1. General notes for users of the SEN2 COLLECT reports

- 1.1. The COLLECT reports show local authorities information on the validation rule queries, errors and notes associated with their 2027 SEN2 return. They also provide each local authority with a summary of their key headline statistics, which the Department for Education (DfE) will publish in summer 2027.
- 1.2. Reports can be run from the 'launch reports' option within the SEN2 COLLECT blade.
- 1.3. The reports will be available to the Collector (DfE) and local authority contacts with COLLECT access. The DfE can access the reports for each local authority. Each local authority has access only to their own reports.
- 1.4. The reports show the current position.
- 1.5. All reports are exportable.
- 1.6. The collection year is 1 January 2026 (CollectionYearStart) to 31 December 2026 (CollectionYearEnd).
- 1.7. Census day is 21 January 2027 (CensusDate).
- 1.8. SEN2 2027 reports activity such as EHC assessments and new EHC plans for the collection year and caseload of EHC plans maintained as at census day.
- 1.9. Symbols used in the Data summary report specification:
 - = 'equal to'
 - >= 'greater than or equal to'
 - <= 'less than or equal to'
 - < 'less than'.

5. Not in named plan provision

5.1. Report description

This report identifies children and young people where an establishment attended on census day differs from the establishment(s) recorded in the EHC plan. The report should be used to identify any mistakes in the IDs for URN, UKPRN or SEN setting and confirm the local authority is aware of reasons where cases do not match.

This report is not intended to replicate the aggregate collection 'Awaiting provision' measure although it is likely a sub-set of the information will appear in the summer 2023 EHC plan publication.

Section	Criteria
Rows	Each child or young person where any record in the PlanDetail table does not match any record in the PlacementDetail table on census day is added as a row to the report.
Columns	'LA Number' – the local authority number 'UPN' – the unique pupil number assigned to the person 'ULN' – the unique learner number assigned to the person 'Person name' – the surname and forename of the person as provided 'DOB' – the date of birth of the person 'EHC plan start date' – the date the plan first started 'EHC plan estab rank 1 URN' – PlanDetail table URN of PlacementRank = 1 'EHC plan estab rank 1 UKPRN' – PlanDetail table UKPRN of PlacementRank = 1 'EHC plan estab rank 1 SEN setting' – PlanDetail table SENSetting of PlacementRank = 1 'EHC plan estab rank 2 URN' – PlanDetail table URN of PlacementRank = 2 'EHC plan estab rank 2 UKPRN' – PlanDetail table UKPRN of PlacementRank = 2 'EHC plan estab rank 2 SEN setting' – PlanDetail table SENSetting of PlacementRank = 2 'Transfer LA' – exporting local authority code where the plan transferred in during the collection year 'Placement estab rank 1 URN' – PlacementDetail table URN for open placement of PlacementRank = 1 'Placement estab rank 1 UKPRN' – PlacementDetail table UKPRN for open placement of PlacementRank = 1 'Placement estab rank 1 SEN setting' – PlacementDetail table SENSetting for open placement of PlacementRank = 1 'Placement estab rank 2 URN' – PlacementDetail table URN for open placement of PlacementRank = 2

6. SEN setting other

6.1. Report description

This report identifies children and young people where the free text for 'other' establishment attended on census day differs from the free text 'other' establishment recorded in the EHC plan. This report is to identify potential mis-matches from the use of SENSettingOther.

Section	Criteria
Rows	Each occurrence of a child or young person where any records in the PlanDetail table for SENSettingOther do not match any records in the PlacementDetail table for SENSettingOther other on census day is added as a row to the report.
Columns	'LA Number' – the local authority number 'UPN' – the unique pupil number assigned to the person 'ULN' – the unique learner number assigned to the person 'Person name' – the surname and forename of the person as provided 'DOB' – the date of birth of the person 'EHC plan start date' – the date the plan first started 'EHC plan estab rank 1 SEN setting other' – PlanDetail table SENSettingOther of PlacementRank = 1 'EHC plan estab rank 2 SEN setting other' – PlanDetail table SENSettingOther of PlacementRank = 2 'Transfer LA' – exporting local authority code where the plan transferred in during the collection year 'Placement estab rank 1 SEN setting' – PlacementDetail table SENSetting for open placement of PlacementRank = 1 'Placement estab rank 1 SEN setting other' – PlacementDetail table SENSettingOther for open placement of PlacementRank = 1 'Placement estab rank 2 SEN setting' – PlacementDetail table SENSetting for open placement of PlacementRank = 2 'Placement estab rank 2 SEN setting other' – PlacementDetail table SENSettingOther for open placement of PlacementRank = 2

7. Duplicate record report

7.1. Report description

List of duplicate persons with active EHC plan on census day within the SEN2 return.

Two lists are provided

- where two or more records have the same UPN or ULN
- where any two or more records have a) different UPNs and ULNs, b) have an identical match on both Surname and Forename and c) have the same combination of Date of Birth and Gender
- Where all plans are recorded as active on the census date in each LA. An active plan is defined as one where:
 - <StartDate> is on or before the census date, for 2026 this is 15 January
 - <CeaseDate> is after the census date of 15 January 2026 or is null

These will be shown as two separate lists.

Notes:

Matching of both Surname and Forenames is independent of case, i.e. john and JOHN do match

Testing a Forename is on the basis of whole words only, and part words are not matched. (For example, “Jon”, “Nathan” or “Nat” **are not** matched with “Jonathan”.)

Plans should only be flagged as a duplicate when each record is active, if a plan has a cease date for the named plan in one authority they **should not** be flagged as a duplicate as they are not an active plan.

Section	Criteria
Rows	Each occurrence of a child or young person that meets the criteria specified
Columns	'LA Number' – the local authority number 'PersonTableID' – ID from COLLECT database 'UPN' – the unique pupil number assigned to the person 'ULN' – the unique learner number assigned to the person 'Person name' – the surname and forename of the person as provided 'DOB' – the date of birth of the person 'Sex' – the sex of the person 'Duplicate LA' – the LA where the duplicate has been detected
