**CMA Markets Strategic Review Provisional Decision Consultation Response from the GCCA**

As noted in the Provisional Decision to the Strategic Review of Markets Remedies, GCCA has taken over responsibility for all data collection relating to the global cement sector. GCCA has its own undertakings with the CMA and works through our permitted third party, PWC, to collate and manage the data collection. GCCA therefore fully agrees with the CMA provisional decision to release the Cement Market Data - World Business Council for Sustainable Development (WBCSD) Undertakings 2017.
