Risk Level	Not provided
Risk Type	Asphyxiation
Risk Description	<p>These sleeping bag products present a risk of asphyxiation and overheating. The products do not incorporate arm openings and/or incorporate a hood, which may allow an infant to slip down inside the product during use. Excess fabric may then cover the infant's nose and mouth, obstructing breathing and leading to asphyxiation. Infants are particularly vulnerable as they may be unable to remove the obstruction themselves.</p> <p>OPSS has published a Product Safety Alert for Baby Sleeping Bags, which highlights the risk they may pose to babies: https://www.gov.uk/product-safety-alerts-reports-recalls/product-safety-alert-baby-sleeping-bags-psa9</p> <p>Further information on safe sleeping for babies can be found on the NHS website at the following link: https://www.nhs.uk/start-for-life/baby/baby-basics/newborn-and-baby-sleeping-advice-for-parents/safe-sleep-advice-for-babies/</p> <p>The products do not meet the requirements of the General Product Safety Regulations 2005.</p>
Corrective Measures	Owners are advised to stop using the product for unsupervised sleep immediately. Contact the seller you purchased from to request a refund or replacement.
