[redacted]

You don't often get email from [redacted] Learn why this is important

The case above is an application by the Home Office to build an Asylum Centre at A Site of MOD Bicester. An application has been made to Historic England to List the buildings and infrastructure on this site due to their heritage value. The Historic England application is Reference **1497601.** I contest that the planning application should not be allowed to proceed until a decision is made on the listing of this site. If Listing is successful then the planning application should be rejected, and if required, new plans drawn up and submitted for approval, taking into account the heritage nature of the site.

Thank you
