Product Safety Report

Move2Play Baby Gym Deluxe	
Aspect	**Details**
Images	
PSD Number	2610-0190
Product Type	Toys - Baby/Infant Stimulation Toys (Powered)
Product Identifiers	Brand: Move2play Model: JT2604 Deluxe Amazon ASIN: B0FJSV1YNL SKU: GYM.101
Product Description	Baby activity gym comprising three wooden arch legs with detachable feet, a battery-operated piano, fabric tummy-time mat, wooden teether ring and hanging sensory toys. Intended for infant play and stimulation. Supplied in retail packaging with age recommendation of 3 months and above.
Country of Origin	China
Counterfeit	Unknown
Risk Level	High
Risk Type	Choking
Risk Description	The product presents a risk of choking as the battery compartment of the piano can open following impact, allowing the three AAA batteries to be released. The batteries fit wholly within the small parts cylinder and could therefore be placed in the mouth and swallowed by a child under 36 months, potentially causing choking. The wooden teething ring can also break into pieces following impact. The broken components are small parts which could become lodged in the mouth or throat of a child who cannot sit up unaided, potentially causing internal airway obstruction. The product does not meet the requirements of the Toys (Safety) Regulations 2011.
Corrective Measures	The import has been rejected at the border.
Online Marketplace	Amazon
Notifier	Local Authority Trading Standards
