The full Prevent referral case management process

If you have a concern that someone may be on a pathway that could lead to terrorism, you should consider making a Prevent referral. Follow the 'Notice, Check, Share' approach. Discuss your concern with your colleagues and Prevent lead to determine whether a referral is appropriate.

Risk of immediate harm

Call 999

Referral

No referral

Complete the National Referral Form with support from your Prevent lead. Document this decision in the patient care record.

Counter Terrorism Case Officers investigate further. You may be asked to share information to assist with this.

Case adopted by Channel

Case not adopted by Channel

Case is discussed at Channel Panel meetings. You may be asked to attend and input into these. Your Prevent lead will support you with this.

Consent not obtained or follow-on action not required

Follow-on action required and consent obtained

Explore alternative safeguarding and healthcare pathways. Document decisions, actions and outcomes in the patient care record.

You or health colleagues may be asked to help co-ordinate health support suggested by the Channel panel. Your Prevent lead can support with this. Document decisions, actions and outcomes in the patient care record.
