| Risk Type                                       | Injuries                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Risk Description                                | <p>The product presents a risk of injuries because the spring-loaded release/adjustment mechanism may activate unexpectedly during unpacking or handling of the product. This could lead to the consumer receiving injuries. There is also an absence of safety information supplied with the product, and a lack of appropriate warnings, which may increase the likelihood of unsafe use.</p> <p>The product does not meet the requirements of the General Product Safety Regulations 2005.</p> |
| Corrective Measures                             | Consumers are being warned of the risks and advised to take additional precautions when unpacking or handling the product.                                                                                                                                                                                                                                                                                                                                                                        |
