Subject: Morgan Generation Disposal Site Reference Variation

Dear [REDACTED]

Morgan Offshore Wind Limited have been advised by the Marine Management Organisation (MMO) that an amendment to the disposal site reference number in the Morgan Generation Development Consent Order (DCO) (The Morgan Offshore Wind Project Generation Assets Order 2025) /deemed Marine Licence (dML) is required, with the conditions 2. (h) and 18(4) text to be amended to '*disposal site reference IS156 (or such other disposal site as approved in writing by the MMO within the extent of the Order limits seaward of MHWS).*'

Cefas closed the disposal site referred to as IS155 and have confirmed that it can not be reopened due to overlap with the currently open IS156. Therefore, it is understood that the variation to the DCO/dML is required so that the DCO/dML includes the correct disposal site reference for disposal. Following engagement with the MMO Cefas have confirmed: 'Provided that both OWFs are reporting their annual disposal returns correctly, the sharing of a single disposal site should not present an issue' and MMO have confirmed that disposal would still remain limited to 'within the extent of the order limits'.

Yours sincerely,

[REDACTED]

[REDACTED]
