Applications and Decisions

Important Information

All post relating to public inquiries should be sent to:

Office of the Traffic Commissioner
(West of England)
Jubilee House
Croydon Street
Bristol
BS5 0DA

The public counter in Bristol is open for the receipt of documents between 10am and 3pm Monday to Friday. Access to offices can only be guaranteed with a minimum of 24 hours prior notice. There is no facility to make payments of any sort at the counter.

The telephone number for enquires is: 020 4551 8711 and will be open Monday to Thursday from 9am to 5pm and Friday 9am to 4.30pm.

Most correspondence from the Office of the Traffic Commissioner will now be sent to operators digitally through the Vehicle Operator Licensing (VOL) Service or by email.

The best and most efficient way to reach us is digitally. Please upload documents through your VOL user account or send a direct message through VOL. There may be delays if you send correspondence to us by post.

If you wish to make an objection to a goods vehicle application it is recommended you send the details to Environmental@otc.gov.uk clearly stating 'Objection' in the subject line.

If you are an existing operator without a VOL user account, and you would like one, please email Notifications@vehicle-operator-licensing.service.gov.uk and a member of staff will contact you as soon as possible to arrange this. You will need to answer some security questions.

General Notes

Layout and presentation – Entries in each section (other than in section 5) are listed in alphabetical order. Each entry is prefaced by a reference number, which should be quoted in all correspondence or enquiries.

Further notes precede each section, where appropriate.

Accuracy of publication – Details published of applications reflect information provided by applicants. The Traffic Commissioner cannot be held responsible for applications that contain incorrect information.

Our website includes details of all applications listed in this booklet. The website address is: www.gov.uk/traffic-commissioners

Section 1 – Applications Received

A **statutory objector** may inspect a goods vehicle operator's licence or application under Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by setting out their authority and requesting arrangements are made for inspecting the record by emailing – Environmental@otc.gov.uk

Objections against published applications may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

Classification of Operator Licences – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Section 3 – Schedule 4 Applications

Schedule 4 to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met,

with approval at the Traffic Commissioner's discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

New Applications (Section 3.1): where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

Variation Applications (Section 3.2): where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

Section 5 – Public Inquiries

Anyone wishing to observe a physical or virtual public inquiry must request to do so from the relevant Office of the Traffic Commissioner in advance of the hearing. Due to space or technology restrictions we may not be able to accommodate all requests.

Please contact westernhc@otc.gov.uk for further information.

There is no obligation on the traffic commissioner to provide a transcript of proceedings. Any decision to release will refer to the reasons for the request and there may be restrictions placed on its use. That request should be made via the relevant Office of The Traffic Commissioner and the applicant must understand that they will be liable for the cost of producing the transcript. This will vary according to demand and size of content.

Appeals against any decision published in this section must be lodged with the Upper Tribunal – Administrative Appeal Chamber (Transport), 5th Floor, Rolls Building, 7 Rolls Buildings, Fetter Lane, London, EC4A 1NL not later than one month after the date of the letter conveying the Traffic Commissioner’s (or Deputy Traffic Commissioner’s) decision. Appellants can obtain guidance on lodging appeals, including downloading the appeal form, from the website: www.administrativeappeals.tribunals.gov.uk

Given the proven matters in the MIVR and TEVR plus the lack of tangible evidence before me to demonstrate any changes/improvements to compliance since those investigations I determined that it was proportionate to answer the Priority Freight question in the negative; I simply do not trust this operator to be compliant in the future. It was proportionate to determine that the operator, from his acts and omissions, was no longer fit to hold a restricted operator's licence. That was a material change since the licence was granted and as a result the operator's licence was revoked under section 26(1)(h) of the Act for that material change.

The lack of sufficient financial resources, linked to poor maintenance, is a further material change. It was also proportionate to revoke this operator's licence for that under section 26(1)(h) of the Act.

After repeating all of the proven allegations and findings of fact, even after applying the limited credit that I could apply, it was still proportionate to revoke this operator's licence under my discretionary powers pursuant to sections 26(1)(c)(iii) ["S" marked and immediate prohibition] and separately under section 26(1)(f) [breaches to the undertakings I have already particularised].

All orders of revocation will take effect at 2359 hours on 01 October 2026.

Public Inquiry (94352) held at Jubilee House (Bristol), BS5 0GB, Croydon Street, Bristol, on 16 September 2026 commenced at 14:00 (Previous Publication:(5972))

NICOLA BOYES TRANSPORT LTD, LONGCROSS COMMERCIAL UNITS, LONGCROSS, ZEALS, BA12 6LJ

S26 - Licence curtailed to 14 vehicles with effect from 01 October 2026 to 2359 hours on 14 October 2026.

The main issue in this case was the operator's failure to supply the DVSA with all of the evidence that it could have supplied to them. That was as a result of Mrs Boyes health but she understood in the public inquiry that if her health prevented her from fulfilling the undertakings on the operator's licence then she should have stepped away from that responsibility and delegated it to another person until her health permitted her to personally fully discharge that responsibility again. Road safety takes precedent over everything else in operator licensing and the relevant undertakings for maintenance and traffic end with the words "...and that these are made available on request."

But for the failure to provide all of the evidence on time, or at all, it is possible that this case may not have proceeded to a public inquiry but the failure to provide the evidence requested meant the following general undertaking was breached:

- Records are kept (for at least 15 months) of all driver reports that record defects, and all safety inspection, routine maintenance and vehicle repair reports, and that these are made available on request.

In addition, from the accepted lack of full compliance and uncontested evidence from the DVSA, the following undertaking was also breached:

- Drivers report promptly any defects or symptoms of defects that could prevent the safe operation of vehicles and/or trailers, and that any defects are recorded in writing

The operator gave me assurances that all vehicles and trailers now receive a roller road brake test no more than 14 days before a PMI or at the PMI and whenever possible that brake test is laden. I was also assured that Mrs Boyes was booked onto a Backhouse Jones training course to teach her how to properly read and understand a roller road brake test result sheet.

I was also assured that drivers have received proper training in order to complete an effective first use inspection and there will be no tolerance for drivers who fail to do that after they have received that training.

From the steps taken by the operator and transport manager, and from discussions with the operator's solicitor both before and after they took instructions, the following regulatory action was accepted by the operator as being proportionate:

- Operator's licence curtailed from 16V to 14V from and including 01 October 2026 to 2359 hours on 14 October under section 26(1)(f).
- The operator must tell OTC Bristol by 1400 hours on 23 September which two vehicles are to be removed from the licence during the curtailment. If that does not happen then the first two VRMs recorded on VOL will be used.
