To whom it may concern

This site is entirely the wrong choice for housing 1250+ male asylum seekers.

I object to it on the grounds of: Proportionality
Lack of safety for local residents who will be outnumbered by undocumented males
Lack of police resources or evidence of a plan to provide policing for residents
Costs of providing infrastructure when there is no electricity, water or sewage on site (this is three objections by the way)
Lack of local amenities and pavements
It's an aberration of a plan which the government is trying to bulldoze through, even though it is the wrong site and the wrong plan.

Regards
