Training

To support PFI contract management

NISTA's PFI Centre of Excellence provides free training to help contracting authority teams develop the skills and confidence to manage PFI contracts effectively.

Preparing for Contract Expiry Virtual Training

A structured programme designed to help you develop and implement an effective expiry strategy.

- Delivered through **five virtual sessions** combining teaching and practical application
- Participants work with PFI CoE associates and peer groups to test and apply learning
- Focuses on ensuring assets are returned in an appropriate condition and services transition effectively

Programme structure

- Session 1: Introduction and preparation (1.5 hours)
- Session 2: Contract awareness and future services (half day)
- Session 3: Asset condition and stakeholder relationships (half day)
- Session 4: Resources, governance and commercial awareness (half day)
- Session 5: Risks, disputes and sources of assistance (1.5 hours)
