Good afternoon

I am a villager in [redacted]
I have spent my life here I am [redacted] years old.
[redacted]

When considering this site if it is not already a foregone conclusion.
Please give reality a thought.
1200 young men effectively dumped where there will be many unwelcoming community members. I know these poor people must go somewhere but this plan smacks of desperation to rush through with no thought for anyone the asylum seekers nor the local villages and small town.

Not much here without transport. Small local shops only in Arncott and Ambrosden. Just enough for a local village community.

There are real issues with flooding in the area. The river ray has burst its banks several times.

At one time there were genuine fears of radioactive waste buried some years ago maybe not proven but this should be fully investigated. Indeed there have perhaps been over average death rates in Arncott of residents dying of cancer. There have over the years been high use of asbestos before its dangers were known.

Please be vigilant, careful and sensible for the many lives affected by these ill thought out plans

Kind regards [redacted]
