[redacted]

Site A is a storage site that is not directly conected to mains serviced. [redacted] and know that this site is totaly unsuited. Asbestos is abundant on the site.there are no footpaths.street lights.shops in fact nothing to support over 1000 men. Even the barracks do not house that many soldiers. The make up of the village would be destroyed overnight. House prices will crash and owners being left to pick up the prices. The site is totaly unsuitable and lies told on the application. For example they have stated work has not commenced when indeed it has.
