Introduction

Portugal lies in the southwest of Europe bordering Spain and the Atlantic Ocean, with two autonomous regions in the Atlantic Ocean: Açores (Azores) and Madeira. Though small, its location has long ensured its geopolitical and maritime significance.

Geographical names policy and sources

For HMG use, geographical names should be taken from official sources from Portugal. The national mapping agency is the *Instituto Geográfico Português* and its materials can be accessed through Portugal's National Geographic Information System (SNIG), available at: <https://snig.dgterritorio.gov.pt>.

The national official map of Portugal, 2025, is available here: [Carta Administrativa Oficial de Portugal | Direção-Geral do Território](#) and the official geoportal here: [Visualizador de mapas da DGT](#). These are both easy-to-use sources for accurate geographical names.

¹ ISO 639 codes are given for languages mentioned in this Factfile.

Languages

Portugal has one official national language, Portuguese, which is used throughout the country. A number of minority languages are also used, two of which have official recognition in their respective local areas. The first was recognised in 1999: Mirandese [*mwI*], with about 3000 speakers in northeastern Portugal, largely within Miranda do Douro municipality. Since 2021, Barranquenho (no ISO 639 code, but sometimes considered a dialect of Extremaduran [*ext*]) has been recognized and protected in the municipality of Barrancos. These minority languages will not be found on official mapping, though there is some use of Mirandese toponyms on road signs in the local area.

Inventory of Characters (and their Unicode encodings)³

Portuguese contains the following letter-diacritic combinations and special letters in addition to the unmodified letters of the basic Roman script:

Upper-case character	Unicode encoding	Lower-case character	Unicode encoding
À	00C0	à	00E0
Á	00C1	á	00E1
Â	00C2	â	00E2
Ã	00C3	ã	00E3
Ç	00C7	ç	00E7
É	00C9	é	00E9
Ê	00CA	ê	00EA
Í	00CD	í	00ED
Ó	00D3	ó	00F3
Ô	00D4	ô	00F4
Õ	00D5	õ	00F5
Ú	00DA	ú	00FA

Portuguese also includes seven digraphs: *ch*, *lh*, *nh*, *rr*, *ss*, *qu* and *gu*.

Administrative structure

Portugal is divided into 2 autonomous regions (*região autónoma*: Açores and Madeira, listed first in the table below) and 18 districts (*distrito*). The districts are subdivided into *concelhos* or *municípios* (municipalities) and it is at this level that much of the administrative work is undertaken. The regions used for the NUTS classification system for statistical purposes are also widely seen as the overarching grouping above municipalities: these 2 metropolitan areas (Lisboa and Porto) and 21 intermunicipal communities are used in many sources (including on the 2025 administrative map of Portugal: [C ADM 2025 A4.pdf](#)). However, since the districts are both widely used and familiar, these are the more natural subdivision to show on HMG products.
