

Stromer ST3, ST5 and ST7 Bicycles fitted with WREN Front Suspension Forks

Aspect	Details
Images	 
PSD Number	2512-0123
Product Type	Hobby/sports equipment – Cycles (Powered)
Product Identifiers	Brand: Stromer Bike Models: ST3, ST5 and ST7 S-Pedelecs Fork Brand: WREN
Product Description	Bikes with automatic pedal support fitted with WREN suspension forks.
Country of Origin	Switzerland
Counterfeit	No
Risk Level	Medium
Risk Type	Injuries
Risk Description	The product presents a risk of injuries as the suspension forks can fail prematurely and crack, break or separate during use. This means that the rider may lose control of the bike, leading to injuries. The product does not meet the requirements of the General Product Safety Regulations 2005.
Corrective Measures	The product has been recalled from end users. Stromer have contacted affected customers and advised that they stop using the bikes immediately. Replacement parts are in production. Consumers will be notified once parts become available and advised to take their bike to their nearest authorised dealer. Update: On 4th September 2026, the product recall was expanded. This recall expansion concerns a batch with modified design (oval hole vs round hole), due to the possibility that these forks present the same safety risks as the recalled WREN forks. Consumers who own bike that is fitted with a newly identified affected batch have been contacted directly and should contact their dealer to arrange for their front suspension fork to be replaced free of charge. If you are unsure whether your bike is affected, please access the Stromer model checker at stromerbike.com/en/wren-suspension-fork-recall.
