[redacted]

Dear sir/madam,

I am writing an email as formal objection to the planned MOD site in Bicester and surrounding villages.
How ANY government, regardless of political party and values, think this is a good and acceptable idea is frankly astonishing. Have the government been to the site? Have they seen the roads and villages? Have they spoke with local residents?

This is not about being "racist" or discrimination against those seeking asylum. This about common sense. Placing 1250 single men, from any background, next to a village of 350 is just ridiculous. And that's the point. Single, male, migrants. Not families, women and children. I think our community would be less oppositional if that were the plan.

People who have worked hard all their lives, to be able to afford properties in our "middle class" areas should not feel under threat, unheard, and under valued.

Bicester is already stretched and under resourced, like many areas are I appreciate that. However, an influx of such numbers on our community and infrastructure will have a significant impact. How will these issues be addressed? There is nothing in Piddington. They will have to walk, or more like lot they will be tax payer escorted, to nearby villages and towns. Adding to their pressures and resources. It's just not fair on the locals who pay their taxes, follow the rules and work hard.

I trust this site is re looked at from every aspect and consequently opposed and that a more suitable arrangement is found.

Kind regards,

Isabelle Hyde
