No:

EXPORT OF MILK AND MILK PRODUCTS FOR HUMAN CONSUMPTION TO NEW ZEALAND

HEALTH CERTIFICATE

ASSIGNED NUMBER (AN) 8

EXPORTING COUNTRY: UNITED KINGDOM

FOR COMPLETION BY: OFFICIAL VETERINARIAN

I. IDENTIFICATION OF PRODUCT

- (a) Name of milk/milk product:
- *pasteurised, UHT, or sterilised milk products*
 - *thermised cheeses*
 - *raw milk (unpasteurised) cheeses*
 - *other raw milk (unpasteurised) products, excluding raw fresh drinking milk and products made from colostrum*
- (b) Number of packages:
- (c) Nature of packaging:
- (d) Nature/Description of goods:
- (e) Species product derived from:
- (f) Net weight in kilograms(kg):
- (g) Number of container(s) and container seal number(s):
- (h) Production date(s):

II. ORIGIN OF PRODUCT

- (a) Name and address/es of establishment(s):
- (b) Official approval number:

III. CONSIGNMENT INFORMATION

- (a) The products are to be dispatched from: **UNITED KINGDOM**
to:
- (b) Place of loading:
- (c) Name and address of consignor:

- (d) Name and address of consignee:
- (e) Port of disembarkation:
- (f) Country of final destination: **NEW ZEALAND**

IV. HEALTH ATTESTATION

I, the undersigned, hereby certify that the animal product herein described:

(a) complies with the relevant United Kingdom standards and requirements which have been recognized as equivalent to the New Zealand standards and requirements, as prescribed in the United Kingdom-New Zealand Agreement on Sanitary Measures.

(b) was derived from animals of:

(i) Bovine origin ☐

(ii) Ovine/caprine origin ☐

V. ADDITIONAL DECLARATION(S) /GUARANTEE(S)

I, the undersigned, hereby certify that:

(a) The animal product is eligible for intra-community trade without restriction.

* (b) Treatment

The milk or milk products were either pasteurised,
OR subjected to one of the following treatments:

*(ii) UHT at 135°C for a minimum of 1 second;

OR

(3)* (iii) the product has been heat treated at []°C for a minimum of []seconds.

OR

*(iv) the thermised cheese has a moisture content of less than 39% and pH less than 5.6.

The milk used to produce this cheese was rapidly heated to at least 64.5° Celsius for 16 seconds.

The cheese was stored at not less than (greater than) 7° Celsius for 90 days;

OR

*(v) the hard raw milk cheese has undergone a curd heat treatment of no less than 48° Celsius and has a moisture content of less than 36%, and has been stored at no less than 10° Celsius for at least 6 months (including transit time);

OR

*(vi) the milk products listed below are raw milk (unpasteurised) products:

⁽¹⁾ (c) **In the case of** heat treated milk and milk products (pasteurised and thermised) and raw milk products **that have been imported into the UK, from a third country and are subsequently destined for export to New Zealand:**

I, the undersigned, hereby certify that the heat treated milk and

milk products (pasteurized and thermised) and raw milk products described herein were derived/partly derived from product which:
(i) was imported into the United Kingdom from:

Country/Countries of Origin

(Note that **for thermised and raw milk products**,
the eligible countries are limited to:
New Zealand, Australia, and the European Union
or Swiss Confederation)

- (ii) was further stored, handled, processed, wrapped, and/or packaged in an establishment which is eligible to process product for domestic trade;
- (iii) is the subject of an existing import health standard between New Zealand and the third country/countries where the product originated;
- (iv) originated in a third country/countries and establishment(s) listed by the United Kingdom or European Community and is eligible for export to the United Kingdom or European Community.

**The following additional attestations are
not requirements under New Zealand's Biosecurity Act,
but are *for the purpose of onward export certification*:**

A. For bovine ingredients:

The milk, from which the dairy ingredients were made, originated only from animals resident in:

- ☐ i. Country/countries approved by the Australian Director of Biosecurity as free from foot-and-mouth disease (FMD).
Country:

and/or

- ☐ ii. Country/countries listed in the Appendix - *Exclusion dates for dairy products due to disease outbreaks*:
Country:

A.1. The goods and the dairy ingredients within the goods were manufactured only in:

- ☐ i. Country/countries approved by the Australian Director of Biosecurity as free from foot-and-mouth disease (FMD). Country:

And/or

- ☐ ii. Country/countries listed in the Appendix - *Exclusion dates for dairy products due to disease outbreaks*.
Country:

B. For ovine/caprine ingredients:

The milk, from which the dairy ingredients were made, originated only from animals resident in:

- ☐ i. Country/countries listed on Australia's combined list of countries approved for the import of ovine and caprine dairy products and is/are free from foot-and-mouth disease (FMD), sheep pox and goat pox, and peste des petits ruminants.
Country:

or

- ☐ ii. Country/countries listed in the Appendix - *Exclusion dates for dairy products due to disease outbreaks*:
Country:

B.1. The goods and the dairy ingredients within the goods were manufactured only in:

- ☐ **i.** Country/countries which is/are listed on Australia's combined list of countries approved for the import of ovine and caprine dairy products and is/are free from foot-and-mouth disease (FMD), sheep pox and goat pox, and peste des petits ruminants.

Country:

And/or

- ☐ **ii.** Country/countries listed in the *Appendix - Exclusion dates for dairy products due to disease outbreaks*.

Country:

B.2. The milk from which the dairy ingredients were made does not contain colostrum.

- 1. *** The goods, or the dairy ingredients within the goods, sourced from and/or manufactured in a country/ies listed in the *Appendix - Exclusion dates for dairy products due to disease outbreaks*, were either fully finished and packaged for export from [country] on [date] or
* were exported from [country] on [date]. This date is prior to [country's] exclusion period of [dates].
