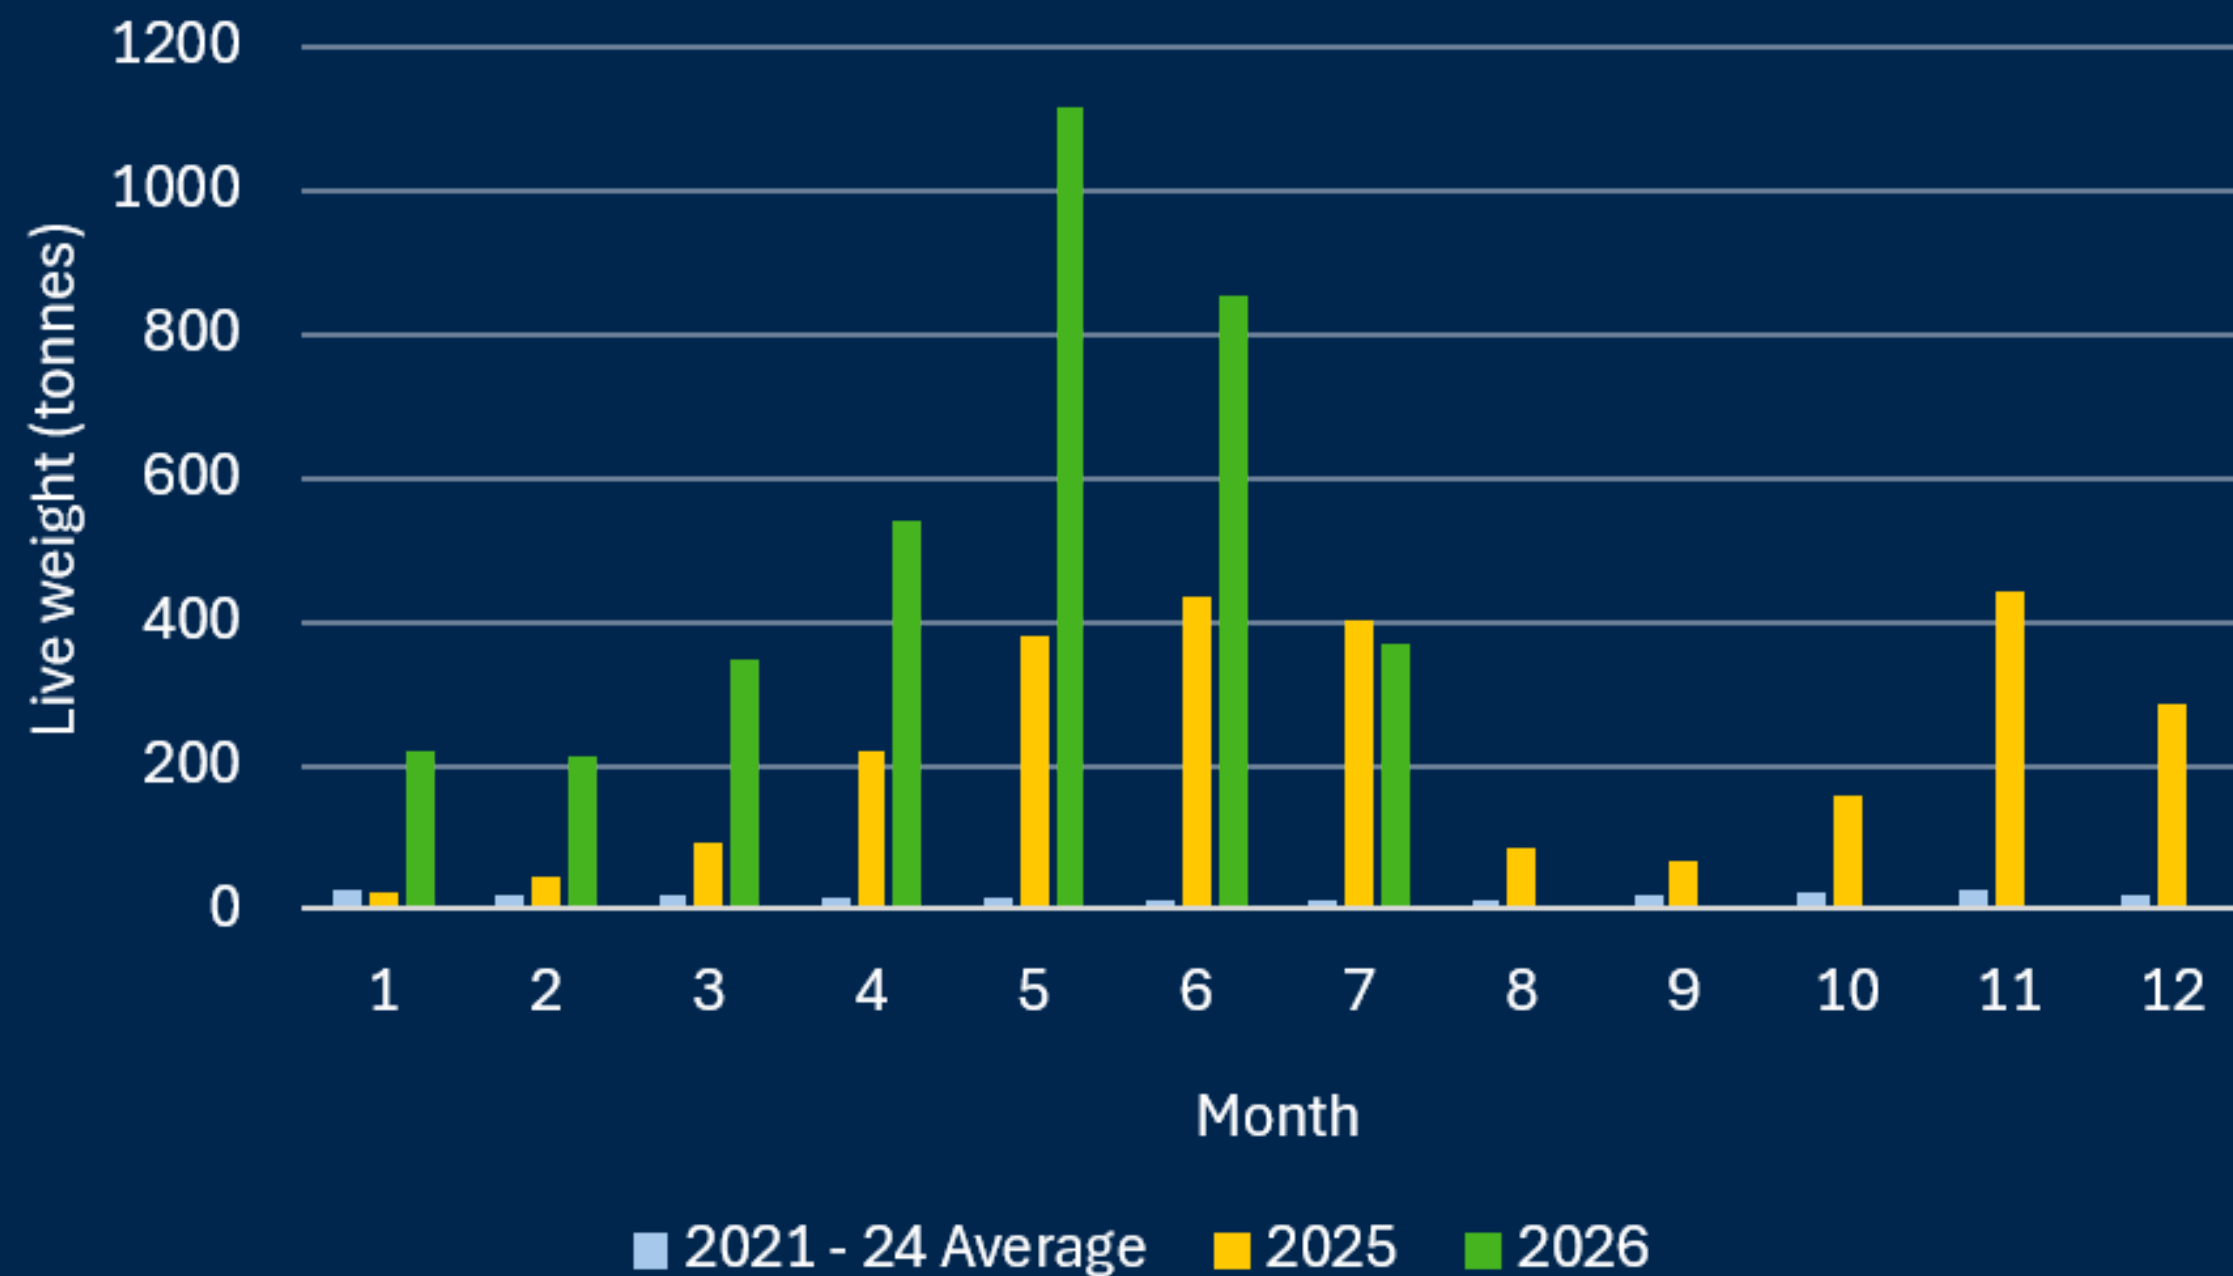

Figure 1. Monthly live weight (tonnes) of octopus landed from all UK vessels in all UK ports. (Months: January = 1, December = 12). Data from 1 January 2021 to 31 July 2026.

Top Six Ports With Octopus Landings By UK Vessels Landed From All Areas

PORT	2021-24 (average)	2025 (total)	2026 (1 January-31 July)
NEWLYN	37 t	977 t	1504 t
BRIXHAM	101 t	770 t	734 t
SALCOMBE	0 t	286 t	344 t
DARTMOUTH (ALL)	1t	187 t	292 t
MEVAGISSEY	1t	90 t	286 t
PLYMOUTH	8 t	147 t	225 t

Heatmap: 2026 Octopus Landings

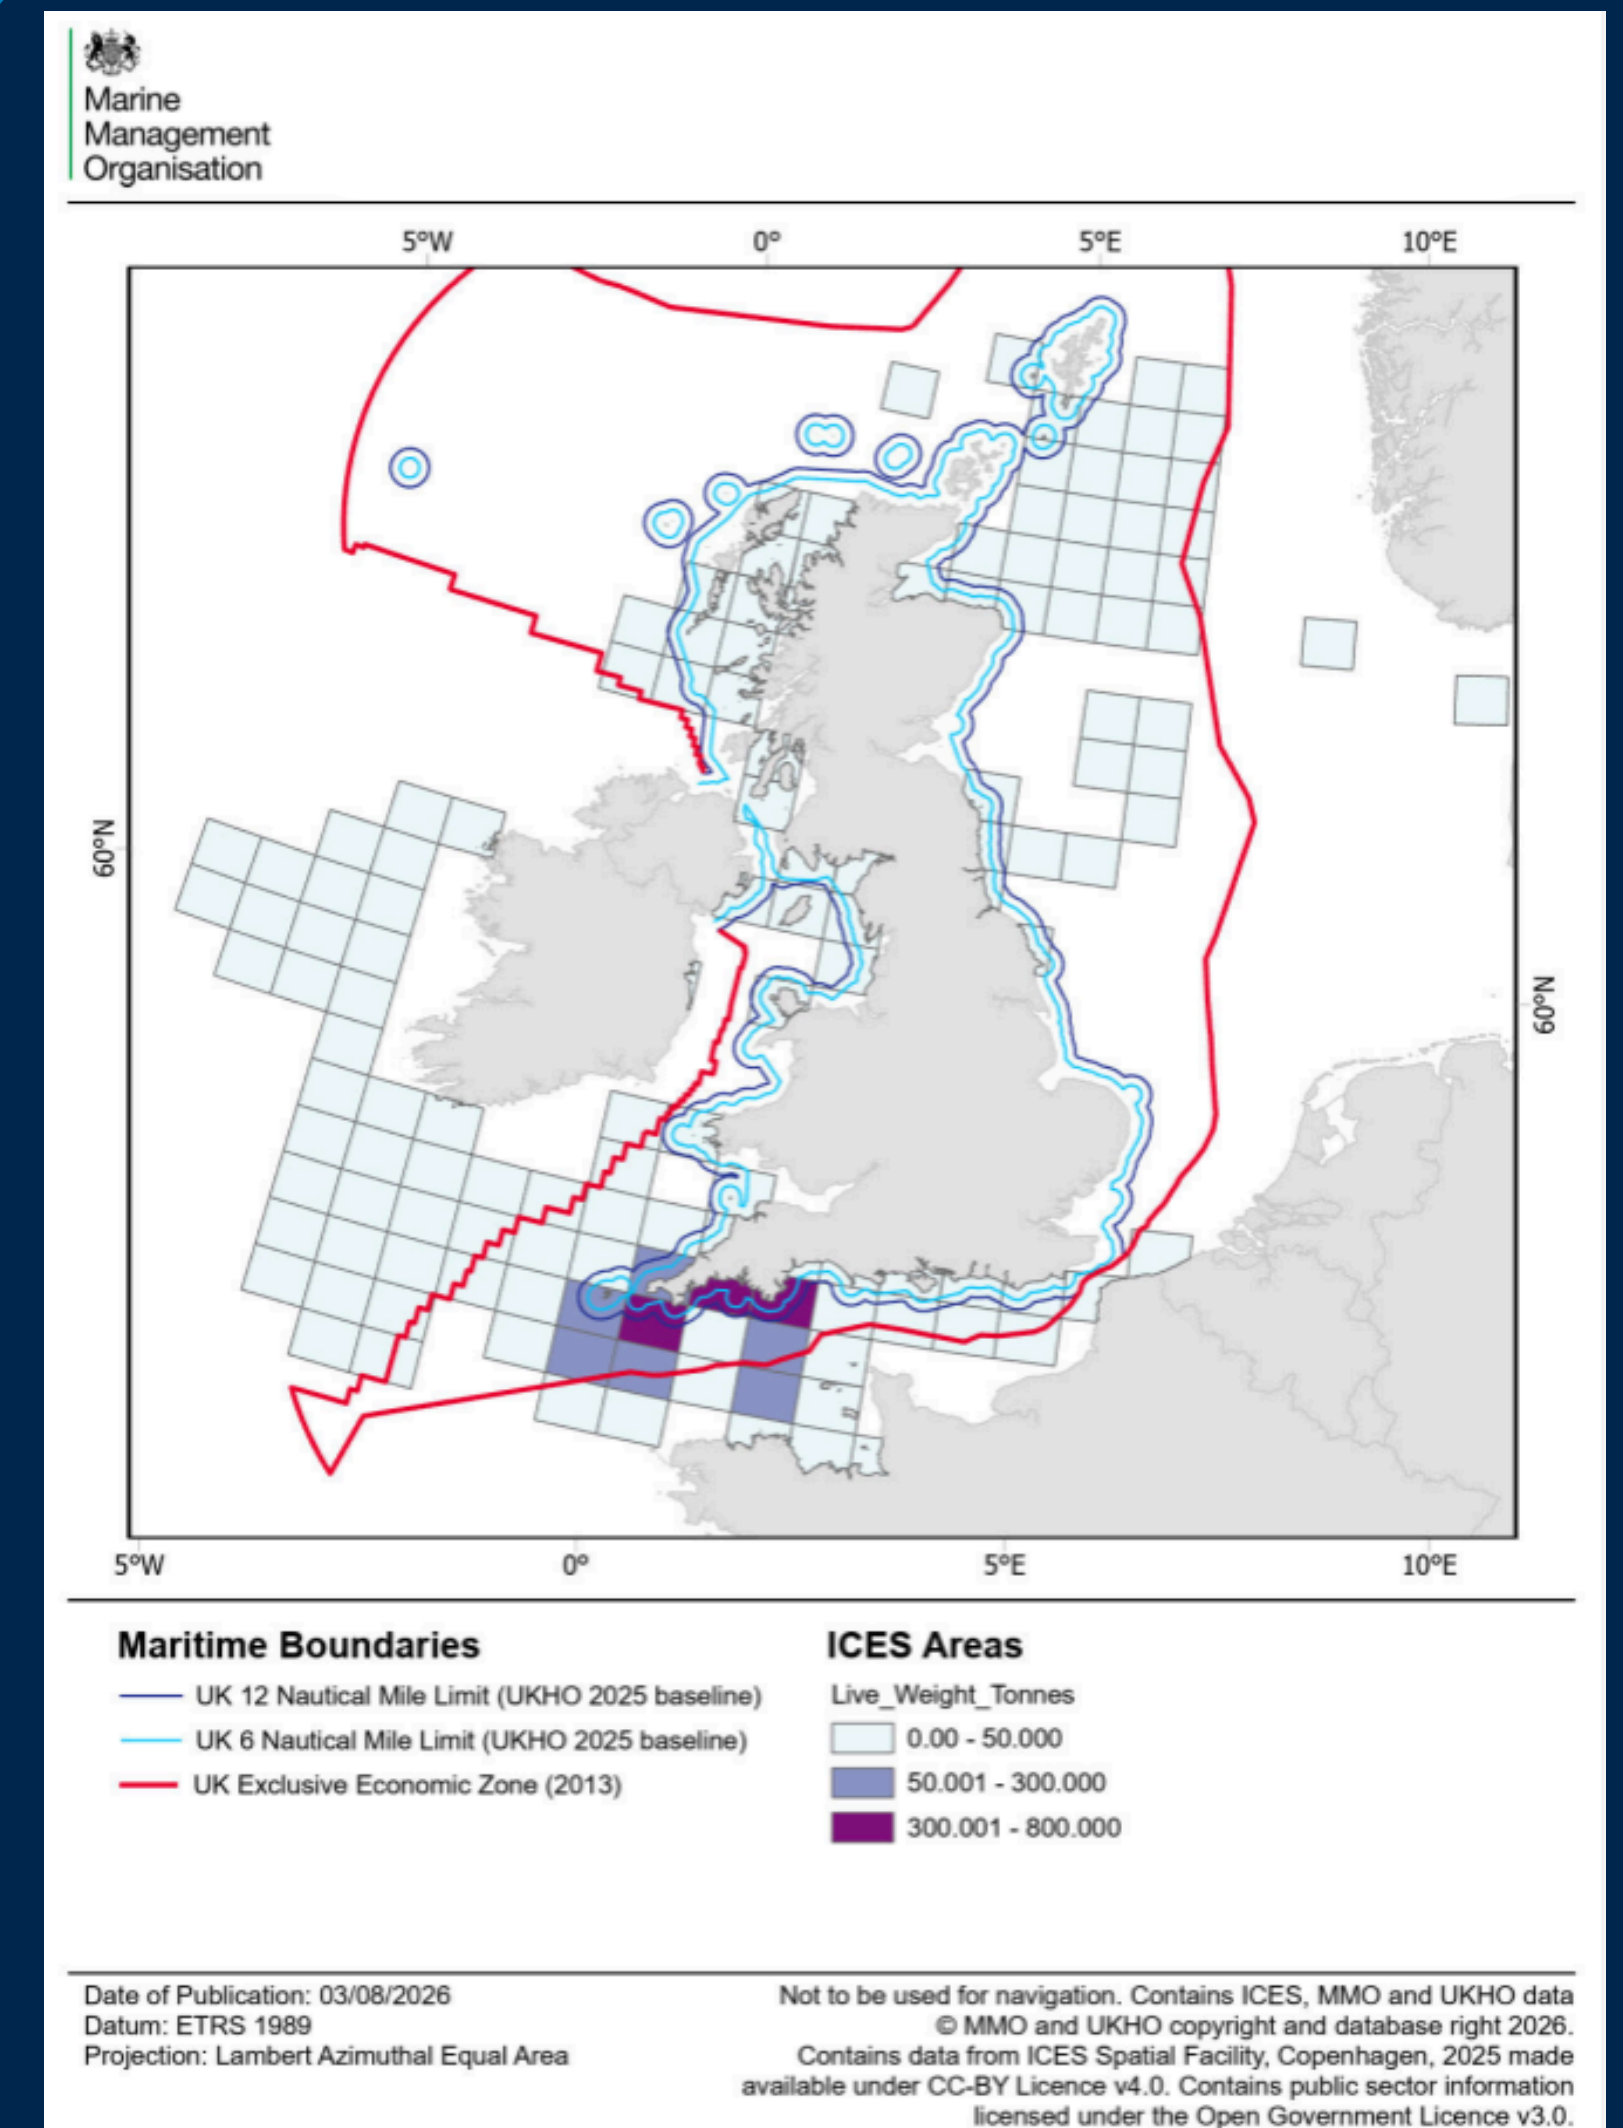

Figure 3. Heat map representing live weight (tonnes) of octopus landed by UK vessels in each ICES rectangle. Data from the 1 January 2026 to 30 June 2026.

NOTE: This heatmap could not be updated to include data for July 2026

Octopus and Shellfish Infographics

1 January 2021 to 31 July 2026

Octopus Landings By Gear Type

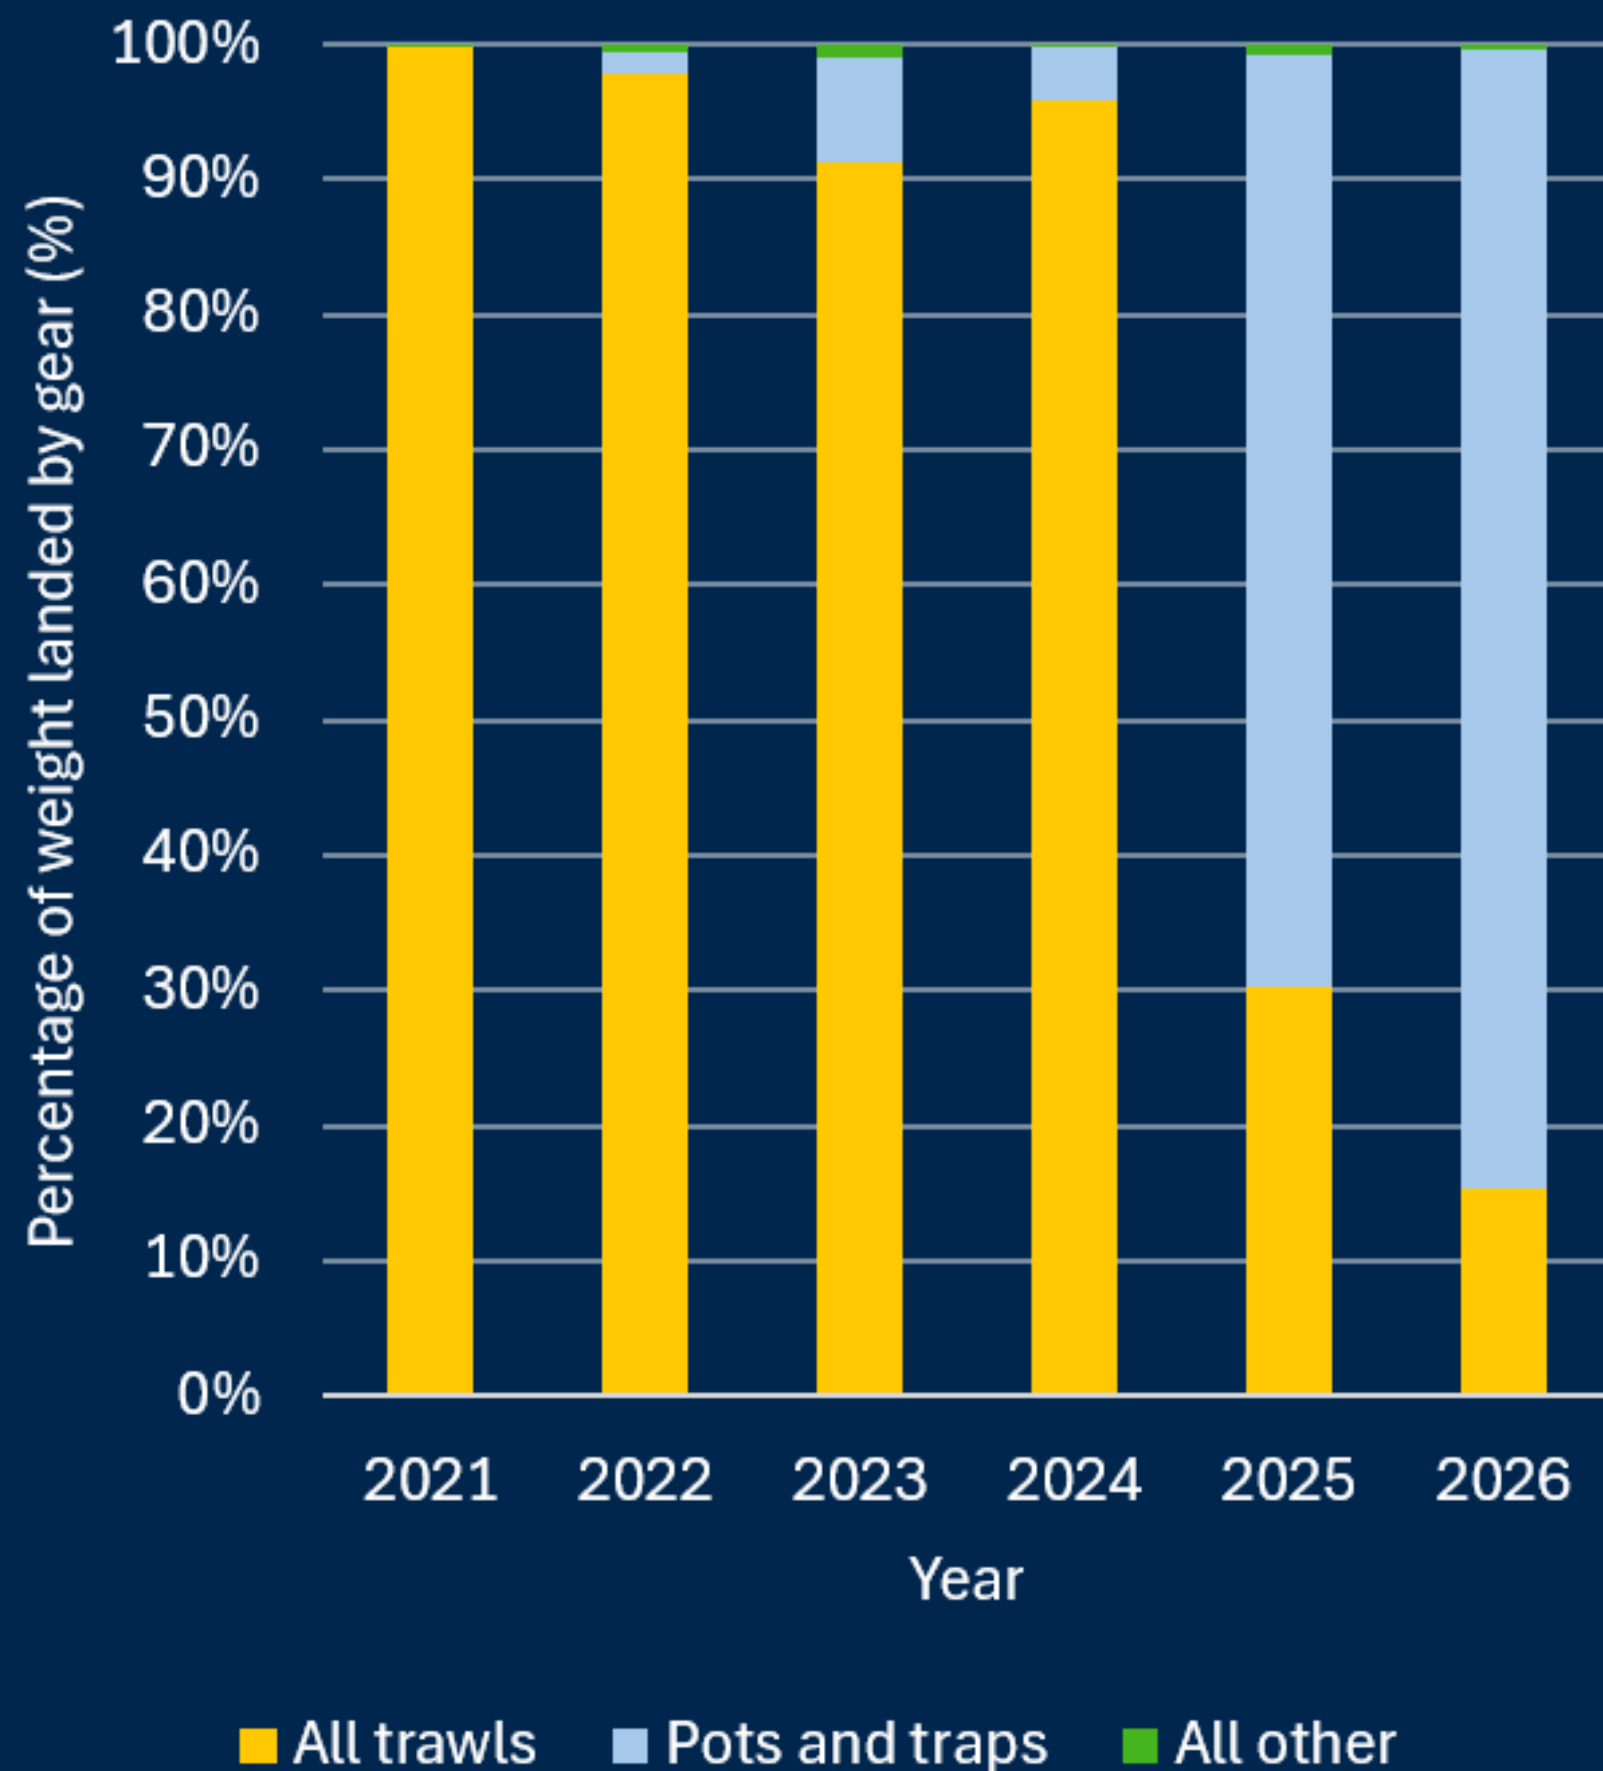

Figure 4. Percentage (%) of octopus landings, by gear type, from all UK vessels landed in all ICES areas. Data from 1 January 2021 to 31 July 2026. 'All other' gear represents all dredges, all nets, hooks and lines, and unspecified gears.

Other Shellfish Landings By ICES Area

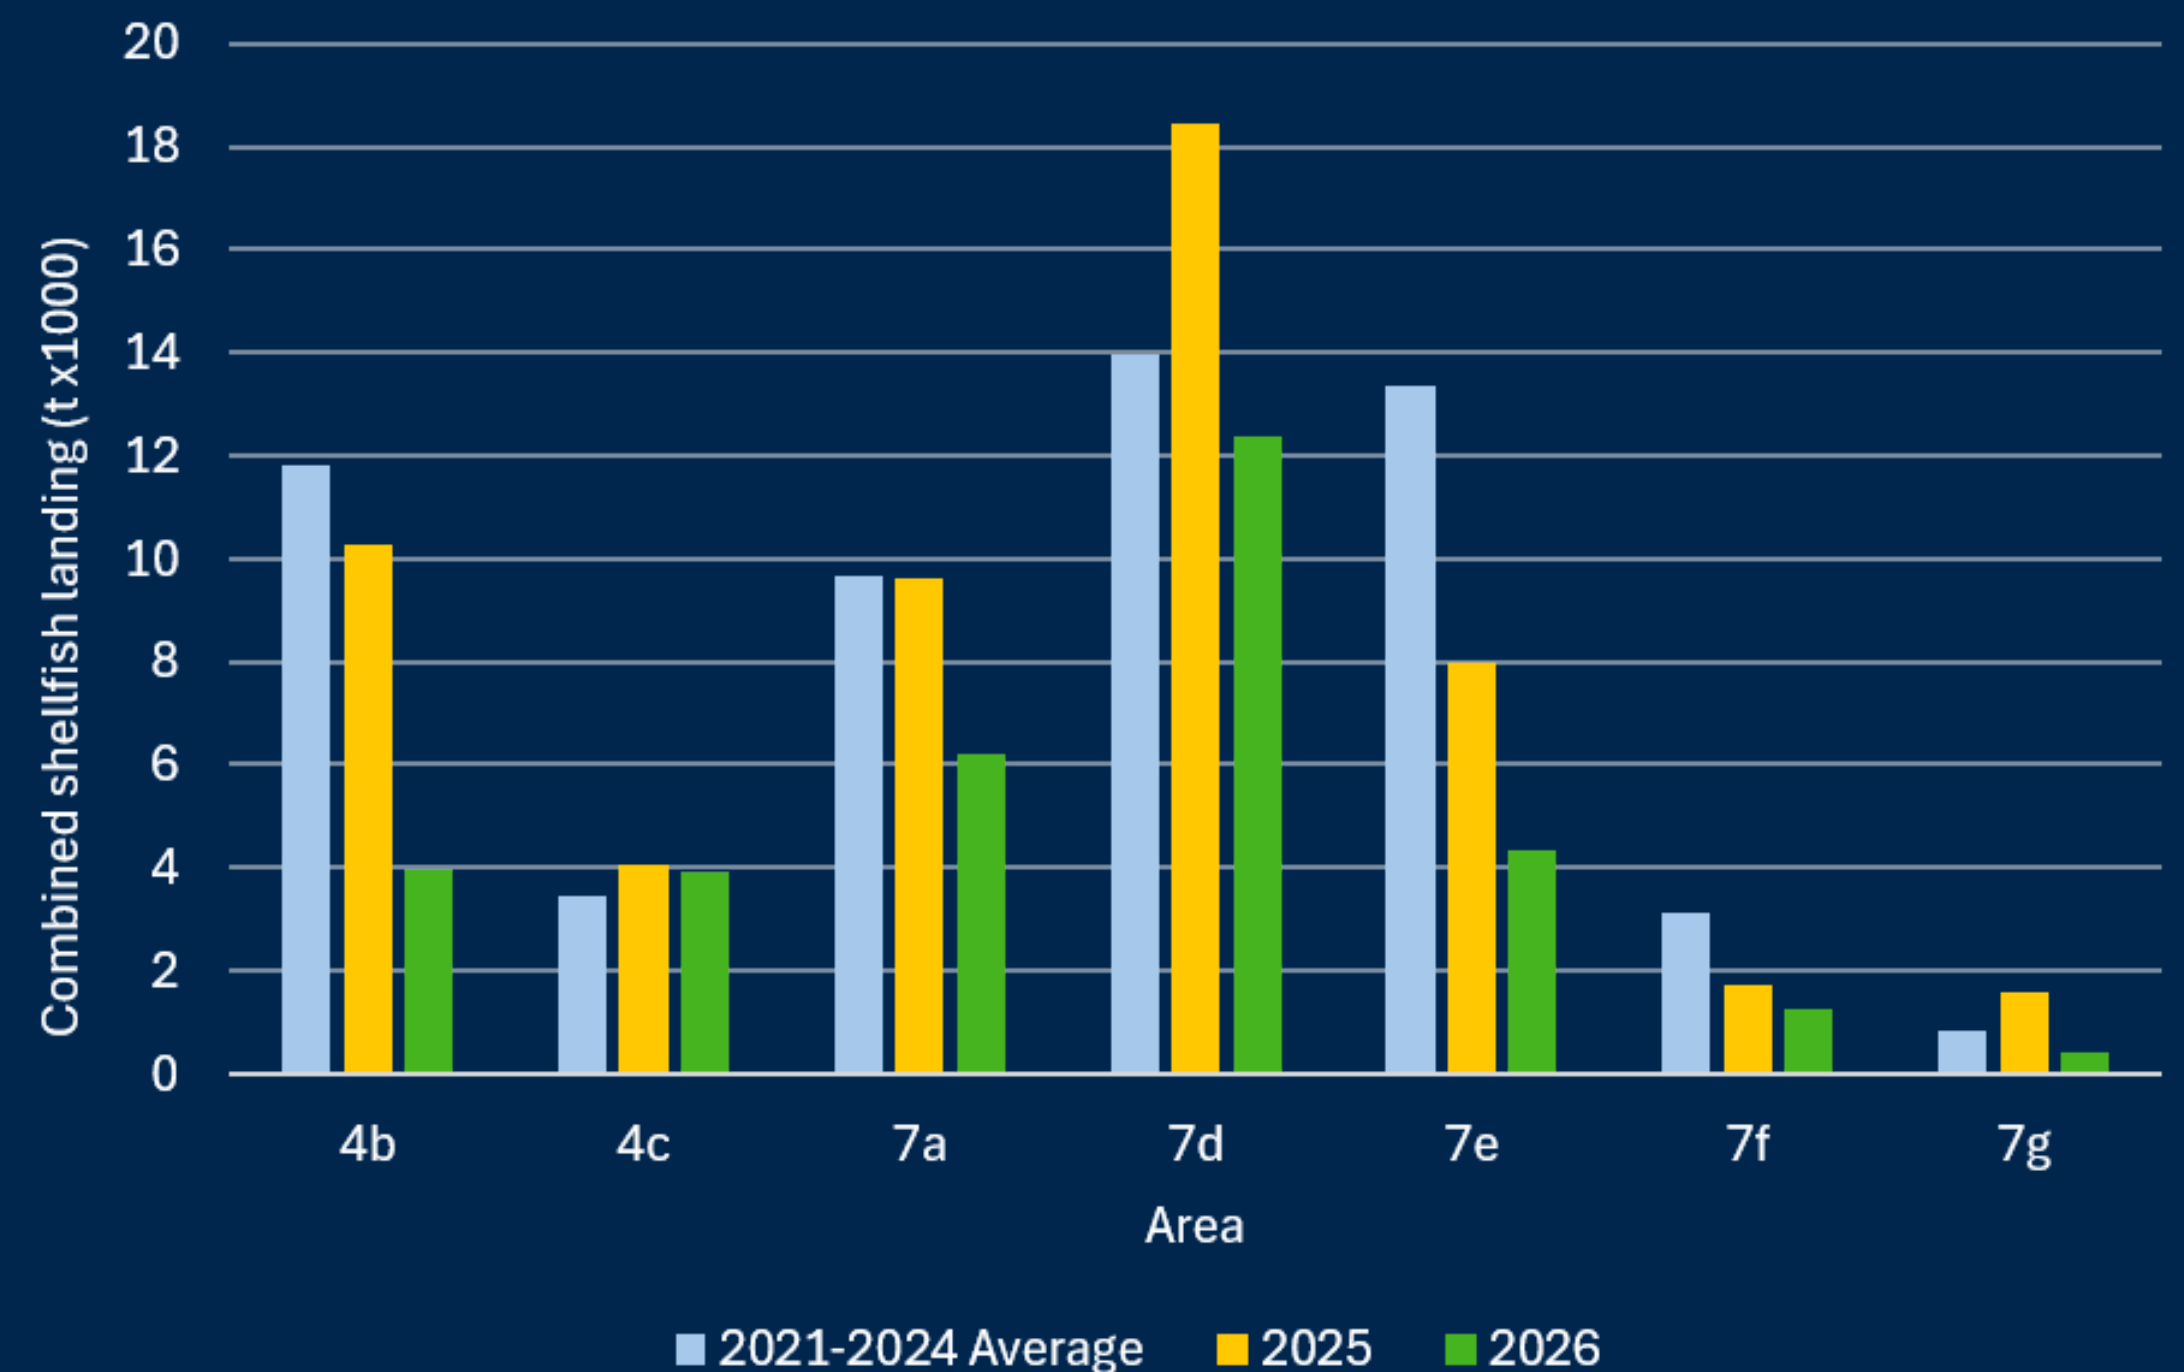

Figure 5. Comparison of combined shellfish landings (brown crab, lobster, crawfish, scallops and whelk) by ICES area. Offshore area data have been excluded from the figure due to minimal landings. Data from 1 January 2021 to 31 July 2026.

Octopus and Shellfish Infographics

1 January 2021 to 31 July 2026

Octopus Landings By Vessel Length And Gear Type From ICES Area 7e

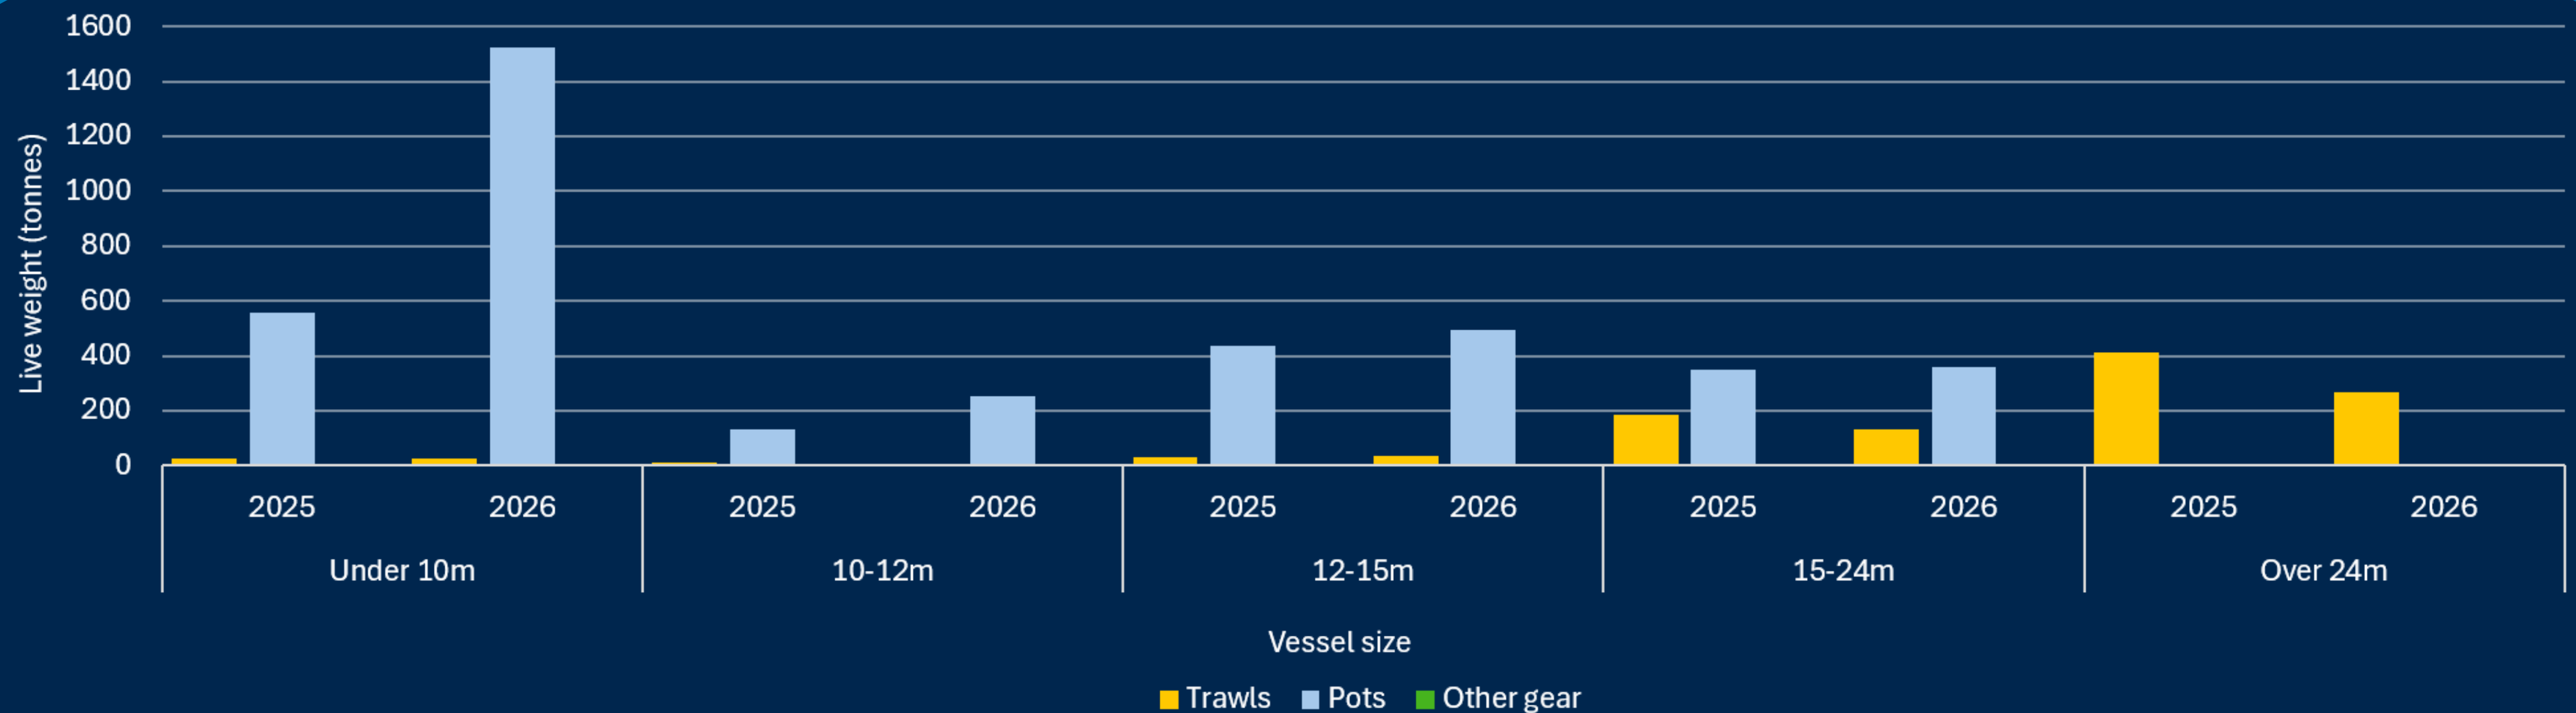

Figure 6. Octopus landings (tonnes) from ICES area 7e, which has had consistently the most landings since the start of the bloom. The figure is split by vessel size, comparing 2025 to 2026. It is important to note that 2026 data is only from 1 January - 31 July 2026, compared to 12-months of data for 2025. 'Trawls' include dredges and 'Other gear' represents gillnets and entangling nets, hook and line, seine nets and miscellaneous gear.

Caveats To Note

- Sourced from underlying dataset published alongside our monthly Sea Fisheries Statistics (SFS) report: <https://www.gov.uk/government/collections/monthly-uk-sea-fisheries-statistics>.
- Data remains provisional.
- Landings data for English, Welsh and Isle of Man under 10m vessels in this infographic are primarily based on sales notes for tonnage and value. Where available, matching catch records provide extra details such as fishing area and gear type. This change follows the catch recording statistical quality assessment published on 9 October 2025: <https://www.gov.uk/government/publications/uk-sea-fisheries-statistics-catch-recording-data-statistical-quality-assessment>.
