Eligibility criteria apply

Could you get Pension Credit?

You might be entitled to **Pension Credit** if your weekly income is below **£238.00** if you're single, and **£363.25** if you live with a partner.

Is your income higher?

Don't rule yourself out. You could **still qualify** depending on your circumstances, including disability or caring responsibilities.

Have savings?

Savings of up to **£10,000** are completely disregarded. Then every extra £500 counts as £1 extra income per week.

Own your own home?

Homeowners can get **Pension Credit** too. In fact, almost half of the people who get **Pension Credit** own their home.

Why it's worth checking

Pension Credit isn't just extra money in your pocket on top of your State Pension - it can also open the door to help like:

- money off **energy bills**
- free **dental care**
- a reduction in your **Council Tax**
- help with **housing costs**.
